

D&D 20

The logo features the text "D&D 20" in a bold, white, sans-serif font. The ampersand is replaced by a stylized purple dragon head with yellow eyes and a red flame. The background is a vibrant, colorful illustration of a battle scene.

BETA 0.10.5 RULES

WELCOME TO THE DC20 BETA

NOTE FROM THE CREATOR

First off, I just want to say thank you to anyone who has shown interest and supported DC20. It was scary to make the jump to publish my own game, and there were two different times where I almost had to pull the plug on the whole project... but it is YOU, this community, that has made all of this possible! Everything from watching the DC20 videos, buying the Alpha, supporting the Patreon, or now pre-ordering the project has brought this game to life!

I've been working on DC20 for years, and after the OGL situation I decided to release DC20 sooner than planned. I wanted to make a game system that was simple for a new player to pick up (even someone who had never played TTRPGs) but also had depth for more experienced players. I started out trying to make something more similar to 5e... but as the development process kept on, I found new rules and systems that I truly felt were better to build a foundation of a game around. DC20 has truly grown into its own unique standalone game, while maintaining the familiar feel of 5e. I wanted the rules to be intuitive and easy to remember, I wanted the combat to be engaging and dynamic with a focus around teamwork, and I wanted the game overall to feel FUN and EPIC! I truly feel like we did all of those things, and I can't wait to see the community's response!

DC20 OVERVIEW VIDEO

I made a quick overview of DC20's rules that I go over in <https://youtu.be/298EA6woVfo>.

Beta Note: The video is somewhat "out of date" at this point, but I will be making another one soon!

I made this video to explain DC20 quickly to someone who has never heard of it before. This is not only for YOU (the person reading this right now) but also for your friends that you might want to play the game with. I go over the big and small rules, and after watching, people should have a good idea if they want to try it out or not. I hope this helps those "Session Zeros" of DC20, and I will continue to make more guides and tools like this on my YouTube Channel as well.

SUPPORT DC20

If you want to help this project continue forward and give feedback on the direction of that growth, WHILE getting awesome rewards and exclusive DC20 content... the best way to do that is on Patreon. Even at the entry reward tier you get access to Patron only livestreams where I show the development of the game LIVE with y'all, and the support goes a long way toward what we can do each month! Higher reward tiers even get early access to DC20 content, GM Binders, extra content, and even playtest groups to play in (possibly with me as your GM).

DC20 MAGAZINE

This is early access DC20 Content that might not be released for months or years to come, this is a HUGE way that you can playtest and get your hands on future content and see the direction of DC20. This is where future Classes, Subclasses, Monsters, Magic Items, Adventures, Rules, New Game Systems, and MORE will be showcased for the first time.

The DC20 Magazine is available at the entry level Reward Tier (\$5), and a new issue is released on the 1st of each month!

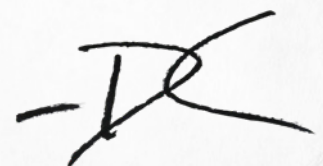

DC20 HARDCOVER

Currently the only way to get a DC20 Hardcover is through this Kickstarter/ Backerkit Link (https://dc20ttrpg.backerkit.com/hosted_preorders) where you can pre-order a Hardcover copy.

OTHER INFO

DC20 Discord: If you want to join the DC20 Discord Server, then <https://discord.gg/thedungeoncoach>. I will be posting links to multiple Live Stream Q&A's, Beta Playtest Rules, and updates to everything about this project. I really want to connect with the people who go above and beyond to supported this dream of mine.

FREE Playtest Rules Preview PDF: This is a PDF that's freely available for people who are NEW to DC20 and want to check out levels 1 and 2 of the game and get the general idea of what's new and unique about it. Share this with friends and let them see what its all about! <https://thedungeoncoach.com/pages/dc20-free-downloads>

CHAPTER 1

CORE RULES

ATTRIBUTES & PRIME MODIFIER

ATTRIBUTES

There are 4 Attributes in DC20 that represent your Physical (Might & Agility) and Mental (Intelligence & Charisma) abilities. Each Attribute has a value that ranges from -2 to +7 (for most creatures) which measures your aptitude with that Attribute.

- ♦ Might = your Strength of Body.
- ♦ Agility = your Balance, Nimbleness, and Dexterity.
- ♦ Charisma = your Charm, Presence, Persuasiveness, and Force of Will.
- ♦ Intelligence = your Reasoning, Understanding, and Wisdom.

Example: If you have an Agility of 3, then you would add +3 to any d20 roll that uses Agility.

MIGHT

This represents your physical strength, health, and endurance. It's commonly associated with the following:

- ♦ Your Might is added to your Area Defense.
- ♦ Your Might is added to your maximum Health Points.
- ♦ Checks made to Initiate or Escape Grapples use Athletics (Might) Checks.
- ♦ Might contributes to lifting, pushing, dragging, throwing, and encumbrance.
- ♦ Might Saves are made to resist effects that push you away, knock you down, or crush you.

DC Tip: If you want to Roleplay a PC that is the "go to" for being the strong one and overpowering your enemies, then Might is for YOU!

AGILITY

This represents your avoidance, dexterity, and finesse. It's commonly associated with the following:

- ♦ Your Agility is added to your Precision Defense.
- ♦ Agility contributes to your Initiative Check.
- ♦ Checks made to Escape Grapples use Acrobatics (Agility) Checks.
- ♦ Agility contributes to jumping and reducing damage taken from falling.
- ♦ Agility Saves are made to resist effects that reduce your Speed, cause you to lose your balance, or can be avoided by dodging out of the way.

DC Tip: If you want to Roleplay a PC that is nimble, light on their feet, and good with their hands, then Agility is for YOU!

CHARISMA

This represents your charm, presence, and force of will. Anything related to interacting socially with other creatures (your appearance, mannerisms, and the words you say) is Charisma. It's commonly associated with the following:

- ♦ Your Charisma is added to your Area Defense.
- ♦ Charisma can contribute to Language Checks made to understand languages you have limited fluency with.
- ♦ You gain a number of Grit Points equal to your Charisma + 2.
- ♦ Social Skill Checks use Charisma, such as the Skills to Influence other creatures or to gain Insights into their actions or behaviors.
- ♦ Charisma Saves are made to resist effects that attempt to alter your emotions or dominate your will.

DC Tip: If you want to Roleplay as the "face of the party" and have good people skills, then Charisma is for YOU!

INTELLIGENCE

This represents your reasoning, understanding, and wisdom. Anything that is related to a person's intellectual capacity or overall knowledge falls under Intelligence. It's commonly associated with the following:

- ♦ Your Intelligence is added to your Precision Defense.
- ♦ Intelligence can contribute to Language Checks made to understand languages you have limited fluency with.
- ♦ You gain a number of bonus Skill Points to spend on more Skills.
- ♦ Knowledge Trade Checks use Intelligence, such as the knowledge of Engineering, Nature, Religion, Occultism, History, or Magic (Arcana).
- ♦ Intelligence Saves are made to resist effects that attempt to read your thoughts, alter your memories, confuse you, or use illusions to deceive your senses.

DC Tip: If you want to Roleplay a PC that is the smartest person in the room and just knows things, then Intelligence is for YOU!

STARTING ATTRIBUTES

You get your PC Attributes from one of the following methods and then assign the values to each of the 4 Attributes.

STANDARD METHOD

You start with an array of 3, 1, 0, -2 and assign each value to an Attribute of your choice. You then gain 2 additional Attribute Points to increase whichever Attributes you want, up to the Attribute Limit (3).

POINT BUY

You start with a -2 in all of your Attributes. You then gain 12 Attribute Points to increase whichever Attributes you want, up to the Attribute Limit (3).

DC Tip: Your Prime Modifier (see later in this chapter) comes from your highest Attribute, so it's a good idea to make sure that you get a 3 in at least one of your Attributes.

ROLL METHOD

You determine your starting values by rolling 1d6-3 four times, and then assign each value to an Attribute of your choice. You then gain +2 Attribute Points to increase whichever Attributes you want, up to the Attribute Limit (3).

Prime Modifier Insurance: If the value of your highest Attribute is less than 3 (even after adding the +2 Attribute Points), you can reduce a different Attribute value by 1 or more to increase your highest Attribute by the same amount. You can't reduce an Attribute value below -2 or increase an Attribute above your Attribute Limit (3).

DC Tip: This method of determining your starting Attributes is the most risky. It offers the potential for the highest starting Attributes, but also the lowest. If you add all your Attributes together, their sum should be 4 (on average), after the +2 bonus points are added.

ATTRIBUTE LIMIT

You can increase your Attributes as you gain levels, however you can't increase an Attribute past the Attribute Limit. The Attribute Limit increases at certain levels as shown in the table below. You can increase an Attribute at the same level that your Attribute Limit increases.

PC LEVEL	ATTRIBUTE LIMIT
1	+3
5	+4
10	+5
15	+6
20	+7

GAINING ATTRIBUTE POINTS

As your Player Character (PC) levels up they will regularly gain more Attribute Points to increase their Attributes. PCs gain +1 Attribute Point at levels 3, 5, 8, and 10.

DC Tip: You get more of these points beyond level 10 as well!

PRIME MODIFIER

Your Prime Modifier represents your overall experience and prowess as an adventurer. You use your Prime Modifier as the primary bonus you add to Checks involving attacking, casting a Spell, or overall awareness of dangers around you. Your Prime Modifier is commonly associated with the following:

- Attack Checks (made to Attack with a Weapon or Unarmed Strike).
- Spell Checks (made to cast a Spell or use a supernatural ability).
- Save DCs (the difficulty of resisting the effects you impose on other creatures).
- Awareness Checks (your ability to perceive and detect things around you).

DC Tip: *The Barbarian in the group having a high Charisma instead of Might doesn't make him worse at swinging a sword.*

PRIME MODIFIER VALUE

Your value of your Prime Modifier is always equal to the value of your highest Attribute. If your highest Attribute changes, your Prime Modifier derives its value from the value of your new highest Attribute. Your Prime Modifier is not an Attribute, nor considered the Attribute that it derives its value from.

Example: *If Might is your highest Attribute, then your Prime Modifier derives its value from the value of your Might. If your Might is 3, then your Prime Modifier is 3. If an effect grants you ADV on Might Checks, it does not also grant you ADV on Checks that use your Prime Modifier (such as Attack Checks and Spell Checks) unless the effect otherwise says so.*

VARIANT RULES

PRIME MODIFIER EQUALS ATTRIBUTE LIMIT

Instead of Prime Modifier being determined by a PC's highest Attribute, it's instead equal to their Attribute Limit. This means it will always be "maxed out", no matter where you put your Attributes Points. This rule is designed for Players who want to create a PC that's more well-rounded and doesn't have one or two main Attributes they lean heavily on. This rule allows for Players to have more freedom in character creation, because their Prime Modifier will always start at 3 and progress with their level.

DC Tip: *Be aware that if everyone in the group builds a balanced PC, then no one in the group will be the go to for certain activities or skills. This can ruin the nuanced group dynamics that TTRPG parties are often designed around, where every PC feels like they have a strong purpose that's supported by mechanical advantages and not just narrative choices. If you like to have groups in which each PC gets their moments in the spotlight, then this might not be a rule for you.*

Prime Modifier Sidebar

The Prime Modifier allows you to create the kind of character you truly want to play without negatively impacting their combat prowess. Since your Prime Modifier will be used to swing weapons and cast Spells, this allows you to choose which Attribute you want to be the highest without feeling forced into picking a specific one. An Intelligent or Charismatic Barbarian may not have as much health or be able to grapple or lift as much as a Might Barbarian, but your ability to wield a weapon is the same.

You can choose whether you roleplay the source of which Attribute your Prime Modifier comes from in Combat or not. It's up to you. You could describe your intelligent Barbarian as being a tactical mastermind on the battlefield, or your charismatic Barbarian as a fiery confident leader, or you can be a mindless rage monster in Combat if you want to just smash things. This is an opportunity to create the PC you want.

SKILLS

Skills are representative of a creature's ability to perform certain activities. If two creatures are wrestling each other, they can use the Athletics Skill to compete against each other. Every Skill is tied to an Attribute (Might, Agility, Intelligence, or Charisma). Each Skill represents an aspect of an Attribute, such as Athletics being an aspect of a creature's Might Attribute, or Acrobatics with its Agility Attribute. The Awareness Skill uses your Prime Attribute, which is your highest Attribute.

DC Tip: *There are countless ways to use these Skills, especially when you use the "Variable Attribute Rule" (see Checks and Saves section). You can really get outside the box by combining Skill with different Attributes.*

SKILL LIST

Might

- Athletics
- Intimidation

Agility

- Acrobatics
- Trickery
- Stealth

Charisma

- Animal
- Insight
- Influence

Intelligence

- Investigation
- Medicine
- Survival

Prime

- Awareness

MIGHT

ATHLETICS

Athletics covers activities that involve physical prowess, such as climbing, swimming, and jumping in difficult circumstances, or participating in a Grapple.

Climbing: Attempting to climb a sheer or slippery surface, or cling to one.

Swimming: Attempting to swim in treacherous waters, or a viscous liquid.

Jumping: Attempting to jump a distance that exceeds your Jump Distance.

Grapping: Attempting to Grapple another creature, or avoiding being Grappled by one.

INTIMIDATION

Intimidation covers attempts to influence a creature's behavior using threats, hostile actions, and physical violence.

Threaten Violence: Attempting to scare someone to do something... "or else".

Forceful Command: Attempting to boss someone around with your intimidating strength.

AGILITY

ACROBATICS

Acrobatics covers activities that require flexibility, nimbleness, and balance.

Balance: Attempting to maintain your balance in tricky situations, such as walking across a slippery surface, staying upright on a rocking boat, or balancing on a tightrope.

Jumping: Attempting to jump a distance that exceeds your Jump Distance.

Stunts: Attempting to perform a stunt that requires flexibility or being nimble, such as aerial maneuvers, dives, rolls, somersaults, or flips.

TRICKERY

Trickery covers non-verbal means of deceiving others, such as pickpocketing things, concealing an object on your person, or other forms of physical deception.

Sleight of Hand: Attempting to pocket something from another person, or plant something on them.

Forgery: Attempting to create fake documents that appear to be legitimate.

Conceal Object: Attempting to manipulate or hide an object somewhere out of sight. This could be in your hand, up your sleeve, on a person, or in another object.

Traps: Attempting to deploy or disarm a trap (or similar device) with steady hands.

STEALTH

Stealth covers attempts to avoid being seen or heard by other creatures, such as sneaking about or hiding behind cover. These Checks occur during the moment of possible discovery when a creature might be heard or seen.

Sneaking: Attempting to move about quietly to avoid being noticed by other creatures.

Hiding: Attempting to Hide from a creature so that they can't see you.

INTELLIGENCE

INVESTIGATION

Investigation covers using your senses to search for and discover things that are not readily observable. You look for clues and then make deductions on those clues to try and discern the locations of things or how they work (finding hidden objects, secret doors, or weak points in structures). It also covers the process of researching information through various texts.

Searching & Discovery: Attempting to find something that is not able to be seen from afar, then deduce how it works (such as traps).

Analysis & Research: Attempting to pour through scrolls, manuscripts, or books for information and hidden knowledge.

MEDICINE

Medicine covers activities that involve medical knowledge and application, such as treating a wounded creature, diagnosing an illness, or identifying a cure to an ailment.

Treat Wound: Attempting to mend or stabilize a wounded creature.

Diagnose Cause: Attempting to discern the cause or cure of a poison, disease, or injury.

Forensics: Attempting to determine the cause or time of a creature's death.

SURVIVAL

Survival covers the activities required to survive in the wilderness, such as tracking quarry, foraging for food and water, and navigating through uncharted territory.

Tracking & Foraging: Attempting to find the location of a creature, food, or water in the area.

Hunting: Attempting to harvest materials from slain creatures, extracting poisons, removing carapaces, skinning pelts, etc.

Navigation: Attempting to navigate through uncharted territory. Here are examples of how using Survival can help you navigate:

- Determine which paths lead to the chosen destination.
- Avoid natural hazards in the area (such as quicksand).
- Identify evidence of any creatures that inhabit the area.
- Predict the weather within the area for the next 24 hours.

CHARISMA

ANIMAL

Animal covers interactions such as corralling, training, calming, and gauging the intention of Beasts.

Calming: Attempting to soothe a startled Beast or make it feel safe.

Communicate: Attempting to train, domesticate, or command a wild Beast.

INSIGHT

Insight governs your ability to discern intentions. This could be from observing a creature's body language, facial cues, and mannerisms. Alternatively, Insight can represent a gut feeling or intuition about a situation.

Discern Intent: Attempting to determine if a creature's behavior is reflective of it being truthful, deceptive, or hiding something.

Evaluate Threat: Attempting to see if a threat from a creature is a bluff or real.

INFLUENCE

Influence covers your attempts to manipulate a creature's behavior using compelling arguments based on truth, half-truths, lies, or some combination in between.

Convince: Attempting to get people to do what you want with truth or lies.

Mislead: Attempting to make false claims, accusations, or promises that you don't intend to keep.

Inspire: Attempting to give a speech to a person or group to encourage them.

Negotiate: Attempting to socially barter for peace or hostility between factions.

PRIME

AWARENESS

Awareness governs your ability to detect the presence of other creatures or objects using your sight, hearing, smell, or other senses. You can attempt to detect a creature that's visible, making noise, giving off a distinct smell, or otherwise causing a disturbance in the environment (such as causing the ground to shake, the water to ripple, or the air to blow).

See: Attempting to spot something easy to miss, such as miscreants hiding in the shadows of any alley or candlelight under a closed secret door.

Hear: Attempting to listen to a conversation through a closed door, around a corner, or under an open window.

Smell: Attempting to smell an odd or recognizable scent on a creature or somewhere nearby.

TRADES

Trades are representative of a creature's ability to recall and perform the activities of professions. If someone wanted to craft an item (Blacksmithing), build a wall (Masonry), pick a lock (Lockpicking), or a wide variety of other trades, these would represent how good they are at that trade.

TRADES LIST

- | | | |
|-----------------|------------------|-------------|
| • Alchemy | • Gaming | • Nature |
| • Arcana | • Glassblowing | • Occultism |
| • Blacksmithing | • Herbalism | • Religion |
| • Brewing | • History | • Sculpting |
| • Carpentry | • Illustration | • Theatre |
| • Cartography | • Jeweler | • Tinkering |
| • Cooking | • Leatherworking | • Weaving |
| • Cryptography | • Lockpicking | • Vehicles |
| • Disguise | • Masonry | |
| • Engineering | • Musician | |

TRADE TOOLS

You don't require Tools to recall information about a Trade, but you must have access to the specified Tools to perform the activities of a Trade.

DC Tip: The Knowledge Trades don't have Tools listed because they're Trades that only involve the recalling or teaching of information.

TRADE ATTRIBUTES

Every Trade is tied to an Attribute. The Attribute represents what might be needed to perform this Trade, such as the use of one's own strength (Might), intricate hand movements (Agility), knowledge and understanding (Intelligence), or interactions with others (Charisma).

Variant Attributes: There are ways that you might use other Attributes in alternative combinations for Trades in unique circumstances. A theater performer might use Charisma to capture the hearts of their audience with an emotional performance, Agility to perform a fast-paced dance, Might to throw a theater partner into the air, or Intelligence to remember the lines of a detailed monologue. PCs can work with their GM to determine which Attribute might fit best in these unique situations. The list of Trades below includes the Attributes most commonly used with each respective Trade.

ARTISTRY

ILLUSTRATION

Tool: Calligrapher's Supplies

Attribute: Agility

Illustration is the ability to put ink or paint to paper to create beautiful art in drawings, paintings, and calligraphy.

Drawing: Creating images by making marks and lines with a pen on paper.

Calligraphy: Creating visually ornate handwritten lettering.

Painting: Creating images by putting paint on a surface, usually with a brush.

MUSICIAN

Tool: Musical Instrument

Attribute: Agility or Charisma

Musicians are skilled in the use of a variety of instruments, which they can use to make impressive performances of sound.

Bagpipe: A bag set with pipes that creates musical sounds when squeezed, as wind escapes through the pipes.

Drum: An instrument that's sounded by being struck with hands or sticks.

Flute: An instrument made from a tube with holes in it, played by blowing into the tube and covering different holes to create musical notes.

Harp: A stringed instrument with a somewhat triangular frame, played by plucking its strings by hand.

Horn: A tube-like instrument, played by using one's mouth to blow air through the instrument.

Lute: A stringed instrument with a long neck, played by putting fingers on frets and plucking strings to create musical notes.

Piano: An instrument with a large frame that encases a board of metal strings that creates sound when keys are pressed, as hammers strike the strings.

THEATRE

Tool: None

Attribute: Charisma

Theatre is the art of expressive performance, through acting, dancing, singing, or even juggling or other dazzling displays.

Acting: A performance done by embodying someone or something else, pretending you are them.

Comedy: A humorous performance done to make others smile and laugh.

Dancing: A visual performance done by moving one's body in eye-catching and provocative ways.

Singing: A performance using one's voice to create music.

Storytelling: A performance of vivid words to create a narrative that evokes powerful emotions and insights.

Juggling: A performance done by continuously throwing objects into the air and catching them while keeping at least one in the air while handling the others.

CRAFTING

ALCHEMY

Tool: Alchemist's Supplies

Attribute: Intelligence or Agility

Alchemy is the practice of creating something by combining or changing other things, such as creating magical potions or changing one element into another.

Magic Potions: Alchemical potions can have all manner of magical effects with extreme versatility.

Transmuting Elements: It's possible to transform lead into gold, water into wine, or blood into acid using alchemy.

BLACKSMITHING

Tool: Blacksmith's Tools

Attribute: Might

Blacksmithing is the practice of melting and shaping metal into objects, such as nails, horse shoes, or armor and weapons.

Metal Armor: Armor made from metal, such as chain, splint, and plate mail.

Metal Weapons: Weapons made from metal, such as axes, dagger, and swords.

GLASSBLOWING

Tool: Glassblower's Tools

Attribute: Agility or Might

Glassblowing is the practice of blowing molten sand into glass objects, such as cups, bowls, vases, ornaments, lenses, window panes, and other objects.

HERBALISM

Tool: Herbalist's Supplies

Attribute: Intelligence

Herbalism is the practice of combining various mundane plants to create concoctions that can be used to treat afflictions, heal wounds, or poison enemies.

Brews: Teas, tonics, and tinctures are types of brews you can drink.

Ointments: Infusions, balms, and salves are types of ointments you can apply to your skin.

Bandages: A poultice is a type of bandage that you apply over a wound with a wrapping.

Medicine & Poison: Herbalism is normally used to create medicines, however any medicine delivered with the very high dosage can be poisonous. The reverse is also true, many poisons are used as medicines in very small dosages.

JEWELER

Tool: Jeweler's Tools

Attribute: Agility

Jewelers can beautify, identify, and even price various gems, stones, and jewelry, and can identify magical gems or the magical uses of mundane gems.

LEATHERWORKING

Tool: Leatherworker's Tools

Attribute: Agility

Leatherworking is the practice of making leather from animal skins or making leather into useable items, such as clothing, armor, weapons sheathes, and other objects.

SCULPTING

Tool: Sculptor's Tools

Attribute: Agility

Sculpting is the practice of shaping bone, clay, glass, stone, or wood into figures, tools, idols, or simple weapons.

Containers: Cups, bowls, plates, and vases.

Figures: Statues of creatures or objects, such as mortals, deities, animals, and buildings.

Weapons: Simple weapons, such as knives, clubs, and arrows.

Trinkets: Small idols, animals, and symbols.

TINKERING

Tool: Tinkerer's Tools

Attribute: Agility or Intelligence

Tinkering is the practice of making, repairing, or operating mechanisms, such as traps, and clockwork devices.

Traps: Setting up and disarming traps requires the use of specialized tools, such as Tinkerer's Tools, to manipulate its arming mechanisms.

Clockwork Devices: Clockwork devices operate using a series of intricate mechanisms, such as gears, springs, and levels. The devices can be tuned, modified, or repaired using Tinkerer's Tools.

WEAVING

Tool: Weaver's Tools

Attribute: Agility

Weaving is the practice of creating material for clothing or using such material to create clothes, curtains, tapestries, and other woven objects.

KNOWLEDGE

A PC can also create a unique Custom Knowledge Trade that covers a specific domain of knowledge they may have experience in.

DC Tip: Work with your GM on if you should choose one of these Trades or make up your own “Custom Lore” that fits the PC, campaign, or world better.

ARCANA

Attribute: Intelligence

Arcane knowledge encompasses the study of arcane magic, the planes of existence, and the underlying principles that govern reality beyond mundane understanding

- Arcane magic, spells, items, runes, glyphs, and symbols
- Creatures such as: Constructs, Monstrosities, and Oozes
- Planes of existence and the creatures who inhabit those planes

ENGINEERING

Attribute: Intelligence

Engineering represents a character’s understanding of mechanics, construction, and the application of scientific principles in a world that blends magic and technology.

- Designing and operating gears, pulleys, mechanical engines, and motors.
- Understanding the architecture of buildings, bridges, tunnels, and fortresses.

HISTORY

Attribute: Intelligence

History involves the study of past events, including recorded events, ancient lore, and provides insight into how civilizations, cultures, and legends have shaped the present world.

- Historical events, conflicts, and wars
- Creatures such as: Dragons, Giants, and Humanoids
- Lost civilizations, kingdoms, and legends

NATURE

Attribute: Intelligence

Nature represents a character’s understanding of the natural world, including the elements, weather patterns, and magical and mundane ecosystems.

- Primal and Elemental magic (earth, fire, water, air, and lightning magic)
- Creatures such as: Beasts, Elementals, Fey, and Plants
- Natural parts of the world (terrain, weather, seasons, and natural disasters)

OCCULTISM

Attribute: Intelligence

Occultism represents a character’s understanding of forbidden magic, secret cults, and the dealings of sinister creatures.

- Unholy magic and knowledge of the forbidden
- Creatures such as: Aberrations, Fiends, and Undead
- Practices of secret cults and the signs of their presence

RELIGION

Attribute: Intelligence

Religion represents a character’s understanding of divine magic, deities, and religious organizations.

- Holy magic, relics, auras, and symbols
- Creatures such as: Deities, Celestials, and Angels
- Religious rites, prayers, hierarchies, and practices

SERVICES

BREWING

Tool: Brewer's Supplies

Attribute: Agility, Intelligence, or Charisma

Brewing is the practice of producing alcohol, especially beer, mead, and wine.

CARPENTRY

Tool: Carpenter's Tools

Attribute: Agility or Might

Carpentry is the practice of measuring, cutting, and installing pieces of wood to create structures that form buildings, bridges, ships, and other large structures.

CARTOGRAPHY

Tool: Cartographer's Tools

Attribute: Intelligence or Agility

Cartography is the practice of drawing and understanding maps.

COOKING

Tool: Cooking Utensils

Attribute: Agility, Intelligence, or Charisma

Cooking is the practice of preparing, mixing, and heating edible ingredients to create meals.

MASONRY

Tool: Mason's Tools

Attribute: Might

Masonry is the practice of working and installing stone into structures that form buildings, bridges, furnaces, and other large structures.

VEHICLES

Requires: Vehicle

Attribute: Agility, Intelligence or Might

Vehicles covers the practice of managing, operating, and steering vehicles, whether on land, sea, or air.

Water Vehicles: Boats, canoes, kayaks, and large ships.

Air Vehicles: Airships and Astral Jumpers (space).

Land Vehicles: Clockwork or other magic land vehicles.

SUBTERFUGE

CRYPTOGRAPHY

Tool: Cryptographer's Tools

Attribute: Intelligence

Cryptography is the process of converting messages into secret or disguised words to protect them from being understood. The message must be deciphered to discern its true meaning.

DISGUISE

Tool: Disguise Kit

Attribute: Agility or Charisma

The art of disguise is in the ability to alter one's appearance to conceal identity or appear as someone else.

GAMING

Tool: Gaming Set

Attribute: Intelligence or Charisma

Gaming is the practice of playing games skillfully, for money or for entertainment.

Dice: Cubes with pips on each side to denote a number, rolled to randomly get one such number in games of chance.

Playing Cards: Small pieces of paper that each have an image that denotes a value, shuffled and given randomly in games of chance.

Gambling: Playing games of chance to earn money.

LOCKPICKING

Tool: Lockpicking Tools

Attribute: Agility or Intelligence

Lockpicking is the practice of opening devices secured by interworking mechanisms, such as locks and traps.

Locks: Lockpicking is the ability to open a lock without the proper key, usually using thin instruments to force a lock open from within by rotating tumblers and listening for the proper sounds. A lock's key can also be copied using specialized tools while studying the lock.

Traps: Setting up and disarming traps requires the use of specialized tools, such as Tinkerer's Tools, to manipulate its arming mechanisms.

LANGUAGES

Languages represent how different creatures across the world speak and interact with each other. Different species and ancestries speak a wide range of languages. There is a typical dialect that certain ancestries know if they were taught it growing up, but this can expand across the world and change based on a character's location and upbringing.

LANGUAGES LIST

MORTAL

- Common
- Common Sign
- Human
- Dwarven
- Elvish
- Gnomish
- Halfling
- Orcish

EXOTIC

- Giant
- Draconic
- Fey
- Elemental

DIVINE

- Celestial
- Fiend

OUTER

- Deep Speech

MORTAL LANGUAGES

COMMON

Typical Speakers: Civilized Societies

This is a very simple and universal language which is why all PCs start off being able to speak it Fluently without issue. This language's lack of complexity makes it perfect for using across the entire world. You can assume that all humanoid creatures that can speak know Common. A group would have to be isolated or stubborn not to know this simple language.

COMMON SIGN

Typical Speakers: Deaf, Hard of Hearing, Military, Spies

The Common language serves as a universal trade tongue, enabling communication between different cultures and species. This sign-based language is composed of intricate gestures, facial expressions, and hand movements that mirror the structure and nuances of spoken Common.

HUMAN

Typical Speakers: Humans

There are many dialects of the Human language based on the distance and developments of different human civilizations.

DWARVISH

Typical Speakers: Dwarves

ELVISH

Typical Speakers: Elves

GNOMISH

Typical Speakers: Gnomes

HALFLING

Typical Speakers: Halflings

ORCISH

Typical Speakers: Orcs

EXOTIC LANGUAGES

GIANT

Typical Speakers: Giants, Giantkin

DRACONIC

Typical Speakers: Dragons, Dragonkin

FEY

Typical Speakers: Fey

ELEMENTAL

Typical Speakers: Elementals

DIVINE LANGUAGES

CELESTIAL

Typical Speakers: Angels & Archons

FIENDISH

Typical Speakers: Devils & Demons

OUTER LANGUAGES

DEEP SPEECH

Typical Speakers: Aberrations

MASTERY & TRAINING

Mastery represents your level of competency within different categories. When you have Mastery with something (such as a Skill, Trade, or Language), you gain certain bonuses to actions that use that Mastery. Conversely, when you lack Mastery with something you may suffer certain penalties (such as adding no bonuses to those rolls).

MASTERY TYPES

There are several types of Mastery:

- **Skill Mastery:** Your Mastery with certain skill sets, such as Awareness, Stealth, and Investigation. These are Skills used to interact with the environment and the creatures that inhabit it.
- **Trade Mastery:** Your Mastery with certain professions, such as Blacksmithing, Leatherworking, and Artistry. These are Trades used to craft goods and provide services.
- **Language Mastery:** Your fluency with certain Languages. This Mastery is used to govern how well you can read, write, speak, and understand different Languages.
- **Combat Mastery:** Your prowess on the battlefield, such as Attacks, Defenses, and Saves. This Mastery represents your general ability to fight and survive against other creatures.

GAINING MASTERY

You can gain Mastery from your Class, Class Features, Subclass Features, Ancestry Traits, or Talents. You'll have opportunities at character creation and when your PC levels up to select a variety of options to gain any of the above Mastery Types.

SKILL MASTERY

Skill Mastery represents your proficiency with a Skill. There are several Skill Mastery Levels, ranging from Novice to Grandmaster. Each increasing Level of Skill Mastery grants greater bonuses to the Skill Checks in which you have Mastery (see **Skills** for more information on the different Skills).

SKILL MASTERY LEVELS & LIMITS

There are 5 Skill Mastery Levels. Each Skill Mastery Level grants you a +2 bonus on the respective Skill Checks. Your Skill Mastery Limit starts at Novice and increases based on your Character Level as shown in the table below.

CHARACTER LEVEL	MASTERY LIMIT	MASTERY BONUS
1	Novice	+2
5	Adept	+4
10	Expert	+6
15	Master	+8
20	Grandmaster	+10

Example 1: If you have 2 Skill Mastery Levels in the Athletics Skill (Adept), you add a +4 bonus (+2 per Level) to any Athletics Check you make. See **Checks & Saves** for more information on making Skill Checks.

Example 2: If a PC has a Skill Mastery Limit of Adept, they can allocate up to 2 Skill Points into a single Skill, such as the Awareness Skill. If that PC has additional Skill Points to allocate, they can't allocate them into the Awareness Skill until their Skill Mastery Limit increases to Expert or higher.

GAINING SKILL MASTERY

You can increase your Skill Mastery Level from Skill Points or from certain Traits, Features, or Talents.

SKILL MASTERY LEVEL INCREASES

You can gain Skill Mastery directly through Ancestry Traits, Class Features, and Talents.

- **Class Skills:** Some Classes (such as Hunter) grant Skill Mastery based on chosen Feature options.
- **Ancestry Skills:** Some Ancestries (such as Humans) grant Skill Mastery.

SKILL POINTS

You can spend Skill Points to increase your Skill Mastery Level in a given Skill, up to your Skill Mastery Limit. You gain Skill Points from your Background, Class, Intelligence, and possibly from Talents you choose.

- **Background Skills:** Your Background grants you 5 Skill Points.
- **Class Skills:** All Classes grant additional Skill Points based on your Level.
- **Talent Skills:** Some Talents (such as Skill Increase) grant additional Skill Points.
- **Intelligence Skills:** You gain a number of Skill Points equal to your Intelligence. If your Intelligence is negative, then your total Skill Points is reduced by the same amount. If your Intelligence changes, your total Skill Points change by an equal amount.

INCREASING YOUR SKILL MASTERY LIMIT

Some Ancestry Traits, Class Features, and Talents can increase your Skill Mastery Limit. A Skill can only benefit from 1 bonus to its Skill Mastery Limit at a time. When your Skill Mastery Limit increases at the normal level, it continues to be benefit from the bonus to its Skill Mastery Limit.

Example 1: The Skill Mastery Limit of a Level 1 PC is Novice. If that PC is a Human, they can take the Human Ancestry Trait: Skill Expertise, which increases the Skill Mastery Limit of 1 Skill of their choice. If they choose the Awareness Skill, the Skill Mastery Limit of the Awareness raises from Novice to Adept. If that PC gains another Trait, Feature, or Talent that increases their Skill Mastery Limit, then Awareness won't benefit from it because it's Skill Mastery Limit has already been increased beyond its normal level.

Example 2: A Level 1 PC has a Skill Mastery Limit of Novice. If it gains a bonus to its Skill Mastery Limit (such as through the **Roguish Finesse** Feature), it's Skill Mastery Limit increases to Adept. When its Skill Mastery Increases normally at Level 5, its Skill Mastery Limit increases to Expert.

SKILL POINTS TO INCREASE SKILL MASTERY LIMIT

You can increase your Skill Mastery using Skill Points. Choose a Skill. You can spend 1 Skill Point to increase its Skill Mastery Limit by 1. You must still spend another Skill Point to increase its Skill Mastery Level to meet the new Limit.

Example: A Bard spends 1 Skill Point to get Novice Skill Mastery in the Influence Skill. Then they spend 1 Skill Point to increase their Skill Mastery Limit in Influence from Novice to Adept and an additional Skill Point to increase their Skill Mastery Level in Influence also to Adept. In total, they spent 3 Skill Points to raise their Skill Mastery Level with the Influence Skill from having no Skill Mastery to now having Adept Skill Mastery.

LACKING SKILL MASTERY

When you make a Skill Check using a Skill in which you lack Mastery, you don't gain a Skill Mastery bonus on the Check.

DC Tip: Certain abilities might require a certain level of Mastery to perform, or other passive abilities might be granted to those of different Mastery Levels. There are a lot of possibilities here.

TRADE MASTERY

Trade Mastery represents your proficiency with a Trade. There are several Trade Mastery Levels, ranging from Novice to Grandmaster. Each increasing Level of Trade Mastery grants greater bonuses to the Trade Checks in which you have Mastery (see **Trades** for more information on the different Trades).

TRADE MASTERY LEVELS & LIMITS

There are 5 Trade Mastery Levels. Each Trade Mastery Level grants you a +2 bonus on the respective Skill Checks. Your Trade Mastery Limit starts at Novice and increases based on your Character Level as shown in the table below.

CHARACTER LEVEL	MASTERY LIMIT	MASTERY BONUS
1	Novice	+2
5	Adept	+4
10	Expert	+6
15	Master	+8
20	Grandmaster	+10

Example 1: If you have 3 Trade Mastery Levels in the Alchemy Trade (Expert), you add a +6 bonus (+2 per Level) to any Alchemy Check you make. See [“Checks & Saves” on page 24](#) for more information on making Trade Checks.

Example 2: If a PC has a Trade Mastery Limit of Adept, they can allocate up to 2 Trade Points into a single Trade, such as the Cartography Trade. If that PC has additional Trade Points to allocate, they can't allocate them into the Cartography Trade until their Trade Mastery Limit increases to Expert or higher.

GAINING TRADE MASTERY

You can increase your Trade Mastery Level from Trade Points or from certain Traits, Features, or Talents.

TRADE MASTERY LEVEL INCREASES

You can gain Trade Mastery directly through Ancestry Traits, Class Features, and Talents.

♦ **Ancestry Trades:** Some Ancestries (such as Humans) grant Mastery with specific Trades.

TRADE POINTS

You can spend Trade Points to increase your Trade Mastery Level in a given Trade, up to your Trade Mastery Limit. You gain Trade Points from your Background, and possibly from your Ancestry, Class, and Talents you choose.

- **Background Trades:** Your Background grants you 3 Trade Points.
- **Class Trades:** All Classes grant additional Trade Points based on your Level.
- **Talent Trades:** Some Talents (such as Trade Increase) grant additional Trade Points.

CONVERTING SKILL POINTS TO TRADE POINTS

You can convert 1 Skill Point into 2 Trade Points (but not the other way around).

INCREASING YOUR TRADE MASTERY LIMIT

Some Ancestry Traits, Class Features, and Talents can increase your Trade Mastery Limit. A Trade can only benefit from 1 bonus to its Trade Mastery Limit at a time. When your Trade Mastery Limit increases at the normal level, it continues to benefit from the bonus to its Trade Mastery Limit.

Example 1: The Trade Mastery Limit of a Level 1 PC is Novice. If that PC is a Human, they can take the Human Ancestry Trait: Trade Expertise, which increases the Trade Mastery Limit of 1 Trade of their choice. If they choose the Gaming Trade, the Trade Mastery Limit of the Gaming Trade raises from Novice to Adept. If that PC gains another Trait, Feature, or Talent that increases their Trade Mastery Limit, then Gaming won't benefit from it because its Trade Mastery Limit has already been increased beyond its normal level.

Example 2: A Level 1 PC has a Trade Mastery Limit of Novice. If it gains a bonus to its Trade Mastery Limit (such as through the **Trade Expertise** Ancestry Trait), its Trade Mastery Limit increases to Adept. When its Trade Mastery Increases normally at Level 5, its Trade Mastery Limit increases to Expert.

TRADE POINTS TO INCREASE

TRADE MASTERY LIMIT

You can increase your Trade Mastery using Trade Points. Choose a Trade you do not have Mastery in, you can spend 1 Trade Point to increase its Trade Mastery Limit by 1. You must still spend another Trade Point to increase its Trade Mastery Level to meet the new Limit.

Example: A Champion spends 1 Trade Point to get Novice Trade Mastery in the Blacksmithing Trade. Then they spend 1 Trade Point to increase their Trade Mastery Limit in Blacksmithing to Adept and an additional Trade Point to increase their Trade Mastery Level in Blacksmithing also to Adept. In total, they spent 3 Trade Points to raise their Trade Mastery Level with the Blacksmithing Trade from having no Trade Mastery to Adept Trade Mastery.

LACKING TRADE MASTERY

When you make a Trade Check using a Trade in which you lack Mastery, you don't gain a Trade Mastery bonus on the Check. Some Trade Checks might be harder to perform or not possible at all if you don't have the tools needed or if you're using some kind of improvised tools.

DC Tip: Certain abilities might require a certain level of Mastery to perform, or other passive abilities might be granted to those of different Mastery Levels. There are a lot of possibilities here.

LANGUAGE MASTERY

Language Mastery represents your fluency with a Language. There are only 2 Language Mastery Levels: Limited and Fluent. See **Languages** for more information on the different Languages.

LANGUAGE MASTERY LEVELS

You can spend Trade Points (see Trade Mastery above) to increase your Language Mastery Level in a given Language, up to the maximum Language Mastery Level of 2 (Fluent).

MASTERY LEVEL	LANGUAGE FLUENCY
0-None	You don't know the language.
1-Limited	You can read, write, and speak, but you must make a Language Check and succeed to do so.
2-Fluent	You can read, write, and speak fluently.

Example: If you have 1 level of Language Mastery (Limited) in the Goblin Language, you can make a Language Check to attempt to read, write, speak, or understand the Goblin Language. Alternatively, 2 levels of Language Mastery (Fluent) would allow you to do so without needing to make a Check. See ["Checks & Saves" on page 24](#) for more information on making Language Checks.

DC Tip: In this system, there's more of a progression to learning a language and there are more subtle interactions that happen both from a roleplay standpoint and a mechanics standpoint.

LANGUAGE MASTERY LIMIT

There's no Mastery Limit for Languages. You can use Language Points to increase your Language Mastery in as many Languages as there are available to you.

GAINING LANGUAGE MASTERY

You are Fluent in Common. You can gain additional Language Mastery using Language Points.

LANGUAGE POINTS

You gain Language Points from your Background, and possibly from Talents you choose.

- ♦ **Background Languages:** Your Background grants you Common Fluency and 2 Language Points.
- ♦ **Talent Languages:** Some Talents (such as Trade Increase) grant additional Trade Points, which you can convert to Language Points (see below).

CONVERTING TRADE POINTS TO LANGUAGE POINTS

You can convert 1 Trade Point into 2 Language Points (but not the other way around).

DC Tip: Because 1 Skill Point can be converted into 2 Trades Points, this means that 1 Skill Point can effectively be turned into 4 Language Points.

LACKING LANGUAGE MASTERY

If you don't have Language Mastery with a Language, you can't read, write, speak or understand it.

COMBAT MASTERY

Combat Mastery represents your experience in dealing with dangers and overcoming adversaries in Combat. You have Combat Mastery with the following:

- ♦ Attack Checks and Spell Checks
- ♦ Precision Defense and Area Defense
- ♦ Attribute Saves and Save DC

DC Tip: You don't have Combat Mastery with Death Saves, so those Saves don't add your CM.

COMBAT MASTERY FORMULA

1/2 YOUR CHARACTER'S LEVEL (ROUNDED UP)

COMBAT TRAINING

Combat Training represents your proficiency with using equipment effectively in Combat. You can gain Combat Training with the following types of equipment: Weapons, Armor, and Shields.

GAINING COMBAT TRAINING

Martial Classes grant Weapon Training.

All Classes grant you Armor Training. Some Classes (such as the Champion), Ancestry Traits (such as Natural Combatant), or Talents (such as Martial Expansion) grant you Weapon or Shield Training.

LACKING COMBAT TRAINING

You suffer the following penalties while wearing or wielding the following equipment that you lack Training with:

- ♦ **Weapons:** While wielding a Weapon in which you lack Combat Training, you can't use its Weapon Enhancement.
- ♦ **Spell Focuses:** While wielding a Spell Focus in which you lack Combat Training, you don't benefit from its properties.
- ♦ **Armor:** While wearing Armor in which you lack Combat Training, you have DisADV on Attack Checks and Spell Checks.
- ♦ **Shields:** While wielding a Shield in which you lack Training, you have DisADV on Attack Checks and Spell Checks.

CHECKS & SAVES

Whenever an attempt is made by a creature to perform an action that has a chance of success and failure, they make a Check or a Save to determine the outcome of the attempt. The type of action the creature is attempting to perform determines whether they make a Check or a Save. When a creature makes a Check or Save, they roll a **d20** and add any relevant bonuses which are determined by the type of Check or Save.

Checks: When a PC initiates an action against another creature or obstacle, the GM might ask them to make a Check to determine if the activity is successful. The GM might also ask for a Check to be made when two or more creatures are engaging in a competition of skill against each other.

Saves: When a PC reacts against an effect being forced upon them, the GM might ask them to make a Save to determine if they're successful at resisting the effect.

Example: A *Might Check* would be to see if you can lift the heavy boulder that's just sitting there, while a *Might Save* would be to see if you can stop a heavy boulder that's rolling down a hill at you!

Willing Creatures: Any creature can choose to fail a Check or Save. When they do, treat the result of their Check or Save as a 0 for the purposes of degrees of success or failure (see [“Check & Save Outcomes” on page 31](#)), but the creature doesn't suffer the effects of a Critical Failure unless they choose to do so.

TYPES OF CHECKS

There are several types of Checks a GM might ask a creature to make, such as an Attack Check when making an Attack, a Spell Check when casting certain Spells, a Martial Check when performing certain Maneuvers, a specific Skill Check when performing a test of skill, a specific Trade Check when performing a test of professional expertise, or a specific Flat Attribute Check performing a test of aptitude that doesn't benefit from skill or expertise.

Flat Attribute Checks: When a creature attempts to perform an activity that doesn't benefit from Mastery, they make a certain type of Flat Attribute Check, such as a Flat Might Check to lift a very heavy object or a Flat Intelligence Check to remember a conversation they once had.

Attack Checks: When a creature attempts to hit a target with an Attack, they make an Attack Check to determine if their Attack hits the target.

Martial Checks: When a creature attempts to perform a Maneuver that isn't an Attack, they make a Martial Check to determine its potency.

Spell Checks: When a creature casts a Spell that isn't an Attack, they make a Spell Check to determine its potency.

Skill Checks: When a creature attempts a test of skill, they might perform a Skill Check, such as an Influence Check to determine how convincing your argument is, or a Trickery Check to determine if you can pocket an item without being noticed. See the [“Skills” on page 12](#) for more information.

Trade Checks: When a creature attempts a test of professional expertise, they might perform a Trade Check, such as a Blacksmithing Check to determine the result of their efforts crafting a Weapon, or a Theater Check to determine how well an audience responds to their performance. See the [“Trades List” on page 15](#) for more information.

Language Checks: These are used to see how well you can read, write, or speak using a language you have Limited Language Mastery in. You add your Charisma or Intelligence (your choice) to these Checks.

TYPES OF SAVES

A creature can make a Save to resist an effect imposed against it by another creature, a trap, or an environmental hazard. The type of effect will determine which type of Save the creature makes: Might, Agility, Charisma, or Intelligence.

Might Saves: Resist effects that push you away, knock you down, or crush you.

Agility Saves: Resist effects that cause you to lose your balance or that can be avoided by successfully dodging out of the way.

Charisma Saves: Resist effects that attempt to dominate your mind or alter your emotions.

Intelligence Saves: Resist effects that attempt to read your thoughts, alter your memories, confuse you, or use illusions to deceive your senses.

CHECKS

FLAT ATTRIBUTE CHECKS

When a creature performs a task that doesn't benefit from Mastery, it makes a Flat Attribute Check (Might, Agility, Charisma, or Intelligence). To make a Flat Attribute Check, roll a d20 and add the associated Attribute to the result.

FLAT ATTRIBUTE CHECK FORMULA

$$\text{D20} + \text{ATTRIBUTE}$$

Example: A GM might ask a PC to make a Flat Agility Check to see how flexible they are or a Flat Charisma Check to determine the first impression they make upon entering a room. If the PC's Charisma is 4, they roll a d20 and add 4 to the result.

ATTACK CHECKS

A creature can make an Attack Check when it makes an Attack. When a creature makes an Attack Check, it rolls a d20 then adds its Prime Modifier and Combat Mastery to determine the result.

ATTACK CHECK FORMULA

$$\text{D20} + \text{PRIME MODIFIER} + \text{COMBAT MASTERY}$$

Example: A Level 4 Barbarian's highest Attribute is a 3 (Prime Modifier) and their Combat Mastery is 2 (1/2 its level). When the Barbarian makes an Attack Check, they roll a d20 and add 5 (2+3). If they roll a 10 on the d20, the result of the Attack Check is 15 (10 + 5).

SPELL CHECKS

A creature can make a Spell Check when it takes the Spell Action to cast a Spell that isn't an Attack or uses a Feature that calls for one. When a creature makes a Spell Check, it rolls a d20, then adds its Prime Modifier and Combat Mastery to determine the result.

SPELL CHECK FORMULA

$$\text{D20} + \text{PRIME MODIFIER} + \text{COMBAT MASTERY}$$

Example: A Level 6 Wizard's highest Attribute is 4 (Prime Modifier) and has a Combat Mastery of 3 (1/2 its level). When the Wizard makes a Spell Check, they roll a d20 and add 7 (4+3). If they roll a 10 on the d20, the result of the Spell Check is 17 (10 + 7).

DC Tip: Spell Checks are most often used when Casting a Spell (see ["Spellcaster Chapter" on page 59](#) for more information). Spell Checks are made against Spell DCs or Saves.

MARTIAL CHECKS

A creature can make a Martial Check when it uses a Maneuver that isn't an Attack or uses a Feature that calls for one. When a creature makes a Martial Check, it rolls a d20, then adds its Prime Modifier and Combat Mastery to determine the result.

MARTIAL CHECK FORMULA

$$\text{D20} + \text{PRIME MODIFIER} + \text{COMBAT MASTERY}$$

Example: A Level 7 Champion's highest Attribute is 4 (Prime Modifier) and has a Combat Mastery of 4 (1/2 its level). When the Champion makes a Martial Check, they roll a d20 and add 8 (4+4). If they roll a 10 on the d20, the result of the Martial Check is 18 (10 + 8).

DC Tip: Martial Checks are most often used when performing a Maneuver (see ["Maneuvers" on page 49](#) for more information). Martial Checks are made against Checks or Saves.

SKILL CHECKS

When a creature attempts a test of skill, the GM might have them make a Skill Check to determine whether they succeed or fail. The GM will choose the Skill to use with the Check based on the activity attempted.

MAKING A SKILL CHECK

To make a Skill Check, a creature rolls a d20, adds their Skill Mastery in the given Skill (if any), and adds the Attribute associated with the Skill. The result of the Skill Check is compared to the DC set by the GM. If the result of the Skill Check is equal to or higher than the DC, then the Check is successful.

SKILL CHECK FORMULA

$$\text{D20} + \text{ATTRIBUTE} + \text{SKILL MASTERY}$$

Example: A Level 4 Hunter's Agility Attribute is 3 and their Skill Mastery in Stealth is Novice (+2). When the Hunter makes a Stealth Check to attempt to avoid being detected by other creatures, they roll a d20 and add 5 (3+2) to the result.

DC Tip: Each Skill has a Base Attribute that is the "default" Attribute you would use for a given Check. See **Variant Skill Checks** in the Game Master Guide for more custom options for what Attributes can be used in creative ways with different Skills.

TRADE CHECKS

When a creature attempts a test of professional expertise, the GM might have them make a Trade Check to determine whether they succeed or fail. The GM will choose the Trade to use with the Check based on the activity attempted.

MAKING A TRADE CHECK

To make a Trade Check, a creature rolls a d20, adds their Trade Mastery in the given Trade (if any), and adds the Attribute associated with the Trade. The result of the Trade Check is compared to the DC set by the GM. If the result of the Trade Check is equal to or higher than the DC, then the Check is successful.

TRADE CHECK FORMULA

$$D20 + \text{ATTRIBUTE} + \text{TRADE MASTERY}$$

Example: A Level 5 Artificer's Might Attribute is a 4 and their Trade Mastery in Blacksmithing is Adept (+4). When the Artificer makes a Blacksmithing Check to attempt to use Blacksmithing Tools to forge something, they roll a d20 and add 8 (4+4) to the result.

TRADE TOOLS

A creature must use the specified Trade Tools when attempting a Trade Check (see [“Trades” on page 15](#) for more information on Trade Tools). If a creature attempts a Trade Check using tools not designed for the task (such as using a hair pin instead of Lockpicking Tools to pick a lock), they have Disadvantage on the Trade Check.

LANGUAGE CHECKS

When you are trying to read, write, or speak in a language you have Limited Language Mastery in, you can make a Language Check to do so. Roll a d20 and add your Charisma or Intelligence (your choice).

LANGUAGE CHECK FORMULA

$$D20 + (\text{INTELLIGENCE OR CHARISMA})$$

Language Check DC: The DC of a Language Check is determined by the type of language. DC 10 for Mortal, DC 15 for Exotic and Divine, and DC 20 for Outer.

DC Tip: The GM will set a DC based on how hard it would be to read, write, or speak that language. The Halfling language would be easier to understand than Deep Speech for example.

SPECIAL CHECKS

CHECK CONTESTS

When a creature makes a Check against an opposing creature's Check (or Save), they are engaged in a Contest. The creature with the highest Check result is the winner of the Contest. If a Contest results in a tie, then the situation remains unchanged.

Example: A Barbarian attempts to push a Rogue. If the Barbarian's Check is higher than the Rogue's Check, then the Rogue is pushed. If the Barbarian's Check is lower than the Rogue's Check, then the Rogue is not pushed. If the Barbarian's Check is equal to the Rogue's Check, then the Rogue is not pushed.

CHECK CATEGORIES

Checks are organized into categories, such as: Attribute Checks, Physical Checks, Mental Checks, and Martial Checks. Some Checks fall within multiple Check Categories.

ATTRIBUTE CHECKS

An Attribute Check includes any Check that uses an Attribute, such as:

Might Checks: Flat Might Checks, Athletics Checks, and Intimidation Checks.

Agility Checks: Flat Agility Checks, Acrobatics Checks, Trickery Checks, and Stealth Checks.

Charisma Checks: Flat Charisma Checks, Animal Checks, Influence Checks, and Insight Checks.

Intelligence Checks: Flat Intelligence Checks, Investigation Checks, Medicine Checks, and Survival Checks.

PHYSICAL CHECKS

A Physical Check includes any Check that requires a creature's physicality to perform, such as Might Checks, Agility Checks, and Martial Checks.

MENTAL CHECKS

A Mental Check includes any Check that requires a creature's focus to perform, such as Charisma Checks, Intelligence Checks, and Spell Checks.

PASSIVE SKILLS

Sometimes a GM might not ask a PC to roll any dice to determine the success of a Check. Instead, the GM would use the PC's average result for that type of Check. Every Skill has a Passive value, such as Passive Awareness, Passive Insight, and Passive Athletics. The value of a Passive Skill is equal to **10** + all bonuses normally applied to its Check.

DC Tip: These Passive Skills are used when the PC is not actively performing this action or it's being done over a longer period of time. This number represents their "Average" ability at each Check.

PASSIVE SKILL FORMULA

10 + ALL BONUSES

Example: A Level 1 Champion has 2 Levels of Mastery (+4 bonus) in Awareness, and its highest Attribute is 3 (Prime Attribute). Normally it would make an Awareness Check by rolling a d20 and adding 7 (4+3) to the Check, however its Passive Awareness would instead be by 17 (10+7). If a Rogue attempts to sneak by the Champion (while they aren't actively looking), the Rogue would have to succeed a DC 17 Stealth Check to avoid being detected.

PERMANENT ADV AND DISADV

If you have an effect that grants you a permanent ADV or DisADV to a Skill Check, then you add (ADV) or subtract (DisADV) 2 to your Passive Skill for each instance of ADV or DisADV.

Example: The Commander has Heavy Armor and has DisADV on all Stealth Checks they make. Since this is a permanent effect (as long as they're wearing that armor), you would also subtract 2 from the Commander's Passive Stealth Skill.

SAVES

Many Saves in DC20 target one of a creature's 4 Attributes Saves (Might, Agility, Charisma, or Intelligence).

ATTRIBUTE SAVES

When a creature is subjected to an effect, they make the an Attribute Save to determine whether or not they're able to resist the effect. The Attribute used to make the Save is determined by the effect (or the GM).

MAKING AN ATTRIBUTE SAVE

The creature rolls a d20, adds its given Attribute, and adds its Combat Mastery. If the result of the Attribute Save is equal to or higher than the Contested Check, the Attribute Save is successful.

ATTRIBUTE SAVE FORMULA

D20 + ATTRIBUTE + COMBAT MASTERY

Example (Might Save): A level 2 Barbarian that attempts to resist being pushed against their will would make a Might Save to prevent themselves from moving. Their Might is 3 and their Combat Mastery (1/2 level, rounded up) is 1, so their total bonus to the Save is a 4. They would roll a d20 and add 4 to their Might Save.

Example (Agility Save): A level 5 Rogue that attempts to jump to safety when the ground beneath their feet collapses would make an Agility Save to secure its footing on solid ground. Their Agility is 4 and their Combat Mastery (1/2 level, rounded up) is 3, so their total bonus to the Save is a 7. They would roll a d20 and add 7 to their Agility Save.

Example (Charisma Save): A level 10 Bard that attempts to resist being mind controlled would make a Charisma Save to retain control over their own actions. Their Charisma is 5 and their Combat Mastery (1/2 level, rounded up) is 5, so their total bonus to the Save is a 10. They would roll a d20 and add 10 to their Charisma Save.

Example (Intelligence Save): A level 16 Wizard that attempts to break free of illusions that grip their senses would make an Intelligence Save to discern what's real and what isn't. Their Intelligence is 6 and their Combat Mastery (1/2 level, rounded up) is 8, so their total bonus to the Save is a 14. They would roll a d20 and add 14 to their Intelligence Save.

SPECIAL SAVES

DEATH SAVES

When a creature makes a Death Save, it rolls a d20. If the result is 10 or higher it succeeds on its Death Save. See [“Death’s Door” on page 35](#) for more information on Death Saves.

SAVE CATEGORIES

Some Saves are organized into categories, such as Physical Saves, Mental Saves, and Death Saves.

Physical Saves: When an effect targets your overall physical abilities, you make a Physical Save. Your Physical Save bonus is equal to your Might Save bonus or Agility Save bonus, whichever is higher.

Example: A creature that attempts to resist gaining **Exhaustion** from a Spell that withers its body would make a Physical Save to avoid suffering any effects.

Mental Saves: When an effect targets your overall mental abilities, you make a Mental Save. Your Mental Save bonus is equal to your Charisma Save bonus or Intelligence Save bonus, whichever is higher.

Example: A creature that attempts to resist being teleported against its will would make a Mental Save to remain in the same location.

SAVE DC

Your Save DC represents the difficulty a creature would have to resist your static effects (such as Traps) and ongoing effects (such as Spells). Every creature has a Save DC, which is equal to 10 + its Prime Modifier + its Combat Mastery.

SAVE DC FORMULA

$$10 + \text{PRIME MODIFIER} + \text{COMBAT MASTERY}$$

Repeated Saves: When a creature fails a Save against an effect that has the Repeated Save statement, it can repeat its Save at the end of each of its turns. When that happens, the creature repeats its Save against a Save DC (instead of the original opposing Check).

Example: A Giant Snake targets a Barbarian with a Melee Attack that causes the target to become **Restrained**. The Giant Snake makes an Attack Check that’s Contested by the Barbarian’s Physical Save. If the Barbarian fails its Save against the effect it becomes **Restrained**. However, the Barbarian can repeat its Save at the end of each of its turns to free itself from being **Restrained**. When it repeats its Save it does so against the Giant Snake’s **Save DC**.

DYNAMIC ATTACK SAVES

Some game features (such as a Maneuvers, Techniques, Spells, etc.) both deal damage and impose an effect on its target. This triggers what is called a Dynamic Attack Save.

The provoking creature makes an Attack Check (or Spell Check) at the same time that the target makes its Save. The provoking creature’s Check is compared against the target’s Defense to determine if the target takes damage, and the target’s Save is compared against the provoking creature’s Save DC to determine if the target is subjected to the effect.

DYNAMIC ATTACK SAVE OUTCOMES

A Dynamic Attack Save can result in 1 of 4 outcomes:

- **Attack Hit & Save Failure:** The target takes damage and is subjected to the effect.
- **Attack Miss & Save Failure:** The target does not take damage but is subjected to the effect.
- **Attack Hit & Save Success:** The target takes damage but is not subjected to the effect.
- **Attack Miss & Save Success:** The target does not take damage and is not subjected to the effect.

DC Tip: There are many game features that both deal damage and impose an effect on its target. When this happens, an Attack Check or Spell Check is ALWAYS made to determine DAMAGE while a Save is ALWAYS made against the EFFECT. This opens up many very interesting interactions on what the outcome will be and keeps things moving quickly because both the Attacker and the Target make these rolls at the same time (similar to how Contested Checks work). With Dynamic Attack Saves, you don’t have to wait for the Attack Check to hit, then have the target make a Save, they both happen at the same time.

CHECK VS DEFENSE, SAVE, OR DC

CHECK VS DEFENSE (DAMAGE ONLY)

Actions that attempt to deal damage, requires you to make an Attack Check against the target's Defense to determine whether or not the Attack hits the target. This type of Action is called an **Attack** (see [“Attacks” on page 33](#) for more information). The Action's description will state whether the Attack Check is made against the target's PD or AD (see [“Defenses” on page 34](#) for more information). If the result of the Attack Check is equal to or greater than the target's Defense, then the Attack hits.

CHECK VS SAVE (EFFECT ONLY)

Actions that attempt to impose an effect on a creature (such as a Condition) require you to make a Check (such as a Martial Check or Spell Check) against the target's Save. If the result of the Check is greater than the target's Save, the target becomes subjected to the effect. Depending on the **Failure Statements** of the Save, failing the Save by 5 or more may impose additional penalties on the target (see [“Degrees of Failure” on page 32](#) for more information).

CHECK VS DC

Actions that target you or your allies require you to make a Check (such as a Martial Check or Spell Check) against the Action's own DC to determine success or failure. Depending on the **Success Statements** of the Action, exceeding the DC by 5 or more may grant additional benefits (see [“Degrees of Success” on page 32](#) for more information).

DYNAMIC ATTACK SAVE (DAMAGE & EFFECT)

Some Actions attempt to deal damage and impose a Condition on the target (see [“Dynamic Attack Saves” on page 28](#) for more information). These Actions require you to make an Attack Check against the target's Defense, and require the target to make a Save against your Save DC. The Attack determines if the Action deals damage to the target, and the target's Save determines if they're subjected to the effects of the Action.

MANAGING MULTIPLES

MAKING MULTIPLE SAVES

Some Actions force the target to make a Save against your Save DC to avoid suffering a stated effect. If a creature is forced to make a Save against multiple effects that are a part of the same Action, the target only makes 1 Save of each type that's imposed by the Action.

Example: A Sorcerer casts a powerful Spell against an enemy that includes 3 different types of effects that require Saves. 2 of the effects require a Mental Save each, and 1 effect requires a Charisma Save. The target makes 1 Mental Save for both of the Mental Save effects, and 1 Charisma Save for the other effect.

TARGETING MULTIPLE CREATURES

If an Action you perform targets more than 1 creature, or includes more than 1 in an Area of Effect (such as an Arc, Cone, Cylinder, Line, or Sphere), then you make 1 Check (such as an Attack Check, Martial Check, or Spell Check) against all creatures.

Example: If a PC makes an Attack that targets an area which includes 4 creatures, the PC would make 1 Attack Check and compare it to the Defense of each creature in the area.

COMPETING EFFECTS

If you try to impose an effect on a target already under a similar one (such as opposing telekinesis or mind control), the GM may call for a contested Check between you and the effect's source (such as an opposing spellcaster or an enchanted object).

DC Tip: The GM decides when two effects are similar enough to compete with each other, so they decide when a contest is necessary.

Contest: Make a contested Spell Check against the opposing source. If your effect already requires a Spell Check, use that result for the contest. **Success:** Your effect takes hold as the existing effect ends. **Failure or Tie:** Your effect fails, and the existing effect remains.

Example: A Vampire has charmed a noble with its mind control. A Spellcaster casts a similar mind controlling Spell, attempting to wrest the noble's mind away from the vampire's control. The Spell Check the Spellcaster makes to cast their Spell is contested against a Spell Check the Vampire makes. If the result of the Spellcaster's Check is higher than the Vampire's Check, then the noble is now under the Spellcaster's mind control instead of the Vampire's.

ADVANTAGE & DISADVANTAGE

When a creature has Advantage (ADV) on a Check or Save, it rolls two **d20** and takes the highest number rolled across both dice. If the creature has Disadvantage (DisADV) instead, it takes the lowest number across both dice.

Example: A creature has ADV on a Check. Normally it would roll a single d20 when making the Check, but because it has ADV it rolls two d20 instead and takes the highest number rolled.

GAINING ADVANTAGE

When a creature makes a Check or Save in Combat, it can spend 1 or more **AP** to gain ADV on its Check or Save per AP spent.

Example: A Barbarian chooses to make an Attack with a Greatmaul against a creature. The Barbarian can spend 1 **AP** to grant themselves ADV on their Attack Check.

DC Tip: DCs are designed primarily to be used outside of Combat. Since creatures can spend AP to gain ADV in Combat, the GM **can** replace the normal DC with the Encounter DC to reflect the difficulty of attempting the task during Combat. See the [“Starting Combat” on page 115](#) for more information.

STACKING ADV OR DisADV

Sometimes a creature might have multiple sources of ADV (or DisADV) on a single Check or Save.

ADV X: If a creature has multiple instances of ADV on a Check or Save, it has **ADV X** where X represents the number of additional dice the creature rolls when making the Check or Save. The creature rolls 1 additional d20 for each ADV it has on the Check or Save, and takes the highest number across all dice.

Example: A creature has ADV 2 on a Check. It rolls a d20 plus 2 additional d20 (3 total dice) and takes the highest number rolled across all of the dice.

DisADV X: If a creature has multiple instances of DisADV on a Check or Save, it has **DisADV X** where X represents the number of additional dice the creature rolls when making the Check or Save. The creature rolls 1 additional d20 for each DisADV it has on the Check or Save, and takes the lowest number across all dice.

Example: A creature has DisADV 3 on a Check. It rolls a d20 plus 3 additional d20 (4 total dice) and takes the lowest number rolled across all of the dice.

DC Tip: ADV 1 and DisADV 1 is the same thing as “regular” ADV and DisADV. When rolling a d20 to make a Check or Save, the 1 just represents the 1 additional d20 you’re rolling, which is what happens with regular ADV and DisADV. Most of the time they’ll simply be referred to as ADV and DisADV.

COMBINING ADV & DisADV

If a creature has both ADV and DisADV at the same time, each instance cancels out. If they all cancel out, the creature makes a standard d20 roll as usual. If there are any remaining ADV or DisADV, then it makes the roll with whatever ADV (or DisADV) is left over.

Example 1: If a creature had both ADV and DisADV then that would become a standard roll of a single d20. If you had DisADV 3 and also had ADV, then one of the ADV would cancel out one of the DisADV and you would be left with DisADV 2.

Example 2: If a creature has both DisADV 3 and ADV 2 on a Check, two of the ADV cancel out two of the DisADV, leaving only one DisADV remaining. The Check is then made with DisADV 1, which is just regular DisADV (rolling 2 dice and taking the lower number).

DC Tip: Basically just subtract any ADV or DisADV from each other and see what you are left with, and if the answer is ever 0, then you just make a standard d20 roll.

VARIABLE ADV & DisADV

Gaining ADV and DisADV on Checks made against other creatures is very common. Sometimes you might have to make a Check against a group of creatures where you have ADV or DisADV on the Check against some of the targets but not all of them. When that happens, follow these steps below:

1. Make a Check against all targets you don’t have ADV or DisADV against by rolling a single d20 and adding any relevant bonuses you have on the Check against the targets.
2. For any additional targets you have ADV or DisADV against, roll a second d20 and compare it to the first d20 you already rolled. For all targets you have ADV against, choose the higher number rolled, and for DisADV choose the lower number rolled.
3. If you have ADV/DisADV 2 or higher against any additional targets, repeat Step 2 for each additional dice you have to roll until you resolve the outcome of your Check against all targets.

Example: A Wizard targets 3 creatures with a Fireball Spell. It doesn’t have ADV against the first target (rolls 1d20), has ADV against the second target (rolls 2d20), and ADV 2 against the third target (rolls 3d20). The Wizard rolls a d20 and uses it to determine the outcome of its Spell Check against the first target. It then rolls another d20 and compares it to the first d20 (total of 2d20s) to determine the outcome of its Spell Check against the second target. It then rolls another d20 and compares it to the first 2 d20s (total of 3d20s) to determine the outcome of its Spell Check against the third target.

MULTIPLE CHECK PENALTY

During Combat, each time a creature makes the same Check before the end of its turn, they suffer stacking DisADV on that type of Check, such as specific Flat Attribute Checks (Flat Might, Flat Agility, Flat Charisma, Flat Intelligence), Attack Checks, Spell Checks, and specific Skill Checks (Stealth, Athletics, Influence, etc.), and specific Trade Checks (Theatre, Blacksmithing, Leatherworking, etc.). This penalty only applies to Checks made during the creature's turn, and doesn't apply to Reactions taken on another creature's turn (unless otherwise stated).

- ♦ **1st Attempt:** Normal roll.
- ♦ **2nd Attempt:** DisADV 1 (roll 2 dice and take the lowest result).
- ♦ **3rd Attempt:** DisADV 2 (roll 3 dice and take the lowest result).
- ♦ **4th Attempt:** DisADV 3 (roll 4 dice and take the lowest result).

Example: If a creature casts a Spell by making a Spell Check, its first attempt would be a normal roll, but subsequent Spell Checks would have stacking DisADV (as shown above).

DC Tip: The Multiple Check Penalty does not apply outside of Combat. See **Combat Resources** for more information on how Actions are taken outside of Combat.

Multiple Action Penalties: Some Actions have penalties when you take it multiple times, such as the Help Action. These penalties count as the Multiple Check Penalty for the purposes of game mechanics that apply to Multiple Check Penalties.

CHECK & SAVE OUTCOMES

CRITICAL SUCCESS & FAILURE

When a creature rolls a **20** on a d20, the Check or Save gains a Critical Success. When a creature rolls a **1** on a d20, the Check or Save suffers a Critical Failure. A Critical Success or Critical Failure can affect the outcome in different ways, as determined by the type of Check or Save being made.

ATTACK, MARTIAL, AND SPELL CHECKS

CRITICAL SUCCESS

Damage: When a creature gains a Critical Success on an Attack, Martial, or Spell Check that deals damage, the Attack is considered a **Critical Hit** (automatically hits and deals +2 damage).

Effect: When a creature gains a Critical Success on an Attack, Martial, or Spell Check that doesn't deal damage, the Check automatically succeeds even if the result would normally fail.

CRITICAL FAILURE

When a creature gains a Critical Failure on an Attack, Martial, or Spell Check, it becomes **Exposed** against the next Attack made against it before the start of its next turn. They also suffer additional penalties depending on if the Check deals damage or not.

DC Tip: For Critical Failures, the GM could change the Condition to **Hindered** (your next Attack Check has DisADV) instead of **Exposed** at their discretion.

Damage: When a creature suffers a Critical Failure on an Attack, Martial, or Spell Check that deals damage, the Attack automatically misses even if the result would normally hit.

Effect: When a creature gains a Critical Failure on an Attack, Martial, or Spell Check that doesn't deal damage, the Check automatically fails even if the result would normally succeed.

SAVES, SKILL CHECKS, & TRADE CHECKS

CRITICAL SUCCESS

When a creature gains a Critical Success on a Save, Skill Check, or Trade Check, the Check or Save automatically succeeds even if the result would normally fail.

CRITICAL FAILURE

When a creature suffers a Critical Failure on a Save, Skill Check, or Trade Check, the Check or Save automatically fails even if the result would normally succeed.

DC Tip: The GM should avoid asking PCs to make Checks where success shouldn't be possible. If a PC ties a heavy chain around a building, it shouldn't be possible for them to succeed on a Might Check to drag the building. Conversely, the GM should avoid asking PCs to make Checks where failure shouldn't be possible, like asking a PC to make a Might Check pick up a pebble. Unless the circumstances introduce the possibility of success or failure, try to refrain from asking for Checks for activities that are impossible to succeed or fail. Mistakes are going to happen and GMs might ask for a roll when they shouldn't have. The final outcome of a Critical Success or Critical Failure are up to the GM, and PCs should respect that.

CONTESTED CRITICAL OUTCOMES

When multiple creatures gain a Critical Success in a contest (or all creatures suffer a Critical Failure), the creature with the highest total result wins the contest.

DEGREES OF SUCCESS & FAILURE

DEGREES OF SUCCESS

If a creature succeeds on a Check or Save by 5 or more, they may gain additional benefits beyond those of a normal success. The Check or Save will include a success statement, such as **Success**, **Success (5)**, **Success (10)**, or **Success (each 5)**.

SUCCESS

If the success statement says **Success** then the creature gains the listed benefits if the result of its Check or Save is equal to or higher than the opposing DC, Check, or Save.

SUCCESS (EACH 5)

If a success statement says **Success (each 5)** then the creature gains the listed benefits for every 5 the result of its Check or Save is above the opposing DC, Check, or Save. Unless stated otherwise, the creature can gain the additional benefits multiple times.

Example: A Spell pushes a target back 3 Spaces on a successful Spell Check, but also includes the following success statement: "**Success (each 5):** +1 Space." That means that each 5 points the Spell Check is above the opposing DC, Check, or Save, the target is pushed 1 additional Space.

SUCCESS (5) & SUCCESS (10)

If a success statement says **Success (5)** then the creature gains the listed benefits when they succeed by 5 or more above the opposing DC, Check, or Save. Moreover, if the success statement says **Success (10)** then they also gain the listed benefits when they succeed by 10 or more above the opposing DC, Check, or Save. This can continue on to **Success (15)** and further.

Example: A Spell increases a creature's Speed by 1 on a successful Spell Check, but has the following success statements: "**Success (5):** Ignore Difficult Terrain," and "**Success (10):** Immune to Slowed." That means that the creature's Speed is increased by 1 and ignores Difficult Terrain if its Spell Check is 5 above the Spell's DC, and the creature is also immune to the **Slowed** Condition if its Spell Check is 10 above the Spell's DC.

DEGREES OF FAILURE

If a creature fails on a Check or Save by 5 or more, they may suffer additional penalties beyond those of a normal failure. The Check or Save will include a failure statement, such as **Failure**, **Failure (5)**, **Failure (10)**, or **Failure (each 5)**.

FAILURE

If a failure statement says **Failure** then the creature suffers the listed penalties if the result of its Check or Save is below the opposing DC, Check, or Save.

FAILURE (EACH 5)

If a failure statement says **Failure (each 5)** then the creature suffers the listed penalties for every 5 the result of its Check or Save is below the opposing DC, Check, or Save. Unless stated otherwise, the creature can suffer the additional penalties multiple times.

Example: A trap deals 4 Fire damage to a target on a failed Save, but also includes the following failure statement: "**Failure (each 5):** +1 damage." That means that each 5 points the Save is below the Trap's Save DC, the target takes an additional +1 Fire damage.

FAILURE (5) & FAILURE (10)

If a failure statement says **Failure (5)** then the creature suffers the listed penalties when they fail by 5 or more below the opposing DC, Check, or Save. Moreover, if the failure statement says **Failure (10)** then they also suffer the listed penalties when they fail by 10 or more below the opposing DC, Check, or Save. This can continue on to **Failure (15)** and further.

Example: A Curse imposes the **Blinded** Condition on a failed Save, but has the following failure statements: "**Failure (5):** Deafened," and "**Failure (10):** Doomed." That means that the creature is both **Blinded** and **Deafened** if its Save is 5 below the Save DC, and the creature is also **Doomed** 1 if its Save is 10 below the Save DC.

ATTACKS & DEFENSES

ATTACKS

When a creature makes an Attack, it can do so by choosing a target within the Attack's Range (Melee, Ranged, or Area) and by making an Attack Check. How the Attack is resolved is determined by its Type and its Range.

ATTACK TYPES

There are 2 types of Attacks: **Martial** and **Spell**.

MARTIAL ATTACKS

A creature makes a Martial Attack when they make an Attack Check using a Weapon or Unarmed Strike against a target's Defense.

Unarmed Strike: A Martial Attack made using any part of a creature's own body, such as a Punch, Elbow, Kick, Knee, or Headbutt.

Weapon Attack: A Martial Attack made using a Weapon, such as an Axe, Sword, or Bow. You can draw a Weapon as part of an Attack made using it.

SPELL ATTACKS

A creature makes a Spell Attack when they make an Attack Check using a Spell or similar ability (such as the Breath Weapon Trait from the Dragonborn Ancestry) against a target's Defense (see the ["Spellcaster Chapter" on page 59](#) for more information).

ATTACK RANGES

Attacks have 3 types of ranges: Melee, Ranged, or Area.

MELEE ATTACK

A Melee Attack is an Attack with a range of Melee. A creature's Melee Range is 1 Space, unless otherwise stated.

RANGED ATTACK

A Ranged Attack is an Attack with a range specified in a number Spaces (such as 10 Spaces). The Range is determined by the type of Weapon it's Attacking with or by consulting the ability used to make the Ranged Attack.

Close Quarters: You have DisADV on Ranged Attacks if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated** (see the **Disadvantage** and **Conditions** sections for more information).

WEAPON RANGES

A Weapon that can be used to make a Ranged Attack has a Range shown in parentheses after its Ammo, Toss, or Thrown property (see ["Equipment" on page 164](#)) for more information).

Normal Range: The first number in the parentheses is a Weapon's normal range. You can make an attack against any target within this range.

Long Range: The second number in the parentheses is a Weapon's long range. You can make an attack with DisADV against targets within this range. You can't make attacks against targets beyond your Weapon's long range.

Example: A Short Bow with a range of (15/45) means that it can be used to make attacks against targets between 1 and 15 Spaces, attacks with DisADV against targets between 16 and 45 Spaces, and can't attack targets that are 46 Spaces or farther away.

AREA ATTACK

A creature makes an Area Attack when they make an Attack against targets that are within a specified area (such as a Cone, Line, or Sphere) covered by the Attack. The type and size of the area is determined by the Attack.

DC Tip: The **Close Quarters** penalty doesn't apply to Area Attacks.

DETERMINING IF AN ATTACK HITS

When a creature makes an Attack, the result of the Attack Check is compared to the target's Defense to determine whether or not the Attack Hits the target. The Attack Hits if the result of the Attack Check is equal to or greater than the target's Defense.

Example: A Level 4 Champion's highest Attribute is a 3 (Prime Modifier) and their Combat Mastery is 2 (1/2 its level). When the Champion makes an Attack Check using a Longsword, they roll a d20 and add 5 (3 + 2). If they roll a 10 on the d20, the result is 15 (10 + 5). If the target's PD is 15 or lower, the Attack Hits, otherwise it Misses.

DEFENSES

When a creature makes an Attack to attempt to deal damage to a target, the creature's Check is compared against the value of one of the target's Defenses (Precision Defense or Area Defense) to determine if the Attack hits.

PRECISION DEFENSE

Precision Defense (PD) measures a creature's ability to avoid attacks that can be dodged, such as a precise strike or a ranged projectile. It reflects a combination of reflexes and tactical foresight, making it a crucial defense against single-target assaults.

PD CALCULATION

Your PD is equal to 8 plus your Combat Mastery, Agility, and Intelligence. If you are wearing Armor or wielding a Shield (see ["Equipment" on page 164](#)), you also add their respective bonuses to your PD.

- **Agility:** Represents your reaction speed and physical swiftness, allowing you to evade incoming attacks.
- **Intelligence:** Reflects your ability to anticipate danger and position yourself wisely, giving you the time needed to react.

PD FORMULA

$$8 + \text{COMBAT MASTERY} + \text{AGILITY} + \text{INTELLIGENCE} + \text{BONUSES}$$

AREA DEFENSE

Area Defense (AD) measures a creature's ability to withstand attacks that can't be avoided, such as explosions, shockwaves, or other widespread effects. Instead of relying on dodging, Area Defense reflects raw endurance, resilience, and sheer force of will to endure the assault.

AD CALCULATION

Your AD is equal to 8 plus your Combat Mastery, Might, and Charisma. If you are wearing Armor or wielding a Shield (see ["Equipment" on page 164](#)), you also add their respective bonuses to your AD.

- **Might:** Represents your physical toughness and endurance, allowing you to absorb and resist bodily harm.
- **Charisma:** Reflects your inner resolve and commanding presence, reinforcing your ability to withstand mental and supernatural assaults.

AD FORMULA

$$8 + \text{COMBAT MASTERY} + \text{MIGHT} + \text{CHARISMA} + \text{BONUSES}$$

HEALTH POINTS & DEATH'S DOOR

HEALTH POINTS

Health Points (HP) are a game statistic representing a creature's ability to sustain damage. The stronger the creature the more HP it generally has, signifying the greater difficulty in defeating it.

Example: A Commoner has 4 HP, a Mastiff has 3 HP, a Cat has 2 HP and a Rat has 1 HP.

DC Tip: Most damage a creature takes is nonlethal—it just “wears them down” until they get closer and closer to Death's Door. Lighter hits might graze you, while bigger hits knock you off your feet. The description and roleplay of how damage is taken can change depending on its source and the situation, but Health Points represent how much of a beating you can take before you die.

HEALTH POINTS AT 1ST LEVEL

A PC has a number of Health Points equal to Class HP + Might. A PC might also gain additional HP from its Ancestry, such the Dwarf Trait **Tough** (+1 HP) or the Elf Trait **Frail** (-2 HP).

HEALTH POINT FORMULA

$$\text{CLASS HP} + \text{MIGHT} + \text{ANCESTRY HP (IF ANY)}$$

Example: A PC picks the Champion Class at Level 1 and starts with a Might of 3 (the highest possible at Level 1). The Champion Class grants a base of 8 HP. The PC then adds +3 HP from their Might to get a total of 11 HP (8 + 3). If any of their Ancestry Traits increase or decrease their HP, they would add those to the total to determine their starting HP.

TEMPORARY HEALTH POINTS

Temporary Health Points (Temp HP) are additional Health Points that persist for a limited duration. When you take damage, your Temp HP is reduced first, and then any remaining damage carries over to reduce your HP.

Stacking: Temp HP doesn't stack. If you gain Temp HP from different effects, you choose which effect to gain Temp HP from, and ignore the Temp HP granted by the other effects.

Duration: Temp HP lasts until you complete a Long Rest or its reduced to 0 by taking damage. An effect that grants Temp HP may state a shorter duration, such as 1 minute, until you complete a Quick Rest or Short Rest, or some other duration. When the duration expires, all Temp HP gained immediately vanish.

HEALTH THRESHOLDS

Certain game mechanics affect creatures while their current HP is within certain thresholds. These HP thresholds are determined before any temporary changes to your HP maximum, such as from the **Doomed** Condition.

- ♦ **Bloodied:** HP is equal to or lower than 1/2 its maximum HP.
- ♦ **Well-Bloodied:** HP is equal to or lower than 1/4 its maximum HP.
- ♦ **Death's Door:** HP is equal to or lower than 0 HP, to a minimum of its Death Threshold.

A creature's Death Threshold is equal to 0 HP minus its Prime Modifier and its Combat Mastery.

DC Tip: If a creature is on Death's Door, they are still considered to be Bloodied and Well-Bloodied, because their HP is still below 1/2 their maximum (Bloodied) and 1/4 their maximum (Well-Bloodied).

Example: A creature with a maximum HP of 8 is considered Bloodied when its HP is 4 or lower, Well-Bloodied when its HP is 2 or lower, and on Death's Door when its HP is 0 or lower. If its Prime Modifier is 3 and its Combat Mastery is 1, the creature's Death Threshold is **-4 HP**. That creature dies if its HP is ever reduced to **-4 HP** or lower.

DEATH'S DOOR

When a PC is reduced to 0 HP they're on "Death's Door" and fighting for their life. This is represented in whatever way the player wants to describe this state looks like for their character. They are NOT unconscious, they are in a heavily weakened state about to die if something is not done SOON! They could be prone crawling on the ground, holding themselves up with their sword, or spitting out blood as they hold on for dear life.

ENTERING DEATH'S DOOR

When you're reduced to **0 HP** or lower, you gain **Exhaustion 1**. Until you are restored to **1 HP** or higher, you suffer the following effects:

- ♦ **Action Point Limit:** Your current and maximum AP are reduced by 3.
- ♦ **Death Save:** You must make a **DC 10** Death Save at the start of each of your turns.

DC Tip: You basically can only spend **1 AP** per round of Combat, either on your turn or as a Reaction. This usually happens while on Death's Door.

DEATH SAVES

When a creature makes a Death Save, it rolls a **d20** to determine if it Succeeds or Fails the Save.

SUCCESS

- ♦ **Success:** No change.
- ♦ **Success (5):** You regain **1 HP**.
- ♦ **Critical Success:** You are restored to **1 HP**.

FAILURE

- ♦ **Failure:** You gain **Bleeding 1**.
- ♦ **Failure (5):** You gain **Bleeding 2** instead.
- ♦ **Critical Failure:** You also fall **Unconscious** until you're restored to **1 HP** or higher.

DC Tip: If you are on Death's Door outside of Combat, you repeat the Death Save every 12 seconds instead (5 times per minute).

Death's Door Sidebar

Bleeding X (Condition)

You take **X** True damage at the start of each of your turns.

Ending Bleeding: All stacks of the Condition end when you're subjected to an effect that restores your HP. Alternatively, a creature can attempt to remove 1 or more stacks of the Condition by taking the Medicine Action.

Medicine (Action)

You can spend **1 AP** to touch a creature and tend to its wounds. Make a **DC 10** Medicine Check. **Success:** You end 1 stack of **Bleeding** on the target. **Success (each 5):** You end an additional stack of Bleeding.

Medicine Kit (Equipment)

You can spend **1 Charge** and take the Object Action to treat a **Bloodied** creature's wounds (see **Medicine Kit** for more information). Make a **DC 10** Medicine Check. **Success:** Target creature regains **1 HP**. **Success (each 5):** The creature regains **+1 HP**.

NPC'S ON DEATH'S DOOR

Monsters and NPCs normally die when they're reduced to 0 HP, however the Game Master can choose to implement Death's Door on special enemies. They would drop down to **1 AP** and be on Death's Door in that same weakened state, leaving a window for them to still talk to the party and get out any last words before someone puts them out of their misery.

DAMAGE

DEGREES OF DAMAGE

Each Attack has a base amount of damage that's dealt on a Hit. This value is listed alongside the Weapon (see ["Equipment" on page 133](#)) or in the Spell's description (see ["Spellcaster Chapter" on page 59](#)). If the Check beats the targets Defense by 5 or more, the target takes extra damage and may suffer additional effects (see ["Check & Save Outcomes" on page 31](#) for more information).

HIT & MISS

When you make a Check against a target's Defense, the Check is considered a Miss if the result is below the target's Defense and it's considered a Hit if the result is equal to or above the target's Defense.

HIT SUCCESS (EACH 5)

An Attack deals +1 additional damage for every 5 the result of the Check is above the target's Defense. If the result of the Check is 5 or more above the target's Defense, it is considered a Heavy Hit. If the result of the Check is 10 or more above the target's Defense, it is considered a Brutal Hit. Brutal Hits are considered Heavy Hits for purposes of effects that trigger on a Heavy Hit.

DC Tip: Heavy Hits are 5 over, Brutal Hits are 10 over, but if a Character ever manages to get 15 over a target's Defense I call this Beyond Brutal. Then I count by 5s to see how many instances of +1 bonus damage they get.

DEGREES OF DAMAGE TABLE

The table below shows how the damage of an Attack can change as determined by the result of the Check.

CHECK VS DEFENSE	RESULT	DAMAGE
Lower	Miss	No Damage
Equal or greater	Hit	Base Damage
+5 or greater	Heavy Hit	Base Damage + 1
+10 or greater	Brutal Hit	Base Damage + 2

CRITICAL HITS

When you roll a 20 on a d20 for an Attack, it's considered a Critical Hit. A Critical Hit automatically Hits the target, bypasses Damage Reduction, and deals an additional +2 damage.

DC Tip: An Attack can score a Critical Hit without the result of the Check being 5 or more above the target's Defense. When that happens, the Check is considered a Critical Hit and the target simply takes the base damage +2, however, this scenario is rare. A Critical Hit will normally result in a Check that's 5 or even 10 above the target's Defense, causing the target to take +2 damage from the Critical Hit plus +1 additional damage for every 5 the result is higher than its Defense.

Damage Calculation Sidebar

This is a way for both Players and Game Masters to add up their damage in a way that's simple and quick. Once you Hit with an Attack, the GM will tell you if the Attack was a Heavy Hit or higher. This helps you determine how much additional damage your Attack deals (see the process shown below). The GM will apply any applicable Resistances or Vulnerabilities to determine the total amount of damage the target takes (see ["Bonus Damage" on page 38](#) for more on the target reducing damage).

Adding Damage Order

Add up the damage totals in the following order:

4. **Base Damage:** Start with the Base Damage of the Attack.
5. **Heavy & Critical Hits:** Add any bonus damage from Critical Hits or Heavy Hits and higher.
6. **Action Points:** Add any bonus damage from Action Points spent (Maneuvers, Class Features, AP Enhancements, etc.).
7. **Situational Bonuses:** Add any bonus damage from situational bonuses (Class Features, Magic Items, etc.).

DC Tip: Starting with the Base Damage is a great foundation, and getting the Heavy Hit + out of the way first is nice. You'll get better at all the "by 5's" math over time! Then you add any damage gained by spending AP, then any passives. This creates a great "checkpoint" system for you to mentally navigate and keep things simple and quick.

Example: A Rogue attacks a beast with his Shortsword (we start off with a Base Damage of 1). They get a **Brutal Hit** and gain +2 bonus damage on their hit (1 + 2 = 3). They target has a condition on it which increases their damage by +1 (1 + 2 + 1 = 4). So now their total damage is 5 (1 Base + 2 Brutal + 1 Cheap Shot = 4 Total).

DAMAGE TYPES

There are 12 different damage types in the game, as seen in the list below. Each damage type represents a different method for harming a creature.

Bludgeoning Damage: Things that bludgeon you, like a hammer or fist.

Piercing Damage: Things that pierce you, like an arrow or fangs.

Slashing Damage: Things that slash you, like a blade or claw.

Fire Damage: Things that burn you, like fire or other forms of intense heat.

Cold Damage: Things that freeze you, like ice or intense cold.

Lightning Damage: Things that shock you, like lightning or other forms of electricity.

Poison Damage: Things that poison you, like toxins.

Corrosion Damage: Things that decay and wither you, like acids and rust effects.

Psychic Damage: Things that assault your mind, like psychic attacks.

Radiant Damage: Things that singe you, like holy light, lasers, and radiation.

Umbral Damage: Things that harm your soul, like dark or eldritch power.

True Damage: A special type of damage that can't be reduced by any means.

DAMAGE TYPE CATEGORIES

Damage types (except True damage) are organized into the following categories: Physical, Elemental, and Mystical.

Physical Damage: Includes Bludgeoning, Piercing, and Slashing damage.

Elemental Damage: Includes Cold, Corrosion, Fire, Lightning, and Poison.

Mystical Damage: Includes Psychic, Radiant, and Umbral.

DAMAGE VULNERABILITY, RESISTANCE, & IMMUNITY

Resistance is a way for creatures to reduce the damage they take, while Vulnerability increases damage taken. The source of what gives them this ability could come from a natural ability they have, a Class Feature, Magic Items, etc. Here are the different ways that these different effects work:

DAMAGE RESISTANCE

Resistance (X): Damage taken of the specified type is reduced by X each time the creature takes damage of that type.

Example: If you had **Fire Resistance (2)** and took **7 Fire** damage, you would instead take **5 Fire** damage (you subtract 2 from the Fire damage taken, so $7 - 2 = 5$).

Resistance (Half): Damage taken of the specified type is halved (minimum of 1 damage reduced).

Example 1: If you had **Fire Resistance (Half)** and took **7 Fire** damage, you would instead take **4 Fire** damage (half of 7 is 3.5, rounded up is 4).

Example 2: If you had **Radiant Resistance** and took **1 Radiant** damage, the damage would be halved to 0.5 and rounded back up to 1 damage taken. However, since Resistance reduces damage by a minimum of 1, the damage would be reduced to 0.

DAMAGE IMMUNITY

Damage taken of the specified type is reduced to 0.

Example: If you had **Cold Immunity** and were dealt **7 Cold** damage, you would take 0 damage instead.

DAMAGE VULNERABILITY

Vulnerability (X): Increase damage taken by X each time the creature takes damage of that type.

Example: If you had **Poison Vulnerability (2)** and took **3 Poison** damage, you would instead take **5 Poison** damage (you add 2 to the Poison damage taken, so $3 + 2 = 5$).

Vulnerability (Double): Increases the Damage taken by 2 times of the specified type.

Example: If a Werewolf has **Vulnerability (Double)** to Silvered Weapons and takes **5** damage from an Attack, they would instead take **10** damage ($5 \times 2 = 10$).

DAMAGE REDUCTION

Damage Reduction (DR) grants **Damage Resistance (Half)** against Attacks, except against Critical Hits and Heavy Hits (or higher). There are 3 types of Damage Reduction:

Physical Damage Reduction: PDR protects you from the following damage types: Bludgeoning, Piercing, and Slashing.

Elemental Damage Reduction: EDR protects you from the following damage types: Cold, Corrosion, Fire, Lightning, and Poison.

Mystical Damage Reduction: MDR protects you from the following damage types: Radiant, Psychic, and Umbral.

DC Tip: There can be specific types of DR for certain Damage Types that special items or monsters have. You could have something that even gives “Fire Damage Reduction” for example.

Example: A creature makes an Attack to hit a target with an PD of 10. The result of their Check is 12, which hits the target and deals 4 Bludgeoning damage. The target has a PDR, which provides Bludgeoning Resistance against this Attack, and halves the damage to 2 ($4 / 2 = 2$). Alternatively, if the result of the Check was 15, it would be 5 over the target's PD of 10, making it a Heavy Hit. In this scenario, the PDR is bypassed, the damage isn't reduced, and the target takes the full 4 damage plus 1 damage for the Heavy Hit.

STACKING DAMAGE VULNERABILITIES, RESISTANCES, & IMMUNITIES

DAMAGE RESISTANCE X & VULNERABILITY X

A creature that gains Damage Resistance X or Damage Vulnerability X from multiple sources they are all added together.

DAMAGE RESISTANCE (HALF) & VULNERABILITY (DOUBLE)

Multiple sources of Damage Resistance (Half) or Damage Vulnerability (Double) do not stack.

Example: If you had **Lightning Resistance (Half)** from a Class Feature and **Elemental Resistance** (which includes Lightning Resistance) from the EDR granted by your Armor, you would still only take half damage when you take Lightning damage (not a quarter of the damage, because they don't stack).

BONUS DAMAGE

If an Attack gains a bonus to its damage (such as from a Feature or Enhancement), the bonus damage is the same type of damage as the Attack, unless otherwise stated.

MULTIPLE DAMAGE TYPES

When an Attack deals multiple types of damage and gains a bonus to its damage, you choose which damage type gains the bonus damage.

Example: A Barbarian Hits a target with an Attack using a magical Hammer that deals 2 Bludgeoning damage and 2 Lightning damage. If the Barbarian is Raging at the time, they deal +1 damage from their Rage Feature. The Barbarian can choose to apply their Rage damage to the Bludgeoning or Lightning damage.

AGAINST MULTIPLE TARGETS

If an Attack that targets multiple targets gains a bonus to its damage, the bonus damage only applies to 1 target of your choice.

DC Tip: The Attack still benefits from Critical Hits, Heavy Hits, and beyond against each target.

DAMAGE MODIFICATIONS

Total damage is determined after all damage modifications are taken into account. When a creature takes damage, the total damage taken is determined by following the steps below:

Adding & Subtracting

- **Damage Resistance X:** its Resist X reduces the damage by the value of X (1, 2, 3, etc.)
- **Damage Vulnerability X:** its Vulnerable X increases the damage by the value of X (1, 2, 3, etc.)

Doubling & Halving

- **Damage Resistance (Half):** The damage is halved (rounded up, minimum of 1 damage reduced).
- **Damage Vulnerability (Double):** The damage is doubled (minimum of 1 damage taken).

If a creature has the same type and amount of Resistance and Vulnerability, they cancel each other out (e.g. Fire Resistance (1) & Fire Vulnerability (1), or Cold Resistance (Double) & Cold Vulnerability (Double)).

DC Tip: Basically any kind of addition or subtraction of damage happens **FIRST**, then any multiplication or division of damage **AFTER**.

Example 1: A creature has **Cold Resistance (1)** from its Ancestry, and **Cold Vulnerability (Double)** from a Monster Effect. When that creature is Hit by an Attack that deals 4 Cold damage, the damage is reduced by 1 (Cold Resistance (1)) to a total of 3, and then doubled (Cold Vulnerability) to a total of 6.

Example 2: A creature has **Fire Vulnerability (1)** from its Ancestry, and **Fire Resistance (Half)** from the EDR granted by its Armor. When that creature is Hit by an Attack that deals 5 Fire damage, the damage is increased by 1 (Fire Vulnerability (1)) to a total of 6, and then halved (Fire Resistance (Half) from EDR) to a total of 3.

MANAGING DAMAGE MULTIPLES

MULTIPLE DAMAGE TYPES

When you take multiple types of damage that you have Resistances (or Vulnerabilities) to, you apply your Resistances (or Vulnerabilities) to each damage type individually.

Example: You have Physical Resistance (Half) from PDR granted by Armor and take 3 Piercing damage and 3 Slashing damage from an Attack. The Piercing damage would be reduced by half to 1.5, then rounded up to 2 damage taken. The same would be true of the Slashing damage (2 damage taken). You would take a total of 4 damage from the Attack.

BONUS DAMAGE AGAINST MULTIPLE TARGETS

If you add bonus damage to an Attack that targets multiple targets, the bonus damage only applies to 1 target of your choice. The Attack still benefits from Critical Hits, Heavy Hits, and beyond against each target.

SHARED DAMAGE

When 2 or more creatures share damage, divide the damage by the number of creatures (rounding up), and distribute the damage equally among the creatures. If the creatures are sharing damage of multiple types, you calculate the shared damager for each type taken (see example 3)

Example 1: A Champion steps in front of an Attack against an ally and they share the damage. If the total damage was 5, then each creature now takes 3 damage (half of 5 is 2.5, rounded up to 3).

Example 2: A creature is thrown 10 Spaces into a wall, taking 10 Bludgeoning damage upon impact. However, if 2 creatures were to stand side-by-side in the thrown creature's path, all 3 creatures would share the damage upon impact. The 10 damage would be divided by the 3 creatures, resulting in each creature taking 3.33 Bludgeoning damage. No matter what the fraction is, you always round up in DC20, so now each creature takes 4 damage.

Example 3: A Barbarian steps in front of an Attack against an ally and they share the damage. If the total damage was 3 Bludgeoning and 2 Lightning damage, then each creature now takes 2 Bludgeoning (half of 3 is 1.5, rounded up to 2), and 1 Lightning damage.

DC Tip: Yes this does mean that sharing damage might result in the group as a whole taking more damage than if they had not shared the damage. This is on purpose and also accounts for everyone smashing into each other and truly sharing the blow.

CHAPTER 2

COMBAT RULES

COMBAT RESOURCES

ACTION POINTS

Action Points (AP) represent a character's moment-to-moment readiness in both battle. Each character has a maximum of 4 AP, which they can spend to perform **Actions** or **Reactions**. Whether it's striking with a blade, casting a spell, or leaping from danger's path, managing AP wisely is key to surviving fast-paced encounters and making the most of every opportunity.

MAXIMUM AP

You have a maximum of 4 Action Points. You are considered to be taking an Action when you spend 1 or more Action Points. Once an Action Point is spent, it can't be used again until it's regained.

Example: A PC has 4 AP. They spend 1 AP to make an Attack with a Weapon they're wielding. They decide to spend 3 AP to improve their Attack: 1 AP to increase damage, 1 AP to increase their range, and 1 AP to gain ADV on the Attack. After spending all 4 AP, they can't take any more Actions until they regain their AP. See the "[Martial Enhancements](#)" on page 50 for more information on enhancing your Attacks.

Actions out of Combat Sidebar

When you are not in Combat, there is no Initiative, so the GM decides how quickly time flows. They set the pace and determine how often creatures can take actions. In calm situations, you might have all the time you need, taking action after action without limit. In situations where time is short (such as a sneaking into a bandit's hideout), the GM may limit how many actions you can take to help track the order and urgency of events. You do not need to track movement the same way you do in Combat.

For example, nobody is counting every single Space someone walks while shopping in the market. Similarly, you do not spend Action Points out of Combat. You simply describe what you are doing. However, the number of Action Points you could spend in Combat can be a useful guideline for how much effort you can reasonably put into a single attempt at an activity.

Beta Note: We will be adding or changing the rules around Helping outside of Combat in a future update.

MANA POINTS

Mana Points (MP) are the wellspring of magical power, allowing Spellcasters to unleash potent spells and supernatural effects. Unlike Stamina Points, MP can't be regained through action or effort during the day, instead fully replenishing only after a Long Rest. However, Spellcasters have a larger pool of MP than Martials do SP, and each Mana Point produces a greater effect than a Stamina Point, making every MP-fueled ability a more powerful expenditure of energy.

MP EFFECTS

Any ability or effect that costs MP is considered an MP Effect. This includes Spells, Class Features, or Talents that you spend MP to use.

MAXIMUM MP

You don't have Mana Points unless you choose a Spellcaster Class (Bard, Cleric, Druid, Sorcerer, Spellblade*, Warlock, and Wizard) or progress in the Spellcaster Path (see "[Character Paths](#)" on page 192 for more information).

- **Spellcaster Class:** Spellcaster Classes have a maximum amount of MP as shown in the Mana Points column of their Spellcaster Class Table.
- **Spellcaster Path:** If you spend a Path point on the Spellcaster Path, you gain maximum amount of MP as shown on the Mana Points column of the Spellcaster Path Table.

MANA SPEND LIMIT

You can spend a maximum number of Mana Points to produce an MP Effect equal to your Combat Mastery. This limitation includes MP spent on Spell Enhancements and other Features that require MP. This is called your Mana Spend Limit (MSL).

Example: A level 6 Sorcerer (Combat Mastery of 3) can spend up to 3 MP on any Spell they cast. They could cast a Spell with a base cost of 3 MP, or they could cast a Spell with a base cost of 1 MP and spend 2 MP on Spell Enhancements. Alternatively, they could cast a Spell without an MP cost and spend 3 MP on Spell Enhancements.

DC Tip: The Mana Spend Limit is separate from the Stamina Spend Limit, meaning you could spend up to your MSL and up to your SSL on the same action, such as when using the Spellblade's **Spellstrike** Feature.

REGAINING MP

You regain all spent MP when you complete a Long Rest.

STAMINA POINTS

Stamina Points (SP) are a vital resource, empowering Martial characters to perform heroic feats beyond the limits of ordinary warriors. Each Martial Class has unique ways to regain SP, whether through relentless aggression, strategic maneuvers, or unwavering discipline, ensuring they can continue to push the limits of Combat.

SP EFFECTS

Any ability or effect that costs SP is considered an SP Effect. This includes Maneuvers, Class Features, or Talents that you spend SP to use.

MAXIMUM SP

You don't have Stamina Points unless you choose a Martial Class (Barbarian, Champion, Commander, Hunter, Rogue, Monk, and Spellblade*) or progress in the Martial Path (see "[Character Paths](#)" on page 192 for more information).

- **Martial Class:** Martial Classes have a maximum amount of SP as shown in the Stamina Points column of their Martial Class Table.
- **Martial Path:** If you spend a Path point on the Martial Path, you gain maximum amount of SP as shown on the Stamina Points column of the Martial Path Table.

STAMINA SPEND LIMIT

You can spend a maximum number of Stamina Points to perform an SP Effect equal to your Combat Mastery. This limitation includes SP spent on Maneuver and Attack Enhancements and other Features that require SP. This is called your Stamina Spend Limit (SSL).

Example: A level 6 Barbarian (Combat Mastery of 3) can spend up to **3 SP** on any SP Effect they perform. They could perform a Maneuver with a base cost of **3 SP**, or they could perform a Maneuver with a base cost of **1 SP** and spend **2 SP** on Maneuver Enhancements. Alternatively, they could perform a Maneuver without an SP cost and spend **3 SP** on Maneuver Enhancements.

DC Tip: The Stamina Spend Limit is separate from the Mana Spend Limit, meaning you could spend up to your SSL and up to your MSL on the same action, such as when using the Spellblade's **Spellstrike** Feature.

REGAINING SP

You regain all spent SP when Combat ends and when you complete a Short Rest.

Martial Stamina Regen: You can regain SP during Combat in a variety of ways depending on the Stamina Regen benefit granted by your Class or from the Martial Path (see the "[Character Paths](#)" on page 192 chapter for more information).

Example: The Champion Class regains SP by performing Maneuvers, the Barbarian regains SP by taking or scoring Heavy, Brutal, and Critical Hits, and the Rogue regains SP by hitting creatures that are affected by Conditions.

GRIT POINTS

Characters with a high Charisma Attribute have a strong force of will. Grit Points represent a Character being able to push through and go beyond their limits in difficult situations.

MAXIMUM GRIT POINTS

You have a maximum number of Grit Points equal to 2 + your Charisma (minimum of 0 Grit Points).

SPENDING GRIT POINTS

Bearing Damage: When you're Hit by an Attack, you can spend 1 or more Grit Points to reduce the damage you take by 1 per Grit Point spent.

Save Resolve: When you make a Save, you can spend Grit Points to grant yourself ADV on the Save. You must do so before you roll any dice as part of making the Save.

REGAINING GRIT POINTS

You regain all spent Grit Points when you complete a Long Rest.

ACTIONS

Anything that you spend Action Points on is considered an Action.

TAKING AN ACTION

A creature can take an Action on its turn by spending Action Points (AP). The AP cost of taking an Action is listed in the Action's description.

MINOR ACTION

Once per turn, you can perform up to 2 of the following tasks without spending AP. You can't take Actions (such as the Attack Action) between these 2 tasks.

- Open or Close a Door.
- Grab or Release an Item.
- Retrieve or Stow an Item.
- Draw or Sheathe a Weapon.

Additional Minor Actions: You can spend 1 AP to perform a Minor Action again during the same turn.

TYPES OF ACTIONS

A creature can take the following Actions on its turn: Attack, Move, Disengage, Dodge, Grapple, Help, Hide, Object, Shove, and Spell Action.

OFFENSIVE ACTIONS

ATTACK

You can spend 1 AP to make 1 Attack Check.

DISARM

You can spend 1 AP to make an Attack Check contested by the target's Athletics, Acrobatics, or Trickery Check (target's choice), the target has ADV if they're holding the object with 2 hands, you have DisADV if the target is larger than you. You can't Disarm a creature that's 2 Sizes larger than you. **Success:** The targeted object falls into an unoccupied space of your choice within 1 Space of the creature.

GRAPPLE

Using a free hand, you can spend 1 AP to attempt to Grapple another creature within 1 Space. Make an Athletics Check contested by the opposing creature's Acrobatics or Athletics Check. You or the target may have ADV or DisADV on your Check based on each other's size. **Success:** The creature is **Grappled** by you.

MOVING THE TARGET

You can move the target to any Space adjacent to you by spending your own Movement to do so. Alternatively, when you move, you can move the target with you, but you're considered **Slowed** (Every 1 Space you move costs an extra 1 Space of movement).

Multiple Grapplers: If you attempt to move or throw a target (see [“Throw Creature” on page 57](#)) that's also Grappled by 1 or more other creatures, you must make a Contested Athletics Check against all the other Grapplers. **Success:** You move or throw the target as normal and break the Grapple of all other creatures who were also Grappling that target.

ENDING A GRAPPLE

Escape Grapple: The target can spend 1 AP to attempt to free itself from the Grapple. When it does, it makes an Acrobatics or Athletics Check contested by your Athletics Check. **Success:** The Grapple immediately ends.

Incapacitated Grappler: If you become **Incapacitated**, the Grapple immediately ends.

Forced Movement: If an effect attempts to forcibly move the target beyond your reach, you make the Check or Save instead of the target. If the effect targets both you and the target, you make 1 Check or Save for both of you. **Success:** The targets of the effect are not moved. **Failure:** The Grapple immediately ends, and the targets of the effect are moved.

Falling: If the target begins falling (and you don't), the Grapple ends if you can't carry the target's weight. If you can carry its weight, you hold it suspended in the air.

SHOVE

You can spend 1 AP to attempt to push a creature within 1 Space of you. Make an Athletics Check contested by the target's Acrobatics or Athletics Check. **Success:** You push the creature 1 Space away from you or to its left or right. **Success (each 5):** Push up to 1 additional Space.

Knock Prone: After the result, you can choose to reduce the total distance the target is pushed by 1 Space to knock them **Prone** instead.

DC Tip: If you shove a creature into a target, follow the rules for hitting the target in the Collision section.

TACKLE

If you move at least 2 Spaces in a straight line, you can spend 1 AP to attempt to Tackle a creature that's your Size or smaller. Make an Athletics Check contested by the target's Acrobatics or Athletics Check. **Success:** You Grapple the target and you both move 1 Space in the same direction you're moving then immediately fall **Prone**. **Success (each 5):** +1 Space moved.

DEFENSIVE ACTIONS

Disengage

You can spend **1 AP** to impose DisADV on Opportunity Attacks made against you until the start of your next turn.

Full Disengage: When you take the Disengage Action, you can spend an additional **1 AP** to become Immune to Opportunity Attacks until the start of your next turn.

Dodge

You can spend **1 AP** to impose DisADV on the next Attack or Grapple made against you before the start of your next turn.

Full Dodge: When you take the Dodge Action, you can spend an additional **1 AP** to impose DisADV on all Attacks or Grapples made against you until the start of your next turn.

Hide

You can spend **1 AP** to attempt to Hide from 1 or more creatures that can't see you (Unseen). Make a Stealth Check against any opposing creatures' Passive Awareness. **Success:** You become **Hidden** from creatures whose Passive Awareness you beat (making you Unseen and Unheard by them). You remain **Hidden** until you make a noise louder than a whisper, make an Attack, cast a Spell with a Verbal Component, or a creature takes the Search Action and successfully locates you.

See "[Hidden Creatures](#)" on [page 163](#) for more on hiding.

DC Tip: When you take the Hide Action and beat an enemy's Passive Awareness, you only become Hidden from that creature because it can't see or hear you (you are both Unseen and Unheard). However, if your Stealth Check beats one enemy's Awareness Score but not another's, then you are Hidden from the first enemy, but you're not Hidden from the second enemy.

UTILITY ACTIONS

Move

You can spend **1 AP** to move up to your Speed in Spaces (default of 5). You choose where to move, and can break up your movement by moving before and after taking a different Action. You can't end your turn in a Space occupied by another creature.

Example: A creature with **4 AP** can take the Move Action to move 1 Space, take the Attack Action, move 1 Space again (2 total Spaces), take the Attack Action again, and then move 2 Spaces again (4 total Spaces).

Help

You can spend **1 AP** to grant another creature a **d8** Help Die that lasts until the start of your next turn. Upon granting the Help Die, you must declare which creature you're Helping and the type of Check you'll be aiding them with, while meeting the following conditions:

Attack: You declare 1 target for the Attack. You must be within 1 Space of the Attacker or the target of the Attack. While the Help Die lasts, it can be added to an Attack made against the target.

Skill or Trade Check: You declare a type of Skill or Trade Check. You describe how you're Helping them and must do so with a Skill or Trade that you have at least 1 Mastery Level in. You can use the same Skill or Trade or a different one.

The Help Die can only be used to aid the type of Check declared and disappears once it's used.

Multiple Help Penalty: Once you take the Help Action, each time you take the Help Action again before the end of your turn, your Help Die decay by 1 step, to a minimum of a **d4** ($d8 > d6 > d4$). These Help Dice only decay when using the Help Action. Help Die granted by other sources decay independently of any Help Dice grant through the Help Action.

Example: A Barbarian is about to wrestle an alligator and will need to make an Athletics Check. A Hunter with Mastery in the Animal Skill can grant the Barbarian a Help Die to add to their Athletics Check made to wrestle the alligator.

DC Tip: When taking the Help Action, the GM may allow the PC to contribute to a Skill or Trade Check by using something other than their own Skill or Trade Mastery. If the PC is a Wizard, they may try to use a Spell to contribute to another creature's Skill or Trade Check, but only if the GM decides that it makes sense to do so.

Object

You can spend **1 AP** to perform 1 of the following object interactions:

- Drink a Potion or Administer a Potion to another Creature.
- Attempt to Lock or Unlock a Lock.
- Make a Trickery Check to activate or disable a trap or other mechanism.
- Transfer an Item to or from another Creature (only 1 of the two creatures spends 1 AP).
- Throw an Item to location you can see up to 5 Spaces away.

Spell

You can spend 1 or more AP to cast a Spell that you know. If the Spell has a Mana Point requirement, you must spend that much MP to cast the Spell.

Sustained Action

You must spend **1 AP** at the start of each of your turns to Sustain an effect until the start of your next turn. You can't Sustain an effect while **Dazed**. When you become **Dazed**, any effect you're Sustaining ends. You can choose to end the effect at anytime for free.

Outside of Combat: You can only Sustain 1 effect at a time outside of Combat. If you attempt to Sustain a second effect while already Sustaining a first, the first effect immediately ends.

SKILL BASED ACTIONS

A creature can take the following Skill Actions on its turn: Analyze Creature, Calm Animal, Combat Insight, Conceal, Feint, Intimidate, Investigate, Jump, Medicine, Mounted Defense, Pass Through, or Search.

ANALYZE CREATURE

You can spend **1 AP** to attempt to recall or discern some information about a creature that you can see or hear. Make a **DC 10 Knowledge** Check.

Success: You learn a piece of lore about the creature. **Success (each 5):** You learn 1 creature statistic (PD, AD, Attacks, Abilities, Resistances, Vulnerabilities, Immunities, etc.)

DC Tip: There are 5 types of Knowledge Checks related to creature types: **Arcana** (Constructs, Monstrosities, and Oozes), **History** (Dragons, Giants, and Humanoids), **Nature** (Beasts, Elementals, Fey, and Plants), **Occultism** (Aberrations, Fiends, and Undead), and **Religion** (Celestials). If a PC has a custom Knowledge Trade they think might help in the situation, they can ask the GM to use that Knowledge Trade instead.

CALM ANIMAL

You can spend **1 AP** to attempt to beguile a Beast that can see or hear you. Make an Animal Check contested by the target's Repeated Charisma Save.

Success: The animal is **Taunted** by you for 1 minute or until you target it with a harmful Attack, Spell, or other effect. **Success (5):** It's instead **Intimidated**. **Success (10):** It's also **Charmed**.

COMBAT INSIGHT

You can spend **1 AP** to attempt to discern the course of actions a creature might take on its next turn. Make an Insight Check contested by the target's Trickery or Influence Check (its choice).

Success: You learn the target's emotional state and whether it plans to make an Attack, cast a Spell, or flee combat during its next turn. **Success (5):** You know who the creature is likely to target with a harmful ability. **Success (10):** You know which ability the creature plans to use.

DC Tip: If the target is a PC, its player tells you what the creature plans to do. If the target is an NPC, the GM tells you what the creature plans to do.

CONCEAL

You can spend **1 AP** to attempt to hide an object on yourself or in nearby foliage, debris, or decor to render it Hidden. Make a contested Trickery Check against the Passive Awareness of creatures that can see you.

Success: The object is **Hidden** from any creature whose Passive Awareness you beat.

FEINT

You can spend **1 AP** to make a Trickery Check contested by the Insight Check of a creature that can see you within 3 Spaces.

Success: The next Attack against the target before the start of your next turn has ADV and deals +1 damage.

INTIMIDATE

You can spend **1 AP** to attempt to intimidate a creature that can see or hear you within 10 Spaces. Make an Intimidation Check contested by the target's Charisma Save. **Success:** The target is **Intimidated** by you for 1 Round.

INVESTIGATE

You can spend **1 AP** to attempt to uncover a concealed object on a creature, a secret compartment, or the intended function of a mechanism within 1 Space of you.

Concealed Objects: You can attempt to uncover any objects concealed on a creature. Make an Investigation Check contested by the target's Trickery Check.

Success: You know the location of any concealed object on the creature.

Secret Compartments: You can attempt to uncover any secret compartments. Make an Investigation Check against the discovery DC of any secret compartments.

Success: You discover the location of any secret compartments whose discovery DC you beat.

Discern Mechanism: You can attempt to discern the functionality of a mechanism (the effect of a trap, how to open a secret door, or activate a device). Make an Investigation Check.

Success: You learn how the mechanism works and the methods to activate and disable it (if any).

EXTEND JUMP

When you perform a Jump, you can spend **1 AP** to increase your Jump Distance for the Jump. Make a **DC 10 Acrobatics** Check. **Failure:** Your Jump Distance increases by 1. **Success:** Your Jump Distance increases by 2. **Success (each 5):** +1 Jump Distance.

DC Tip: Remember, your Long Jump Distance equals your Jump Distance in Spaces, and your High Jump distance equals your Jump Distance in feet.

MEDICINE

You can spend **1 AP** to touch a creature and tend to its wounds. Make a **DC 10 Medicine** Check. **Success:** You end 1 stack of **Bleeding** on the target. **Success (each 5):** You end 1 additional stack of **Bleeding** on the target.

MOUNTED DEFENSE

You can spend **1 AP** to maneuver a mount you're riding to avoid danger. Make a **DC 10 Animal Check**.

Success: The mount's PD increases by 2 until the start of your next turn. **Success (5):** +2 PD. **Success (10):** +4 PD.

PASS THROUGH

You can spend **1 AP** to attempt to move through a Space occupied by a hostile creature that's within 1 size of you. Make a contested Martial Check against the target.

Success: You can move through the creature's Space as if it were Difficult Terrain (**Slowed** while moving through the area). **Success (5):** You can move through the creature's space without it counting as Difficult Terrain.

SEARCH

You can spend **1 AP** to attempt to locate 1 or more Hidden creatures and concealed objects within your Line of Sight.

Hidden Creatures: You attempt to locate any Hidden creatures in the area. Make an Awareness Check against the Stealth Check of any Hidden creatures. **Success:** You know the location of any Hidden creature whose Stealth Check you beat until the end of your turn. Knowing a creature's location doesn't grant you the ability to see it.

Hidden Objects: You attempt to locate any Hidden objects in the area. Make an Awareness Check against the DC to discover any concealed objects (such as traps, secret doors, or hidden items). **Success:** You discover the location of any Hidden object whose discovery DC you beat.

DC Tip: Without obstruction, a PC's line of sight could reach the horizon. You might ask your PC to make their Awareness Check with Disadvantage to detect a creature that's far away, such as beyond 10 Spaces.

TAUNT

You can spend **1 AP** to attempt to taunt a creature that can see or hear you within 10 Spaces. Make an Influence Check contested by the target's Charisma Save. **Success:** The target is **Taunted** by you for 1 Round.

ADVANCED ACTIONS

HELD ACTIONS

Sometimes the circumstances aren't exactly right for the action you want to take. When that happens, you can choose to wait until just the right moment by Holding your Action. To Hold your Action, you must declare an Action you want to take and state a Trigger. Once you do so, you can't change the Action or Trigger.

Declare Action: When you declare the Action, you must immediately spend the Action Points required to take that Action. The Multiple Check Penalty from this turn applies to any Checks you make as part of this Reaction.

State Trigger: The Trigger must be an observable event, such as "I want to wait until an enemy moves into range to make an Attack against them", "I want to wait until I see my ally get out of range before I shoot the barrel filled with explosives", or something else.

Take Reaction: If the stated Trigger occurs at any time before the start of your next turn, you can take the declared Action as a Reaction. If the Reaction requires you to spend any additional resources (such as Stamina Points or Mana Points) you spend them now. Your Reaction interrupts the events stated in the Trigger, allowing you to act before the events resolve. If the Trigger never occurs, then the declared Action can't be taken and the AP spent is wasted.

Example: It's your turn and you have **2 AP** remaining to spend, but you really want to work together with an ally. You tell the GM that you want to spend **2 AP** on Held Actions. You declare that you will be taking the Move Action and the Attack Action and you spend **2 AP** right now. You also state the Trigger for these Held Actions is "your ally is in melee range of an enemy". Once the Trigger occurs you take those 2 Actions immediately. You take a Move Action to move to the creatures and then you make an Attack Action on a creature. If the creatures are too far away for 1 Move Action (1 AP), then you would only be able to move as far as you can and the Attack Action (1 AP) is wasted since you were not close enough to make an Attack. You can't convert the 1 AP spent on the Attack Action into another Move Action, since that's not what you declared.

DC Tip: PCs can set triggers to be something less specific like, "I'm going to shoot an arrow at the next enemy I see." Just make sure the PC and the GM are on the same page on what the intent of what they're wanting to do is for their Reactions Trigger.

REACTIONS

Reactions are Actions that a creature can take during another creature's turn. A creature can't take a Reaction on their own turn, unless the Reaction allows them to do so in response to another creature's Reaction. Reactions are not affected by the Multiple Check Penalty.

TAKING A REACTION

A creature can take a Reaction on another creature's turn provided it meets the requirements to do so. The requirements to take a Reaction are listed in the Reaction's Prerequisite and Trigger statements. You can only take 1 Reaction per Trigger.

Example 1: When a creature leaves a Martial PC's reach, they would only be able to make 1 Opportunity Attack against the creature (they could still spend AP to perform Martial Enhancements with their Opportunity Attack).

Example 2: When an Attack is made within 1 Space of a Martial PC, the PC could take the Parry Maneuver against the Attack (1st trigger). If the Attack still Hits (2nd trigger), the PC could take the Protection Maneuver to share the damage with the target.

REACTION REQUIREMENTS

Prerequisite: A prerequisite states the Feature (Martial Feature, Spellcasting Feature, or a different Feature) required to gain access to the Reaction.

Trigger: A trigger states the conditions that must be met in order for a creature to take the Reaction.

SPENDING RESOURCES

If a Reaction has a resource cost (Action Points, Mana Points, Stamina Points, etc.), a creature must spend those resources to take the Reaction.

Regaining Resources: Reactions give a creature an opportunity to spend Action Points during another creature's turn. If a creature spends Action Points, they'll have less Action Points to spend on their next turn. Any spent Action Points are not regained until the end of a creature's turn.

Example: If you take a Reaction to spend 1 Action Point, on your next turn you will only have 3 Action Points to use (4 - 1 = 3).

DC Tip: If you somehow manage to spend all 4 of your AP before your turn, then you would have 0 AP at the start of your next turn. You wouldn't be able to do anything, so your turn would immediately end and you'd get your 4 AP back.

Multiple Reactions: A creature can spend Action Points to take multiple Reactions provided they meet all the conditions and can spend enough resources to do so.

TYPES OF REACTIONS

OPPORTUNITY ATTACK

Prerequisite: Martial Path

Trigger: A creature you can see within your Melee Range uses its movement to leave your Melee Range, draws a Weapon or Spell Focus, picks an item up off the ground, or takes the Object Action.

Reaction: You can spend 1 AP to make a Melee Martial Attack against the provoking creature.

DC Tip: You can spend additional AP to gain ADV or to perform Maneuvers with the Attack.

SPELL DUEL

Prerequisite: Spellcasting Path

During a Spell Duel, the creature casting the Spell is referred to as the **Caster** and the opposing creature is referred to as the **Challenger**.

If multiple creatures attempt to initiate a Spell Duel, one of them must be chosen as the **Challenger**, while the others assist them through **Combo Casting**. Additional creatures can also choose to assist the **Caster** when a Spell Duel is initiated (see "[Combo Spellcasting](#)" on page 67 for more information).

Trigger: You see an MP Effect being cast, provided the **Caster** or a target is within 5 Spaces of you.

Reaction: You can spend an amount of AP and 1 or more MP (up to your Mana Spend Limit) to attempt to stop the **Caster's** MP Effect. The amount of AP spent is equal to the base AP cost of the MP Effect you're trying to stop.

CONTEST

Make a Spell Check contested by the Spell Check or Spell Attack that the **Caster** makes to cast their MP Effect. If the **Caster's** MP Effect doesn't require a Check, they have to make a Spell Check as a Reaction as part of the Spell Duel. For the purposes of the Spell Duel, the **Caster** and **Challenger** each gain a bonus to their Check equal to twice the MP spent they spent respectively.

Beta Note: Since enemies don't have MP costs for their MP Effects, you can assume their MP Effects cost an amount of MP equal to half their Level (rounded up).

OUTCOMES

Success: The **Caster's** MP Effect fails and has no effect.

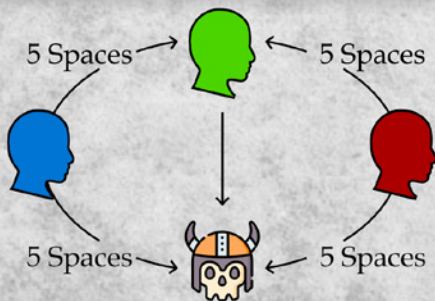

Failure: The **Caster's** MP Effect succeeds and takes effect. The Check bonus gained from MP spent doesn't apply to the MP Effect's Success and Failure Statements.

Tie: The **Caster's** MP Effect fails, has no effect, and you each roll on the **Wild Magic Surge Table**. The effect from the table lasts until 1 Round has passed.

Resources Lost: Whatever the result, each creature still spends all AP, MP, or other resources as normal.

Example: A Caster makes an MP based Spell Attack and a Challenger attempts to stop it. The Caster's Spell Attack cost 1 AP and 2 MP. The Challenger must spend 1 AP and at least 1 MP to attempt to stop the Spell Attack. The Caster makes an Attack Check (since its a Spell Attack) and the Challenger makes a Spell Check. The Caster gets a +4 bonus to their Attack Check (2 MP spent) and the Challenger gets a +2 bonus to their Spell Check (1 MP spent). Should the Caster win the Contest, their MP Effect takes effect but they don't include the +4 bonus from MP spent to determine if they score a Heavy Hit or higher.

SPELL DUEL

Caster Target
 Participant Participant Challenger

WILD MAGIC TABLE

D20 WILD SURGE OUTCOME

- 1 You turn into a small creature with the stats of a **Sheep** (HP 2, PD & AD 5, Melee Attack +2, Damage 1).
- 2 A wave of magic explodes out from you. You take True damage equal to your Prime Modifier and creatures within 5 Spaces must succeed a Physical Save against your Save DC or take the same amount of damage.
- 3 You are **Stunned 3**.
- 4 You are overcome by a wave of lethargy. You have DisADV on all Checks and Saves.
- 5 You are **Stunned 1**.
- 6 You are **Blinded** and **Deafened**.
- 7 All living creatures become **Invisible** to you.
- 8 You gain a d4 penalty on all Checks and Saves.
- 9 You grow by 1 size, become 2 times heavier, and your Speed is reduced by 2.
- 10 A strong gravitational pull originates from you. All creatures within 5 Spaces must make a Might Save or be pulled 4 Spaces toward you.
- 11 Forceful winds shoot out from you in all directions. All creatures within 5 Spaces (except you) must make a Might Save or be pushed 4 Spaces away from you.
- 12 You grow by 1 Size, become one and a half times heavier, and your Speed is increased by 2.
- 13 You gain a d4 bonus on all Checks and Saves.
- 14 You gain a Truesight of 10 Spaces.
- 15 You become **Invisible**.
- 16 Your maximum AP increases by 1 and you gain 1 AP.
- 17 You become energized. You have ADV on all Checks and Saves.
- 18 You gain a surge of power, granting you **+5** to all Spell Checks you make.
- 19 You overflow with life energy. You and creatures within 5 Spaces regain HP equal to your Prime Modifier.
- 20 You turn into a large creature with the statistics of a **Young Purple Dragon**, but without a Breath Weapon (HP 30, PD & AD 16, Attack +10, Damage 4, Fly Speed 6).

MARTIAL CHAPTER

Martial characters in DC20 don't merely fight - they wage war with precision, discipline, and skill that elevates them far beyond the capabilities of an ordinary sword-wielder. Their prowess is represented through a specialized combat system which includes:

- **Maneuvers:** Tactical feats of strength, speed, and finesse used to control the battlefield.
- **Enhancements:** Modifications to Maneuvers that add extra impact, reach, area effects, or debilitating conditions, or upgrades that empower Martial Attacks with increased damage, range, or area of effect.

MANEUVERS

Maneuvers are the signature techniques of martial combatants; deliberate, high-impact actions that go beyond basic attacks. Whether it's a sweeping strike to knock enemies back or a sudden burst of speed to reposition, Maneuvers allow warriors to control the flow of battle with skill and force.

MANEUVERS KNOWN

Martial Classes (Barbarian, Champion, Commander, Hunter, Rogue, Monk, and Spellblade*) know a number of Maneuvers as shown in the Maneuvers Known column of their Class Tables, plus any Maneuvers learned from Class Features, Talents, or Martial Path progression (see "[Character Paths](#)" on page 192 for more information).

MANEUVER RESOURCES

Each Maneuver has a minimum number of Action Points (AP) that must be spent to perform it. Many Maneuvers also include a minimum number of Stamina Points (SP) that must be spent to perform them. This is known as the Base SP Cost of a Maneuver.

ACTION POINTS

Performing any Maneuver requires spending Action Points (AP). Maneuvers that affect a single target typically cost 1 AP, while those that affect multiple targets usually cost 2 AP.

STAMINA POINTS

Some Maneuvers have an SP cost that you must spend to perform them. The maximum amount of SP you can spend on a single Maneuver must be equal to or lower than your **Stamina Spend Limit** (see "[Combat Resources](#)" on page 41 for more information on Stamina Points).

DC Tip: Remember, your Stamina Spend Limit is equal to your Combat Mastery.

MANEUVER CHARACTERISTICS

DURATION

Maneuvers can either be instantaneous or continuous in their duration, and some Maneuvers require you to Sustain them in order to keep them going (see the "[Sustained Action](#)" on page 44 for more information).

- **Instantaneous:** Instantaneous Maneuvers take effect the moment they're performed.
- **Continuous:** These Maneuvers last a specified amount of time. They often end early when the affected creature Succeeds on a subsequent Save against the effect, it or another creature within 1 Space performs an Action to end the effect, or some other method stated to end the effect occurs (such as breaking line of sight).
- **Sustained:** Some effects require you to Sustain them or they end.

RANGE

This is the distance within which a target of the Maneuver, or the origin of its Area of Effect, must be. When selecting the targets of your Maneuver, they must be within the listed Range and fulfill any other listed requirement of the Maneuver (such as being visible or capable of hearing you). If the chosen Maneuver uses an Area of Effect to determine its targets, the origin of the Maneuver must be within its listed Range (see "[Areas of Effect](#)" on page 157 for more information).

PERFORMING A MANEUVER

In order to perform a Maneuver, you must know the Maneuver and spend the required amount of Resources (Action Points and Stamina Points). When you perform a Maneuver, you must make a Check (such as an Attack Check or Martial Check) to determine the Maneuver's degree of success or failure. Your Check is compared against the target's Defense (such as PD or AD), the Maneuver's DC, or the target's Contested Check.

ENHANCEMENTS

Enhancements amplify the impact of a character's offense, turning well-executed strikes into devastating blows. They can increase damage, extend range, affect wider areas, or inflict conditions, allowing martial characters to adapt to the shifting demands of battle.

MANEUVER ENHANCEMENTS

Maneuver Enhancements allow you to spend additional AP or SP to increase the Maneuver's potency (such as damage, duration, range, number of targets, or Area of Effect). Maneuver Enhancements are specific to each Maneuver and are included in a Maneuver's description.

PERFORMING A MANEUVER ENHANCEMENT

When you perform a Maneuver, you can spend additional SP to add a Maneuver Enhancement with the Maneuver. If the Maneuver requires a Check (such as an Attack Check or Martial Check), you must choose to add the Maneuver Enhancement before you make the Check. You can perform the same Maneuver Enhancement multiple times per Maneuver, unless stated otherwise.

MARTIAL ENHANCEMENTS

Martial Enhancements empower a character's Martial Attacks with added force and versatility. By spending Action Points, a combatant can strike harder, reach farther, or break a foe's focus. These enhancements allow martial characters to elevate even their simplest strikes into potent tools of war, adapting on the fly to pressure, positioning, or opportunity. Some Attack Enhancements require a certain type of Weapon to perform (see ["Equipment" on page 164](#) for more information).

Example: When you make an Attack with an Axe against 3 creatures using the **Whirlwind Maneuver**, you can spend 1 AP to add the **Martial Enhancement: Damage** and 1 AP to add the **Attack Enhancement: Bleeding** available only to Axes. 1 target of your choice takes +1 damage from the Attack and another target of your choice (can be the same target) must make a Save against your Save DC to avoid **Bleeding**.

PERFORMING A MARTIAL ENHANCEMENT

When you make a Martial Attack, you can spend 1 additional AP or SP to add a Martial Enhancement to the Attack. You must choose to add the Martial Enhancement before you make the Attack Check. You can perform the same Enhancement multiple times per Attack, unless stated otherwise.

DC Tip: Don't forget anyone can spend an additional 1 AP to gain ADV on their Attack Check.

MARTIAL ENHANCEMENTS

All characters with Weapon Combat Training gain access to the following Martial Enhancements:

- **Damage:** The Attack deals +1 damage against 1 target of the Attack.
- **Range:** The Attack's Range increase by 1 Space if it's a Melee Attack, or by 5 Spaces if it's a Ranged Attack. This Enhancement can only be performed once per attack.
- **Daze:** A creature of your choice targeted by the Attack makes a Might Save against your Save DC. **Save Failure:** The target becomes **Dazed** until the end of their next turn.

DC Tip: Remember, a **Dazed** creature can't Sustain any effects at the start of their turn! While Martial characters can't stop a Spell from being cast like a Spellcaster can with a Spell Duel, a Martial Character can more easily disrupt a Sustained Spell by causing the Spellcaster to lose focus.

Example: You spend 2 AP and 1 SP on an Attack against an enemy creature. 1 AP to take the **Attack Action** (make 1 Attack Check), 1 AP to add the **Martial Enhancement: Damage** to deal +1 damage, and 1 SP to add the **Martial Enhancement: Range** to grant your Attack some extra range.

CATEGORIZING MANEUVERS

MANEUVER TYPES

There are several types of Maneuvers that allow you to produce a variety of powerful effects.

ATTACK

Focused on delivering powerful, aggressive strikes, Attack Maneuvers deal damage, and are the core of a martial character's offensive toolkit—optimized for impact, precision, or area control.

DEFENSE

Defense Maneuvers reinforce durability and survival. Whether by parrying incoming blows, bracing against force, or redirecting attacks, these Maneuvers let martial characters hold the line and protect themselves or allies under pressure.

GRAPPLE

Grapple Maneuvers specialize in close-quarters control: pinning, restraining, or throwing enemies. These Maneuvers allow a combatant to dominate a single opponent by controlling their movement and actions.

UTILITY

Utility Maneuvers offer battlefield versatility beyond direct combat. They may include repositioning, movement tricks, environmental interaction, intimidation, or setting up allies for success. These Maneuvers shift the flow of battle through clever use of space and timing.

ADVANCED MANEUVERS

COMBO MANEUVERS

Prerequisite: Martial Path

During a Combo Maneuver, the creature performing the SP Effect is referred to as the **Performer** while the other creatures assisting are called **Participants**.

Trigger: You can see an SP Effect you know being performed, provided the SP Effect's **Performer** or a target is within 2 Space of you.

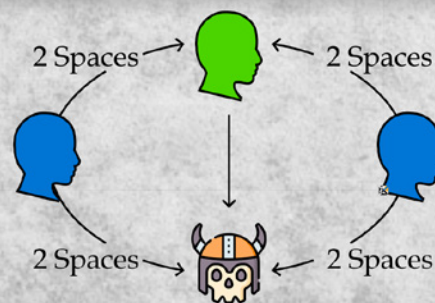

Reaction: You can spend an amount of AP equal to the base AP cost of the SP Effect you are trying to assist. When you do, the SP Effect gains a +2 bonus to its Check and Save DC for this turn.

Spending SP: You can choose to spend 1 or more SP to add SP Enhancements to the **Performer's** SP Effect (up to your Stamina Spend Limit).

Example: Martials A & B each have a Stamina Spend Limit of 3. Martial A spends **1 AP** and **3 SP** to perform the Bash Maneuver. Martial B can also spend **1 AP** and **3 SP** as a Reaction to increase the total SP spent on the Maneuver to 6 (the Stamina Spend Limit of both Martials together). Martial A then gains a **+2** bonus to their Martial Attack.

DC Tip: Martials must be within 2 Spaces of each other when performing a Combo Maneuver but they can spend Stamina Points up to each of their Stamina Spend Limits together. However, Spellcasters performing a Combo Spellcasting can do so from a range of 5 Spaces but they can only spend a total amount of Mana Points equal to only the Caster's Mana Spend Limit.

COMBO MANEUVERS

 Performer  Participant  Target

MANEUVERS

ATTACK MANEUVERS

Focused on delivering powerful, aggressive strikes, Attack Maneuvers deal damage, and are the core of a martial character's offensive toolkit—optimized for impact, precision, or area control.

HEROIC BASH

The force of your Attack pushes the target away.

- **Cost:** 1 AP + 1 SP
- **Range:** Weapon or Unarmed Strike

Make a Melee Martial Attack against the PD of a target within range, and it makes a Might Save against your Save DC. **Hit:** The target takes the damage of your Weapon or Unarmed Strike. **Save Failure:** The target is pushed 1 Space away from you. **Save Failure (each 5):** The target is pushed up to 1 additional Space.

Knock Prone: After the result, you can choose to reduce the total distance a target is pushed by 1 Space to knock them **Prone** instead.

Airborne: When you choose to push them upward into the air, the distance they're pushed is halved.

MANEUVER ENHANCEMENTS

Increased Distance: (X SP) The distance pushed increases by X Spaces.

Bowling Ball: (1 SP) If the target collides with another creature as part of this movement, the creature it collides with must make a Might Save against your Save DC. **Save Failure:** The target is knocked **Prone**. **Save Failure (each 5):** The target is also pushed 1 Space away from you.

SAVAGE STRIKE

You cause a creature to bleed with the ferocity and precision of your attack.

- **Cost:** 1 AP + 1 SP
- **Range:** Weapon or Unarmed Strike

Make a Martial Attack against the PD of a target within range, and it makes a Repeated Physical Save against your Save DC. **Hit:** The target takes the damage of your Weapon or Unarmed Strike. **Save Failure:** The target becomes **Impaired** or begins **Bleeding** (your choice) for 1 minute.

MANEUVER ENHANCEMENTS

Improved Bleed: (X SP) On a failed Save, the target gains **Bleeding X** for the duration.

Improved Impaired: (X SP) On a failed Save, the target gains **Impaired X** for the duration.

Weakened: (2 SP) On a failed Save, the target is **Weakened** for the duration.

SUNDER STRIKE

You make a target vulnerable to Physical damage.

- **Cost:** 1 AP + 2 SP
- **Range:** Weapon or Unarmed Strike

Make a Martial Attack against the PD of a target within range, and it makes a Physical Save against your Save DC. **Hit:** The target takes the damage of your Weapon or Unarmed Strike. **Save Failure:** The target gains Physical Vulnerability (1) for 1 Round.

MANEUVER ENHANCEMENTS

Improved Vulnerability: (2 SP, Repeatable) The Vulnerability increases by 1.

Break DR: (1 SP) On a failed Save, the target doesn't benefit from PDR for the duration.

Break Resistance: (2 SP) On a failed Save, the target doesn't benefit from Physical Resistance for the duration.

SWIFT STRIKE

You move around the area, attacking 1 creature you pass along the way.

- **Cost:** 1 AP + 1 SP
- **Range:** Weapon or Unarmed Strike

You move a number of Spaces up to your Speed and make a Melee Martial Attack against the PD of 1 target within your Melee Range at any point during this movement. **Hit:** The target takes the damage of your Weapon or Unarmed Strike.

MANEUVER ENHANCEMENTS

Disengage: (1 SP) This movement doesn't provoke Opportunity Attacks.

Subsequent Strike: (1 AP + 1 SP, Repeatable) You gain additional movement equal to half your Speed and you can target an additional creature using the same Attack Check.

METEOR STRIKE

A mid-air strike.

- **Cost:** 1 AP + 1 SP
- **Range:** Weapon or Unarmed Strike

Your Jump Distance increases by 2, you Jump up to your Jump Distance without spending movement (provided you can move), and make a Melee Martial Attack against a target within range at any point during your jump or where you land.

Reaction: You can spend an additional 1 SP to perform this Maneuver as a Reaction to a creature entering a Space within your Jump Distance that's at least 1 Space above the ground.

DC Tip: Remember, your Long Jump Distance equals your Jump Distance in Spaces, and your High Jump distance equals your Jump Distance in feet.

MANEUVER ENHANCEMENTS

Falling Strike: (1 SP) The creature makes a Physical Save against your Save DC. **Save Failure:** The creature falls **Prone**.

Slam Down: (1 SP, Requires Falling Strike) On a failed Save, the target doesn't benefit from any ability that prevents it from falling as a result of being knocked **Prone** in midair until the end of the turn.

Impact Crater: (1 AP + 1 SP) All creatures within a 1 Space aura of where you land must make a Physical Save against your Save DC. **Save Failure:** The creature falls **Prone**.

Larger Crater: (2 SP, Repeatable, Requires Impact Crater) The size of the Aura increases by 1.

CLEAVE

You swing wide to attack targets around you.

- **Cost:** 2 AP
- **Range:** 2 Space Arc (Self)

Make an Area Martial Attack against the AD of every target within range. **Hit:** The target takes the damage of your Weapon or Unarmed Strike.

Reach Weapon: If you have a Reach Weapon, you can extend the Point of Origin 1 Space away from you. The Arc must still be facing away from you.

MANEUVER ENHANCEMENTS

Damage: (2 SP, Repeatable) The damage increases by 1.

Area: (2 SP, Repeatable) The Arc increases by 1 Space.

Careful Cleave: (X SP) You can choose X targets in the area to avoid with the Attack.

Sweep: (2 SP) Each target makes an Agility Save. **Save Failure:** The target is knocked **Prone**.

WHIRLWIND

You attack in a circle around you, attacking everyone within range.

- **Cost:** 2 AP
- **Range:** 1 Space Aura

Make an Area Martial Attack using a Melee Weapon or Unarmed Strike against the AD of every target within range. **Hit:** The target takes the damage of your Weapon or Unarmed Strike.

Reach Weapon: If you have a Reach Weapon, you can choose to increase the Aura by 1 Space. When you do, you can't Attack targets within 1 Space of you.

MANEUVER ENHANCEMENTS

Damage: (2 SP, Repeatable) The damage increases by 1.

Area: (2 SP, Repeatable) The Aura increases by 1 Space.

Vortex: (2 SP, Repeatable) Each target makes a Might Save. **Save Failure:** The target is pushed up to 1 Space horizontally in a direction of your choice. The target is moved 1 additional Space each time you use this Enhancement.

PATHCARVER

You attack every creature in a line.

- **Cost:** 2 AP
- **Range:** 4 Space Line (Self)

Make an Area Martial Attack with a Melee Weapon or Unarmed Strike against the AD of every target in a 4 Space Line. **Hit:** The target takes the damage of your Weapon or Unarmed Strike.

After Attacking, you can move to any Space within 1 Space of the area without provoking Opportunity Attacks from the targets and without spending your movement.

Reach Weapon: If you have a Reach Weapon, you can extend the Point of Origin 1 Space away from you. When you do, the Line must extend in a direction away from you.

MANEUVER ENHANCEMENTS

Damage: (2 SP, Repeatable) The damage increases by 1.

Increase Length: (1 SP, Repeatable) The length of the Line increases by 2 Spaces.

Carved Path: (2 SP, Repeatable) Each target makes a Might Save. **Save Failure:** The target is pushed 1 Space horizontally out of the area in a direction of your choice. The target is moved 1 additional Space each time you use this Enhancement.

PIERCING SHOT

You fire a powerful shot that pierces through creatures in a line.

- **Cost:** 2 AP
- **Range:** Ranged Weapon or Weapon with the Toss or Thrown Property

Make an Area Martial Attack against the AD of every target within a 8 Space Line that's Point of Origin is within Range. The Line must extend away from you. **Hit:** The target takes the damage of your Weapon.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

DC Tip: Remember, you have DisADV on any Attack beyond your Weapon's **Normal Range**.

MANEUVER ENHANCEMENTS

Damage: (2 SP, Repeatable) The damage increases by 1.

Area: (1 SP, Repeatable) The length of the Line increases by 4 Spaces.

Penetrating Shot: (1 SP) The Attack ignores Cover but is blocked by 6 inches (15 cm) of wood or soft earth (dirt, mud, or sand), or 1 inch (25 mm) of metal or rock.

SCATTERSHOT

You unleash a cone of projectiles.

- **Cost:** 2 AP
- **Range:** Self
- **Requirements:** Ranged Weapon

Make an Area Martial Attack against the AD of every target within a 3 Space Cone. **Hit:** The target takes the damage of your Weapon.

MANEUVER ENHANCEMENTS

Damage: (2 SP, Repeatable) The damage increases by 1.

Area: (2 SP, Repeatable) The length of the Cone increases by 1 Space.

Stagger: (1 SP) Each creature makes a Might Save. **Save Failure:** The target is unable to take Reactions for 1 Round.

VOLLEY

You bombard an area with a series of projectiles.

- **Cost:** 2 AP
- **Range:** Ranged Weapon

Make an Area Martial Attack against the AD of every target within a 3 Space Diameter Sphere that's Point of Origin is within Range. **Hit:** The target takes the damage of your Weapon.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

DC Tip: Remember you have DisADV on any Attack beyond your **Normal Range** and you can't attack beyond your **Long Range**.

MANEUVER ENHANCEMENTS

Damage: (2 SP, Repeatable) The damage increases by 1.

Area: (2 SP, Repeatable) The diameter of the Sphere increases by 1 Space.

Rain of Fire: (1 SP) Targets within the area don't gain the benefits of 1/2 Cover against this Attack.

Suppressive Fire: (2 SP) Each creature makes a Charisma Save. **Save Failure:** The creature becomes **Hindered** for 1 Round

DEFENSE MANEUVERS

Defense Maneuvers reinforce durability and survival. Whether by parrying incoming blows, bracing against force, or redirecting attacks, these Maneuvers let martial characters hold the line and protect themselves or allies under pressure.

DC Tip: If you use a Maneuver as a Reaction to an Attack (such as Parry, Brace, and Evade), you must decide to use the Maneuver before the GM says the result of the Check.

PARRY

You deflect an attack.

- **Cost:** 1 AP
- **Range:** Self (or 1 Space if wielding a Melee Weapon or Shield)

Trigger: A target you can see within range (including yourself) is targeted by an Attack against its PD.

Reaction: You grant the target a +5 bonus to its PD against this Attack.

MANEUVER ENHANCEMENTS

Alert: (1 SP) The Attacker's next Attack this turn against the target has DisADV.

Disarm: (1 SP) If the Attacker is within 1 Space of you or the target, they make a Physical Save. **Save Failure:** The target drops the Weapon used for the Attack to the ground once the Attack is resolved. **Save Failure (5):** You gain possession of the Weapon, provided you have a free hand to hold it.

BRACE

You stand firm against an attack.

- **Cost:** 1 AP
- **Range:** Self (or 1 Space if wielding a Shield)

Trigger: A target you can see within range (including yourself) is targeted by an Attack against its AD.

Reaction: You grant the target a +5 bonus to its AD against this Attack.

MANEUVER ENHANCEMENTS

Targets: (1 AP, Repeatable) You can target 1 additional creature within range that's also targeted by the same Attack.

Grapple: (1 SP) If the Attacker is within 1 Space of you, they make a Physical Save. **Save Failure:** The Attacker becomes Grappled by you once the Attack is resolved.

SIDE STEP

You avoid an enemy attack by quick repositioning.

- **Cost:** 1 AP
- **Range:** Self

Trigger: You're targeted by an Attack.

Reaction: You impose DisADV on the Attack against you. You can move 1 Space after the Attack, provided you stay within range of the Attack.

MANEUVER ENHANCEMENTS

Evasion: (1 SP) You gain ADV on any Saves imposed by the Attack.

Disengage: (1 SP) Movement made as part of this Maneuver doesn't provoke Opportunity Attacks.

Slip Away: (1 SP) You can move up to your Speed instead of 1 Space and you no longer need to stay in range of the Attack.

PROTECT

You take damage for a nearby ally.

- **Cost:** 1 AP
- **Range:** 1 Space

Trigger: A target you can see within range is Hit by an Attack.

Reaction: The damage of the Attack is shared between you and the target. The damage you take bypasses any Damage Reduction you have.

MANEUVER ENHANCEMENTS

Targets: (1 AP, Repeatable) You can target 1 additional creature within range that's also targeted by the same Attack.

Taunt: (1 SP) The attacker makes a Charisma Save. **Save Failure:** They're **Taunted** by you for 1 Round.

Heroic Protect: (2 SP) The Attack made against your target is made against you instead. You take all of the damage and effects instead of them, and if the Attack is accompanied by a Save (as with a **Dynamic Attack Save**), you make the Save instead of the target. If you were also originally a target of the Attack, you resolve both separately.

Resistance: (1 SP) You gain Resistance (Half) to any damage you take from using this Maneuver. The cost of this Enhancement increases by 1 SP if you use the **Heroic Protect Enhancement**.

ENDURE

You push through an attack.

- **Cost:** 1 AP + 1 SP
- **Range:** Self (or 1 Space if wielding a Shield)

Trigger: A target you can see within range (including yourself) is Hit by an Attack.

Reaction: The target takes 1 less damage from the Attack.

MANEUVER ENHANCEMENTS

Heroic Endure: (X SP) The target takes X less damage from the Attack.

Steadfast: (1 SP) The target isn't Vulnerable to damage from the Attack.

Repel: (X SP) After the Attack, if the Attacker is within 1 Space of you or the target, they make a Might Save against your Save DC. **Save Failure:** They are pushed X Spaces away. **Save Failure (each 5):** +1 Space pushed.

RESOLVE

You take a moment to catch your breath and refocus.

- **Cost:** 1 AP + 1 SP
- **Range:** Self

Make a **DC 15** Martial Check. **Failure:** You gain 2 Temp HP for 1 Round. **Success:** You gain 3 Temp HP for 1 Round. **Success (each 5):** +1 Temp HP.

MANEUVER ENHANCEMENTS

Increased Temp HP: (1 SP, Repeatable) You gain +2 Temp HP.

Physical Resolve: (1 SP) You gain ADV on Physical Saves for the duration.

Mental Resolve: (1 SP) You gain ADV on Mental Saves for the duration.

SWAP

You swap places with a nearby creature.

- **Cost:** 1 AP
- **Range:** 1 Space

You swap Spaces with a willing creature within range. If you or the target creature provoke Opportunity Attacks as a result of swapping Spaces, those Attacks are all made against you.

Reaction: You can spend an additional 1 SP to perform this Maneuver as a Reaction in response to a creature within 1 Space being Attacked. When you do, you also impose DisADV on the Attack against them.

MANEUVER ENHANCEMENTS

Escape: (1 SP) The target can immediately move up to its Speed after swapping Spaces.

Seamless Swap: (1 SP) Swapping Spaces doesn't provoke any Opportunity Attacks.

Hostile Swap: (1 SP) You can target an unwilling creature. When you do, make a Martial Check against the target's Physical Save. **Check Success:** You swap Spaces with them.

GRAPPLE MANEUVERS

Grapple Maneuvers specialize in close-quarters control: pinning, restraining, or throwing enemies. These Maneuvers allow a combatant to dominate a single opponent by controlling their movement and actions.

SLAM

You slam a Grappled creature.

- **Cost:** 1 AP
- **Range:** Melee

Make a Melee Martial Attack against the target's AD. **Hit:** The target takes 1 Bludgeoning damage.

MANEUVER ENHANCEMENTS

Finishing Slam: (1 SP) You deal 2 additional damage. The Grapple ends.

Stunned: (2 SP, Repeatable) The target makes a Physical Save. Save Failure: They are **Stunned 1** for 1 Round. You can use this Enhancement a maximum of two times.

Wall Rake: (X SP) You slam 1 **Grappled** creature into a wall within 1 Space and move up to X Spaces along the wall, ending your movement within 1 Space of the wall. The target makes a Repeated Might Save against your Save DC. **Save Failure:** They gain **Bleeding X** per Space moved.

RESTRAIN

You restrain a grappled target.

- **Cost:** 1 AP + 1 SP
- **Range:** Melee

You make a Martial Check against the target's Repeated Physical Save. **Contest Success:** The target is **Restrained** until the Grapple ends.

DC Tip: A creature can spend 1 AP to attempt to break a Grapple (see "Grapple" on page 43 for more information).

MANEUVER ENHANCEMENTS

Prone: (1 SP) The target also falls **Prone** (you don't fall **Prone** unless you choose to do so).

Chokehold: (2 SP) The target also can't speak or breathe until they are no longer **Restrained** by you.

DC Tip: A creature that can't breathe begins holding their breath. In Combat, a creature's **Breath Duration** is equal to its Might (minimum of 1) in Rounds.

BODY BLOCK

You reposition a grappled creature to shield yourself from damage.

- **Cost:** 1 AP + 1 SP
- **Range:** Melee

Trigger: A creature that's not Grappled by you Hits you with an Attack.

Reaction: Make a Martial Check against the Grappled target's Might Save. **Check Success:** The damage from the Attack is shared by you and the Grappled creature, and you can move the Grappled creature to any Space adjacent to you immediately afterwards.

DC Tip: If the triggering Attack involved a Save (as with a Dynamic Attack Save) that moves you or your Grapple target out of your reach, you can still perform this Maneuver to resolve the damage (as if it the Hit happens moments before the forced movement).

MANEUVER ENHANCEMENTS

Switch: (1 SP) After you complete the Reaction, you switch places with the Grappled target. This movement doesn't provoke Opportunity Attacks against either you or the target.

Partial Block: (1 SP) Your portion of the shared damage is reduced to 0.

Full Block: (2 SP) The Attack made against you is made against the Grappled creature instead. They take all of the damage and effects instead of you, and if the Attack is accompanied by a Save (as with a **Dynamic Attack Save**), they make the Save instead of the you. If they were also originally a target of the Attack, they resolve both separately.

THROW CREATURE

- **Cost:** Throw (1 AP)
- **Range:** Melee

When you throw a creature using the **Throwing** rules, you can add the following Maneuver Enhancements. When you do, you're considered to be performing a Maneuver. See "Throwing" on page 161 for more information.

DC Tip: Remember, throwing a creature ends the Grapple.

MANEUVER ENHANCEMENTS

Increased Throw: (X SP) The target is thrown X Spaces further.

Skyward: (2 SP) Your throw distance isn't halved for vertical throws.

Prone: (1 SP) The target also falls **Prone**.

UTILITY MANEUVERS

Utility Maneuvers offer battlefield versatility beyond direct combat. They may include repositioning, movement tricks, environmental interaction, intimidation, or setting up allies for success. These Maneuvers shift the flow of battle through clever use of space and timing.

RECOVER

You take a moment to catch your breath and refocus.

- **Cost:** 1 AP
- **Range:** Self

You attempt to spend Rest Points to regain HP equal to the Rest Points spent. Make a **DC 15** Martial Check. **Failure:** You can spend 2 Rest Points. **Success:** You can spend up to 3 Rest Points. **Success (each 5):** You can spend 1 additional Rest Point.

MANEUVER ENHANCEMENTS

Increased Healing: (1 AP or 1 SP, Repeatable) You can spend 1 additional Rest Point.

Repeat Save: (1 AP or 1 SP) You can repeat a Save against an effect you're subjected to.

HEROIC PASS THROUGH

When you take the Pass Through Action, you can add the following Maneuver Enhancements. When you add a Maneuver Enhancement (or perform the Action using SP), you're considered to be performing a Maneuver.

Stamina Action: You can spend **SP** instead of **AP** to perform the **Pass Through** Action.

MANEUVER ENHANCEMENTS

Brush Past: (1 SP) The creature's Space isn't considered Difficult Terrain for this movement and you don't provoke an Opportunity Attack from them if you leave their reach as part of the same movement.

Let's Go: (1 SP) On a Success, you can pull a willing creature within 1 Space of you to an unoccupied Space within 1 Space of the creature you pass.

LINE RUN

You run through a line of enemies.

- **Cost:** 2 AP + 1 SP
- **Range:** Self

You move in a Line up to your Speed and make a Martial Check. Each creature within the Line must make a Physical Save against your Martial Check when you attempt to move through its Space. **Contest Failure:** You're unable to move through the creature's Space, preventing you from moving any further. **Contest Success:** You can move through the creature's Space and they are knocked **Prone**.

Example: You make a Martial Check with a result of 15. If your Speed is 5, you can move up to 5 Spaces in a straight Line. If there are 3 creatures in that Line, your Martial Check of 15 would be compared to a Martial Check each creature makes as you attempt to pass through their Space, one by one. If the first creature in your path gets a 15 or higher, you can't pass through their Space and stop moving.

MANEUVER ENHANCEMENTS

Distance: (1 SP, Repeatable) You can move up to an additional half your Speed.

Brush Past: (1 SP) The Space of every creature who fails the contest isn't considered Difficult Terrain for this movement and you don't provoke an Opportunity Attack from them.

REPOSITION

Sprint across the battlefield

- **Cost:** 1 AP + 1 SP
- **Range:** Self

Trigger: A creature ends their turn.

Reaction: You immediately move up to your Speed.

MANEUVER ENHANCEMENTS

Agile: (1 SP) You ignore Difficult Terrain during this movement.

Disengage: (1 AP) You gain the benefits of the **Disengage** Action for the Movement. When you use this Enhancement, you can spend 1 additional SP to gain the benefits of the **Full Disengage** Action instead.

Coordinated Movement: (2 SP, Repeatable) A willing creature of your choice within 1 Space of your original position can move without spending its own movement, provided they're able to move and they end their movement within 1 Space of your destination.

HEROIC TAUNT

You perform a powerful taunt.

- **Cost:** Taunt Action (1 AP)
- **Range:** Taunt Action (10 Spaces)

When you take the **Taunt** Action, you can add the following Maneuver Enhancements. When you add a Maneuver Enhancement, you're considered to be performing a Maneuver.

MANEUVER ENHANCEMENTS

Sustained: (1 SP, Sustained) The duration increases to 1 minute but each creature makes a Repeated Save.

Increased Range: (1 SP) The range increases by 5 Spaces.

Legendary Taunt: (1 SP) Creatures other than you have Resistance (Half) to damage dealt by the **Taunted** targets, provided the target isn't also **Taunted** by those creatures.

Mass Taunt: (1 AP + 1 SP) You instead target each creature of your choice within 5 Spaces that can see or hear you. When you choose this Enhancement, the cost of all other Enhancements (except **Sustained**) is doubled.

HEROIC INTIMIDATE

You perform a powerful intimidate.

- **Cost:** Intimidate Action (1 AP)
- **Range:** Intimidate Action (10 Spaces)

When you take the **Intimidate** Action, you can add the following Maneuver Enhancements. When you add a Maneuver Enhancement, you're considered to be performing a Maneuver.

MANEUVER ENHANCEMENTS

Sustained: (1 SP, Sustained) The duration increases to 1 minute but each creature makes a Repeated Save.

Increased Range: (1 SP) The range increases by 5 Spaces.

Frightened: (1 SP) Targets are **Frightened** instead.

Mass Intimidate: (1 AP + 1 SP) You instead target each creature of your choice within 5 Spaces that can see or hear you. When you choose this Enhancement, the cost of all other Enhancements (except **Sustained**) is doubled.

HEROIC SHOVE

You perform a powerful shove.

- **Cost:** Shove Action (1 AP)
- **Range:** Shove Action (1 Space)

When you take the **Shove** Action, you can add the following Maneuver Enhancements. When you add a Maneuver Enhancement, you are considered to be performing a Maneuver.

MANEUVER ENHANCEMENTS

Increased Push: (X SP) The distance pushed increases by X Spaces.

Stand Up: (1 SP) If you're **Prone**, you can stand up before or after making the Check without spending movement.

Mass Shove: (1 AP + 1 SP) You instead target each creature of your choice within a 1 Space Aura. When you choose this Enhancement, the cost of all other Enhancements (except **Stand Up**) is doubled.

HEROIC EXTEND JUMP

You perform a powerful jump.

- **Cost:** Extend Jump Action (1 AP)
- **Range:** Self

When you take the **Extend Jump** Action, you can add the following Maneuver Enhancements. When you add a Maneuver Enhancement (or perform the Action using SP), you're considered to be performing a Maneuver.

Stamina Action: You can spend **SP** instead of **AP** to perform the **Extend Jump** Action.

MANEUVER ENHANCEMENTS

Instant Jump: (1 SP) If performing a Standing Jump, your Jump Distances isn't halved.

Increased Jump: (1 SP, Repeatable) Your Jump Distance is increased by 2 for the Jump.

Heroic Landing: (1 SP, Repeatable) You reduce any damage from falling by 2 for the Jump.

SPELLCASTER

CHAPTER

Spellcasters in DC20 wield arcane, divine, or primal forces that reshape reality through intellect, willpower, or devotion. Their talents go far beyond simple incantations. Each spell cast is a calculated use of magical power, refined through discipline and mastery. This system of structured magic is expressed through:

- **Spells:** Magical effects that deal damage, heal wounds, alter terrain, or influence minds.
- **Spell Enhancements:** Modifiers that increase a spell's range, area, duration, or potency.

SPELLS KNOWN

Spellcaster Classes (Bard, Cleric, Druid, Sorcerer, Spellblade*, Warlock, and Wizard) know a number of Spells as shown in the Spells Known column of their Class Tables, plus again Spells learned from Class Features, Talents, or Spellcaster Path progression (see [“Character Paths” on page 192](#) for more information).

SPELL LIST

Spellcaster Classes each have different Spell Lists which specify the types of Spells they're able to learn. Martial Classes can gain access to a Spell List through gaining Spellcaster Path progression or the **Spellcasting Expansion** Talent (see [“Talents” on page 186](#) for more information).

Example: The Wizard Class specifies the Arcane as the Spells they can learn. When the Wizard learns Spells at 1st level or higher from their Class, they must choose from the Spells with Arcane listed as a Source (see **Spell Sources** later in this chapter). If they gain another Spell Source through the Spellcaster Expansion Talent, then they can learn new Spells from any of their Spell Sources.

SPELL RESOURCES

Each Spell has a minimum number of Action Points (AP) that must be spent to cast it. Many Spells also include a minimum number of Mana Points (MP) that must also be spent to cast them. This is known as the Base Mana Cost of a Spell.

ACTION POINTS

Casting any Spell requires spending Action Points (AP). Spells that affect a single target typically cost **1 AP**, while those that affect multiple targets usually cost **2 AP**.

MANA POINTS

Some Spells have an MP cost that you must spend to cast them. The maximum amount of MP you can spend on a single Spell must be equal to or lower than your **Mana Spend Limit** (see [“Combat Resources” on page 41](#) for more information on Mana Points).

DC Tip: Remember, your Mana Spend Limit is equal to your Combat Mastery.

SPELL CHARACTERISTICS

COMPONENTS

There are 3 types of Components that a Spell could have: Verbal, Somatic, and Material. All Spells require Verbal and Somatic components, unless stated otherwise. A few rare Spells require Material components. In order to cast any Spell you must satisfy its Components outlined below.

Verbal: These are the magical words and incantations needed to manifest the magical effects of a spell. This represents the PC uttering a few words to cast the Spell.

- Creatures that can hear you will notice that you're casting a Spell.
- If you're silenced by either magical or mundane means (*Muffle* Spell or your mouth is gagged) you can't cast Spells with a Verbal Component.
- You can still speak underwater to cast a Spell, but you lose your Breath (see **Breath**).

DC Tip: From a roleplay perspective, the PC could say a specific word, a phrase, or a strange sound. It's just important for both GM and Player to understand that the PC is making a sound of some kind when casting a Spell.

Somatic: These are the gestures, movements, and physical actions needed to control the magical energies within a Spell.

- Creatures that can see you will notice that you're casting a Spell.
- You need to be able to move at least one hand that's not holding an object, or have a Spell Focus to satisfy the Somatic Component.

DC Tip: From a roleplay perspective, the PC could move their arms around in a grand display or use simple hand gestures. It's just important for both GM and Player to understand that the PC is visibly moving their hand around when casting a Spell.

Material: These are objects, items, ingredients, and other physical items needed to cast the Spell. Most Spells do not have Material Components required to cast them, but those that do usually either have a high gold cost or use an item that the GM can determine the rarity of.

- You can't cast these Spells without having the Material Component.
- If the Spell consumes the Material Component, you must replace it before you can cast it again.
- Could have a high gold cost or be rare to obtain the item.

DC Tip: From a roleplay perspective, the PC could weave the Spell Components into their description of them casting a Spell. Players that want to add flavor to their spellcasting can create their own Material Components for a Spell (like slime from a frog to cast the Grease Spell). But these “flavor” Components should not be held against them by the GM, unless the Player wants to track how many Spell Components they have.

DURATION

Spells can either be instantaneous or continuous in their duration, and some Spells require you to Sustain them in order to keep them going (see the [“Sustained Action”](#) on page 44 for more information).

- **Instantaneous:** Instantaneous Spells take effect the moment they’re performed.
- **Continuous:** These Spells last a specified amount of time. They often end early when the affected creature Succeeds on a subsequent Save against the effect, it or another creature within 1 Space performs an Action to end the effect, or some other method stated to end the effect occurs (such as breaking line of sight).
- **Sustained:** Some effects require you to Sustain them or they end.

RANGE

This is the distance within which a target of the Spell, or the origin of its Area of Effect, must be. When selecting the targets of your Spell, they must be within the listed Range and fulfill any other listed requirement of the Spell (such as being visible or capable of hearing you). If the chosen Spell uses an Area of Effect to determine its targets, the origin of the Spell must be within its listed Range (see [“Areas of Effect”](#) on page 157 for more information).

CASTING A SPELL

In order to cast a Spell, you must know the Spell and spend the required amount of Resources (Action Points and Mana Points). When you cast a Spell, you must make a Check (such as an Attack Check or Spell Check) to determine the Spell’s degree of success or failure. Your Check is compared against the target’s Defense (such as PD or AD), the Spell’s DC, or the target’s Contested Check.

ENHANCEMENTS

Enhancements amplify the impact of a character’s offense, turning well-executed strikes into devastating blows. They can increase damage, extend range, affect wider areas, or inflict conditions, allowing spellcaster characters to adapt to the shifting demands of battle.

SPELL ENHANCEMENTS

Spell Enhancements allow you to spend additional AP or MP to increase the Spell’s potency (such as damage, duration, range, number of targets, or Area of Effect). Spell Enhancements are specific to each Spell and are included in a Spell’s description.

PERFORMING A SPELL ENHANCEMENT

When you perform a Spell, you can spend additional MP to add a Spell Enhancement with the Spell. If the Spell requires a Check (such as an Attack Check or Spell Check), you must choose to add the Spell Enhancement before you make the Check. You can perform the same Spell Enhancement multiple times per Spell, unless stated otherwise.

Mana Points on AP Enhancements: You can spend **1 MP** to add **2 AP** worth of AP Enhancements to a Spell. You can do this multiple times per Spell.

Example: A Spell has an AP Enhancement called **Damage** that allows the caster to spend **1 AP** to increase the Spell’s damage by **1**. Alternatively, the caster could spend **1 MP** to add **2 AP** worth of AP Enhancements to the Spell, such as choosing the **Damage** option twice (total of **+2 damage**).

ENHANCEMENT DAMAGE

If an Enhancement deals damage, it deals the same type of damage as the Spell you’re using to perform the Attack or Spell, unless stated otherwise.

CATEGORIZING SPELLS

In DC20, every Spell is organized by 3 distinct categories: its **Source**, **School**, and **Tags**. Together, these categories explain where a Spell's power originates, how it's understood in the world, and how it functions within the rules. This makes every spell in DC20 a fully defined part of the magical system, rooted in lore, tied to character identity, and shaped for strategic gameplay.

Spellcasters may gain the ability to draw power from a Source of Magic through:

- Rigorous study and arcane practice, unlocking secrets from tomes and teachings (Wizards).
- A deep faith and devotion to a divine being (Clerics).
- Pacts with powerful entities that grant magical gifts in exchange for service (Warlocks).
- Their bond with the natural world and its primal forces (Druids).
- Blood inheritance or life-altering origins (Sorcerers).
- Artistic expression and emotional resonance (Bards).
- Sacred oaths, powerful relics, supernatural forces, or deeply personal sources (Spellblades).

SOURCES OF MAGIC

Sources of Magic represent the **origin** of magic. All Spells draw power from at least one of the three fundamental Sources: **Arcane**, **Divine**, or **Primal**. These Sources determine how a Spellcaster accesses and channels magic. Some Spells list 2 or more types as their Source (such as both Arcane and Primal for many fire Spells).

ARCANE

Arcane magic is the invisible energy that permeates through all of existence, surrounding and connecting every part of the universe. It is a pure, formless energy that can be shaped through study, focus, and discipline. Many mortals learn to harness this power by mastering incantations, runes, and rituals that channel raw magic into structured, purposeful spells.

DIVINE

Divine magic draws power from divine beings (good, evil, and indifferent), such as deities (greater and lesser gods), their followers (angels, archons, etc.), or the manifestations of abstract universal concepts (order, love, peace, war, etc.). Divine magic is granted to mortals either through faith, duty, or desperation. Creatures that wield Divine magic are often servants of their deity, seeking to fulfill their agendas and grow their following.

PRIMAL

Primal magic draws power from the physical forces of the universe (land, air, water, fire, plants, animals, and even the planes themselves). This magic comes from a deep rooted connection to the living essence of the world and its elemental energies. Those who wield Primal magic channel the wild rhythms of existence itself; storms, beasts, natural disasters, and the oceans.

SCHOOLS OF MAGIC

Schools of Magic define the **lore and philosophy** behind different magical effects. A School of Magic serves as a way to classify magical effects by answering two key questions: what kind of action is the spell performing (such as creating, summoning, altering, or destroying) and the subject it's being performed on (such as the elements, time, or a creature's body, mind, or spirit). This structure helps mages, priests, and sages study, understand, and organize the many forms of magic that shape the world.

ASTROMANCY

Astromancy is the magic of space, time, and gravity. Spells that alter gravity (reversing, decreasing, or increasing gravity), teleport objects or creatures (directly or through portals), or alter the flow of time (reversing, slowing, speeding, or stopping) fall into the School of Astromancy.

Common Spell Tags: Gravity, Motion, Teleportation, Time, Planes.

CONJURATION

Conjuration is the magic of summoning things from one place to another or fabricating something from nothing. Spells that summon creatures, create objects, or illusions in the environment fall into the School of Conjuration.

Common Spell Tags: Earth, Illusion, Light, Scent, Sound, Summoning, Weapon.

DIVINATION

Divination is the magic of revealing the unknown and the unseen, such as hidden knowledge (past, present, or future) and special vision (the invisible, the illusory, or distant locations). Spells that grant magical sight, bestow knowledge, or discern the truth fall into the School of Divination.

Common Spell Tags: Communication, Emotions, Knowledge, Sense, Thoughts.

ELEMENTAL

Elemental is the magic of the natural elements, such as earth, wind, fire, water, lightning, and corrosion. Spells that produce effects that manipulate the elementals fall into the School of Elemental.

Common Spell Tags: Air, Corrosion, Earth, Fire, Lightning, Water.

ENCHANTMENT

Enchantment is the magic of influencing other creatures' minds, such as provoking strong emotions and mental domination. Spells that create illusions in a creature's mind or charm other creatures through fabricated terror, loyalty, or love fall into the School of Enchantment.

Common Spell Tags: Embolden, Emotions, Illusion, Psychic, Sense, Thoughts.

INVOCATION

Invocation is the magic of positive energy, such as light, life, healing, and resurrection. Spells that create light, mend wounds, cure sicknesses, create spirits, or resurrect the dead fall into the School of Invocation.

Common Spell Tags: Cleansing, Healing, Light, Radiant, Resurrection, Spirit.

NULLIFICATION

Nullification is the magic of negative energy, such as anti-magic, anti-life, and darkness. Spells that destroy magic, spirits, and light fall into the School of Nullification.

Common Spell Tags: Anti-Magic, Shadow, Spirit, Umbral.

TRANSMUTATION

Transmutation is the magic of transforming one thing physically into another. Spells that turn creatures into other creatures (or objects into other objects or creatures) fall into the School of Transmutation.

Common Spell Tags: Earth, Embolden, Metamorphosis, Motion, Sense, Weapon.

SPELL TAGS

Spell Tags describe the **characteristics** of a spell. Some Tags represent clear in-world effects (such as manipulating fire), while others exist mainly to support game mechanics (such as a type of creature the Spell can target). Spell Tags define how a Spell interacts with the game system, such as the damage it deals, the Conditions it inflicts, or the creatures it affects. Certain Ancestry Traits, Class Features, and Talents reference specific Spell Tags, allowing characters to specialize in particular types of magic (such as Fire, Illusion, or Summoning). Spell Tags help players and GMs quickly understand a Spell's function, theme, and how it interacts with other parts of the game.

AILMENT

Inflicts harmful biological effects like Diseases or Poisons.

AIR

Manipulates wind and the skies, creating gusts, lifting creatures, dispersing gases, or enabling flight and levitation.

ANTIMAGIC

Suppresses, dispels, or nullifies magical effects, objects, or a creature's spellcasting.

BLOOD

Manipulates the life essence within a creature, drawing it out, strengthening it, or using it as a medium for power. Often associated with sacrificial magic or vitality exchange.

BLUDGEONING

Inflicts blunt force damage through concussive magic, impact waves, falling debris, or summoned hammers.

CHAOS

Unleashes unpredictable magical effects, wild surges, or uncontrollable forces that defy logic and structure. Chaos magic thrives on randomness and unstable outcomes.

CLEANSING

Removes harmful effects, Conditions, Curses, Diseases, or Poisons.

COLD

Drains heat to freeze targets, slow movement, or encase objects in frost and ice.

COMMUNICATION

Allows thoughts, words, or images to be transmitted across distance or language barriers.

CONDITIONS

Applies or interacts with the specified Condition, such as **Stunned**, **Frightened**, or **Restrained**.

CORROSION

Breaks down physical matter through acid or decay, dissolving barriers, armor, or even flesh.

CREATURE TYPE

Targets, affects, or interacts with the specified Creature Type, such as Dragon, Fiend, Humanoid, or Undead.

CURSE

Applies a long-lasting magical debilitation or hex, often requiring special means to remove.

DEATH

Deals directly with the end of life, draining vitality, withering flesh, or ushering a soul into the afterlife. These spells may also halt dying, prevent resurrection, or interact with undeath.

EARTH

Harnesses stone, soil, and metal to shape terrain, form barriers, entomb enemies, or reinforce defenses.

EMBOLDEN

Magically enhances a creature's abilities, improving stats, rolls, or other numerical traits.

EMOTIONS

Reads, influences, or alters a target's emotional state, such as calming anger or inciting fear.

ENFEEBLE

Magically hinders a creature's abilities, reducing stats, rolls, or other numerical traits.

FIRE

Channels raw flame to burn enemies, ignite surroundings, or emit intense heat to shape the battlefield.

FORGE

Creates, alters, or empowers physical materials, especially metal, stone, and crafted objects. This magic may generate weapons, reinforce armor, or shape raw materials into tools or structures.

GRAVITY

Manipulates the force of gravity, allowing control over falling, levitation, or crushing weight.

HEALING

Restores hit points or enhances the effectiveness of other healing effects or spells.

ILLUSION

Creates false sensory input, images, sounds, sensations, that appear real to the senses.

KNOWLEDGE

Reveals hidden information, insights, memories, or truths about the world or a target.

LIGHT

Creates, manipulates, or interacts with light, often for vision, distraction, or illumination.

LIGHTNING

Unleashes electrical energy to shock, stun, or chain damage between multiple foes with crackling arcs.

MADNESS

Assaults the mind with confusion, hallucination, obsession, or despair, fracturing a creature's grip on reality. Often linked to forbidden knowledge or otherworldly influence.

METAMORPHOSIS

Changes a creature's form, movement, or capabilities, such as flying, climbing, or full-body transformation.

MOTION

Enables or forces creatures or objects to move from one space to another, including pushes, pulls, and leaps.

PIERCING

Deals sharp, focused physical damage, often tied to magical projectiles like bolts, arrows, or conjured spikes.

PLANTS

Manipulates or animates plant life, such as vines that ensnare, roots that entangle, or flora that blooms with magical energy.

PLANES

Connects or interacts with other planes of existence.

POISON

Channels poisons, toxins, or venom to disrupt bodily functions and damage organs.

PSYCHIC

Assaults the mind directly with forceful thoughts, illusions, or emotional pain.

RADIANT

Calls upon purifying, divine light to damage enemies or to burn away darkness.

RESURRECTION

Restores life to a dead creature, either partially or fully.

SCENT

Generates or manipulates smells, useful for tracking, distracting, or setting the scene.

SENSE

Reveals hidden things, detects magic or creatures, or prevents detection through magical means.

SHADOW

Manipulates darkness or obscures light, often tied to stealth magic.

SLASHING

Delivers broad, cutting physical damage, typically associated with bladed or sweeping magical attacks.

SOUND

Creates, manipulates, or mimics sounds, from whispers to thunderous booms.

SPIRIT

Interacts with the souls of the living or dead, including communication, guidance, or binding.

STRIKE

Enhances martial attacks with magical force, elemental damage, or supernatural effects.

SUMMONING

Calls forth creatures, objects, or constructs to aid the caster temporarily.

TELEPORTATION

Instantly transports creatures or objects from one location to another, bypassing obstacles.

THOUGHTS

Reads, alters, or communicates directly with a creature's conscious mind.

TIME

Influences the flow of time, slowing, hastening, or altering the timing of events.

TRAP

Creates magical or physical effects that are triggered when conditions are met or areas entered.

UMBRAL

Harnesses the power of deep shadow and magical darkness, often with sinister, obscuring, or weakening effects.

WARD

Grants magical defenses, resistances, damage reductions, or immunity to specific effects.

WATER

Controls liquid in all its forms, crashing waves, flowing currents, or icy prisons, useful for both offense and support.

WEAPON

Magically creates, enhances, or transforms weapons for a short duration or specialized use.

ADVANCED SPELLCASTING

SPELL DUEL

Prerequisite: Spellcasting Path

During a Spell Duel, the creature casting the Spell is referred to as the **Caster** and the opposing creature is referred to as the **Challenger**.

If multiple creatures attempt to initiate a Spell Duel, one of them must be chosen as the **Challenger**, while the others assist them through **Combo Casting**. Additional creatures can also choose to assist the **Caster** when a Spell Duel is initiated (see **Combo Casting** for more information).

Trigger: You see an MP Effect being cast, provided the **Caster** or a target is within 5 Spaces of you.

Reaction: You can spend an amount of AP and 1 or more MP (up to your Mana Spend Limit) to attempt to stop the **Caster's** MP Effect. The amount of AP spent is equal to the base AP cost of the MP Effect you're trying to stop.

CONTEST

Make a Spell Check contested by the Spell Check or Spell Attack that the **Caster** makes to cast their MP Effect. If the **Caster's** MP Effect doesn't require a Check, they have to make a Spell Check as a Reaction as part of the Spell Duel. For the purposes of the Spell Duel, the **Caster** and **Challenger** each gain a bonus to their Check equal to twice the MP spent they spent respectively.

Beta Note: Since enemies don't have MP costs for their MP Effects, you can assume their MP Effects cost an amount of MP equal to half their Level (rounded up).

OUTCOMES

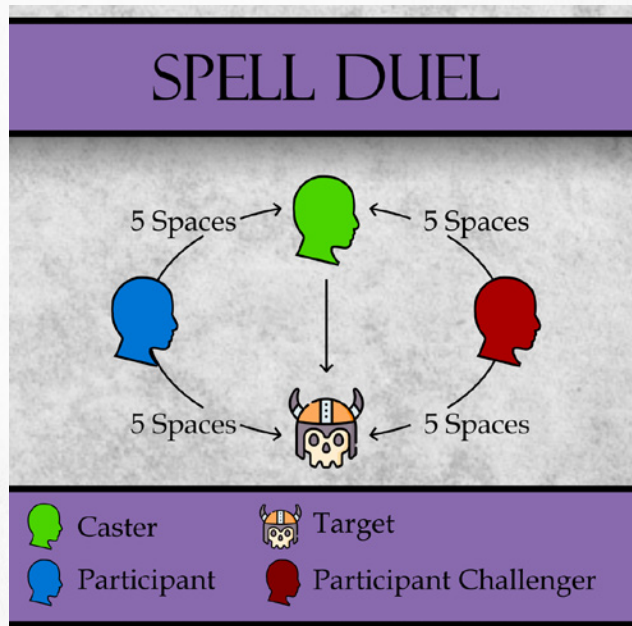

Success: The **Caster's** MP Effect fails and has no effect.

Failure: The **Caster's** MP Effect succeeds and takes effect. The Check bonus gained from MP spent doesn't apply to the MP Effect's Success and Failure Statements.

Tie: The **Caster's** MP Effect fails, has no effect, and you each roll on the **Wild Magic Surge Table**. The effect from the table lasts until 1 Round has passed.

Resources Lost: Whatever the result, each creature still spends all AP, MP, or other resources as normal.

Example: A Caster makes an MP based Spell Attack and a Challenger attempts to stop it. The Caster's Spell Attack cost 1 AP and 2 MP. The Challenger must spend 1 AP and at least 1 MP to attempt to stop the Spell Attack. The Caster makes an Attack Check (since its a Spell Attack) and the Challenger makes a Spell Check. The Caster gets a +4 bonus to their Attack Check (2 MP spent) and the Challenger gets a +2 bonus to their Spell Check (1 MP spent). Should the Caster win the Contest, their MP Effect takes effect but they don't include the +4 bonus from MP spent to determine if they score a Heavy Hit or higher.

WILD MAGIC TABLE

D20	WILD SURGE OUTCOME
1	You turn into a small creature with the stats of a Sheep (HP 2, PD & AD 5, Melee Attack +2, Damage 1).
2	A wave of magic explodes out from you. You take True damage equal to your Prime Modifier and creatures within 5 Spaces must succeed a Physical Save against your Save DC or take the same amount of damage.
3	You are Stunned 3 .
4	You are overcome by a wave of lethargy. You have DisADV on all Checks and Saves.
5	You are Stunned 1 .
6	You are Blinded and Deafened .
7	All living creatures become Invisible to you.
8	You gain a d4 penalty on all Checks and Saves.
9	You grow by 1 size, become 2 times heavier, and your Speed is reduced by 2.
10	A strong gravitational pull originates from you. All creatures within 5 Spaces must make a Might Save or be pulled 4 Spaces toward you.
11	Forceful winds shoot out from you in all directions. All creatures within 5 Spaces (except you) must make a Might Save or be pushed 4 Spaces away from you.
12	You grow by 1 Size, become one and a half times heavier, and your Speed is increased by 2.
13	You gain a d4 bonus on all Checks and Saves.
14	You gain a Truesight of 10 Spaces.
15	You become Invisible .
16	Your maximum AP increases by 1 and you gain 1 AP.
17	You become energized. You have ADV on all Checks and Saves.
18	You gain a surge of power, granting you +5 to all Spell Checks you make.
19	You overflow with life energy. You and creatures within 5 Spaces regain HP equal to your Prime Modifier.
20	You turn into a large creature with the statistics of a Young Purple Dragon , but without a Breath Weapon (HP 30, PD & AD 16, Attack +10, Damage 4, Fly Speed 6).

COMBO SPELLCASTING

Prerequisite: Spellcasting Path

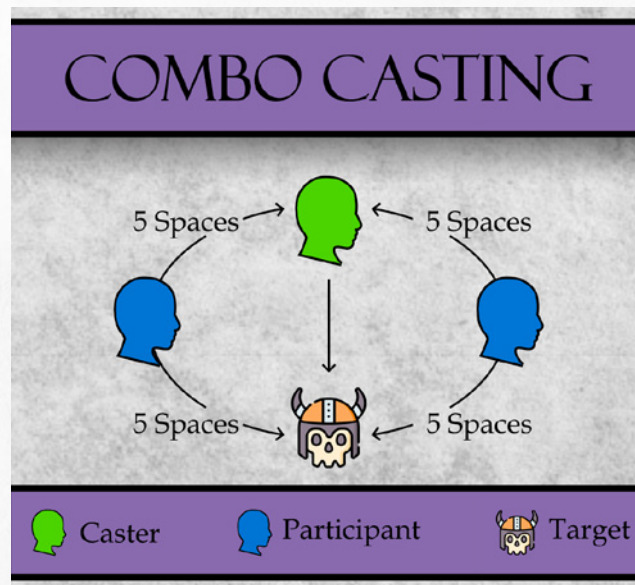

During a Combo Casting, the creature casting the MP Effect is referred to as the **Caster** while the other creatures assisting are called **Participants**.

Trigger: You can see an MP Effect you know being cast or a Spell Duel being initiated, provided the MP Effect's **Caster** or at least 1 of its target are within 5 Spaces of you.

Reaction: You can spend an amount of AP equal to the base AP cost of the MP Effect you are trying to assist (or stop in the case of a Spell Duel). When you do, the MP Effect gains a +2 bonus to its Check and Save DC for this turn. If you're participating in a **Spell Duel**, the **Challenger** you are helping gains this bonus to their Check to determine the winner of the Contest.

Spending MP: You can choose to spend 1 or more MP to add MP Enhancements to the **Caster's** MP Effect. The total MP spent on the MP Effect can't exceed the **Caster's** Mana Spend Limit.

Example: Casters A & B each have a Mana Spend Limit of 3. Caster A spends **1 AP** and **1 MP** to cast the Fire Bolt Spell. Caster B can spend **1 AP** and **2 MP** as a Reaction to add 2 MP worth of MP Enhancements to Caster A's Spell. Caster A then gains a **+2** bonus to their Spell Attack and Save DC for that Spell.

SPELLS

SPELLS SORTED BY SOURCES

Certain classes (such as the Cleric, Druid, Sorcerer, or Wizard) draw their magic from a Spell Source. The lists below showcase the Spells available to each Source.

ARCANE

Astromancy

- Arcane Bolt
- Arcane Wave
- Banish
- Blessing of Air
- Gravity Shift
- Gravity Well
- Haste
- Increase Gravity
- Slow Time
- Teleport
- Telekinesis
- Time Stop
- Translocation
- Reduce Inertia

Conjuration

- Arcane Barrier
- Arcane Weapon
- Bind
- Call Familiar
- Chaos Bomb
- Disguise Self
- Forcefield
- Illusory Duplicate
- Illusory Image
- Illusory Writing
- Mage Armor
- Oil Slick
- Summon Aberration
- Summon Construct
- Summon Dragon
- Summon Ooze
- Tendrils from Beyond

Divination

- Danger Sense
- Detect Magic
- Empowered Sight
- Foresight
- Locate Target

Elemental

- Acid Stream
- Blight Bomb
- Cold Wave
- Cone of Cold
- Corrosive Bolt
- Corrosive Cascade
- Corrosive Wave
- Elemental Shield
- Fireball
- Fire Blast
- Fire Bolt
- Fire Torrent
- Freeze
- Frost Bolt
- Frost Storm
- Inflict Poison
- Lightning Blast
- Lightning Bolt
- Lightning Rod
- Lightning Storm
- Lightning Torrent
- Living Bomb
- Mold Earth
- Poison Bolt
- Toxic Burst
- Wall of Fire

Enchantment

- Charm
- Command
- Confusion
- Fear
- Hex
- Message
- Mind Blast
- Mockery
- Psi Bolt

ASTROMANCY

Astromancy is the magic of space, time, and gravity. Spells that alter gravity (reversing, decreasing, or increasing gravity), teleport objects or creatures (directly or through portals), or alter the flow of time (reversing, slowing, speeding, or stopping) fall into the School of Astromancy.

ARCANE BOLT

Source: Arcane

School: Astromancy

Tags: Bludgeoning, Piercing, Slashing

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of pure magical energy that homes in on a target. Make a Ranged Spell Attack against the AD of a target within range. **Hit:** The target takes 1 Bludgeoning, Slashing or Piercing damage (your choice).

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP, Repeatable) The damage increases by X against 1 target of your choice.

Arcane Missiles: (1 AP + X MP) Choose X additional targets within range using the same Spell Attack for all targets. The AP cost of this Enhancement can't be paid for with MP.

Autonomous: (1 MP) You can Attack a target you've seen since the start of your last turn, provided it's within range and there's a path between you and the target the projectile can follow. This attack ignores 1/2 or 3/4 Cover and you don't have DisADV if the target is Unseen by you.

ARCANE WAVE

Source: Arcane

School: Astromancy

Tags: Bludgeoning, Deafened, Motion, Piercing, Slashing

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a burst of destructive energy that envelops a 3 Space Cone. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Bludgeoning, Slashing or Piercing damage (your choice).

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The length of the Cone increases by X Spaces.

Fractured: (1 MP) The Area becomes Difficult Terrain. A creature can spend 1 AP to clear 1 Space of this Difficult Terrain returning the Space to normal.

Reverberate: (X MP) Each target makes a Physical Save.

Save Failure: The target is pulled toward you or pushed away from you up to X Spaces (your choice) and is **Deafened** for 1 Round.

BANISH

Source: Arcane, Divine

School: Astromancy

Tags: Incapacitated, Planes, Psychic, Teleportation

Cost: 1 AP + 2 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You attempt to sever a target's link to this plane. Make a Spell Check against the Repeated Charisma Save of a target within range. **Check Success:** The target is banished to a harmless demiplane for the duration. If the target is native to another plane, it is sent back to its home plane instead. While banished, the target is **Incapacitated** and cannot affect or be affected by anything on the plane it is banished from.

When the Spell ends, the creature reappears in the Space it left, or the nearest unoccupied Space. If it was banished to its home plane for 1 minute, the effect becomes permanent (GMs discretion).

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Severing Seal: (1 MP) If the effect of the Spell becomes permanent, you can create a temporary seal preventing the creature from returning. The creature can't return to the plane it was banished from for 24 hours.

Planar Tear: (X MP) You cause a tear in the fabric of the planes to appear in a 3 Space diameter Sphere centered on the Spaces the creature occupied. When a creature enters the area for the first time on its turn, or starts its turn there, it makes a Charisma Save against your Save DC. **Save Failure:** The target takes X Psychic damage. The tear disappears when the Spell ends.

BLESSING OF AIR

Source: Arcane, Primal

School: Astromancy

Tags: Air, Embolden, Gravity, Motion

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You grant a creature with range the following benefits for the duration:

- **Glide Speed:** They can use their movement to glide horizontally in the air.
- **Altitude Drop:** If they end their turn midair, they Control Fall 4 Spaces.
- **Controlled Falling:** They suffer no damage from Controlled Falling.

Spell Cast: When you cast the Spell, make a DC 15 Spell Check. **Success:** The target can immediately move in any direction (including vertically) up to their Speed.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Targets: (1 AP + X MP) You can target X additional creatures within range. The AP cost of this Enhancement can't be paid for with MP.

Hover: (1 MP) The target isn't effected by **Altitude Drop** and instead hovers in place when not moving, even while **Unconscious** or **Prone**.

Fly: (2 MP) The target isn't effected by **Altitude Drop** and gains a Fly Speed equal to its Speed for the duration.

BLESSING OF ZEPHYR

Source: Primal

School: Astromancy

Tags: Embolden, Motion

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes

You grant a creature with range a Climb Speed and Jump Distance equal to their Speed for the duration.

Spell Cast: When you cast the Spell, make a **DC 15** Spell Check. **Success:** The target can immediately move in any direction (including jumping) up to their Speed.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Targets: (1 AP + X MP) You can target X additional creatures within range. The AP cost of this Enhancement can't be paid for with MP.

Zephyr Walk: (1 MP) The target ignores Difficult Terrain for the duration.

Greater Blessing: (1 MP, Repeatable) The target's Speed increases by 2.

GRAVITY SHIFT

Source: Arcane

School: Astromancy

Tags: Dazed, Gravity, Hindered, Motion

Cost: 2 AP + 4 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You alter gravity in a 6 Space high, 3 Space diameter Cylinder within range. Choose a vertical or horizontal plane within the Cylinder (such as the bottom, top or side of the Cylinder). The chosen section becomes a **Gravity Plane**.

Spell Cast: When you cast this Spell, make a Spell Check against the Repeated Intelligence Save of each creature in the area. **Save Failure:** The target becomes **Hindered** while in the area for the duration.

Gravity Plane

Creatures and unsecured objects fall toward a Gravity Plane. Creatures above a Gravity Plane walk normally, but creatures below a Gravity Plane can walk on any horizontal surface as if standing upside down.

Falling into a Gravity Plane

Creatures and objects that fall into a Gravity Plane will pass through it briefly before gravity pulls it back in the opposite direction. A creature or object will bob up and down in this manner for 1 Round before it comes to a rest along the Gravity Plane.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this enhancement a maximum of two times.

Area: (1 MP, Repeatable) The Cylinder's diameter increases by 1 and it's height by 2.

Dazed: (1 MP) Creatures Hindered by this Spell are **Dazed**.

Duration: (1 MP, Repeatable) The duration increases by 1 step (1 minute -> 10 minutes -> 1 hour -> 8 hours -> Long Rest).

GRAVITY WELL

Source: Arcane

School: Astromancy

Tags: Gravity, Motion, Restrained

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: Instantaneous

You create an area of intense gravity that pulls creatures and objects in a 4 Space Sphere towards its center. Make a Spell Check against the Might Save of creatures in the area. **Check Success:** They're pulled 1 Space towards the center. **Success (Each 5):** They're pulled 1 additional Space.

Collision: If a creature is pushed to the center of the area, they stop and take collision damage as if they had hit a solid surface.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Stronger Pull: (X MP) The distance pulled increases by X Spaces.

Lingering: (X MP, Sustained) The duration of the Spell becomes 1 minute. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Might Save against your Save DC. **Save Failure:** They're pulled X Spaces towards the center.

Black Hole: (3 MP, Requires Lingering) If a creature pulled by this Spell ends in a center Space they become **Restrained** for the duration. A creature **Restrained** this way makes a Repeated Might Save at the end of each of their turns, ending the condition on a Success.

HASTE

Source: Arcane

School: Astromancy

Tags: Embolden, Motion, Time

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You bolster the Speed of a creature within range for the duration. Make a **DC 15** Spell Check. **Failure:** Once per Round, the target can gain half their Speed in Spaces of Movement for free. **Success:** Once per Round, the target gains its full Speed in Spaces of Movement instead. **Success (Each 5):** +1 Space.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Enhanced Speed: (1 MP, Repeatable) The target gains +3 Spaces of Movement each round.

Phased Movement: (1 MP) The target can move through other creature's Spaces. Other creatures Spaces are considered Difficult Terrain.

Disengage: (1 MP) The target gains the benefits of the Disengage Action for the duration.

Reflexes: (1 MP) The target gains ADV on Agility Checks and Saves for the duration.

INCREASE GRAVITY

Source: Arcane

School: Astromancy

Tags: Bludgeoning, Gravity, Immobilized, Hindered, Prone, Slowed

Cost: 2 AP + 2 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You increase gravity in a 6 Space tall, 3 Space diameter Cylinder within range. Creatures and objects that fall to the ground within the area take +2 falling damage.

Spell Cast: When you cast the Spell, make a Spell Check against the Might Save of every creature within the area.

Save Failure: The creature falls **Prone**.

Heightened Gravity:

- ♦ **Creatures:** Creatures that start their turn within the area, or enter the area for the first time on their turn, must make a Repeated Might Save against your Save DC. **Save Failure:** The creature is **Slowed** and **Hindered** while in the area for the duration.
- ♦ **Objects:** Objects in the area that aren't being worn, held, or carried require a successful Athletics Check against your Save DC to be picked up or moved.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (1 MP, Repeatable) The diameter of the Cylinder increases by 1 Space and the height by 2 Spaces.

Immobilized: (1 MP) Creatures **Slowed** by this Spell are also **Immobilized**.

Crushing Weight: (X MP) Creatures that enter the area for the first time on their turn, or start their turn there, must make a Might Save. **Save Failure:** They take X Bludgeoning damage.

SLOW TIME

Source: Arcane

School: Astromancy

Tags: Dazed, Enfeeble, Hindered, Impaired, Slowed, Paralyzed, Time

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Minute

You slow time for a creature in range. Make a Spell Check contested by the target's Repeated Charisma Save. **Check Success:** The target is **Hindered** for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Dulled Reactions: (1 AP) On a failed Save, the target is unable to take Reactions for the duration.

Sluggish: (1 MP) On a failed Save, the target is **Impaired** and **Dazed** for the duration.

Stolen Time: (1 MP) On a failed Save, for the duration, the target is **Slowed** and you gain half the target's Speed.

Stop Time: (6 MP, Sustained) The creature is **Paralyzed**.

TELEKINESIS

Source: Arcane

School: Astromancy

Tags: Immobilized, Motion, Restrained

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You manipulate a Small or smaller target within range with telekinetic force for the duration. Targets affected by this Spell do not fall as a result of gravity. If you end your turn outside the Spell's range from the target, the Spell ends.

Creature: If you target a creature, make a Spell Check contested by their Repeated Might Save. **Check Success:** The creature is **Immobilized** and you can use the Telekinetic Action on it for the duration.

Object: When you cast the Spell, you can use **Telekinetic Action** on the object immediately for free. If the object is being held or carried by a creature, you must first succeed a Spell Check contested by the creature's Might Save or the Spell fails. A creature holding the object can spend 1 AP to make an Athletics Check against your Save DC. **Check Success:** The Spell ends early on the object.

Telekinetic Action

When you Sustain this Spell or by spending 1 AP, you can move or throw the target up to 2 Spaces (+2 Spaces for each Size smaller it is than the maximum Size you can target). The total distance moved or thrown is halved if moved or thrown vertically upward.

- **Throw Creature:** If the target is a creature, you must first succeed a Spell Check contested by the creature's Might Save or the throw fails. When you throw the creature at a target, you compare your Spell Check against the target's PD. **Hit:** The thrown creature and the target share the Collision damage (each take half). **Miss:** The thrown creature continues traveling to your maximum throwing distance.
- **Throw Object:** When you throw an object at a target it's considered a Ranged Spell Attack with an **Improvised Weapon** against the target's PD. **Hit:** The target takes a 1 damage of a type determined by the GM. **Miss:** The thrown object continues traveling up to your maximum throwing distance.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Size: (1 MP, Repeatable) The maximum size of a creature or object you can target increases by 1 step (Small -> Medium -> Large -> Huge -> Gargantuan -> Colossal -> Titanic). The cost of this Enhancement increases to 2 MP for each size increase beyond Large.

Example: You use the **Size Enhancement** three times to target a **Huge** creature. The first two cost 1 MP each, and the last one costs 2 MP for a total of 4 MP.

Restrained: (2 MP) Targets **Immobilized** by this Spell are also **Restrained**.

TELEPORT

Source: Arcane

School: Astromancy

Tags: Teleportation, Motion, Slowed

Cost: 1 AP + 1 MP

Range: Self

Duration: Instantaneous

You teleport up to 5 Spaces to an unoccupied Space that you can see. If you're **Immobilized** the Spell fails.

SPELL ENHANCEMENTS

Distance: (1 MP, Repeatable) The distance of the teleport increases by 3 Spaces.

Unbound: (1 MP) The Spell no longer fails if you are **Immobilized**.

Passenger: (1 AP + X MP) X willing creatures (that aren't **Immobilized**) within 2 Spaces of you are also teleported, appearing in an unoccupied space within 2 Spaces of where you appear after teleporting. If used with Unbound, you can teleport other **Immobilized** creatures. The AP cost of this Enhancement can't be paid for with MP.

Temporal Shiver: (X MP) Creatures within 1 Spaces of you before you teleport make an Intelligence Save against your Save DC. **Save Failure:** The target is **Slowed X** for 1 Round.

Temporal Repulse: (X MP) After you teleport, creatures within 1 Space of you make a Might Save against your Save DC. **Save Failure:** The target is pushed X Spaces away from you.

TIME STOP

Source: Arcane

School: Astromancy

Tags: Time, Paralyzed

Cost: 1 AP + 2 MP

Range: Self

Duration: End of Turn

Time stops for all effects, objects, and creatures (except you). For the duration, you ignore the **Multiple Check Penalty**, and creatures whose time has stopped are considered **Paralyzed**. The Spell ends early after you target a creature with a harmful effect.

SPELL ENHANCEMENTS

More Time: (2 MP, Repeatable) Your current and maximum AP is increased by 1 for the duration.

Locked Time: (3 MP) The Spell no longer ends early if you target a creature with a harmful effect.

Additional Target: (2 MP, Repeatable) Choose 1 creature other than you within 10 Spaces. Time doesn't stop for the target and before the Spell ends, they can spend 1 AP (provided they have AP to spend) and ignore the **Multiple Check Penalty**. You can use this Enhancement on the same creature multiple times, allowing them to spend 1 additional AP each time.

TRANSLOCATION

Source: Arcane

School: Astromancy

Tags: Teleportation

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: Instantaneous

You teleport a Medium or smaller object or willing creature other than yourself within range up to 3 Spaces to an unoccupied Space also within range. If the target is **Immobilized** the Spell fails.

Held Object: If you target an object being held or carried by an unwilling creature, you must first succeed a Spell Check contested by the creature's Charisma Save or the Spell fails.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Distance: (1 MP, Repeatable) The distance of the teleport increases by 3 Spaces.

Hostile: (1 MP) You can target unwilling creatures, but must first succeed on a Spell Check contested by the target's Charisma Save or the Spell fails.

Unbound: (1 MP) The Spell no longer fails if the target is **Immobilized**.

Size: (1 MP, Repeatable) The maximum size of a creature or object you can target by 1 step (Medium -> Large -> Huge -> Gargantuan -> Colossal -> Titanic). The cost of this Enhancement increases to 2 MP for each size increase beyond Large.

Swap: (2 MP) Choose a second target within range (you can choose yourself). If the Spell Succeeds on both targets, they swap location provided they are within 3 Spaces of each other. The distance is increased by 3 Spaces for each time you use the **Distance** Enhancement. If the Spell only Succeeds on only 1 target, you can teleport that target as normal.

REDUCE INERTIA

Source: Arcane

School: Astromancy

Tags: Embolden, Gravity, Motion, Ward

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You reduce the inertia of up to 2 targets within range for the duration. Each target weighs half as much and falls a maximum of 10 Spaces per Round.

Spell Cast: Make a DC 15 Spell Check. **Failure:** Each target has Resistance (Half) to falling damage for the duration. **Success:** Each target is immune to falling damage for the duration and doesn't fall **Prone** as a result of falling.

Reaction: You can cast this Spell as a Reaction when a target falls within range.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Lightweight: (1 MP, Repeatable) Each target's Speed and Jump Distance increases by 2.

Targets: (1 MP, Repeatable) You can target 2 additional creatures.

Controlled Descent: (2 MP) Each target hovers in place instead of falling. If the target is a creature, they can resume falling or hovering at will (no AP required).

CONJURATION

Conjuration is the magic of summoning things from one place to another or fabricating something from nothing. Spells that summon creatures, create objects, or illusions in the environment fall into the School of Conjuration.

ARCANE BARRIER

Source: Arcane

School: Conjuration

Tags: Embolden, Ward

Cost: 2 AP

Range: 5 Spaces

Duration: 1 Minute (Sustained)

You place an Arcane Glyph within range that creates a 3 Space diameter Sphere which protects creatures of your choice for the duration or until they leave the area. Make a DC 15 Spell Check. **Failure:** The targets gain PDR. **Success:** The targets gain PDR and 1 Temp HP. **Success (each 5):** The Temp HP increases by 1.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Protection: (X MP) Each time creatures of your choice end their turn in the area, they gain X Temp HP until they leave the area or the Spell ends.

Resistance: (2 MP) Creatures of your choice in the area gain Physical Resistance (Half) instead of PDR.

Magical Ward: (2 MP) Creatures in the area have ADV on Saves against MP effects. Spell Attacks have DisADV against creatures in the area.

ARCANE WEAPON

Source: Arcane

School: Conjuration

Tags: Enfeeble, Bludgeoning, Piercing, Slashing, Weapon

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You summon a Tiny Weapon made that deals a Physical Damage Type (Bludgeoning, Piercing or Slashing) of your choice. The Weapon disappears when the Spell ends.

Command: Once per Round, when you cast the Spell, Sustain it, or by spending 1 AP on your turn, you can move the Weapon up to 5 Spaces and choose to make a Melee Spell Attack against the PD of a target within 1 Space of the Weapon. **Hit:** The target takes 2 damage of the chosen Damage Type.

Tethered: The Weapon is **Tethered** to you a distance equal to the Spell's range. If you move farther than the **Tethered** distance from the Weapon, you drag the Weapon with you.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The Weapon's damage increases by X.

Effortless: (1 MP) You no longer need to Sustain the Spell and can **Command** the Weapon for free on your turn. You still can only **Command** the Weapon once per Round.

Physical Effect: (1 MP) Creatures Hit by the Weapon have Vulnerability to an effect based on the chosen Damage Type for 1 Round: Bludgeoning (**Prone**), Piercing (**Impaired**), or Slashing (**Bleeding**).

Cleave: (1 MP) When you **Command** the Weapon, you can instead make a Area Spell Attack against the AD of each target within a 1 Space Arc of the Weapon. **Hit:** The target takes 1 damage of the chosen type.

BIND

Source: Arcane, Divine, Primal

School: Conjunction

Tags: Bludgeoning, Immobilized, Restrained

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You bind a creature within range. Make a Spell Check contested by the target's Agility Save. **Check Success:** The target is **Immobilized** for the duration. Once on each of their turns, the target can spend **1 AP** to attempt the Save again, ending the Spell on a success.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Restrained: (1 MP) On a Success, the target is **Restrained** instead.

Constrict: (1 MP) For the duration, once per Round, you can spend 1 AP to deal 2 Bludgeoning damage to the target. When you make this attack, you can spend 1 or more MP to increase the damage by 1 per MP spent.

CHAOS BOMB

Source: Arcane

School: Conjunction

Tags: Chaos

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You conjure a Tiny sized Chaos Bomb in a Space within range. At the end of each of your turns, make a Fate Check. **Result of 10 or above:** The Chaos Bomb detonates.

Beta Note: A Fate Check is a d20 roll where no modifiers (numerical or otherwise) apply to the Check, no critical results apply and you can't choose to fail.

Detonation: When the bomb detonates, roll a **d12** to determine the bomb's damage type. Make an Area Spell Attack as a Reaction for free against the AD of each target in a 3 Space diameter Sphere centered on the Bomb's Space while they make an Intelligence Save against your Save DC. **Hit:** The target takes 1 damage of the rolled damage type. **Save Failure:** The target is subjected to the effects of the Save Failure column based on the result rolled.

D12	DAMAGE	SAVE FAILURE
1	Bludgeoning	The target is pushed 1 Space away. Failure (each 5): The target is pushed 1 additional Space.
2	Piercing	The target can't take Reactions for 1 round.
3	Slashing	The target begins Bleeding for 1 minute.
4	Cold	The target is Slowed for 1 round.
5	Corrosive	The target is Hindered for 1 round.
6	Fire	The target begins Burning for 1 minute.
7	Lightning	The target is Stunned until the start of their turn.
8	Poison	The target is Impaired for 1 round.
9	Psychic	The target is Dazed for 1 round.
10	Radiant	Attacks made against the target add a d4 to the check for 1 round.
11	Umbral	The target is Doomed for 1 round.
12	True	The target is Exposed for 1 round.

Spell Passive: Wild Magic Surge

When you Critically Fail or Critically Succeed on a Check made to cast this Spell, you roll on the Wild Magic Table.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by **X**.

Chaotic Expansion: (1 AP) When you roll for Detonation and it doesn't detonate, the diameter of the Sphere increases by 1 Space.

Controlled Entropy: (1 AP) When you roll the Fate Check, you roll twice and choose which result to use.

Sticky: (1 AP) When you cast the Spell, you can attach the Chaos Bomb to an object or creature within range. If the target isn't willing, make a Spell Check against the target's Agility Save. **Check Success:** The Bomb is magically attached to the target. A creature can spend **1 AP** to make a Trickery Check against your Save DC to remove it from a target within 1 Space (including themselves). **Success:** The Bomb is magically attached to the creature that removed it. **Success (5):** The Bomb stops magically sticking to objects or creatures.

CALL FAMILIAR

Source: Arcane, Divine, Primal

School: Conjuraton

Tags: Sense, Summoning

Cost: 1 AP + 1 MP

Range: 1 Space

Duration: Instantaneous

You summon a friendly spirit that enters your service until you are reduced to **0 HP** or you choose to end the Spell for free on your turn. It takes the form of a Tiny creature of your choice, with a Creature Type of your choice (except Giant and Humanoid). Your Familiar uses the statblock below:

Familiar

Tiny (Chosen Type)

HP	Shared	AP	Shared
PD	8 + CM	AD	8 + CM
PM	Shared	Save DC	Shared
Speed	5	CM	Shared
MIG	0	CHA	0
AGI	0	INT	0

DC Tip: The Familiar shares your Prime Modifier and Combat Mastery so it's Attack, Martial and Spell Checks are the same as yours.

MP Reduction: When you cast the Spell, your maximum MP is reduced by an amount equal to the MP spent. This MP reduction only ends when the Spell ends. You don't regain any lost MP when your maximum MP is restored.

Recasting the Spell: You can't have more than 1 Familiar at a time. If you cast this Spell while you already have a Familiar, your Familiar can retain its form, adopt a new form of your choice, or it disappears and a new one takes its place. The new Familiar can be a previous one you summoned in the past or a new one altogether. In either case, you can reassign its Familiar Traits.

FAMILIAR TRAITS

Your Familiar has the following Familiar Traits:

- ♦ **Familiar Bond:** Your Familiar shares your HP. If you both take damage from the same source, you only take 1 instance of that damage. While your Familiar occupies the same Space as you, it can't be targeted by Attacks.
- ♦ **Shared Telepathy:** While within 20 Spaces, you and your Familiar can speak Telepathically with each other.
- ♦ **Spell Delivery:** While within 10 Spaces of your Familiar, you cast a Spell with a range of 1 Space as if you were standing in your Familiar's Space.

SPELL ACTIONS

Pocket Dimension: You can spend a Minor Action to dismiss the Familiar into a pocket dimension, summon it from that pocket dimension, or summon it from anywhere on the same plane of existence. When summoned or dismissed, any items it was carrying are left behind. When summoned, it appears in the nearest unoccupied Space of your choice.

Shared Senses: While your Familiar is within 20 Spaces, you can spend **1 AP** to connect your senses to the Familiar's senses until the end of your next turn. For the duration, you're **Deafened** and **Blinded** to your own senses, but you can see what your Familiar sees and hear what it hears. The connection ends early if either of you moves farther than 20 Spaces from the other.

MANAGING THE FAMILIAR

Combat: The Familiar shares your Initiative, acting on your turn. You can spend **1 AP** to command the Familiar to use an Action. It can't take the Attack Action or Spell Action unless it has a Familiar Feature that allows it to. When you take the Move Action, your Familiar also gains the benefits of the Move Action. If you don't command it, when your turn ends it takes the Dodge Action.

Shared MCP: When the Familiar makes a Check, it shares your Multiple Check Penalty.

SPELL ENHANCEMENTS

Additional Traits: (1 MP, Repeatable) Grant your Familiar 2 points worth of Familiar or Beast Traits (you can't choose Negative Traits).

EXPANDED FAMILIAR TRAITS

Summoned Familiars can choose from the following additional Familiar Traits:

Repeatable Traits

(2) **Resistance:** It gains Resistance (Half) to a damage type of your choice.

Unique Traits

(2) **Avian:** It gains a Fly Speed equal to its Speed.

(1) **Blended Senses:** You can use Shared Senses as a free Action on your turn. Its range increases to 100 Spaces and only ends if either of you moves farther than 100 Spaces from the other or you choose to end it for free at any point.

(2) **Chameleon:** You can spend 1 AP to cause your Familiar to become **Invisible** for 1 minute or until it takes any Action beside the Dodge or Hide Actions.

(1) **Distant Link:** The range of Shared Telepathy increases to 100 Spaces, and you always know the exact location of your Familiar provided you are both on the same plane of existence.

(1) **Extended Spell Delivery:** While within 10 Spaces of your Familiar, you can cast Spells as if you were standing in its Space.

(1) **Familiar Attack:** The Familiar can spend 1 AP to make a Ranged Spell Attack against the PD of a target within 10 Spaces. The Attack deals 1 damage of a type chosen when you summon the Familiar (except True damage). If the target is within 1 Space, the Attack becomes a Melee Spell Attack and deals +1 damage on a Heavy Hit.

(1) **Predator:** Requires Familiar Attack. The familiar has ADV on Attacks against Bloodied creatures, and on Survival Checks to track them.

(1) **Prey:** The Familiar has ADV on Stealth Checks and can attempt to Hide even when it's only Partially Concealed.

(1) **Limited Telepathy:** The Familiar can communicate telepathically with any creature it can see within 5 Spaces. If the Familiar can't speak, it communicates using only simple ideas, emotions, and images.

(2) **Malleable:** The Familiar can move through a space as narrow as 1 inch wide without squeezing.

(1) **Evasive:** The Familiar doesn't provoke Opportunity Attacks when it leaves an enemy's reach.

(1) **Quiet as a Mouse:** While moving at a Stealthy pace (1/2 Speed), the Familiar makes no sound, leaves no noticeable trail, and can't be tracked by mundane means.

(1) **Speech:** The Familiar gains the ability to speak and shares your Language Masteries.

(1) **Strong-Willed:** The Familiar has ADV on Saves to avoid being Charmed, Frightened, Intimidated, or Terrified.

DISGUISE SELF

Source: Arcane, Primal

School: Conjuration

Tags: Communication, Illusion

Cost: 1 AP + 1 MP

Range: Self

Duration: 10 Minutes

You alter your appearance to that of a specific person that you have seen or a general member of that ancestry. Your new form needs to be of the same size as you and you do not gain the traits, Features, or statistics of that form. You can end this Spell at any time for free.

Being Identified: A creature can make an Investigation Check against your Save DC to discern that your form is not natural and has been altered by magic.

SPELL ENHANCEMENTS

Duration: (1 MP, Repeatable) The duration increases by 1 step (10 min -> 1 hour -> 8 hour -> Long Rest).

Size: (1 MP) You can choose the appearance of a creature 1 Size smaller or larger than you. Your Size doesn't change.

Mimicry: (1 MP) You can perfectly mimic the voice, accent, and mannerisms of a creature you've heard speak for at least 1 minute.

Alter Form: (1 MP) Once per Round for the duration, you can spend 1 AP to alter your appearance to a different form of your choice.

ENTANGLE

Source: Primal

School: Conjunction

Tags: Immobilized, Plants, Piercing, Restrained

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You conjure a 3 Space diameter Sphere of natural phenomenon (such as entangling plants) within range. The area becomes Difficult Terrain for the duration. Make a Spell Check against the Agility Save of each creature in the area. **Save Failure:** The target becomes **Immobilized** for the duration or until its Space is cleared of the effect. The target can also spend **1 AP** to repeat its Save, ending the Condition on itself on a Success.

Clearing Spaces: Each Space within the area has an AD and PD equal to your Save DC and is cleared when it takes an amount of Elemental or Slashing damage equal to the MP spent on the Spell (minimum of 1).

Example: A Level 1 Druid has a Save DC of 14 and spends 1 MP to cast **Entangle**. Each Space within the Spell's area has an AD and PD of 14 and disappears when it takes 1 Slashing or Elemental damage.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Grasping: (2 MP) When a creature enters a Space within the area that hasn't been cleared for the first time on a turn, it makes an Agility Save against your Save DC. **Save Failure:** The target becomes **Immobilized** for the duration or until its Space is cleared of the effect. The target can also spend **1 AP** to repeat its Save, ending the Condition on itself on a Success.

Restrained: (2 MP) Creatures **Immobilized** by the Spell are also **Restrained**.

Spikey Terrain: (X MP) Creatures take X Piercing damage when they enter a Space within the area that hasn't been cleared. They also take this damage each time they fail a Save (including any subsequent Saves) to resist being **Immobilized** by the Spell.

ELEMENTAL WEAPON

Source: Primal

School: Conjunction

Tags: Cold, Corrosion, Enfeeble, Fire, Lightning, Poison, Weapon

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You summon a Tiny spectral Weapon that deals an Elemental Damage Type (Cold, Corrosion, Fire, Lightning or Poison) of your choice. The Weapon disappears when the Spell ends.

Command: Once per Round, when you cast the Spell, Sustain it, or by spending **1 AP** on your turn, you can move the Weapon up to 5 Spaces and choose to make a Melee Spell Attack against the PD of a target within 1 Space of the Weapon. **Hit:** The target takes 2 damage of the chosen Damage Type.

Tethered: The Weapon is **Tethered** to you a distance equal to the Spell's range. If you move farther than the **Tethered** distance from the Weapon, you drag the Weapon with you.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The Weapon's damage increases by X.

Effortless: (1 MP) You no longer need to Sustain the Spell and can **Command** the Weapon for free on your turn. You still can only **Command** the Weapon once per Round.

Elemental Effect: (1 MP) Creatures Hit by the weapon have Vulnerability to an effect based on the chosen Damage Type for 1 Round: Cold (**Slowed**), Corrosion (**Hindered**), Fire (**Burning**), Lightning (**Stunned**), or Poison (**Poisoned**).

Enduring Elements: (X MP) Creatures attacked by the Weapon must make a Repeated Physical Save. **Save Failure:** At the start of each of their turns, they take X damage of the chosen Damage Type for 1 minute.

FORCEFIELD

Source: Arcane

School: Conjuraton

Tags: Antimagic, Sound, Summoning

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You create a Forcefield of pure arcane energy within range. Choose either a 3 Space diameter Dome or a 5 Space long, 2 Space tall Wall. Creatures and objects within the area are pushed to nearest unoccupied Space of their choice on either side of the Forcefield (you choose for each object).

The Forcefield is translucent and acts as a solid surface, blocking movement but not sound or light. The Forcefield has **2 HP**, Resistance (Half) to all damage, and a PD and AD equal to your Save DC.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (1 MP, Repeatable) The size of the Forcefield increases:

- **Dome:** The diameter of the Dome increases by 1 Space.
- **Wall:** The length of the Wall increases by 5 Spaces or the height of the Wall increases by 2 Spaces.

Durable: (X MP) The Forcefield has +X HP.

One-way Mirror: (1 MP) Choose one face of the Forcefield to stay translucent. Creatures on that side see through it normally, while creatures on the other side perceive it as a mirror.

Privacy: (1 AP) When you cast the Spell or by spending 1 AP, you can alter how sound passes through the Forcefield. You can prevent any sound from passing through, prevent sound from only passing through in 1 direction (for example from the outside to the inside), or allow all sound to pass through.

Full Lockdown: (2 MP) Creatures and effects can't affect anything on the other side of the Forcefield. In addition, creatures and objects can't teleport through the Forcefield.

ILLUSORY DUPLICATE

Source: Arcane

School: Conjuraton

Tags: Communication, Illusion, Teleportation, Sense

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You create an illusory duplicate of yourself in an unoccupied Space within range.

Second Self: The duplicate mimics your posture and gestures. When you spend movement to move, you can cause the duplicate to move instead of you or with you. If the duplicate moves with you, it moves in a similar manner the same number of Spaces in a direction of your choice. If you end your turn farther than the Spell's range from a duplicate, it disappears.

Shared Senses: You can use a Minor Action to see and hear as if standing in the Space occupied by the duplicate. When you do you are **Blinded** and **Deafened** using your own senses. You can use a Minor Action to end the effect.

False Threat: The duplicate is intangible, causing creatures and objects to pass through it. The duplicate counts as a creature for the purposes of **Flanking** against any creature that can't discern the duplicate as an illusion.

Discerning the Illusion: A creature that attempts to physically interact with the duplicate automatically learns that it's an illusion. Otherwise, a creature can make an Investigation Check against your Save DC to attempt to discern if the duplicate is an illusion. **Success:** The creature discerns its an illusion.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration is increased by 1 step (1 min -> 10 min -> 1 hour -> 8 hours -> Long Rest).

Additional Duplicate: (X MP) You create X additional duplicates within range and each one can move independently when you move.

Ventriloquism: (1 MP) You can choose to speak through your duplicate at the same time as you or instead of you, making your voice appear to come from its location.

Swap: (3 MP) You can now spend 1 AP on your turn to swap places with a duplicate that's within the Spell's range. This swap is only noticeable by a creature that has discerned the duplicate to be an illusion.

ILLUSORY IMAGE

Source: Arcane, Primal

School: Conjuraton

Tags: Illusion, Scent, Sound, Trap

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Minute

You create an up to Medium size visual illusion of an object, creature, or effect within range. The illusion is purely visual, it can't create sound, light, smell, or physical interaction. It appears real to the eye but doesn't cast shadows or leave tracks.

Make a **DC 15 Spell Check**. **Failure:** Creatures gain ADV on Checks made to Discern the Illusion. **Success:** Creatures make Checks to Discern the Illusion as normal. **Success (5):** Creatures gain DisADV on Checks made to Discern the Illusion.

Discern the Illusion: If the illusion is an image, any physical interaction with the image reveals it to be an illusion. Alternatively, a creature can spend **1 AP** to examine the image (or any effects from the Senses Enhancement) to attempt to determine if the illusion is real. The creature makes an Investigation Check against your Save DC. **Success:** The creature discerns the illusion for what it is, revealing the illusion to be false. If the illusion is an image, the illusion becomes partially transparent to the creature and no longer blocks their vision.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increased by 1 step (1 min -> 10 min -> 1 hour -> 8 hours -> Long Rest).

Size: (1 MP, Repeatable) The Size of the illusion increases by 1 (e.g Medium -> Large -> Huge -> Gargantuan -> Colossal -> Titanic).

Senses: (1 MP, Repeatable) The illusion can include one additional sense: sound, smell, or temperature.

Programmed Image: (1 MP) You can set a simple repeating behavior (such as pacing, nodding, waving) that loops for the duration.

Triggered Image: (1 MP) You set a simple trigger when casting the spell (such as "when someone enters this area" or "when the door opens"). When the trigger occurs, the illusion appears instantly and lasts for the Spell duration. Until triggered, the Spell lies dormant.

ILLUSORY WRITING

Source: Arcane

School: Conjuraton

Tags: Communication, Illusion, Trap

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Hour

You inscribe text, sigils, or symbols upon a surface, infusing them with illusion magic. When cast, you write a sentence of up to 20 words that appears mundane or magical (your choice) on a surface or willing creature within range. While touching it, you can spend **1 AP** to dismiss or rewrite the text.

Hidden Script: When you cast the Spell, you can choose to obfuscate the writing to all creatures except those you designate at the time of casting. All other creature see the writing as gibberish. A creature that can't read the text can spend **1 AP** to make an Investigation Check against your Save DC. **Success:** The creature can read the writing provided they understand the language its written in. **Failure:** The creature can't attempt this Check again for 24 hours.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Extended Script: (1 MP, Repeatable) The duration increases to Long Rest and you can add an additional sentence with up to 40 words for each time you use this Enhancement. If you spend 2 MP or more on this Enhancement, you can choose for the duration to become Until Dispelled.

Lingering Message: (1 MP) The writing can produce faint sound or whispers that communicate its meaning aloud to chosen readers.

Misleading Script: (1 MP) When a creature you haven't designated attempts to read the writing fails their Investigation Check to discern its meaning, they instead see a false message of your choosing.

Trigger Phrase: (1 MP) The script activates or becomes visible when a chosen word or condition is met (for example: "When someone opens this door," or "When the moon is full").

Skywriting: (3 MP) You can instead inscribe the message across the sky in massive, glowing letters visible for miles. The range becomes Sight. This Enhancement can't be used with the **Extended Script** Enhancement.

MAGE ARMOR

Source: Arcane

School: Conjunction

Tags: Embolden, Ward

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Hour

You create a magical protective coating around the target creature. The target gains +2 AD for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step. (1 hour -> 8 hours -> until Long Rest).

Greater Armor: (1 MP) The target gain an additional +1 AD.

Heavily Warded: (1 MP) The target gains PDR for the duration.

MYSTICAL WEAPON

Source: Divine

School: Conjunction

Tags: Enfeeble, Psychic, Radiant, Umbral, Weapon

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You summon a Tiny spectral Weapon that deals a Mystical Damage Type (Psychic, Radiant or Umbral) of your choice. The Weapon disappears when the Spell ends.

Command: Once per Round, when you cast the Spell, Sustain it, or by spending 1 AP on your turn, you can move the Weapon up to 5 Spaces and choose to make a Melee Spell Attack against the PD of a target within 1 Space of the Weapon. **Hit:** The target takes 2 damage of the chosen Damage Type.

Tethered: The Weapon is **Tethered** to you a distance equal to the Spell's range. If you move farther than the **Tethered** distance from the Weapon, you drag the Weapon with you.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The Weapon's damage increases by X.

Effortless: (1 MP) You no longer need to Sustain the Spell and can **Command** the Weapon for free on your turn. You still can only **Command** the Weapon once per Round.

Mystical Effect: (1 MP) Creatures Hit by the Weapon have Vulnerability to an effect based on the chosen Damage Type for 1 Round: Radiant (**Blinded**), Psychic (**Dazed**), or Umbral (**Doomed**).

Inhibiting: (1 MP) Creatures attacked by the Weapon must make a Mental Save. **Save Failure:** The target subtracts a d4 from their Checks for 1 Round.

NATURE'S TETHER

Source: Primal

School: Conjunction

Tags: Bleeding, Motion, Plant, Restrained, Tethered

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a whip made of vines, web, or some other natural effect that reaches for a target of your choice within range.

Creature: If you target a creature, you can take the following Actions against the target:

- **Pursuit:** You pull yourself up to 5 Spaces toward the target.
- **Pull:** Make a Spell Check against the creature's Might Save. **Save Failure:** You pull them up to 2 Spaces toward you. **Save Failure (each 5):** You pull them up to 1 additional Space.

Object: If you target an object that's not being held or carried, you pull it up to 5 Spaces towards you if it weighs less than you, or you pull yourself up to 5 Spaces towards it if it weighs more than you.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Distance: (1 AP, Repeatable) The distance moved increases by 2 Spaces.

Bleeding: (X MP) The target must make a Might Save. **Save Failure:** They begin **Bleeding X**.

Tether: (1 MP) The target must make a Might Save. **Save Failure:** They becomes **Tethered** to you a distance equal to the Spell's range. While **Tethered** in this way, you can spend 1 AP to take the **Pursuit** or **Pull** Actions against the target. Once on each of their turns, the target can spend 1 AP to attempt the Save again, ending the Condition on a success.

Restrained: (1 MP, Requires Tether) While **Tethered** by this Spell, the target is **Restrained**.

OIL SLICK

Source: Arcane, Primal

School: Conjuraton

Tags: Burning, Trap

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

An oily substance covers the ground in a 3 Space diameter Sphere area within range. When you cast the Spell, make a Spell Check against the Agility Save of each target in the area. **Check Success:** The target falls **Prone**.

The affected Spaces are Difficult Terrain for the duration. The first time per turn a creature enters a Space within the area, it makes an Agility Save against your Save DC. **Save Failure:** The target falls **Prone**.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Spreading Oil: (1 MP) Whenever a creature falls **Prone** in the area, it becomes afflicted by Spreading Oil for the duration. When the creature enters a Space, that Space becomes affected by the Spell. A creature afflicted by Spreading Oil makes a Repeated Agility Save at the end of each of its turns, ending the effect on a Success.

Flammable: (X MP) Any oil produced by this Spell becomes flammable. If fire touches the Space it ignites. When a creature enters the area for the first time on its turn, or starts its turn in an ignited Space, it makes a Repeated Physical Save against your Save DC. **Save Failure:** The target begins **Burning X** for 1 minute.

DC Tip: Ignited Spaces remain Covered for the duration, creatures still make Saves against falling Prone.

TENDRILS FROM BEYOND

Source: Arcane

School: Conjuraton

Tags: Aberration, Bludgeoning, Madness, Psychic

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You bring forth tendrils from beyond which cover each surface in a 3 Space diameter Sphere within range for the duration. Spaces filled with tendrils become Difficult Terrain.

When you cast this Spell, make an Area Spell Attack against the PD of each creatures in the area. **Hit:** The target takes 1 Bludgeoning or Psychic damage (your choice).

Tendrill Attack: Once on each of your turns, when you Sustain this Spell or by spending 1 AP on your turn, you can make an Area Spell Attack against the PD of each target within the area. **Hit:** The target takes 1 Bludgeoning or Psychic damage (your choice).

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (2 MP, Repeatable) The damage increases by 1.

Area: (1 MP, Repeatable) The diameter of the Sphere increases by 1 Space.

Moving Tendrils: (1 MP) When you Sustain this Spell or by spending 1 AP, you can move the area up to 5 Spaces to another Space within range.

DC Tip: You can choose the order of your effects that occur at the same time, such as moving and attacking with the Tendrils.

Maw of Madness: (2 MP) When a creature enters the area for the first time on its turn or starts its turn there, it makes an Intelligence Save against your Save DC. **Save Failure:** The target spends 1 AP suffering from temporary madness.

Tripping: (2 MP) When you make an Attack with this Spell, each target makes an Agility Save against your Save DC. **Save Failure:** The target falls **Prone**.

UNHOLY AURA

Source: Divine

School: Conjuraton

Tags: Death, Doomed, Shadow, Tethered

Cost: 2 AP + 1 MP

Range: Self

Duration: 1 Minute

Umbral energy surrounds you in a 1 Space Aura for the duration. When you cast the Spell, make a Spell Check against the Repeated Charisma Save of each target within the area. **Check Success:** The target is **Doomed** for the duration.

Doomed Area: When a creature enters the area for the first time on its turn or starts its turn there, it makes a Repeated Charisma Save against your Save DC. **Save Failure:** The target is **Doomed** for the duration.

Spell Passive: Obscure

Mundane lights produced by tiny or smaller sources stop working while within the Aura.

SPELL ENHANCEMENTS

Area: (X MP) The radius of the Aura increases by X.

Doomed: (2 MP, Repeatable) Whenever a target gains **Doomed** from this Spell, it gains an additional stack for each time you use this Enhancement.

Deathly Conversion: (1 MP, Repeatable) When a **Doomed** creature dies within the Aura, you gain 2 Temp HP. The Temp HP increases by 2 each time you use this Enhancement.

Grasping Wisps: (1 MP) Creatures **Doomed** by this Spell are also **Tethered** to the Unholy Aura.

SUMMON SPELLS

The following Spells all share a common list of Summon Traits that you can find at the end of this section. Only the Traits unique to each of them are directly present in the Spells.

DC Tip: Spells that summon creatures with Traits that aren't in this section (such as **Call Familiar**) don't share to those Summon Traits. They only have access to the Traits directly mentioned in their Spell.

SUMMON ABERRATION

Source: Arcane

Spell School: Conjunction

Tags: Aberration, Cold, Psychic, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium sized Aberration within range for the duration. The creature uses the **Summoned Aberration** stat block.

Spell End: The Spell ends early if all summoned creatures are reduced to **0 HP**. When a creature summoned by this Spell is reduced to **0 HP**, its body disappears.

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

Summoned Aberration

HP	3	AP	2
PD	8 + CM + PM	AD	8 + CM + PM
PM	Shared	Save DC	Shared
Speed	5	CM	Shared
MIG	-1	CHA	-1
AGI	0	INT	PM

DC Tip: The Summon shares your Prime Modifier and Combat Mastery so its Attack, Martial, and Spell Checks are the same as yours.

Base Summon Traits

The summoned creature has the following Summon Traits:

- **Shared Telepathy:** While within 20 Spaces, you and the summoned creature can speak Telepathically with each other.
- **Languages:** The creature is Fluent in Common and Deep Speech.
- **Natural Weapon:** Choose Psychic or Cold damage when you summon the Aberration. The Aberration gains a Natural Weapon that they can use to make an Unarmed Strike that deals 1 damage of the chosen damage type.
- **Aberration:** The creature has Psychic Resistance (Half), Telepathy 10 Spaces, and ADV on Intelligence Saves.

Managing the Summons

The creature shares your Initiative, acting on your turn. You can command it to take any Actions or Reactions available to it (except the Sustain Action), but must spend its own AP to do so. When you take the Move Action, the creature also gains the benefits of the Move Action. If you don't command it, it takes the Dodge Action.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned Aberrations can choose from the following additional Summon Traits:

Unique Traits

(1) **Blindsight:** The creature gains Blindsight 5 Spaces.

(2) **Walkwalk:** The creature can walk normally on solid surfaces regardless of their orientation (such as upside down on the ceiling) without falling or needing to Climb. When knocked **Prone**, they fall off such surfaces to the ground.

(2) **Psychic Immunity:** The creature gains Immunity to Psychic Damage.

SUMMON BEAST

Source: Primal

Spell School: Conjunction

Tags: Beast, Bludgeoning, Piercing, Slashing, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium sized Beast within range for the duration. The creature uses the **Summoned Beast** stat block.

Spell End: The Spell ends early if all summoned creatures are reduced to **0 HP**. When a creature summoned by this Spell is reduced to **0 HP**, its body disappears.

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

Summoned Beast

PD	8 + CM + PM	AD	8 + CM + PM
PM	Shared	Save DC	Shared
Speed	7	CM	Shared
MIG	PM	CHA	-2
AGI	2	INT	-2

DC Tip: The Summon shares your Prime Modifier and Combat Mastery so its Attack, Martial, and Spell Checks are the same as yours.

Base Summon Traits

The summoned creature has the following Summon Traits:

- **Shared Telepathy:** While within 20 Spaces, you and the summoned creature can speak Telepathically with each other.
- **Languages:** The creature is Fluent in Common but can't speak.
- **Natural Weapon:** Choose Bludgeoning, Piercing, or Slashing damage when you summon the Beast. The Beast gains a Natural Weapon that they can use to make an Unarmed Strike that deals 1 damage of the chosen damage type.
- **Beast:** The creature has ADV on Awareness, Stealth, and Survival Checks, and gain an additional +2 **bonus** to Attacks while **Flanking** a creature.

Managing the Summons

The creature shares your Initiative, acting on your turn. You can command it to take any Actions or Reactions available to it (except the Sustain Action), but must spend its own AP to do so. When you take the Move Action, the creature also gains the benefits of the Move Action. If you don't command it, it takes the Dodge Action.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned Beasts can choose from the following additional Summon Traits:

Unique Traits

(1) **Darkvision:** The creature gains Darkvision 10 Spaces.

(1) **Swim Speed:** The creature gains a Swim Speed equal to its Speed and can breathe underwater.

(1) **Climb Speed:** The creature gains a Climb Speed equal to its Speed.

(2) **Walkwalk:** The creature can walk normally on solid surfaces regardless of their orientation (such as upside down on the ceiling) without falling or needing to Climb. When knocked **Prone**, they fall off such surfaces to the ground.

(2) **Burrow Speed:** The creature gains a Burrow Speed equal to its Speed.

(2) **Fly Speed:** The creature gains a Fly Speed equal to its Speed.

SUMMON CELESTIAL

Source: Divine

Spell School: Conjunction

Tags: Celestial, Fire, Radiant, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium sized Celestial within range for the duration. The creature uses the **Summoned Celestial** stat block.

Spell End: The Spell ends early if all summoned creatures are reduced to **0 HP**. When a creature summoned by this Spell is reduced to **0 HP**, its body disappears.

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

Summoned Celestial

DC Tip: The Summon shares your Prime Modifier and Combat Mastery so its Attack, Martial, and Spell Checks are the same as yours.

Base Summon Traits

The summoned creature has the following Summon Traits:

- **Shared Telepathy:** While within 20 Spaces, you and the summoned creature can speak Telepathically with each other.
- **Languages:** The creature is Fluent in Common and Celestial.
- **Natural Weapon:** Choose Fire or Radiant damage when you summon the Celestial. The Celestial gains a Natural Weapon that they can use to make an Unarmed Strike that deals **1** damage of the chosen damage type.
- **Celestial:** The creature has Radiant Resistance (Half), Blindsight 10 Spaces, and ADV on Charisma Saves.

Managing the Summons

The creature shares your Initiative, acting on your turn. You can command it to take any Actions or Reactions available to it (except the Sustain Action), but must spend its own AP to do so. When you take the Move Action, the creature also gains the benefits of the Move Action. If you don't command it, it takes the Dodge Action.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned Celestials can choose from the following additional Summon Traits:

Unique Traits

(1) Telepathy: The creature can communicate telepathically with any creature it can see within 5 Spaces.

(2) Fly Speed: The creature gains a Fly Speed equal to its Speed.

(2) Radiant Immunity: The creature gains Immunity to Radiant Damage.

SUMMON CONSTRUCT

Source: Arcane

Spell School: Conjuration

Tags: Bludgeoning, Construct, Piercing, Slashing, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium sized Construct within range for the duration. Alternatively, you can animate an object within range instead, provided it's of a size you can summon. When you animate an object, it becomes a Construct creature of the same size. The summoned or animated creature uses the **Summoned Construct** stat block.

Spell End: The Spell ends early if all summoned or animated creatures are reduced to **0 HP**. When a creature summoned or animated by this Spell is reduced to **0 HP**, its body disappears (if summoned) or returns to being an object (if animated).

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

Summoned Construct

HP	3	AP	2
PD	8 + CM + PM	AD	8 + CM + PM
PM	Shared	Save DC	Shared
Speed	5	CM	Shared
MIG	PM	CHA	-2
AGI	2	INT	-2

DC Tip: The Summon shares your Prime Modifier and Combat Mastery so its Attack, Martial, and Spell Checks are the same as yours.

Base Summon Traits

The summoned creature has the following Summon Traits:

- **Shared Telepathy:** While within 20 Spaces, you and the summoned creature can speak Telepathically with each other.
- **Languages:** The creature is Fluent in Common and 1 other Language of your choice you know.
- **Natural Weapon:** Choose Bludgeoning, Piercing, or Slashing damage when you summon the Construct. If you animated an object, the GM chooses a damage type that makes sense for the object animated (this could be a non-physical damage type). The Construct gains a Natural Weapon that they can use to make an Unarmed Strike that deals 1 damage of the chosen damage type.
- **Construct:** The creature has Poison, Disease, and Bleeding Immunity, and doesn't require food, drink, air, or sleep.

Managing the Summons

The creature shares your Initiative, acting on your turn. You can command it to take any Actions or Reactions available to it (except the Sustain Action), but must spend its own AP to do so. When you take the Move Action, the creature also gains the benefits of the Move Action. If you don't command it, it takes the Dodge Action.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned or animated Constructs can choose from the following additional Summon Traits:

Unique Traits

(1) Darkvision: The creature gains Darkvision 10 Spaces.

(1) Climb Speed: The creature gains a Climb Speed equal to its Speed.

(2) Walkwalk: The creature can walk normally on solid surfaces regardless of their orientation (such as upside down on the ceiling) without falling or needing to Climb. When knocked **Prone**, they fall off such surfaces to the ground.

SUMMON DRAGON

Source: Arcane

Spell School: Conjunction

Tags: Dragon, Piercing, Slashing, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium sized Dragon within range for the duration. The creature uses the **Summoned Dragon** stat block.

Spell End: The Spell ends early if all summoned creatures are reduced to **0 HP**. When a creature summoned by this Spell is reduced to **0 HP**, its body disappears.

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

Speed	5	CM	Shared
MIG	PM	CHA	1
AGI	-2	INT	-1

DC Tip: The Summon shares your Prime Modifier and Combat Mastery so its Attack, Martial, and Spell Checks are the same as yours.

Base Summon Traits

The summoned creature has the following Summon Traits:

- **Shared Telepathy:** While within 20 Spaces, you and the summoned creature can speak Telepathically with each other.
- **Languages:** The creature is Fluent in Common and Draconic.
- **Natural Weapon:** Choose Piercing or Slashing damage when you summon the Dragon. The Dragon gains a Natural Weapon that they can use to make an Unarmed Strike that deals 1 damage of the chosen damage type.
- **Dragon:** The creature has Resistance (Half) to a damage type of your choice (except True damage), and the Dragonborn's **Breath Weapon** Ancestry Trait of the chosen damage type. The creature can spend your MP to enhance this action.

(2) Breath Weapon: Your breath becomes a Natural Weapon called your Breath Weapon. You can use your Breath Weapon to make a **Ranged** or **Area** Martial Attack. Before making the Attack, you can spend 1 or more **AP**, **SP**, **MP**, or a combination of each to increase the damage.

- **Ranged Attack:** You spend 1 **AP** to make a Ranged Martial Attack against 1 target's PD within 10 Spaces. **Hit:** The target takes 1 Draconic damage (+1 per additional AP or SP spent or +2 per MP spent).
- **Area Attack:** You spend 2 **AP** to make an Area Martial Attack against every target's AD within a 2 Space Cone or 4 Space Line. **Hit:** The target takes 1 Draconic damage (+1 per additional 2 AP, 2 SP, or 1 MP spent).

Managing the Summons

The creature shares your Initiative, acting on your turn. You can command it to take any Actions or Reactions available to it (except the Sustain Action), but must spend its own AP to do so. When you take the Move Action, the creature also gains the benefits of the Move Action. If you don't command it, it takes the Dodge Action.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned Dragons can choose from the following additional Summon Traits:

Unique Traits

(1) Darkvision: The creature gains Darkvision 10 Spaces.

(1) Climb Speed: The creature gains a Climb Speed equal to its Speed.

(2) Fly Speed: The creature gains a Fly Speed equal to its Speed.

(2) Immunity: The creature gains Immunity to the Damage type chosen in the **Dragon** Trait.

SUMMON ELEMENTAL

Source: Primal

Spell School: Conjuration

Tags: Bludgeoning, Cold, Corrosion, Elemental, Fire, Lightning, Piercing, Slashing, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium sized Elemental within range for the duration. The creature uses the **Summoned Elemental** stat block.

Spell End: The Spell ends early if all summoned creatures are reduced to **0 HP**. When a creature summoned by this Spell is reduced to **0 HP**, its body disappears.

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

Summoned Elemental

PD	8 + CM + PM	AD	8 + CM + PM
PM	Shared	Save DC	Shared
Speed	5	CM	Shared
MIG	See Traits	CHA	0
AGI	See Traits	INT	0

DC Tip: The Summon shares your Prime Modifier and Combat Mastery so its Attack, Martial, and Spell Checks are the same as yours.

Base Summon Traits

The summoned creature has the following Summon Traits:

- **Shared Telepathy:** While within 20 Spaces, you and the summoned creature can speak Telepathically with each other.
- **Languages:** The creature is Fluent in Common and Elemental.
- **Natural Weapon:** The Elemental gains a Natural Weapon that they can use to make an Unarmed Strike that deals 1 damage of a type depending on which Elemental type they are (see below).

Elemental Trait

When you summon the elemental you choose Air, Earth, Water, or Fire, the elemental gains the below trait corresponding to the type chosen:

- **Air:** The creature has Lightning Resistance (Half), +5 Jump Distance, and can hold its breath indefinitely. The creature has an Agility equal to your Prime Modifier, a Might of 1 and their Natural Weapon deals Lightning or Slashing damage (chosen when you summon the Elemental).
- **Earth:** The creature has PDR, a Burrow Speed equal to its Speed, and Tremorsense 3 Spaces. The creature has a Might equal to your Prime Modifier, an Agility of 1, and their Natural Weapon deals Bludgeoning or Piercing damage (chosen when you summon the elemental).

- **Fire:** The creature has Fire Resistance (Half), automatically deals 1 Fire damage to creatures within 1 Space that Hit it with a Melee Attack, and can emit 5 Space of Bright Light at will. The creature has an Agility equal to your Prime Modifier, a Might of 1, and their Natural Weapon deals Fire damage.
- **Water:** The creature has Cold and Corrosion Resistance (Half), a Swim Speed equal to its Speed, and can breath underwater. The creature has a Might equal to your Prime Modifier, an Agility of 1, and their Natural Weapon deals Cold or Corrosion damage (chosen when you summon the Elemental).

Managing the Summons

The creature shares your Initiative, acting on your turn. You can command it to take any Actions or Reactions available to it (except the Sustain Action), but must spend its own AP to do so. When you take the Move Action, the creature also gains the benefits of the Move Action. If you don't command it, it takes the Dodge Action.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned Elementals can choose from the following additional Summon Traits:

Unique Traits

(1) Blindsight: (Water Elemental only) The creature gains Blindsight 5 Spaces.

(2) Fly Speed: (Air or Fire Elemental only) The creature gains a Fly Speed equal to its Speed.

(2) Walkwalk: (Earth Elemental only) The creature can walk normally on solid surfaces regardless of their orientation (such as upside down on the ceiling) without falling or needing to Climb. When knocked **Prone**, they fall off such surfaces to the ground.

(2) Immunity: The creature gains Immunity to the Damage type it has Resistance to in its Elemental Trait.

SUMMON FEY

Source: Primal

Spell School: Conjunction

Tags: Fey, Psychic, Slashing, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium sized Elemental within range for the duration. The creature uses the **Summoned Fey** stat block.

Spell End: The Spell ends early if all summoned creatures are reduced to **0 HP**. When a creature summoned by this Spell is reduced to **0 HP**, its body disappears.

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned Oozes can choose from the following additional Summon Traits:

Unique Traits

(1) **Fluid:** The creature is Immune to fall damage.

(2) **Amorphous:** The creature gains Resistance (Half) to Bludgeoning and Piercing damage.

SUMMON PLANT

Source: Primal

Spell School: Conjunction

Tags: Bludgeoning, Plants, Piercing, Poison, Summoning

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You summon a Small or Medium Sized Plant within range for the duration. Alternatively, you can animate a plant within range instead, provided it's of a Size you can summon. When you animate a plant, it becomes a Plant creature of the same Size. The summoned or animated creature uses the **Summoned Plant** stat block.

Spell End: The Spell ends early if all summoned or animated creatures are reduced to **0 HP**. When a creature summoned or animated by this Spell is reduced to **0 HP**, its body disappears (if summoned) or returns to being a plant (if animated).

Recasting the Spell: When you cast this Spell again and choose to summon a creature, you can choose a creature you previously summoned or a new one.

DC Tip: The Summon shares your Prime Modifier and Combat Mastery so its Attack, Martial, and Spell Checks are the same as yours.

Base Summon Traits

The summoned creature has the following Summon Traits:

- **Shared Telepathy:** While within 20 Spaces, you and the summoned creature can speak Telepathically with each other.
- **Languages:** The creature is Fluent in Common. If animated, it also knows the Languages its corpse knew.

DC Tip: If you animate a corpse, it doesn't retain any memories it had in life.

- **Natural Weapon:** Choose Bludgeoning or Umbral damage when you summon the creature. The creature gains a Natural Weapon that they can use to make an Unarmed Strike that deals 1 damage of the chosen damage type.
- **Undead:** The creature has Umbral Resistance (Half), Poison and Disease Immunity, and doesn't require air or sleep.

Managing the Summons

The creature shares your Initiative, acting on your turn. You can command it to take any Actions or Reactions available to it (except the Sustain Action), but must spend its own AP to do so. When you take the Move Action, the creature also gains the benefits of the Move Action. If you don't command it, it takes the Dodge Action.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration of the Spell increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Additional Creature: (2 MP, Repeatable) You summon 1 additional creature.

Additional Traits: (1 MP, Repeatable) You can grant 2 points worth of Summon Traits (see **Summon Traits** after the Summon Spells) to a creature you summon with the casting of this Spell, or 1 point worth of Summon Traits to 2 creatures you summon in this way.

EXPANDED SUMMON TRAITS

Summoned or animated Undead can choose from the following additional Summon Traits:

Unique Traits

(1) **Darkvision:** The creature gains Darkvision 10 Spaces.

(2) **Ghostlike:** The creature gains Resistance (Half) to Physical Damage and Vulnerability to Radiant Damage.

(2) **Incorporeal:** The creature can move through solid objects and creatures. If the creature ends its turn inside an object or creature, it takes True damage equal to 25% of its maximum HP.

(2) **Umbral Immunity:** The creature gains Immunity to Umbral Damage.

SUMMON TRAITS

Below is a list of repeatable and unique Summon Traits. You can choose repeatable traits multiple times, but unique traits only once.

REPEATABLE TRAITS

(1) Attribute Increase: Choose an Attribute. The creature's chosen Attribute changes to equal your Prime Modifier.

(1) Health: The creature's HP is increased by 1.

(2) Damage: The creature's Attacks deal +1 damage.

(1) Defensive: The creature's PD or AD (your choice) becomes equal to your Save DC.

(2) Check Mastery: Choose an Attribute. The creature adds your Combat Mastery to Checks it makes using the chosen Attribute. You can only choose this Trait once per Attribute.

(1) Speed Increase: The creature's Speed is increased by 2 Spaces.

(2) Size Increase: The creature's size increases by 1 (maximum of Huge).

(1) Size Decrease: The creature's size decreases by 1 (minimum of Micro).

UNIQUE TRAITS

(1) Awareness Mastery: The creature adds your Combat Mastery to its Awareness Checks.

(1) Distant Link: The range of your Shared Telepathy increases to 100 Spaces, and you always know the exact location of the creature provided you're both on the same plane of existence.

(1) Friendly Fire: The creature is Immune to effects and damage you produce, unless you choose otherwise.

(1) Natural Weapon Style: You can choose 1 Weapon Style that fits the desired Natural Weapon of the creature. The creature can use the Weapon Enhancement of the chosen Weapon Style with its Natural Weapon.

(2) Martial: The creature is able to perform the Opportunity Attack Reaction and is wielding a Weapon of your choice that it's considered to have Training with.

DC Tip: This lets them use the Martial Enhancements.

(2) Spellcaster: The creature is able to perform the Spell Duel Reaction, is wielding a Spell Focus of your choice that it's considered to have Training with, and knows how to cast 1 Spell of your choice that you know. The creature can spend your MP on its Actions (Spell and Spell Duels).

DIVINATION

Divination is the magic of revealing the unknown and the unseen, such as hidden knowledge (past, present, or future) and special vision (the invisible, the illusory, or distant locations). Spells that grant magical sight, bestow knowledge, or discern the truth fall into the School of Divination.

BLESS

Source: Divine

School: Divination

Tags: Embolden

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

A creature of your choice within range gains 1 of the blessings from the list below for the duration. Make a DC 15 Spell Check. **Failure:** The blessing is a d4. **Success:** The blessing is a d6. **Success (10):** The Blessing is a d8.

Blessings

- **Attacks:** The target adds the die to its Attack Checks for the duration.
- **Saves:** The target adds the die to its Saves for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You increase the number of targets by X. The AP cost of this Enhancement can't be paid for with MP.

Full Bless: (1 MP) The target benefits from both Blessings. The cost of this Enhancement increases to 2 MP if you use the **Targets** Enhancement.

Greater Bless: (1 MP, Repeatable) The size of the die granted increases by 1 step (d4 -> d6 -> d8 -> d10 -> d12).

DANGER SENSE

Source: Arcane, Primal

School: Divination

Tags: Embolden, Emotions, Knowledge, Sense, Surprised, Ward

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Hour

You grant a creature within range supernatural foresight for the duration. Make a DC 15 Spell Check. **Failure:** The target can't be **Surprised**. **Success:** The target also has ADV on Initiative Checks. **Success (5):** The target also adds a d8 to Initiative Checks.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration is increased by 1 step (1 hour -> 8 hours -> Long Rest).

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Sense Bloodlust: (1 MP) The target can sense if creatures within 10 Spaces are Hostile towards them.

DETECT MAGIC

Source: Arcane, Divine, Primal

School: Divination

Tags: Antimagic, Knowledge, Sense

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute

You can sense the presence of magic in a 3 Space Aura for the duration. The Aura is blocked by 6 inches (15 cm) of wood or earth (rock, dirt, mud, or sand), or 1 inch (25 mm) of metal. Make a DC 15 Spell Check. **Failure:** You learn if magic is present within the area. **Success:** You also learn the location of sources of magical effects in the area and can use the **Examine** Action.

Examine: When you Sustain this Spell, or by spending 1 AP, you can examine the source of a magical effect in the area. Make a Spell Check against the effect's Save DC (or the Save DC of the effect's creator if it doesn't have one). **Success:** You learn the effect's School of Magic, Spell Tags (if any), and the amount of MP used to produce the effect. **Success (5):** You learn the effect's name and exactly how it works.

DC Tip: Curses are magical in nature, so this Spell allows you to sense them, potentially examine them, and learn how they work.

SPELL ENHANCEMENTS

Duration: (1 MP, Repeatable) The duration increases by 1 step (1 minute -> 10 minutes -> 1 hour -> 8 hours -> until Long Rest).

Area: (1 MP, Repeatable) The Aura increases by 3 Spaces.

Reactive Analysis: (1 MP) For the duration, you have ADV on Spell Checks made as the Challenger of a Spell Duel.

Magical Forensics: (1 MP) When you succeed with the Examine Actions, you learn the effect's magical signature, which is unique to the caster that produced the effect. Whenever you use the Examine Action again on an effect of the same magical signature, you recognize it as being from the same caster.

EMPOWERED SIGHT

Source: Arcane, Primal, Divine

School: Divination

Tags: Embolden, Sense

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Hour

You empower the eyesight of a creature within range for the duration. The target gains Darkvision 10 Spaces.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step. (1 hour -> 8 hours -> until Long Rest)

See Invisibility: (1 MP) The target can see Invisible creatures within 10 Spaces.

Piercing Sight: (2 MP) The target can see through up to 6 inches (15 cm) of wood or earth (rock, dirt, mud, or sand), or 1 inch (25 mm) of metal within 10 Spaces.

True Sight: (4 MP) The target also gain Truesight 10 Spaces.

FORESIGHT

Source: Arcane, Primal

School: Divination

Tags: Time, Embolden

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You grant a creature within range supernatural reflexes for the duration. Attacks made against the target's PD have DisADV for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Avoidance: (1 MP) The target has ADV on Agility Saves for the duration.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Predictive Attacks: (2 MP) The target has ADV on Attack Checks for the duration.

LOCATE TARGET

Source: Arcane, Divine

School: Divination

Tags: Knowledge, Planes, Sense

Cost: 1 AP + 1 MP

Range: 1 Mile (1.6 km)

Duration: 1 Round

Describe or name a location, object, or creature and make a Spell Check against the DC listed in the table below.

Failure: You learn if the target is within range but can't name the same target with this Spell until you complete a Long Rest. **Success:** You learn if the target is within range and the direction of the target if it's within range. If the target is a creature, you also learn if it's alive. **Success (10):** You also learn the distance to the target if it's within range.

KNOWLEDGE OF TARGET	DC
You've heard of the target.	20
You've previously seen the target.	15
You've been to the location or have previously touched the target.	10

DC Tip: The GM may increase or decrease the DC under certain circumstances (such as having a piece of the item or a lock of their hair).

SPELL ENHANCEMENTS

Duration: (1 MP, Repeatable) The duration increases by 1 step (1 round -> 1 minute -> 1 hour -> 8 hours -> until Long Rest).

Range: (1 MP, Repeatable) The range increases by 1 step (1 mile -> 10 miles -> 100 miles -> same plane of existence -> any plane of existence). If you increase the range to any plane of existence, you learn which plane of existence the target is on but not its location on that plane.

SCRYING

Source: Divine

School: Divination

Tags: Knowledge, Sense, Communication

Cost: 1 AP + 1 MP

Range: Plane of Existence

Duration: 1 Minute (Sustained)

Describe or name a creature and make a Spell Check against the target's Charisma Save. You gain bonuses on your Spell Check as determined by the table below. The bonuses can stack but you can only benefit from each one once. The target becomes aware that they're being scried upon, but not that you're the scryer. **Check Success:** You conjure an invisible sensor within 2 Spaces of the target, provided it's on the same plane of existence. You can see the target through the sensor which hovers motionlessly and follows them when they move.

CONNECTION	BONUS
You've touched the target.	+2
You possess an item of theirs.	+3
You possess a bodily item of theirs (such as a lock of hair, a nail, or some of its blood).	+5

SPELL ENHANCEMENTS

Duration: (1 MP, Repeatable) The duration increases by 1 step (1 minute -> 10 minutes -> 1 hour -> 8 hours -> until Long Rest).

Sound: (1 MP) You hear the target through the sensor.

Obscured Scrying: (1 MP) The target is no longer aware that they're being scried upon (even if you fail the Check).

Extraplanar: (3 MP) The range of the Spell becomes any plane of existence.

ELEMENTAL

Elemental is the magic of the natural elements, such as earth, wind, fire, water, lightning, and corrosion. Spells that produce effects that manipulate the elementals fall into the School of Elemental.

ABSORB ELEMENTS

Source: Primal

School: Elemental

Tags: Embolden, Ward

Cost: 1 AP + 1 MP

Range: Self

Duration: Instantaneous

You conjure a protective elemental ward in response to damage.

Trigger: When you take Elemental Damage.

Reaction: You reduce the damage taken by 3.

SPELL ENHANCEMENTS

Amplified Shield: (1 MP, Repeatable) You reduce the damage taken by an additional 2.

Enduring Resistance: (1 MP) After resolving the damage, you gain Resistance (Half) to the damage type you reduced for 1 Round.

Backlash: (X AP) You deal +X damage of the damage type your reduced on your next Attack made in until the end of your next turn.

Lingering Retaliation: (X MP) For the next minute, when a creature Hits you with a Melee Attack, it takes X damage of the damage type your reduced.

ACID STREAM

Source: Arcane, Primal

School: Elemental

Tags: Corrosion, Enfeeble, Hindered

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a stream of acid that project in a 8 Space Line. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Corrosion damage.

Spell Passive: Acidic

Mundane materials in the area (wood, leather, rope, non-magical metals) that are not being worn or held partially erode or decay, weakening structures and gear.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (1 AP, Repeatable) The length of the Line increases by 4 Spaces.

Dissolve: (1 AP) Each target makes an Agility Save. **Save Failure:** They no longer benefit from PDR or EDR for 1 Round.

Remove Resistance: (1 MP) Each target makes an Agility Save. **Save Failure:** The target no longer benefits from Physical or Elemental Resistance for 1 Round.

Hinder: (2 MP) Each target makes a Repeated Agility Save. **Save Failure:** The Target becomes covered in acid for 1 minute. While covered in acid, the target is **Hindered**. A creature within 1 Space (including itself) spends 1 AP to make a Survival Check against your Save DC, removing the acid on a Success.

AIR SLASH

Source: Primal

School: Elemental

Tags: Air, Bleeding, Slashing

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a slash of high velocity wind that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Slashing damage.

Spell Passive: Wind

Unsecured mundane objects in the target's space are knocked over or blown away, especially light ones (papers, tools, empty crates). Can slam doors, scatter sand/dust and disperse smoke.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP) The damage increases by X.

Bleeding: (X AP) The target makes a Repeated Physical Save. **Save Failure:** The target begins **Bleeding X** for 1 minute.

Hidden Slash: (1 MP) You add a **d10** to your Attack Check.

BLIGHT BOMB

Source: Arcane, Primal

School: Elemental

Tags: Ailment, Impaired, Poison

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce an explosion of Poisonous gas in a 3 Space diameter Sphere within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Poison damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Noxious

Plant life in the area that are not being worn or held wilts or dies, grass blackens, and flowers or vines shrivel where the Spell touches.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Impair: (1 MP) Each target makes a Might Save. **Save Failure:** The target become **Impaired** for 1 Round.

Deadly Poison: (X MP) Each target makes a Might Save. **Save Failure:** The target becomes Poisoned for 1 minute. While Poisoned in this way, the creature takes X Poison damage at the start of each of its turns. A creature can make a Repeated Might Save at the end of each of its turns, ending the Poison on a success. This Poison can be removed by any effect that ends a Basic Poison.

Poison Cloud: (X MP, Sustained) The duration of the Spell becomes 1 minute. Poison gas fills the area for the duration. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Might Save against your Save DC. **Save Failure:** The target takes X Poison damage.

CLOUD COVER

Source: Primal

School: Elemental

Tags: Cold, Shadow, Slashing

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You obscure a 4 Space diameter Sphere within range with natural phenomenon (such as fog, sand, or sleet) for the duration. The Sphere spreads around corners. Targets within the area are Fully Concealed against creatures that aren't within 1 Space of them. The Spell ends early if a 20 mph (30 kph) wind disperses it.

Relocate: When you Sustain this Spell, or by spending 1 AP, you can move the Sphere up to 5 Spaces to another Space within range.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Blanketing Cloud: (2 MP) Surfaces within the area becomes covered in natural phenomenon (such as debris, ice, or sand) for the duration, making them Difficult Terrain. When a creature enters the area for the first time on its turn, or starts its turn within there, it must make an Agility Save. **Save Failure:** The target falls **Prone**.

Abrasive Storm: (X MP) When a creature enters the area for the first time on its turn, or starts its turn within there, it must make an Might Save. **Save Failure:** The target takes X Slashing or Cold Damage (chosen when you use this Enhancement).

COLD WAVE

Source: Arcane, Primal

School: Elemental

Tags: Cold, Slowed, Trap

Cost: 2 AP

Range: Self

Duration: Instantaneous

You conjure a rush of freezing air that envelops a 2 Space Arc. Make an Area Spell Attack against the AD of every target within the Spell's area. **Hit:** The target takes 1 Cold damage.

Spell Passive: Freezing

Liquids and objects not being held or carried in the area frost over, causing them to adhere to nearby surfaces. A creature can use a Minor Action to make a Might Check against your Save DC to dislodge an object.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The area's radius increases by X Spaces.

Aura: (1 MP) The Area becomes an Aura instead.

Encasing Frost: (X AP) Each target makes a Might Save against your Save DC. **Save Failure:** For the next round, the first time the target willingly moves or takes a Reaction it takes X Cold damage.

Slow: (X MP) Each target makes a Repeated Might Save. **Save Failure:** The target is **Slowed X** for 1 Round.

CONE OF COLD

Source: Arcane, Primal

School: Elemental

Tags: Cold, Slowed, Stunned

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a rush of freezing air that envelops a 3 Space Cone. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Cold damage.

Spell Passive: Freezing

Liquids and objects not being held or carried in the area frost over, causing them to adhere to nearby surfaces. A creature can use a Minor Action to make a Might Check against your Save DC to dislodge an object.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The length of the Cone increases by X Spaces.

Slow: (X MP) Each target makes a Repeated Might Save. **Save Failure:** The target is **Slowed X** for 1 Round.

Frozen Stiff: (2 MP, Repeatable) Each target makes a Physical Save. **Save Failure:** The target is **Stunned** for 1 Round.

CORROSIVE BOLT

Source: Arcane, Primal

School: Elemental

Tags: Corrosion, Enfeeble, Hindered

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of acid that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Corrosion damage.

Spell Passive: Acidic

Mundane materials in the target's Space (wood, leather, rope, non-magical metals) that are not being worn or held partially erode or decay, weakening structures and gear.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP) The damage increases by X.

Dissolve: (1 AP) The target makes a Repeated Agility Save. **Save Failure:** The target no longer benefits from PDR or EDR for 1 minute.

Acid: (X MP) The target makes a Repeated Agility Save. **Save Failure:** The target becomes covered in acid for 1 minute. While covered in acid, the target is **Hindered** and take X Corrosion damage at the start of each of their turns. A creature within 1 Space (including itself) spends 1 AP to make a Survival Check against your Save DC, removing the acid on a Success.

CORROSIVE CASCADE

Source: Arcane, Primal

School: Elemental

Tags: Corrosion, Enfeeble

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a deluge of acid that envelops a 6 Space tall, 3 Space diameter Cylinder within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Corrosion damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Acidic

Mundane materials in the area (wood, leather, rope, non-magical metals) that are not being worn or held partially erode or decay, weakening structures and gear.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (1 MP, Repeatable) The diameter of the Cylinder increases by 1 Space and the Height by 2 Spaces.

Dissolve: (1 MP) Each target makes a Repeated Agility Save. **Save Failure:** The target no longer benefits from PDR or EDR for 1 minute.

Pitted Terrain: (1 MP) Surfaces in the area become Difficult Terrain until the surfaces are repaired.

Acid Rain: (X MP, Sustained) The duration of the spell becomes 1 minute. Acid rain falls in the area for the duration. When a creature enters the area for the first time on its turn or starts its turn there, it makes an Agility Save against your Save DC. **Save Failure:** The target takes X Corrosion damage.

CORROSIVE WAVE

Source: Arcane, Primal

School: Elemental

Tags: Corrosion, Enfeeble, Exposed

Cost: 2 AP

Range: Self

Duration: Instantaneous

You conjure a wave of acid that envelops a 2 Space Arc. Make a Spell Attack against the AD of every target within the area **Hit:** The target takes 1 Corrosion damage.

Spell Passive: Acidic

Mundane materials in the area (wood, leather, rope, non-magical metals) that are not being worn or held partially erode or decay, weakening structures and gear.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The area's radius increases by X Spaces.

Aura: (1 MP) The Area becomes an Aura instead.

Dissolve: (1 MP) Each target makes a Repeated Agility Save. **Save Failure:** They no longer benefit from PDR or EDR for the 1 minute.

Exposing Acid: (3 MP) Each target makes a Repeated Agility Save. **Save Failure:** The target becomes covered in acid for 1 minute or until a creature (including itself) within 1 Space spends 1 AP to make a Survival Check against your Save DC, removing the acid on a Success. While covered in acid, the target is **Exposed**.

ELEMENTAL SHIELD

Source: Arcane, Primal

School: Elemental

Tags: Embolden, Ward

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Hour

A protective elemental ward surrounds you. Choose an Elemental damage type.

Make a DC 15 Spell Check. **Failure:** You gain 2 Temp HP. **Success:** You gain 3 Temp HP. **Success (each 5):** +1 Temp HP.

Retaliation: If a creature within 1 Space Hits you with an Attack while you have this Temp HP, the creature takes 1 damage of the chosen type for each Temp HP that was consumed by the Attack. The Spell ends early if all the Temp HP from this Spell is consumed.

SPELL ENHANCEMENTS

Lashing Elements: (1 AP, Repeatable) The range of Retaliation is increased by 2 Spaces.

Durability: (1 MP, Repeatable) The Temp HP is increased by 2.

Resistance: (2 MP) You gain Resistance (Half) to the chosen damage type for the duration.

Immunity: (4 MP) You gain Immunity to the chosen damage type for the duration.

ERUPTION

Source: Primal

School: Elemental

Tags: Bludgeoning, Earth, Motion

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You create a 3 Space diameter Sphere of erupting earth within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Bludgeoning damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Quake

The ground rumbles and quakes, causing all unsecured small objects to fall and leaving visible cracks and marks across surfaces.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Erupted: (X MP) Each target makes a Physical Save. **Save Failure:** The target is pushed upward X Spaces.

Fractured: (1 MP) Surfaces in the Area becomes Difficult Terrain. A creature can spend 1 AP to clear 1 Space of this Difficult Terrain, returning the Space to normal.

FIREBALL

Source: Arcane, Primal

School: Elemental

Tags: Burning, Fire, Shadow

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a brilliant flame that envelops a 3 Space Diameter Sphere area within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Fire damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Ignite

Flammable objects that are not being worn or held in the target's Space catch fire. A creature can spend 1 AP to put out a mundane fire within 1 Space of them.

*Beta Note: For now, you can assume objects remain on fire for 1 minute and spreads to other flammable objects at a rate of 1 Space per minute unless the GM decided otherwise. A creature doesn't start **Burning** when it's in a Space with a burning object unless the entire Space is on Fire.*

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (1 MP, Repeatable) The diameter of a Sphere of your choice increases by 1 Space.

Burning: (1 MP, Repeatable) Each target makes a Repeated Physical Save. **Save Failure:** The target begins **Burning** for 1 minute.

Smoke: (1 MP) The area becomes Fully Concealed by thick black smoke. Creatures in the area that can't hold their breath begin **Suffocating**. The smoke lasts for 1 Round or until a wind of moderate or greater speed disperses it.

Fireball Swarm: (2 MP, Repeatable) You produce an additional 3 Space diameter Sphere within range using the same Spell Attack for all targets in each area. A creature can only be targeted once by this Spell even if they are in multiple Spheres.

FIRE BLAST

Source: Arcane, Primal

School: Elemental

Tags: Burning, Fire

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a brilliant flame that envelops a 1 Space Aura. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Fire damage.

Spell Passive: Ignite

Flammable objects that are not being worn or held in the target's Space catch fire. A creature can spend 1 AP to put out a mundane fire within 1 Space of them.

*Beta Note: For now, you can assume objects remain on fire for 1 minute and spreads to other flammable objects at a rate of 1 Space per minute unless the GM decided otherwise. A creature doesn't start **Burning** when it's in a Space with a burning object unless the entire Space is on Fire.*

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The Aura's radius increases by X Spaces.

Mantle of Fire: (X MP, Sustained) The Spell's duration becomes 1 minute. The heat lingers on you in a 1 Space Aura for the duration. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Repeated Physical Save against your Save DC. **Save Failure:** The target begins **Burning X** for 1 minute.

DC Tip: You can choose for the Space you occupy to not be affected by an Aura you produce.

FIRE BOLT

Source: Arcane, Primal

School: Elemental

Tags: Burning, Fire

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of fire that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Fire damage.

Spell Passive: Ignite

Flammable objects that are not being worn or held in the target's Space catch fire. A creature can spend 1 AP to put out a mundane fire within 1 Space of them.

*Beta Note: For now, you can assume objects remain on fire for 1 minute and spreads to other flammable objects at a rate of 1 Space per minute unless the GM decided otherwise. A creature doesn't start **Burning** when it's in a Space with a burning object unless the entire Space is on Fire.*

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (1 AP, Repeatable) The damage increases by 1 for 1 target of your choice.

Burning: (1 AP, Repeatable) 1 target of your choice makes a Repeated Physical Save. **Save Failure:** The target begins **Burning** for 1 minute.

Flaming Missile: (1 AP + X MP) Choose X additional targets within range using the same Spell Attack for all targets. The AP cost of this Enhancement can't be paid for with MP.

FIRE TORRENT

Source: Arcane, Primal

School: Elemental

Tags: Burning, Fire, Motion

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a torrent of fire that envelops a 3 Space Cone. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Fire damage.

Spell Passive: Ignite

Flammable objects that are not being worn or held in the target's Space catch fire. A creature can spend 1 AP to put out a mundane fire within 1 Space of them.

*Beta Note: For now, you can assume objects remain on fire for 1 minute and spreads to other flammable objects at a rate of 1 Space per minute unless the GM decided otherwise. A creature doesn't start **Burning** when it's in a Space with a burning object unless the entire Space is on Fire.*

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The length of the Cone increases by X Spaces.

Burning: (X MP) Each target makes a Repeated Physical Save. **Save Failure:** The target begins **Burning X** for 1 minute.

Back Draft: (X MP) Each target makes a Might Save against your Save DC. **Save Failure:** The target is pushed X Spaces away from you. **Failure (each 5):** The target is pushed 1 additional Space.

FREEZE

Source: Arcane, Primal

School: Elemental

Tags: Cold, Enfeeble, Immobilized, Slowed, Stunned

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Minute

You gather freezing wind around a target within range for the duration. Make a Spell Check contested by the target's Repeated Agility Save. **Save Failure:** The target is **Slowed** for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Increased Slow: (X AP) The target gains X additional stacks of **Slowed**.

Frostbite: (X AP) While **Slowed** this way, the target takes X Cold damage at the start of each of their turns.

Brittle: (1 MP) While **Slowed** this way, the target gains Vulnerability (1) to Physical damage.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Frozen Stiff: (3 MP) On a failed Save, the target is **Immobilized** and **Stunned 2** for the duration.

FROST BOLT

Source: Arcane, Primal

School: Elemental

Tags: Cold, Slowed

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of condensed freezing air that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Cold damage.

Spell Passive: Freezing

Liquids and objects not being held or carried in the target's Space frost over, causing them to adhere to nearby surfaces. A creature can use a Minor Action to make a Might Check against your Save DC to dislodge an object.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP, Repeatable) The damage increases by X for 1 target of your choice.

Slow: (X AP, Repeatable) 1 target of your choice makes a Might Save. **Save Failure:** The target is **Slowed X** for 1 Round.

Frost Bomb: (1 AP + X MP) The projectile detonates on impact. Compare your Attack Check against the AD of every other target within 1 Space of the original target.

Hit: The target takes X Cold damage. The AP cost of this Enhancement can't be paid for with MP.

FROST STORM

Source: Arcane, Primal

School: Elemental

Tags: Cold, Slowed

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

The temperature rapidly decreases in a 6 Space tall, 3 Space diameter Cylinder within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Cold damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Freezing

Liquids and objects not being held or carried in the area frost over, causing them to adhere to nearby surfaces. A creature can use a Minor Action to make a Might Check against your Save DC to dislodge an object.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (1 MP, Repeatable) The diameter of the Cylinder increases by 1 Space and the Height by 2 Spaces.

Slow: (X MP) Each target makes a Repeated Might Save. **Save Failure:** The target is **Slowed X** for 1 Round.

Freeze: (2 MP) The area is covered by ice, becoming Difficult Terrain. A Space stops being covered after 1 minute or when it takes fire damage. When a creature starts their turn on a Space covered by ice or enters it for the first time on their turn, it makes an Agility Save against your Save DC. **Save Failure:** The target falls **Prone**.

GUST

Source: Primal

School: Elemental

Tags: Air, Motion

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a gust of wind that targets a Medium Size or smaller creature or object within range. The Spell has no effect on secured or worn objects.

- **Creature or Held Object:** If you target a creature or an object held by a creature, make a Spell Check contested by the creature's Might Save. **Save Failure:** The target is pushed horizontally 1 Space in a direction of your choice. **Failure (each 5):** The target is pushed 1 additional Space. If the target is a creature, you can choose to reduce the total distance the target is pushed by 1 Space to knock them **Prone** instead.
- **Loose Object:** If the target is a loose object, make a DC 15 Spell Check. **Check Failure:** The target is pushed horizontally 1 Space in a direction of your choice. **Check Success:** The target is pushed 2 Spaces in a direction of your choice. **Success (each 5):** The target is pushed 1 additional Space.

Smaller Target: The target is pushed up to 2 Spaces additional Spaces for each Size smaller it is than the maximum Size you can target.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Knock Over: (1 AP) If the target collides with another creature of the same Size or smaller as part of this movement, the creature it collides with must make a Might Save against your Save DC. **Save Failure:** The target is knocked Prone. **Save Failure (each 5):** The target is also pushed 1 Space in the same direction.

Size: (1 MP, Repeatable) The maximum size of a creature or object you can target increases by 1 step (Medium -> Large -> Huge -> Gargantuan -> Colossal -> Titanic). The cost of this Enhancement increases to 2 MP for each size increase beyond Large.

Example: You use the **Size** Enhancement twice to target a Huge creature. The first one costs 1 MP (to target Large), and the second one costs 2 MP (to target Huge) for a total of 3 MP.

Targets: (1 AP + X MP) You can target X additional creatures or objects within range. When you choose this Enhancement, the cost of all other Enhancements is doubled. The AP cost of this Enhancement can't be paid for with MP.

HYDRO LANCE

Source: Primal

School: Elemental

Tags: Bleeding, Motion, Piercing, Water

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a high-pressure jet of water in an 8 Space Line. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Piercing damage.

Spell Passive: Extinguish

Open flames in the area are extinguished, including torches, candles, or small campfires, unless magical or protected.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (1 AP, Repeatable) The length of the Line increases by 4 Spaces.

Knockback: (X AP) The closest target makes a Might Save. **Save Failure:** The target is pushed 1 Space away from you. **Save Failure (each 5):** The target is pushed up to 1 additional Space.

Bleeding: (X MP) Each target makes a Repeated Physical Save. **Save Failure:** The target begins **Bleeding X** for 1 minute.

INFLECT POISON

Source: Arcane, Primal

School: Elemental

Tags: Ailment, Dazed, Frightened, Impaired, Slowed, Stunned

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

Make a Spell Check against the Repeated Might Save of a creature within range. **Check Success:** The target is Poisoned for the duration. Creatures Poisoned by this Spell have DisADV on Awareness Checks, and are **Dazed**, **Impaired** and **Slowed**.

Beta Note: A creature with a Medicine Kit can attempt to remove a Basic Disease from a creature within 1 Space (including themselves) by spending 1 AP and 1 charge from the Medicine Kit and make a Medicine Check against the effect's Save DC, removing the Disease on a success.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Sapped: (1 MP) While Poisoned by this Spell, the target falls Prone and can't stand up.

Fear Toxin: (1 MP) The target has vivid hallucinations. While Poisoned by this Spell, the target is **Frightened** of all creatures it can see.

Mental Fog: (2 MP) While Poisoned by this Spell, the target is **Stunned** and forgets every detail about the previous minute.

LIGHTNING BLAST

Source: Arcane, Primal

School: Elemental

Tags: Lightning

Cost: 2 AP

Range: Self

Duration: Instantaneous

You conjure a torrent of lightning in a 1 Space Aura. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Lightning damage.

Spell Passive: Magnetic

Metal in the area becomes briefly magnetized, causing metal objects to attract or repel each other and disrupting compass-based navigation.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The Aura's radius increases by X Spaces.

Shock: (1 MP) Each target makes an Agility Save. **Save**

Failure: The target can't take Reactions for 1 Round.

Static: (X MP) The area becomes laden with electricity for 1 minute. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Fate Check.

Result of a 10 or lower: They take X Lightning damage.

Beta Note: A Fate Check is a d20 roll where no modifier (numerical or otherwise) apply to the Check, no critical result apply and you can't choose to fail.

LIGHTNING BOLT

Source: Arcane, Primal

School: Elemental

Tags: Lightning, Stunned

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of lightning that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target you can see within range. **Hit:** The target takes 1 Lightning damage.

Spell Passive: Magnetic

Metal in the target's Space becomes briefly magnetized, causing metal objects to attract or repel each other and disrupting compass-based navigation.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (1 AP, Repeatable) The damage increases by 1 for 1 target of your choice.

Stun: (1 AP) 1 target of your choice makes a Physical Save. Creatures made of metal or wearing metal (such as Heavy Armor) have DisADV on this Save. **Save Failure:** The target becomes **Stunned** until the start of its next turn.

Chain: (1 MP, Repeatable) Choose 1 additional targets within 3 Spaces of the original target using the same Spell Attack for all targets. If you use this Enhancement multiple times, you choose an additional target within 3 Spaces of a previously chosen target.

LIGHTNING STORM

Source: Arcane, Primal

School: Elemental

Tags: Deafened, Lightning, Sound

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a torrent of crackling lightning that envelops a 6 Space tall, 3 Space diameter Cylinder within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Lightning damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Magnetic

Metal in the area becomes briefly magnetized, causing metal objects to attract or repel each other and disrupting compass-based navigation.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (1 MP, Repeatable) The diameter of the Cylinder increases by 1 Space and the Height by 2 Spaces.

Shock: (1 MP) Each target makes an Agility Save. **Save Failure:** The target can't take Reactions for 1 Round. If used with Storm Cloud, the cost of the enhancement becomes 2 MP and the target can't take Reactions for 1 Round whenever they fail a Save against Storm Cloud.

Storm Cloud: (X MP, Sustained) The duration of the Spell becomes 1 Minute. Crackling lightning fills the area for the duration. When a creature enters the area for the first time on its turn or starts its turn there, it makes an Agility Save against your Save DC. **Save Failure:** The target takes X Lightning damage.

LIGHTNING TORRENT

Source: Arcane, Primal

School: Elemental

Tags: Dazed, Lightning

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a torrent of crackling lightning that envelops a 5 Space Line. Make an Area Spell Attack against the AD of every target within the area, and the closest target to you makes a Might Save. **Hit:** The target takes 1 Lightning damage. **Save Failure:** The target can't take Reactions for 1 Round.

Spell Passive: Magnetic

Metal in the area becomes briefly magnetized, causing metal objects to attract or repel each other and disrupting compass-based navigation.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (1 AP, Repeatable) The length of the Line increases by 5 Spaces.

Chain Shock: (1 AP) Instead of only the closest target making the save, each target makes the Might Save.

Dazed: (1 MP) Each target makes an Intelligence Save. **Save Failure:** The target is **Dazed** for 1 round.

Remote: (1 MP) The range becomes 5 Spaces, with the origin of the Line becoming the chosen Space. The closest target is measured from the origin.

LIGHTNING ROD

Source: Arcane, Primal

School: Elemental

Spell Tags: Lightning, Tethered

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You attempt to turn a creature of your choice within range into a lightning rod. Make a Spell Check against the target's Repeated Agility Save. **Save Failure:** The target is unable to take Reactions and you are able to use **Shock** against the target for the duration. The Spell ends early if you end your turn beyond the Spell's range from the target or behind Full Cover from the target.

Shock: Once on each of your turns, when you Sustained this Spell or by spending **1 AP**, you can deal **1** Lightning damage to the target, provided it's not behind Full Cover. When you use **Shock**, you can spend 1 or more MP to increase the damage by 1 per MP spent.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Arcing Current: (1 AP, Repeatable) Choose an additional targets within 2 Spaces of a previously chosen target that's also within the Spell's range. Only 1 creature can be targeted by **Shock** at a time.

Tether: (1 MP) On a Failed Save, they also become **Tethered** to you a distance equal to the Spell's range. If you use the **Arcing Current** Enhancement, this Enhancement costs **2 MP** instead.

LIVING BOMB

Source: Arcane, Primal

School: Elemental

Tags: Burning, Fire, Trap

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You set a target within range ablaze. Make a Spell Check against the target's Repeated Physical Save. **Check Success:** The target begins **Burning**.

Bomb: When the **Burning** caused by this Spell ends, the fire magic detonates in a 1 Space Aura centered on the target. Each target in the area (including the original one) makes a Might Save against your Save DC. **Save Failure:** The target takes 1 Fire damage.

Spell Passive: Ignite

Flammable objects that are not being worn or held in the target's Space catch fire. A creature can spend **1 AP** to put out a mundane fire within 1 Space of them.

*Beta Note: For now, you can assume objects remain on fire for 1 minute and spreads to other flammable objects at a rate of 1 Space per minute unless the GM decided otherwise. A creature does not start **Burning** when it's in a Space with a burning object unless the entire Space is on Fire.*

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Stronger Bomb: (X MP) The damage of Bomb increases by X.

Larger Area: (X MP) The radius of the Bomb increases by X Spaces.

Increased Burning: (X AP) The target gains X additional stacks of **Burning**.

MAELSTROM

Source: Primal

School: Elemental

Tags: Motion, Slowed, Water

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You create a 3 Space diameter, 2 Space tall Cylinder of swirling water within range for the duration. Open mundane flames in the area are extinguished (such as torches, candles, or small campfires). Creatures in the area are subjected to the **Underwater Combat** rules (DisADV on Martial Attacks and Slowed without Swim Speed, gain Fire Resistance, subject to Hold Breath and Suffocation) and are **Slowed** when they move away from the Point of Origin. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Might Save against your Save DC. **Save Failure:** They are pulled 1 Space toward the Point of Origin.

Spell Cast: When you cast the Spell, make a Spell Check against the Might Save of each target in the area. **Save Failure:** They are pulled to 1 Space to the Point of Origin.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Cylinder increases by X Spaces.

Increased Pull: (X MP) The distance pulled increases by X Spaces.

Drowning: (3 MP) When a creature fails a Save, they lose their breathe and begin **Suffocating** if they can't breath underwater.

MOLD EARTH

Source: Arcane, Primal

School: Elemental

Tags: Earth, Motion

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You manipulate a up to a 4 Space Zone of mundane earth (including dirt, mud, and stone) of your choice within range, provided it's not being carried or supporting a Small or larger creature or object.

Choose 1 of the following options when casting the Spell:

- **Move:** You move the area up to 2 Spaces. Any creatures or objects on the earth move with the dirt, unless you (or the creature) choose otherwise. If they remain in the same Space and there's no ground to support them, they begin a Controlled Fall.
- **Reshape:** You cause shapes, earthen colors, or both to appear on or in the earth (such as words, images, or patterns).
- **Difficult Terrain:** You can cause Spaces of your choice within the area to become Difficult Terrain. A creature can spend 1 AP to clear 1 Space of Difficult Terrain created in this way. If the ground is already Difficult Terrain as a result of loose earth, you can cause it to become normal terrain instead.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Expand: (1 AP, Repeatable) The size of the Zone increases by 4 Spaces.

Manipulate Stone: (1 MP) You can also manipulate compacted earth or stone.

Precise Construction: (1 MP) You can select multiple options when casting the Spell. You can manipulate the earth into an exact form you wish. This can be used to repair structures or produce your own in unoccupied Spaces.

Heavy Excavation: (1 MP, Repeatable) You can move earth supporting creatures or objects 1 size larger (Small -> Medium -> Large -> Huge -> Gargantuan -> Colossal -> Titanic).

Unstable Earth: (2 MP) Creatures in the area must make an Agility Save. **Save Failure:** They fall **Prone**.

POISON BOLT

Source: Arcane, Primal

School: Elemental

Tags: Ailment, Hindered, Impaired, Poison

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of condensed poisonous gas that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Poison damage.

Spell Passive: Noxious

Plant life in the target's Space that is not being worn or held wilts or dies, grass blackens, and flowers or vines shrivel where the Spell touches.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP) The damage increases by X.

Debilitating Poison: (1 MP) The target makes a Repeated Might Save. **Save Failure:** The target is Poisoned for 1 minute. While Poisoned in this way, the creature becomes **Hindered** or **Impaired** (your choice when you use this Enhancement). This Poison can be removed by any effect that ends a Basic Poison.

Deadly Poison: (X MP) The target makes a Repeated Might Save. **Save Failure:** The target is Poisoned for 1 minute. While Poisoned in this way, the creature takes X Poison damage at the start of each of their turns. This Poison can be removed by any effect that ends a Basic Poison.

Beta Note: A creature with a Medicine Kit can attempt to remove a Basic Poison from a creature within 1 Space (including themselves) by spending 1 AP and 1 charge from the Medicine Kit and make a Medicine Check against the effect's Save DC, removing the Basic Poison on a success.

SPIKE BOLT

Source: Primal

School: Elemental

Tags: Earth, Impaired, Piercing, Plants

Cost: 1 AP

Range: 10 Space

Duration: Instantaneous

You produce a sharp spike of earth or plant matter that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Piercing damage.

Spell Passive: Natural Destruction

This Spell leaves debris imbedded in the Space it lands in.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP, Repeatable) The damage increases by X for 1 target of your choice.

Impair: (1 AP) 1 target of your choice makes an Agility Save. **Save Failure:** The target is **Impaired** for 1 Round.

Piercing: (1 AP + 1 MP) The Spell pierces the target, continuing up to 3 Spaces in a Line beyond the target. Each creature within the Spell's path beyond the original target also become targets of the Attack. These targets do not benefit from cover provided by other targets of this Spell. The AP cost of this Enhancement can't be paid for with MP.

SPIKE CLUSTER

Source: Primal

School: Elemental

Tags: Earth, Immobilized, Impaired, Piercing, Plants

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce an explosion of spikes or thorns that envelops a 3 Space diameter Sphere within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Piercing damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Natural Destruction

This Spell leaves debris imbedded in objects in the area.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Impair: (1 MP) Each target makes an Agility Save. **Save Failure:** The target is **Impaired** for 1 Round.

Immobilizing Spikes: (2 MP) Each target makes an Agility Save. **Save Failure:** The target is **Immobilized** for 1 Round.

SPIKE SURGE

Source: Primal

School: Elemental

Tags: Earth, Impaired, Piercing, Plants

Cost: 2 AP

Range: Self

Duration: Instantaneous

You conjure a wave of spikes or thorns that emerge from the ground in a 2 Space Arc. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Piercing damage.

Spell Passive: Natural Destruction

This Spell leaves debris imbedded in objects in the area.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The Area's radius increases by X Spaces.

Aura: (1 MP) The Area becomes an Aura instead.

Impair: (1 MP) Each target makes an Agility Save. **Save Failure:** The target is **Impaired** for 1 Round.

Spikey Terrain: (X MP) The area becomes Spikey Terrain for 1 Round. Creatures take X Piercing damage when they enter a Space within the area.

TORNADO

Source: Primal

School: Elemental

Tags: Air, Blinded, Chaos, Lightning, Motion, Slowed

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You create a 6 Space high, 2 Space diameter Cylinder of swirling winds within range for the duration. Creatures in the area are **Slowed 2**, **Blinded**, and Fully Concealed. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Might Save against your Save DC. **Save Failure:** They're pushed 1 Space horizontally in a random direction. **Failure (each 5):** They're pushed 1 additional Space.

Spell Cast: When you cast the Spell, make a Spell Check against the Might Save of each target in the area. **Save Failure:** They're pushed 1 Space horizontally in a random direction. **Failure (each 5):** They're pushed 1 additional Space.

Moving the Cylinder: When you Sustain this Spell or by spending 1 AP, you can move the Cylinder up to 5 spaces to another Space within range.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (1 MP, Repeatable) The diameter of the Cylinder increases by 1 Space and the height increases by 2 Spaces.

Increased Push: (X MP) The distance pushed increases by X Spaces.

Vortex: (1 MP) When you cast the Spell, creatures within the area, or within 1 Space of the area, make a Might Save against your Spell Check. **Save Failure:** They're pulled toward the Point of Origin.

Storm Core: (X MP) A creature that fails its Save also takes X Lightning damage.

Updraft: (2 MP, Repeatable) A creature that fails its Save is also pulled upward 3 Spaces.

TOXIC BURST

Source: Arcane, Primal

School: Elemental

Tags: Ailment, Enfeeble, Poison

Cost: 2 AP

Range: Self

Duration: Instantaneous

You emit toxic air that envelops a 1 Space Aura. Make an Area Spell Attack against the AD of each target in the area.

Hit: They take 1 Poison damage.

Spell Passive: Noxious

Plant life in the area that are not being worn or held wilts or dies, grass blackens, and flowers or vines shrivel where the Spell touches.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The Aura's radius increases by X Spaces.

Disease: (X MP) Each target makes a Repeated Might Save against your Save DC. **Save Failure:** The target is Diseased for 1 minute. Creatures Diseased by this Spell have their current and maximum HP reduced by X at the start of each of their turns. The creature's maximum HP returns to normal after taking a rest. This Disease can be removed by any effect that ends a Basic Disease.

Beta Note: A creature with a Medicine Kit can attempt to remove a Basic Disease from a creature within 1 Space (including themselves) by spending 1 AP and 1 charge from the Medicine Kit and make a Medicine Check against the effect's Save DC, removing the Disease on a success.

Spreading Plague: (1 MP) Requires Disease. Creatures Diseased by this Spell also emit a 1 Space Aura of diseased air. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Repeated Might Save against your Save DC. **Save Failure:** The target also becomes Diseased by this Spell for 1 minute. You are immune to the effects of Spreading Plague.

WALL OF FIRE

Source: Arcane, Primal

School: Elemental

Tags: Burning, Fire, Shadow

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You conjure persistent flames that fills a 5 Space long, 2 Space tall Wall. When you cast the Spell, make an Area Spell Attack against the AD of each target within the area.

Hit: The target takes 1 Fire damage.

Hazardous Area: When a creature enters the area for the first time on its turn or starts its turn there, it makes a Might Save against your Save DC. **Save Failure:** The target takes 1 Fire damage.

Spell Passive: Ignite

Flammable objects that are not being worn or held in the target's Space catch fire. A creature can spend 1 AP to put out a mundane fire within 1 Space of them.

*Beta Note: For now, you can assume objects remain on fire for 1 minute and spreads to other flammable objects at a rate of 1 Space per minute unless the GM decided otherwise. A creature does not start **Burning** when it's in a Space with a burning object unless the entire Space is on Fire.*

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (2 MP, Repeatable) The damage increases by 1.

Area: (1 MP, Repeatable) The length of the Wall increases by 5 Spaces.

Ringwall: (1 MP) The area becomes an up to 4 Space diameter Ringwall. The diameter of the Ringwall increases by 1 each time you use the Area Enhancement.

Burning: (2 MP, Repeatable) When a creature fails the Save against the Hazardous Area it begins **Burning**. A creature can make a Repeated Physical Save at the end of each of its turns, ending the **Burning** on a Success.

Smoke: (1 MP) The area becomes Fully Concealed by thick black smoke. Creatures in the area that can't hold their breath begin **Suffocating**. The smoke lasts for 1 minute or until a wind of moderate or greater speed disperses it.

WALL OF EARTH

Source: Primal

School: Elemental

Tags: Earth, Motion, Summoning

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You create a 5 Space long, 2 Space high Wall of earth within range. Medium Size or smaller creatures and objects within the area are pushed to nearest unoccupied Space of their choice on either side of the Wall (you choose for each object). Large Size or larger creatures or objects prevent the Wall from forming in their Space.

The Wall is a solid surface that provides Full Cover. Each Space within the Wall has **1 HP**, an AD and PD equal to your Save DC, Slashing Resistance (Half), and Poison and Psychic Immunity. Each Space of the Wall can be broken if it is reduced to **0 HP**. When a Space of Wall is broken, all Spaces above that Space are also broken, and the Space becomes Difficult Terrain until a creature spends **1 AP** to clear it.

Wall Slam: When you cast the Spell, or by spending **1 AP**, you can cause the Wall to move 2 Spaces horizontally in a direction of your choice in either of its facing directions. Make a Spell Check against the Might Save of each creature within the area the Wall moves. **Save Failure:** They're pushed with the Wall in the direction it moves. **Save Success:** They aren't moved and they prevent any Spaces of the Wall that make contact with them from moving past their Space. After moving the Wall in this way, it breaks, and each Space it moved through becomes Difficult Terrain until a creature spends **1 AP** to clear it.

Spell Ends: When the Spell ends, the Wall remains but you can no longer use **Wall Slam**.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Size: (1 MP, Repeatable) The Wall's length or height increases by 2 Spaces. If used with the **Additional Walls** Enhancement, you choose which Wall to increase the size of.

Density: (X MP) The HP of each Space of the Wall and the number of Spaces the Wall moves when using **Wall Slam** both increase by X.

DC Tip: The further the wall would have travelled when slamming someone into a solid surface, the more collision damage they take!

Additional Walls: (X MP) You conjure X additional Walls within range using the same Spell Check. When you use **Wall Slam**, you choose which Wall to move.

WALL OF WATER

Source: Primal

School: Elemental

Tags: Motion, Water

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You create a 5 Space long, 2 Space high Wall of water within range for the duration. Open mundane flames in the area are extinguished (such as torches, candles, or small campfires). Creatures in the area are subjected to the **Underwater Combat** rules (DisADV on Martial Attacks and Slowed without Swim Speed, gain Fire Resistance, subject to Hold Breath and Suffocation). Attacks that deal Physical or Elemental damage have DisADV if made against targets within the area or on the other side of the Wall.

Spell End: When the Spell ends, it creates a Tidal Wave on both sides of the Wall that crashes upon on every Space within a number of Spaces equal to its height in both directions.

- **Objects:** Medium Size or smaller objects in the area that aren't held or carried are pushed away from the Wall's area to the farthest Spaces of the Tidal Wave's area.
- **Creatures:** Medium Size or smaller creatures in the area must make a Might Save against your Save DC. **Save Failure:** They are pushed a number of Spaces away from the Wall's area equal to half the Wall's height. **Failure (Each 5):** They are pushed 1 additional Space.

DC Tip: If the Wall is 4 Spaces high when the Spell ends, creatures that fail their Might Save against the Tidal Wave would be pushed 2 Spaces, plus 1 Space for each 5 they fail the Save by.

Spell Passive: Extinguish

Open flames in the area are extinguished, including torches, candles, or small campfires, unless magical or protected.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Length: (1 MP, Repeatable) The Wall's length increases by 2 Spaces.

Height: (1 MP, Repeatable) The Wall's height increases by 2 Spaces.

Tidal Force: (1 MP, Repeatable) The maximum target Size that Tidal Wave effects increases by 1 step (Medium -> Large -> Huge -> Gargantuan -> Colossal -> Titanic).

Prone: (1 MP) Each target that fails its Save against the Tidal Wave also falls **Prone**.

WATER BOLT

Source: Primal

School: Elemental

Tags: Bludgeoning, Motion, Water

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a bolt of water that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Bludgeoning damage.

Spell Passive: Extinguish

Open flames in the target's Space are extinguished, including torches, candles, or small campfires, unless magical or protected.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (1 AP, Repeatable) The damage increases by 1 for 1 target of your choice.

Knockback: (1 AP, Repeatable) 1 target of your choice makes a Might Save. **Save Failure:** The target is pushed 1 Space away from you. **Failure (each 5):** The target is pushed 1 additional Space.

Splash: (1 AP + X MP) The projectile detonates on impact. Compare the Spell Attack to the AD of each targets in a 2 Space Cone behind the original target. **Hit:** They take X Bludgeoning damage. The AP cost of this Enhancement can't be paid for with MP.

WIND BLADE

Source: Primal

School: Elemental

Tags: Air, Bleeding, Motion, Slashing

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a rush of high velocity wind in a 2 Space Arc. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Slashing damage.

Spell Passive: Wind

Unsecured mundane objects in the area are knocked over or blown away, especially light ones (papers, tools, empty crates). Can slam doors, scatter sand/dust and disperse smoke.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The Area's radius increases by X Spaces.

Aura: (1 MP) The Area becomes an Aura instead.

Bleeding: (X MP) Each target makes a Repeated Physical Save. **Failure:** The target begins **Bleeding X** for 1 minute.

Tailwind: (1 MP, Repeatable) Immediately before or after casting this Spell you can move 2 Spaces without provoking Opportunity Attacks.

WIND BURST

Source: Primal

School: Elemental

Tags: Air, Bleeding, Motion, Slashing

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a vortex of high velocity wind that envelops a 3 Space diameter Sphere area within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Slashing damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Wind

Unsecured mundane objects in the area are knocked over or blown away, especially light ones (papers, tools, empty crates). Can slam doors, scatter sand/dust and disperse smoke.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Bleeding: (X MP) Each target makes a Repeated Physical Save. **Failure:** The target begins **Bleeding X** for 1 minute.

Turbulent: (2 MP) Each target makes a Might Save. **Save Failure:** The target is moved to an unoccupied Space of your choice within the area.

WIND TUNNEL

Source: Primal

School: Elemental

Tags: Air, Motion, Slowed

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You create a 5 Space Line of forceful wind within range, designating one end as the Point of Origin. Make a Spell Check against the Might Save of each Medium size or smaller creature in the area. **Check Success:** The target is pushed 1 Space away from the Point of Origin. **Success (each 5):** They are pushed up to +1 Space.

Objects: Medium Size or smaller objects that aren't secured, worn or held are pushed 1 Space away from the Point of Origin.

Smaller Sizes: Creatures and objects are pushed up to 1 additional Space for each size smaller they are than the maximum size you can target.

SPELL ENHANCEMENTS

Range: (1 MP) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Length: (1 MP, Repeatable) The length of the Line increases by 5 Spaces.

Width: (X MP) The width and height of the Line increases by X Spaces. The cost of this Enhancement increases by 1 MP for each time the **Length** Enhancement has been used.

Size: (1 MP, Repeatable) The maximum size of a creature or object you affect with this spell increases by 1 step (Medium -> Large -> Huge -> Gargantuan -> Colossal -> Titanic). The cost of this Enhancement increases to 2 MP for each size increase beyond Large.

Example: You use the **Size** Enhancement two times to target a Huge creature. The first one cost 1 MP, and the last one costs 2 MP for a total of 3 MP.

Continuous: (X MP, Sustained) The Spell's duration is increased to 1 minute. Creatures in the area affected by the Spell are **Slowed X** when moving toward the Point of Origin, and move X additional Spaces for every 1 Space of movement spent when moving away from the Point of Origin. Objects affected by the Spell are pushed away from the Point of Origin to the other end of the Line. When you Sustain this Spell or by spending 1 AP, you can change which end is the Point of Origin, reversing the flow of wind.

Projectile Tunnel: (1 MP, Requires Continuous) Ranged Martial Attacks have ADV if they originate from within (or pass through) the Spell's area, provided they travel in the same direction as the wind. Otherwise, Ranged Martial Attacks have DisADV if they originate from within (or pass through) the Spell's area.

ENCHANTMENT

Enchantment is the magic of influencing other creatures' minds, such as provoking strong emotions and mental domination. Spells that create illusions in a creature's mind or charm other creatures through fabricated terror, loyalty, or love fall into the School of Enchantment.

CHARM

Source: Arcane, Divine

School: Enchantment

Tags: Charmed, Communication, Emotions, Thoughts

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Minute

Choose a creature that can see or hear you within range. Make a Spell Check against the target's Charisma Save. The Save is Repeated if the target is hostile. **Check Success:** The target is **Charmed** by you for the duration or until it takes damage or makes a Save. When the Condition ends, the creature realizes that you used magic to influence its mood and may become hostile toward you (if they weren't already).

DC Tip: A creature may also become hostile if the spell fails and they see you casting a spell on them!

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step (1 min -> 10 min -> 1 hour -> 8 hour -> Long Rest).

Clear Suspicion: (1 MP) The target doesn't realize that magic was used on them when the Condition ends.

Mass Charm: (1 AP + 1 MP): You instead target each creature of your choice within range that can see or hear you. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The Action Point cost of this Enhancement can't be paid for with MP.

COMMAND

Source: Arcane, Divine

School: Enchantment

Tags: Communication, Emotion, Motion, Thoughts

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: Instantaneous

You speak a command to a creature within range that can hear you. Make a Spell Check against the target's Charisma Save. **Save Failure:** The target immediately takes a 1 AP Action of your choice for free and loses 1 AP if they have any available. If the Action targets a creature or object, you choose the target.

DC Tip: At the GM's discretion you can have the target perform something specific that isn't a listed Action. For example, you could have the creature perform 2 Minor Actions.

The creature can't willingly fail their Check or spend their own resources (AP, SP, or MP) to modify the Action it takes. The Spell has no effect if the target is unable to perform the Action (such as commanding an **Immobilized** creature to move), or if the Action is directly harmful to itself (such as Attacking itself or moving for the purpose of provoking Opportunity Attacks).

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Perfect Command: (1 MP) The Spell no longer fails if the commanded Actions are directly harmful to the target.

Memory Block: (1 MP) The target has no recollection of any Actions taken as a result of this Spell.

Multiple Commands: (2 MP, Repeatable) The target takes up to 1 additional Action of your choice for free. Actions taken as part of this Spell subjected to the **Multiple Check Penalty**. The target loses 1 additional AP if they are able.

Extended Command: (2 MP, Repeatable) A taken Action can cost up to 1 additional AP. If used with **Multiple Commands** you increase the cost of only one taken Action. The target loses 1 additional AP if they are able.

DC Tip: If a chosen Action costs more than expected (such as a Dragon's Breath Action costing 3 AP when you thought it was 2 AP), you can choose another Action for the creature to take.

Example: You spend 4 MP to use **Multiple Commands** and **Extended Command**, on a failed Save you can command the target to take 2 Actions, one from the original Spell and one from **Multiple Commands**, you can then increase the AP cost of either Action by 1 using **Extended Command**. For example, you could have the target Move (1 AP) and then Attack with ADV (2 AP) or you could instead have them use a **Fireball** (2 AP) and then Attack with a weapon at DisADV due to **Multiple Check Penalty** (1 AP). The target would then lose a total of up to 3 AP if they're available.

CONFUSION

Source: Arcane, Primal

School: Enchantment

Tags: Chaos, Emotions, Madness, Thoughts

Cost: 1 AP + 2 MP

Range: 10 Spaces

Duration: 1 Minute

Choose a creature within range. Make a Spell Check against the target's Repeated Intelligence Save. **Check Success:** The creature is **Confused** for the duration. The target can also Repeat the Intelligence Save whenever they take damage.

Confused: You can't take Reactions and must roll a d8 at the start of each of your turns to determine your behavior for that turn.

- **1-2:** You spend all of your AP moving in a random direction.
- **3-4:** You waste your AP this turn performing useless activities (such as babbling incoherently, repeatedly attempting to act but failing or remaining motionless).
- **5-6:** You use all your AP on Attacks or on Actions to facilitate Attacks (such as moving to a target), Attacking random targets as determined by the GM. If you can't Attack, you waste all your AP this turn.
- **7-8:** You act normally.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) Choose 1 additional target within range for each 2 MP spent on this enhancement. The AP cost of this Enhancement can't be paid for with MP.

Deep Confusion: (2 MP) The target's Intelligence Save is not Repeated at the end of each of its turns, though it can still repeat the Save whenever it takes damage. The cost of this Enhancement increases to **4 MP** if used with the **Targets** Enhancement.

FEAR

Source: Arcane, Divine

School: Enchantment

Tags: Emotions, Frightened, Motion, Psychic, Terrified

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You instill fear in a creature within range that can see or hear you. Make a Spell Check against the target's Repeated Charisma Save. **Check Success:** The target is **Frightened** by you for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Inner Demons: (X MP) While **Frightened** by this Spell, the target takes X Psychic Damage whenever it fails a Check or Save (not including the initial Save against this Spell).

Flee: (1 MP) The target spends **1 AP** running away from you each time it fails a Save against this Spell.

Terrify: (3 MP) On a Success, the target is **Terrified** of you instead.

HEX

Source: Arcane, Divine

School: Enchantment

Tags: Curse, Enfeeble

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

Make a Spell Check against the Repeated Charisma Save of a target within range. **Check Success:** The target is Cursed for the duration. While Cursed this way, it gains Vulnerability (1) to a damage type of your choice. The Curse can be removed by any effect that ends a Basic Curse.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Expanded: (1 MP) The target becomes Vulnerable to a category of damage (Physical, Elemental or Mystical) of your choice instead of 1 damage type.

Break Resistance: (1 MP) While Cursed by this Spell, the target doesn't benefit from Resistance to the damage types they're Vulnerable to for the duration.

Improved Vulnerability: (2 MP, Repeatable) The Vulnerability increases by 1.

MESSAGE

Source: Arcane, Divine

School: Enchantment

Tags: Communication, Thoughts

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You send a brief telepathic message to a creature within range. The creature hears the message in their mind and can immediately respond telepathically. The message and response can take the form of a thought, a mental image or a verbal message of up to 20 words long. This Spell doesn't require Verbal Components.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Group Message: (1 AP + 1 MP) You can target every creature of your choice within range. Only you can telepathically perceive answers from the targets.

Sending: (3 MP) You can target any creature you've touched previously, provided they're on the same plane as you. The word count of your message and the target answer can be up to 40 words long.

MIND BLAST

Source: Arcane, Divine

School: Enchantment

Tags: Dazed, Psychic, Sense

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a blast of psychic energy that projects in a 3 Space Cone. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Psychic damage.

Spell Passive: Untraceable

Damage from this Spell leaves no visible trace on any affected creatures or the surrounding environment.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The length of the Cone increases by X Spaces.

Dazed: (1 MP) Each target makes an Intelligence Save. **Save Failure:** The target is **Dazed** for 1 round.

Psionic Trail: (1 MP) Each target makes an Intelligence Save. **Save Failure:** For the next 10 minutes, you know the target's exact location while it's within 10 Spaces of you.

MOCKERY

Source: Arcane

School: Enchantment

Tags: Blinded, Deafened, Emotions, Taunted

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Minute

Trigger: A target within range fails a Check.

Reaction: Make a Spell Check against the target's Repeated Charisma Save. **Save Failure:** The target is **Taunted** by you for the duration.

SPELL ENHANCEMENTS

Tunnel Vision: (1 MP) While **Taunted** by this Spell, the target can't willingly move away from you.

Blinding Rage: (2 MP) While **Taunted** by this Spell, the target is **Blinded** and **Deafened** to all creatures except you.

PLANAR PROTECTION

Source: Divine

School: Enchantment

Tags: Cleansing, Embolden, Thoughts, Ward

Cost: 1 AP + 1 MP

Range: 5 Spaces

Duration: 1 Hour

You ward a creature within range against Planar influence.

The target gains MDR and Resistance to one of the following Conditions for the duration: **Charmed**, **Taunted**, **Intimidated**. If the target is already affected by the resisted Condition, make a Spell Check against the Save DC of the Condition. **Success:** The chosen Condition immediately ends on the target.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Mystic Resistance: (1 MP) The target gains Mystical Resistance (Half) for the duration instead of MDR.

Major Protection: (1 MP) The target gains Resistance against the following additional Conditions: **Doomed**, **Frightened**, and **Terrified**.

Full Protection: (1 MP) The target has Resistance against all listed Conditions.

Mental Barrier: (1 MP) The target's thoughts can't be read against your will for the duration.

Manipulation Protection: (3 MP) The target gains ADV on all Mental Saves for the duration.

PSI BOLT

Source: Arcane, Divine

School: Enchantment

Tags: Dazed, Intimidated, Psychic, Thoughts

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of vibrant psychic energy that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Psychic damage.

Spell Passive: Untraceable

Damage from this Spell leaves no visible trace on any affected creatures or the surrounding environment.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP) The damage increases by X.

Dazed: (1 AP) The target makes an Intelligence Save. **Save Failure:** The target is **Dazed** for 1 Round.

Intimidate: (1 AP) The target makes a Mental Save. **Save Failure:** The target is **Intimidated** by you for 1 Round.

Crushing Silence: (1 AP) The target makes an Intelligence Save. **Save Failure:** The target can't speak verbally or communicate telepathically for 1 Round.

PSYCHIC WAVE

Source: Arcane, Divine

School: Enchantment

Tags: Enfeeble, Motion, Psychic

Cost: 2 AP

Range: Self

Duration: Instantaneous

You conjure a blast of psychic energy that envelopes a 2 Space Arc. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Psychic damage.

Spell Passive: Untraceable

Damage from this Spell leaves no visible trace on any affected creatures or the surrounding environment.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The radius of the area increases by X Spaces.

Aura: (1 MP) The area becomes an Aura instead.

Discombobulate: (1 MP) Each Target makes a Mental save. **Save Failure:** The target subtracts a **d4** on every Check it makes for 1 round.

Knockback: (1 MP, Repeatable) Each target makes a Might Save against your Save DC. **Save Failure:** The target is pushed 1 Space away from you. **Failure (each 5):** The target is pushed 1 additional Space.

SHATTER REALITY

Source: Arcane, Divine

School: Enchantment

Tags: Chaos, Dazed, Madness, Psychic

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You violently distort the perception of reality in a 3 Space Sphere within range. Make an Area Spell Attack against the AD of every creature in the area. **Hit:** The target takes 1 Psychic damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Untraceable

Damage from this Spell leaves no visible trace on any affected creatures or the surrounding environment.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Dazed: (1 MP) Each target makes an Intelligence Save. **Failure:** The target is **Dazed** for 1 Round.

Distorted Perception: (2 MP) Each target makes a Repeated Charisma Save against your Save DC. **Save Failure:** The target rolls a **d4** to determine the **Distortion Effect** that alters its body or perception for 1 minute.

D4 DISTORTION EFFECT

- | | |
|---|--|
| 1 | It sees body twist. It's Immobilized . |
| 2 | Its senses collapse inward. It's Blinded . |
| 3 | Its mind fractures. It's Stunned and can't take Reactions. |
| 4 | It becomes confused. At the start of each of its turns, it must spend 1 AP to move up to its Speed in a random direction. |

SLUMBER

Source: Arcane

School: Enchantment

Tags: Emotions, Enfeeble, Incapacitated, Unconscious

Cost: 1 AP + 2 MP

Range: 10 Spaces

Duration: 1 Minute

You attempt to cause a state of magical slumber in a creature of your choice within range. Make a Spell Check contested by the target's Repeated Intelligence Save. **Check Success:** The target is **Incapacitated** for the duration or until it takes damage, makes a Save against an effect not caused by this Spell, or another creature spends **1 AP** to shake or slap it out of it, removing the Condition. When the Condition ends, the target realizes that magic was used on them to induce their state of slumber.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Clear Suspicion: (1 MP) On a Success, the target doesn't realize that magic was used on them when the Condition ends.

Lethargy: (1 MP) When the the Condition ends, the target makes a Might Save against your Save DC. **Failure:** The target has DisADV on all Checks for 1 round.

Sleep: (1 MP) On a Success, the target is **Unconscious** instead.

Targets: (1 AP + X MP) You can target 1 additional creature within range for each **2 MP** spent on this Enhancement. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

INVOCATION

Invocation is the magic of positive energy, such as light, life, healing, and resurrection. Spells that create light, mend wounds, cure sicknesses, create spirits, or resurrect the dead fall into the School of Invocation.

CLEANSE

Source: Divine, Primal

School: Invocation

Tags: Cleansing

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

Choose a creature within range that's subjected to 1 of the following Conditions: **Dazed**, **Deafened**, **Exposed**, **Hindered**, **Impaired**, **Intimidated**, **Slowed**, **Stunned**, or **Taunted**. Choose 1 of those Conditions and Make a Spell Check against its Save DC. If it doesn't have a Save DC, the GM assigns it one. **Success:** 1 stack of the Condition ends on the creature.

DC Tip: If the effect is applied continuously to the target (such as **Slowed** as a result of moving through Difficulty Terrain) this Spell has no effect on the target.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Additional Cleanse: (1 MP, Repeatable) You can end 1 stack of an additional Condition from the list or an additional stack of a previously chosen Condition.

Moderate Cleanse: (1 MP) The following Conditions are added to the list: **Blinded**, **Charmed**, **Disoriented**, **Doomed**, **Frightened**, **Restrained**, or **Weakened**.

Major Cleanse: (3 MP) The following Conditions are added to the list: **Exhaustion**, **Paralyzed**, **Petrified**, **Terrified**, or **Unconscious**.

CLOSE WOUNDS

Source: Arcane, Divine, Primal

School: Invocation

Tags: Cleansing, Healing, Time

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You accelerate the natural healing process of a target within range. Make a **DC 15** Spell Check. **Failure:** The target can spend up to 1 Rest Point, regaining HP equal to the Rest Points Spent. **Success:** The target can spend up to 2 Rest Points. **Success (each 5):** The target can spend 1 additional Rest Point.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Increased Healing: (1 AP, Repeatable) The target can spend 2 additional Rest Points.

Repeat Save: (1 AP) The target can make a Repeated Save against an effect they're subjected to.

DEATH WARD

Source: Divine

School: Invocation

Tags: Cleansing, Death, Embolden, Ward

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes

You ward a creature within range against death. Make a **DC 15** Spell Check. **Failure:** The next time the target takes damage that would reduce it to **0 HP**, it gains 3 Temp HP before taking the damage and the Spell ends. **Success:** The target gains 4 Temp HP instead. **Success (Each 5):** +1 Temp HP. If a creature is already on **0 HP** or lower when this Spell is cast on it, the Spell activates when it next take damage instead.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Duration: (1 MP, Repeatable, Sustained) The duration is increased by 1 step (10 min -> 1 hour -> 8 hours -> Long Rest).

Additional Temp HP: (1 MP, Repeatable) The target gains an additional 3 Temp HP.

Doomed Protection: (1 MP, Repeatable) Up to 2 stacks of **Doomed** ends on the creature.

DIVINE PROTECTION

Spell List: Divine

School: Invocation

Tags: Death, Ward

Cost: 1 AP

Range: 1 Space

Duration: Instantaneous

You magically transfer damage from an ally to yourself.

Trigger: A target you can see within range is Hit by an Attack.

Reaction: The damage of the Attack is shared between you and the target. The damage you take bypasses any Damage Reduction you have.

SPELL ENHANCEMENTS

Targets: (1 AP, Repeatable) You can target 1 additional creature within range that's also targeted by the same Attack.

Resistance: (1 AP or 2 AP) The target gains Resistance (Half) to the damage taken from the Attack. If you spent 2 AP to use this Enhancement you also gain Resistance (Half) to any damage you take from using this Spell. The cost of this Enhancement doubles if you take the **Targets** Enhancement.

Forbearance: (1 MP) If the damage taken reduces the target below their Death's Door Threshold, they avoid dying for 1 Round. If their HP is restored to **1 HP** or higher before the duration ends, they avoid dying. The cost of this Enhancement increases to **2 MP** if you take the **Targets** Enhancement.

Example: A creature with a Death's Door Threshold of 4 will die if their HP is reduced to -4 or lower. If that creature is targeted by this Spell with the **Forbearance** Enhancement, damage from an Attack that reduces them to -4 HP or lower would not kill that creature for 1 Round (they remain at -4 HP regardless of how much damage was taken). If the creature regains 5 HP, enough to get them from -4 HP to 1 HP, they would avoid dying when the 1 Round has passed.

HEAL

Source: Divine

School: Invocation

Tags: Healing

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: Instantaneous

You heal a creature within range. Make a **DC 15** Spell Check. **Failure:** The target regains **2 HP**. **Success:** The target regains **3 HP**. **Success (Each 5):** The target regains **+1 HP**. **Critical Success:** The target regains **+2 HP**.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Increased Healing: (1 MP, Repeatable) 1 target of your choice regains 2 additional HP.

Chain Heal: (1 MP, Repeatable) Choose 1 additional target within 3 Spaces of the original target. The additional targets regain **2 HP**. If you use this Enhancement multiple times, you choose an additional target within 3 Spaces of a previously chosen target.

HEALING WAVE

Source: Primal

School: Invocation

Tags: Healing, Cleansing

Cost: 2 AP + 1 MP

Range: Self

Duration: Instantaneous

You release a wave of healing energy in a 3 Space Aura. Make a **DC 20** Spell Check. **Failure:** Each creature of your choice in the area regains **1 HP**. **Success:** Each creature of your choice regains **2 HP**. **Success (Each 5):** **+1 HP**.

SPELL ENHANCEMENT

Area: (1 MP, Repeatable) The radius of the Aura increases by 2 Spaces.

Increased Healing: (X MP) The targets regain **+X HP**.

Aura of Healing: (1 MP, Sustained) The duration of the Spell becomes 1 minute. For the duration, when a creature of your choice ends their turn in the area (including yourself), it can spend a number of Rest Points up to their Prime Modifier, regaining **1 HP** per Rest Point spent.

Rejuvenation: (1 MP, Requires Aura of Healing) When a creature spends Rest Points on Aura of Healing, they can repeat a Save against an effect they're subjected to.

ILLUMINATE

Spell List: Divine, Primal

School: Invocation

Tags: Blinded, Exposed, Light, Sense

Cost: 2 AP

Range: 10 Spaces

Duration: 1 Minute

You attempt to illuminate every creature within a 3 Space diameter Sphere within range. Make a Spell Check contested by the Repeated Charisma Save of each creature in the area. **Save Failure:** For the duration, the creature emits a 1 Space radius of Dim Light and can't benefit from being Concealed (such as being **Invisible**).

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (1 MP, Repeatable) The Sphere's diameter is increased by 1 Space.

Duration: (1 MP) The duration increases by 1 minute.

Expose: (2 MP) On a failed Save, the target becomes **Exposed** for the duration.

Blinded: (4 MP) On a failed Save, the target becomes **Blinded** for the duration.

LIFE TRANSFER

Source: Arcane, Divine

School: Invocation

Tags: Blood, Cleansing, Healing

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You sacrifice your own health to heal a creature within range. Make a DC 15 Spell Check. **Failure:** You spend 1 Rest Point or HP and the target regains an equal amount of HP. **Success:** You can spend up to 2 Rest Points or HP and the target regains an equal amount of HP. **Success (each 5):** You can spend up to 1 more Rest Point or HP.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Increased Transfer: (X AP) You spend X additional Rest Points or HP and the target regains an equal amount of HP.

Affliction: (1 MP, Repeatable) Choose a Basic Disease, Basic Curse, or Basic Poison affecting the target, if it is willing the affliction ends on the target and you become affected by the affliction.

LIGHT

Source: Arcane, Divine, Primal

School: Invocation

Tags: Blinded, Light

Cost: 1 AP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You cause Bright Light to shine in a 2 Space diameter Sphere within range and Dim Light a further 1 Spaces.

Relocate: When you Sustain this Spell or by spending 1 AP, you can move the Sphere up to 5 Spaces to another Space within range.

Attach: When you cast the Spell, you can attach it to an object or creature within range. If you do, the target sheds Bright Light in a 1 Space Aura (and Dim Light 1 Space beyond that) and you can no longer use **Relocate**. If the target isn't willing, make a Spell Check against the target's Agility Save. **Check Success:** The target becomes the source of the light.

Blind: You can spend 1 AP and 3 MP to end the spell and make a Spell Check against the Physical Save of each target in the area. **Check Success:** The target is **Blinded** for 1 Round.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Duration: (1 MP, Repeatable) The duration increases by 1 step (10 min -> 1 hour -> 8 hour -> Long Rest). You no longer need to Sustain the Spell and can end the spell for free at any time.

Intensify: (1 MP) Light created by this Spell is considered Sunlight.

LUMINOUS BURST

Source: Divine

School: Invocation

Tags: Exposed, Light, Radiant, Tethered

Cost: 2 AP

Range: Self

Duration: Instantaneous

You produce a flash of brilliant light in a 1 Space Aura. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Radiant damage.

Spell Passive: Illuminate

The Light level of the area increases by 1 until the end of the turn.

DC Tip: Magical effects such as *Illuminate* don't stack with themselves. You can only increase the light level by 1 with the *Illuminate* effect.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The Aura's radius increases by X Spaces.

Expose: (2 MP) Each target makes a Physical Save. **Save Failure:** The target is **Exposed** for 1 Round.

Divine Chains: (1 MP) Each target makes a Repeated Intelligence Save. **Save Failure:** The target is **Tethered** to the area for 1 minute.

Punishing Chains: (X MP, Requires Divine Chains) Creatures **Tethered** by Divine Chains take X Radiant damage at the start of each of their turns.

MASS HEAL

Source: Divine

School: Invocation

Tags: Healing, Ward

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: Instantaneous

You heal creatures within a 4 Space diameter Sphere within range. Make a **DC 20** Spell Check. **Failure:** Each creature of your choice in the area regains **1 HP**. **Success:** Each creature of your choice regains **2 HP**. **Success (Each 5):** Each creature regains **+1 HP**.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (1 MP, Repeatable) The diameter of the Sphere increases by 2 Spaces.

Increased Healing: (X MP) Each target regains **+X HP**.

Protection: (1 MP, Repeatable) The next Attack made against each target within 1 Round has DisADV. You can use this Enhancement a maximum of two times. If you use this Enhancement twice, all Attacks made against each target within 1 Round have DisADV.

RADIANT BOLT

Source: Divine

School: Invocation

Tags: Blinded, Exposed, Light, Radiant

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of light that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 1 Radiant damage.

Spell Passive: Illuminate

The Light level in the target's Space increases by 1 until the end of the turn.

DC Tip: Magical effects such as *Illuminate* don't stack with themselves. You can only increase the light level by 1 with the *Illuminate* effect.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP) The damage increases by X.

Expose: (1 MP) The target makes a Physical Save. **Save Failure:** The target is **Exposed** and emits a 1 Space Aura of Bright Light for 1 Round.

Blinding: (2 MP) The target makes a Physical Save. **Save Failure:** The target is **Blinded** for 1 Round.

REGENERATE

Source: Primal

School: Invocation

Tags: Cleansing, Healing

Cost: 1 AP + 1 MP

Range: 5 Spaces

Duration: 1 Round

You heal a creature within range. Make a **DC 15** Spell Check. **Failure:** The target regains **2 HP**. **Success:** The target regains **2 HP** immediately and **2 HP** at the start of each of your turns for the duration. **Success (Each 5):** It regains **+1 HP** immediately.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Increased Healing: (X MP) The target regains **+X HP** immediately and **+X HP** at the start of each of your turns.

Duration: (X MP) The duration of the Spell increases by X Rounds. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled.

Repeat Save: (1 MP) The target can immediately make a Repeated Save against an effect it's subjected to. It gains this benefit again at the start of each of your turns for the duration.

REVIVIFY

Spell List: Divine, Primal

School: Invocation

Tags: Cleansing, Resurrection, Spirit

Cost: 1 AP + 2 MP

Range: 1 Space

Duration: Instantaneous

You attempt to bring a creature back to life. Choose the corpse of a creature that died a maximum of 1 Round ago within range. Make a **DC 10** Spell Check. **Success:** The creature comes back to life with **0 HP** (on Death's Door). **Success (each 5):** They come back with **+1 HP**.

This spell can't return to life a creature that has died of old age nor can it restore any missing body parts. Any afflictions or conditions affecting the creature when it died remain when it's brought back to life.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 1 Space. You can use this Enhancement a maximum of two times.

Duration: (X MP) The maximum period of time a corpse has been dead that you can target increases by X Rounds.

Rejuvenated: (X MP) The creature comes back to life with X less levels of **Exhaustion**.

SOLAR BEAM

Source: Divine, Primal

School: Invocation

Tags: Blinded, Burning, Light, Radiant

Cost: 2 AP

Range: Self

Duration: 1 Minute (Sustained)

You store a radiant power within yourself for the duration. You gain 1 Charge plus another Charge each time you Sustain this Spell (up to a maximum of 4).

Sunlight: Once on each of your turns while in an area of Sunlight, you can spend **1 AP** to gain a Charge.

Spell Attack: You can spend **1 AP** to release all stored Charges and make an Area Spell Attack against the AD every target within an 8 Space Line. If you release 4 Charges, you make the Attack with ADV. **Hit:** The target takes 1 Radiant damage per Charge.

Spell Passive: Light Beacon

For the duration of the Spell, the Light Level of any Space you occupy increases by 1.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (1 AP, Repeatable) The length of the Line increases by 4 Spaces.

Burning Radiance: (X MP) Each target makes a Repeated Physical Save. **Save Failure:** The target begins **Burning X** for 1 minute. **Burning** damage caused by this Enhancement deals Radiant damage.

Blinding: (4 MP) Each target makes a Physical Save. **Save Failure:** The target is **Blinded** for 1 Round.

SPIRIT LINK

Source: Divine

School: Invocation

Tags: Blood, Communication, Curse, Spirit, Ward

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

Make a Spell Check against the Repeated Charisma Save of 2 creatures within range that don't share their HP. **Check Success:** If both targets fail the Save, they're Linked for the Duration.

DC Tip: A creature can choose to fail a Save if it wants.

Linked: While within 10 Spaces of each other, whenever one Linked creature regains or loses HP, the amount is shared with the other Linked creature.

Example: You target yourself and an enemy, they fail the Save and you choose to fail the Save making you Linked to each other. When the enemy drinks a healing potion to heal 2 HP, you instead heal for 1 HP each, splitting the healing between you.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Extended Link: (1 MP, Repeatable) The maximum range of the Link increases by 5 Spaces.

Lion's Heart: (1 MP) While within range of the link, each target gains Resistance to **Charmed, Taunted, Intimidated, Frightened, and Terrified**.

Shared Mind: (1 MP) While within range of the Link, the targets can communicate telepathically with each other.

Transference: (3 MP) Instead of sharing HP regained or lost while Linked, choose 1 target to receive all the changes in HP.

Profane: (3 MP) Instead of sharing losses of HP while Linked, both creatures lose the full amount of HP.

SUNBURST

Source: Divine, Primal

School: Invocation

Tags: Blinded, Exposed, Light, Radiant

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a flash of brilliant radiance in a 6 Space tall, 3 Space diameter Cylinder within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Radiant damage.

Spell Passive: Illuminate

The Light level of the area increases by 1 until the end of the turn.

DC Tip: Magical effects such as Illuminate don't stack with themselves. You can only increase the light level by 1 with the Illuminate effect.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (1 MP, Repeatable) The diameter of the Cylinder increases by 1 Space and the Height by 2 Spaces.

Expose: (2 MP) Each target makes a Physical Save. **Save Failure:** The target is **Exposed** for 1 Round.

Blinding: (4 MP) Each target makes a Physical Save. **Save Failure:** The target is **Blinded** for 1 Round.

Radiant Beam: (X MP, Sustained) The duration of the Spell becomes 1 minute. Celestial light (sun, moon or star light) fills the area for the duration. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Might Save against your Save DC. **Save Failure:** The target takes X Radiant damage.

Moving Beam: (1 MP, Requires Radiant Beam) When you Sustain this Spell or by spending 1 AP, you can move the area up to 5 Spaces to another Space within range.

NULLIFICATION

Nullification is the magic of negative energy, such as anti-magic, anti-life, and darkness. Spells that destroy magic, spirits, and light fall into the School of Nullification.

ARCANE SHIELD

Source: Arcane

School: Nullification

Tags: Ward

Cost: 1 AP

Range: 1 Space

Duration: Instantaneous

You create a barrier of magic to protect yourself or another creature nearby.

Trigger: When a target you can see within range (including yourself) is targeted by an Attack against its AD.

Reaction: You grant the target a +5 bonus to its AD against this Attack.

SPELL ENHANCEMENT

Multiple Targets: (1 AP, Repeatable) You target 1 additional creature within range that's also targeted by the same Attack.

Arcane Absorption: (1 MP, Repeatable) Immediately after the Attack, you gain 2 Temp HP. The Temp HP increases by 2 each time you use this Enhancement.

BANE

Source: Divine

School: Nullification

Tags: Curse, Enfeeble

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You attempt to impose 1 of the Curses below on a creature of your choice within range. Make a Spell Check against the target's Repeated Charisma Save. **Save Failure:** The target is Cursed for the duration. The Curse can be removed by any effect that ends a Basic Curse.

Curses

- **Attacks:** The target subtracts a **d6** from its Attack Checks for the duration.
- **Saves:** The target subtracts a **d6** from its Saves (except against this Spell) for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. The AP cost of this Enhancement can't be paid for with MP.

Full Bane: (2 MP) The target also subtract the same die from its Saves. The cost of this Enhancement increases to 4 MP if you use the **Targets** Enhancement.

Greater Bane: (1 MP, Repeatable) The size of the die increases by 1 step (d6 -> d8 -> d10 -> d12).

CORPSE EXPLOSION

Source: Arcane, Divine

School: Nullification

Tags: Ailment, Death, Enfeeble, Umbral

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

Trigger: A target within range you can see dies.

Reaction: The target's corpse explodes, make an Area Spell Attack against the AD of each target within 1 Space of the corpse. **Hit:** The target takes 1 Umbral Damage.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Disease Cloud: (X MP) A cloud forms in a 3 Space diameter Sphere centered on the corpse for 1 minute. When a creature enters the area for the first time on its turn or starts its turn there, it makes a Repeated Might Save against your Save DC. **Save Failure:** The target is Diseased for 1 minute. Creatures Diseased by this Spell have their current and maximum HP reduced by X at the start of each of their turns. The creature's maximum HP returns to normal after taking a Rest. This Disease can be removed by any effect that ends a Basic Disease.

Creeping Death: (2 MP) Requires Disease Cloud. Creatures Diseased by this Spell can't regain HP.

Beta Note: A creature with a Medicine Kit can attempt to remove a Basic Disease from a creature within 1 Space (including themselves) by spending 1 AP and 1 charge from the Medicine Kit and make a Medicine Check against the effect's Save DC, removing the Disease on a success.

DARKNESS

Source: Arcane, Divine

School: Nullification

Tags: Shadow, Slowed

Cost: 2 AP + 1 MP

Range: 5 Spaces

Duration: 10 Minutes (Sustained)

You create a 4 Space Sphere of Magical Darkness within range.

Relocate: When you Sustain this Spell or by spending 1 AP, you can move the Sphere up to 5 Spaces to another Space within range.

Attach: When you cast the Spell, you can attach it to an object or creature within range. If you do, the target sheds Darkness in a 1 Space Aura and you can no longer use **Relocate**. If the target is not willing, make a Spell Check against the target's Agility Save. **Check Success:** The target becomes the source of the Darkness.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (1 MP, Repeatable) The diameter of the Sphere increases by 2 Spaces.

Duration: (1 MP, Repeatable) The duration increases by 1 step (10 min -> 1 hour -> Long Rest).

Light Eater: (1 AP) Mundane light sources within the area are extinguished.

Grasping Gloom: (1 MP) When a creature enters the area for the first time on its turn or starts its turn there, it makes an Agility Save against your Save DC. **Save Failure:** The target is **Slowed** for 1 round.

DEATH

Source: Arcane, Divine

School: Nullification

Tags: Curse, Death, Doomed, Exhaustion

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You doom a creature within range. Make a Spell Check against the target's Repeated Might Save. **Check Success:** The target is **Doomed** 2. When you Sustain the Spell, it gains an additional stack of **Doomed**. When the Spell ends, it loses all stacks of **Doomed** gained from this Spell.

Death: If the number of **Doomed** stacks on a creature affected by this Spell is equal to or exceeds their current maximum HP, it immediately dies.

Example: A creature has 10 max HP. When they reach **Doomed** 5, their max HP has been reduced to 5, at which point they die.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Increased Doomed: (1 MP, Repeatable) The target gains an additional stack of **Doomed**, both when it fails the original Save and when you Sustain the Spell.

Exhaustion: (3 MP) Each time the target fails a Save against this Spell (including the original Save), it gains **Exhaustion**.

DEATH BOLT

Source: Arcane, Divine

School: Nullification

Tags: Curse, Doomed, Umbral

Cost: 1 AP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of negative energy that flies towards a target of your choice. Make a Ranged Spell Attack against the PD of a target you can see within range. **Hit:** The target takes 1 Umbral damage.

Spell Passive: Obscure

The Light level in the target's Space decreases by 1 until the end of the turn.

DC Tip: Magical effects such as *Obscure* don't stack with themselves. You can only decrease the light level by 1 with the *Obscure* effect.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP) The damage increases by X.

Doom: (X AP) The target makes a Repeated Charisma Save. **Failure:** The target is **Doomed** X.

Call of the Grave: (1 MP) You add a d12 to your Attack Check if the target is Bloodied.

Wither: (X MP) The target makes a Repeated Charisma Save. **Save Failure:** The target is Cursed for the duration. Creatures Cursed by this Spell take X Umbral damage at the start of each of their turns. This Curse can be removed by any effect that ends a Basic Curse.

DISINTEGRATING BEAM

Source: Arcane

School: Nullification

Tags: Death, Enfeeble, True, Weakened

Cost: 2 AP + 2 MP

Range: Self

Duration: Instantaneous

You create an 8 Space Line of pure destructive energy. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 2 True Damage. The additional damage from Critical Hits and Heavy Hits or higher is doubled.

Spell Passive: Annihilating

The Spell deals double damage to objects. Creatures and objects killed or destroyed by this Spell are reduced to a pile of ash.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (1 MP, Repeatable) The length of the Line increases by 6 Spaces.

Weaken: (2 MP) Each target makes a Physical save. **Save**

Failure: They're **Weakened** for 1 Round.

Disintegrating: (4 MP, Repeatable) Each target makes a Repeated Physical save. **Save Failure:** They gain Vulnerability (1) to all damage for 1 Round.

DISINTEGRATE

Source: Arcane

School: Nullification

Tags: Death, Enfeeble, True, Weakened

Cost: 1 AP + 2 MP

Range: 10 Spaces

Duration: Instantaneous

You conjure a bolt of pure destructive energy. Make a Ranged Spell Attack against the PD of a target within range. **Hit:** The target takes 3 True Damage. The additional damage from Critical Hits and Heavy Hits or higher is doubled.

Spell Passive: Annihilating

The Spell deals double damage to objects. Creatures and objects killed or destroyed by this Spell are reduced to a pile of ash.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X AP) The damage increases by X.

Weaken: (1 MP) The target makes a Physical save. **Save**

Failure: They're **Weakened** for 1 Round.

Disintegrating: (2 MP, Repeatable) The target makes a Physical save. **Save Failure:** They gain Vulnerability (1) to all damage for 1 Round.

DISPEL MAGIC

Source: Arcane

School: Nullification

Tags: Antimagic, Cleansing

Cost: 1 AP + X MP (minimum of 1)

Range: 10 Spaces

You attempt to permanently dispel an MP Effect within range or temporarily dispel a Magic Item within range (Artifacts are immune to this Spell).

MP Effect: Make a Spell Check against the Save DC of the creature that produced the MP Effect. Your Check gains a bonus equal to twice the MP you spent on this Spell, and the Save DC gains a bonus equal to twice the MP the creature spent to produce the MP Effect. **Check Success:** The MP Effect ends.

DC Tip: Monsters that produce an MP Effect are considered to be spending MP up to half their level, rounded up (what their Mana Spend Limit would be). If it's an MP Effect not produced by a creature, the GM determines the DC.

Magic Item: Make a Spell Check against the Save DC of the creature that created the Magic Item. Your Check gains a bonus equal to twice the MP you spent on this Spell, and the Save DC gains a bonus equal to twice the item's Magic Power. **Check Success:** The Magic Item becomes mundane for 24 hours.

DC Tip: When determining the Save DC of the item's creator, consider the level a PC must be to produce an MP Effect with enough MP to match the item's Magic Power value. An item with a Magic Power of 3 is equivalent to a 3 MP Spell. A PC must be at least level 5 to have a Mana Spend Limit that allows them to cast a 3 MP Spell. The Save DC of a level 5 PC is 17 (10 + Combat Mastery (1/2 their level, round up) + Prime Modifier (4)).

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

ENFEEBLE

Source: Divine, Primal

School: Nullification

Tags: Curse, Enfeeble

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You attempt to Curse the Physical or Mental (your choice) Checks and Saves of a creature of your choice within range for the duration. Make a Spell Check against the target's Repeated Charisma Save. **Save Failure:** The target is Cursed for the duration. While Cursed in this way, the target subtracts a **d6** from Checks and Saves (except against this Spell) of the chosen category. The Curse can be removed by any effect that ends a Basic Curse.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. The AP cost of this Enhancement can't be paid for with MP.

Full Enfeeble: (1 MP) You Curse all of the target's Attributes. The cost of this Enhancement increases to 2 MP if you use the **Targets** Enhancement.

Greater Enfeeble: (1 MP, Repeatable) The size of the die increases by 1 step (d6 -> d8 -> d10 -> d12).

MUFFLE

Source: Arcane, Divine

School: Nullification

Tags: Communication, Deafened, Disoriented, Sound

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You create a 3 Space diameter Sphere within range. No sound can pass from the outside to the inside of the area or vice-versa (becoming Unheard).

Relocate: When you Sustain this Spell or by spending 1 AP, you can move the area up to 5 Spaces within range.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Silence: (1 MP) The area becomes silent, no sound can be heard or produced in it. All creatures in the area are **Deafened** and Verbal Components can't be performed in it.

Disorient: (2 MP) Requires Silence. When a creature enters the area for the first time on its turn or starts its turn there, they make a Repeated Intelligence Save against your Save DC. **Save Failure:** The target is **Disoriented** until it leaves the area.

SANCTUARY

Source: Divine

School: Nullification

Tags: Embolden, Spirit, Ward

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

Choose a creature within range. Attacks are made with DisADV against the target. The target gains no benefit from this Spell for 1 Round if it makes an Attack, targets another creature with a Check, or forces a creature to make a Save.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Save Resistance: (1 MP) The creature gains ADV on Saves.

Possession Protection: (1 MP) The target can't be possessed. If it's already possessed, it can repeat its Save against the possession at the start of each of its turns.

Beta Note: This Enhancement applies to ghosts, spirits, and other creatures of the sort.

Enforced Peace: (1 MP) When a creature makes an Attack against the target, it makes an Intelligence Save against your Save DC. **Save Failure:** The creature can't perform the Attack (it still spends the resources used on the Attack). This Save doesn't prevent the target from benefitting from this Spell for 1 Round.

SPHERE OF DEATH

Source: Arcane, Divine

School: Nullification

Tags: Death, Doomed, Exhaustion, Shadow, Umbral

Cost: 2 AP

Range: 10 Spaces

Duration: Instantaneous

You produce a burst of shadow magic that envelops a 3 Space diameter Sphere within range. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Umbral damage.

Close Quarters Penalty: You have DisADV on the Attack if you're within the Melee Range of at least 1 enemy, unless that enemy is **Incapacitated**.

Spell Passive: Obscure

The Light level in the target's Space decreases by 1 until the end of the turn.

DC Tip: Magical effects such as Obscure don't stack with themselves. You can only decrease the light level by 1 with the Obscure effect.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (X MP) The damage increases by X.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Doom: (X MP) Each target makes a Repeated Charisma Save. **Failure:** The target is **Doomed X**.

Exhaustion: (3 MP) Each target makes a Might Save. **Save Failure:** The target gains **Exhaustion**.

UMBRAL BURST

Source: Arcane, Divine

School: Nullification

Tags: Death, Doomed, Shadow, Umbral

Cost: 2 AP

Range: Self

Duration: Instantaneous

You conjure a burst of shadow magic that envelops a 1 Space Aura. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Umbral damage.

Spell Passive: Obscure

The Light level in the target's Space decreases by 1 until the end of the turn.

DC Tip: Magical effects such as Obscure don't stack with themselves. You can only decrease the light level by 1 with the Obscure effect.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The radius of the Aura increases by X Spaces.

Doom: (X MP) Each target makes a Repeated Charisma Save. **Failure:** The target is **Doomed X**.

Death Cascade: (X MP, Repeatable) If you kill a target with this Spell, it explodes. Each target within 1 Space of the exploding creature makes a Agility Save. **Save Failure:** The target takes X Umbral damage. Damage from this Enhancement also triggers Death Cascade.

UMBRAL WAVE

Source: Arcane, Divine

School: Nullification

Tags: Doomed, Shadow, Umbral, Undead

Cost: 2 AP

Range: Self

Duration: Instantaneous

You conjure a burst of shadow magic that envelops a 3 Space Cone. Make an Area Spell Attack against the AD of every target within the area. **Hit:** The target takes 1 Umbral damage.

Spell Passive: Obscure

The Light level in the target's Space decreases by 1 until the end of the turn.

DC Tip: Magical effects such as Obscure don't stack with themselves. You can only decrease the light level by 1 with the Obscure effect.

SPELL ENHANCEMENTS

Damage: (X MP) The damage increases by X.

Area: (X MP) The length of the Cone increases by X Spaces.

Doom: (X MP) Each target makes a Repeated Charisma Save. **Failure:** The target is **Doomed X**.

Heal Undead: (1 MP) Undead creatures in the area are immune to the damage from this Spell and regain an amount of HP equal to the damage of this Spell.

VAMPIRIC TOUCH

Source: Arcane, Divine

School: Nullification

Tags: Blood, Doomed, Healing, Slowed, Umbral

Cost: 1 AP

Range: 1 Space

Duration: Instantaneous

Make a Melee Spell Attack against the PD of a creature in range. **Hit:** The target takes 1 Umbral damage and you can spend 1 Rest Point to regain 1 HP.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 1 Space. You can use this Enhancement a maximum of two times.

Leeching Grab: (1 AP) The target makes a Might Save against your Save DC. **Save Failure:** The target is **Slowed** for 1 round.

Doomed: (1 AP, Repeatable) The target makes a Repeated Charisma Save against your Save DC. **Save Failure:** The target is **Doomed** for 1 minute.

Life Drain: (X MP) The damage increases by X and you regain X HP on a Hit (you regain this HP without spending Rest Points).

WILD GUARD

Source: Primal

School: Nullification

Tags: Motion, Ward

Cost: 1 AP

Range: 1 Space

Duration: Instantaneous

You manipulate nature to protect yourself or another creature nearby.

Trigger: When a target you can see within range (including yourself) is targeted by an Attack against their PD.

Reaction: You grant the target a +5 bonus to its PD against this Attack.

SPELL ENHANCEMENTS

Grapple: (1 AP) If the Attacker is within 1 Space of you, they make a Physical Save. **Save Failure:** The Attacker becomes Grappled by you once the Attack is resolved.

Nature's Intervention: (1 MP) After the Attack is resolved, the target immediately moves 2 Space for free without provoking Opportunity Attacks.

ZONE OF PEACE

Source: Divine

School: Nullification

Tags: Emotions, Tethered, Ward

Cost: 2 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

You create a 3 Space diameter Sphere centered on yourself where violence is prohibited within range for the duration. Attacks made by or against creatures in the area are **Hindered**.

SPELL ENHANCEMENTS

Range: (1 MP) When you create the Sphere, you can center it on a Space within 5 Spaces instead.

Area: (1 MP, Repeatable) The diameter of the Sphere increases by 1 Space.

Tethered: (1 MP) When you cast the spell, make a Spell Check against the Repeated Intelligence Save of creatures of your choice within the area. **Check Success:** The target is **Tethered** to the area for the duration.

Enforced Peace: (2 MP) When a creature makes an Attack affected by this Spell, it makes an Intelligence Save against your Save DC. **Save Failure:** The target can't perform the Attack (it still spends the resources used on the Attack).

Restraining Order: (2 MP) Requires Enforced Peace. If a creature fails the Save against Enforced Peace, it can't Attack for 1 round.

TRANSMUTATION

Transmutation is the magic of transforming one thing physically into another. Spells that turn creatures into other creatures (or objects into other objects or creatures) fall into the School of Transmutation.

ACID IMBUED

Source: Arcane, Primal

School: Transmutation

Tags: Corrosion, Enfeeble, Hindered, Strike, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Corrosion damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Corrosion damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range** and **Effortless**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Dissolving Strikes: (1 MP) For the duration, 1 target of an Attack affected by this Spell makes an Agility Save against your Save DC. **Save Failure:** The target no longer benefits from PDR or EDR for 1 Round.

Acid Strikes: (2 MP) For the duration, 1 target of an Attack affected by this Spell makes an Agility Save against your Save DC. **Save Failure:** The target is **Hindered** for 1 Round.

ALTER SIZE

Source: Arcane, Divine

School: Transmutation

Tags: Embolden, Enfeeble, Metamorphosis

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You alter the size of an object that is not being held or carried or a creature within range, making it larger or smaller for the duration.

Object

Make a DC 10 Spell Check. **Success:** You make the object Larger or Smaller.

Larger: The object's size increases by 1 and its weight is multiplied by 4. If there isn't enough space, it increases to the maximum possible size in the available space.

Smaller: The object's size decreases by 1 and its weight is divided by 4.

Creature

Make a Spell Check contested by the target's Repeated Might Save. **Contest Success:** They become 1 size Larger or Smaller (your choice). Everything they are wearing and carrying changes size with them. Any item no longer held or carried by the creature returns to normal size at the end of that turn.

Larger: The target's size increases by 1 and their weight is multiplied by 4. If there isn't enough space, it increases to the maximum possible size in the available space.

Smaller: The target's size decreases by 1 and their weight is divided by 4.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration is increased by 1 step (10 min -> 1 hour -> 8 hour -> until Long Rest). You no longer need to Sustain the Spell and you can end it at any time for free.

Greater Alteration: (2 MP, Repeatable) The target's Size increases or decreases by 1 more step (e.g Medium -> Large -> Huge).

BLESSING OF EARTH

Source: Primal

School: Transmutation

Tags: Earth, Embolden, Motion, Sense

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 Minutes (Sustained)

You grant a creature with range Tremorsense 3 Spaces and a Burrow Speed equal to half their Speed for the duration.

Spell Cast: When you cast the Spell, make a **DC 15** Spell Check. **Success:** The target can immediately move in any direction up to their Speed, provided they move underground.

Burrow Speed

You can move through sand, dirt, mud, and snow, but not through solid ice or rock. When you do, you leave a collapsed tunnel behind you.

DC Tip: A creature that requires air to breath will need to hold their breath or begin Suffocating while Burrowing underground.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Targets: (1 AP + X MP) You can target X additional creatures within range.

Earth Walk: (1 MP) When the target walks along the ground, they can choose to leave behind Difficult Terrain in their path.

Greater Blessing: (2 MP) The Tremorsense increases by 2 Spaces, the Burrow Speed increases to equal their Speed, and they can breath underground.

BLESSING OF WATER

Source: Primal

School: Transmutation

Tags: Embolden, Metamorphosis, Motion, Water

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 10 minutes

You grant a creature with range a Swim Speed, the ability to breathe underwater, and Tremorsense 5 Spaces while underwater for the duration.

Spell Cast: When you cast the Spell, make a **DC 15** Spell Check. **Success:** The target can immediately move in any direction up to their Speed, provided they're moving in water.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step (10 minutes -> 1 hour -> 8 hours -> Long Rest).

Targets: (1 AP + X MP) You can target 2 additional creatures within range per X MP.

Water Walk: (1 MP) The target can walk on water as if it were solid ground and can stop doing so anytime during their turn. It can use either their Speed or Swim Speed for this movement.

Greater Blessing: (1 MP) At the start of each of the target's turns they gain movement equal to their speed that can only be used on swimming.

CHAOS BOLT

Source: Arcane

School: Transmutation

Tags: Chaos

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: Instantaneous

You hurl a bolt of volatile energy at a creature within range.

Roll a **d12** to determine the bolt's damage type. Make a Ranged Spell Attack against the PD of a target within range while they make an Intelligence Save. **Hit:** The target takes 2 damage of the rolled damage type. **Save Failure:** The target is subjected to the effects of the Save Failure column based on the result rolled.

D12	DAMAGE	SAVE FAILURE
1	Bludgeoning	The target is pushed 1 Space away. Failure (each 5): The target is pushed 1 additional Space.
2	Piercing	The target can't take Reactions for 1 round.
3	Slashing	The target begins Bleeding for 1 minute.
4	Cold	The target is Slowed for 1 round.
5	Corrosive	The target is Hindered for 1 round.
6	Fire	The target begins Burning for 1 minute.
7	Lightning	The target is Stunned until the start of their turn.
8	Poison	The target is Impaired for 1 round.
9	Psychic	The target is Dazed for 1 round.
10	Radiant	Attacks made against the target add a d4 to the check for 1 round.
11	Umbral	The target is Doomed for 1 round.
12	True	The target is Exposed for 1 round.

Spell Passive: Wild Magic Surge

When you Critically Fail or Critically Succeed on a Check made to cast this Spell, you roll on the Wild Magic Table.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Damage: (1 AP, Repeatable) The damage increases by 1 for 1 target of your choice.

Unstable Surge: (2 MP, Repeatable) Choose 1 additional target within 5 Spaces of the original target using the same Spell Attack for all targets. You roll the damage type (and condition) again for each new target. If you use this Enhancement multiple times, you choose an additional target within 5 Spaces of the previously chosen target.

CHAOS TORRENT

Source: Arcane

School: Transmutation

Tags: Chaos, Enfeeble

Cost: 2 AP + 1 MP

Range: Self

Duration: Instantaneous

A spiraling surge of warped energy erupts from you in an 8 Space Line. Make a Spell Check against the Intelligence Save of each target in the area. **Check Success:** The target roll a **d6** on the table below.

D6 EFFECT

- | | |
|---|--|
| 1 | The target can't take Reactions until the end of its next turn. |
| 2 | The target is Slowed 2 for 1 Round. |
| 3 | The target must immediately makes a Melee Martial Attack as a Reaction against a random creature within its Melee range. |
| 4 | The target is teleported a d4 Spaces in a random direction. |
| 5 | The target is Weakened for 1 Round. |
| 6 | The target is Disoriented for 1 Round. |

SPELL ENHANCEMENTS

Remote: (1 MP) The range becomes 5 Spaces, with the origin of the Line becoming the chosen space.

Length: (1 AP, Repeatable) The length of the Line increases by 4 Spaces.

Width: (X MP) The width of the Line increases by X Spaces.

Chaos Surge: (2 MP) Each target rolls twice and suffers both effects. If a target rolls the same number twice, it rolls again until it gets two different results.

COLD IMBUED

Source: Arcane, Primal

School: Transmutation

Tags: Cold, Slowed, Strike, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Cold damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Cold damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Slowing Strikes: (1 MP) For the duration, 1 target of an Attack affected by this Spell makes a Might Save against your Save DC. **Save Failure:** The target is **Slowed** for 1 round.

Chilling Strikes: (1 MP) For the duration, 1 target of an Attack affected by this Spell makes a Might Save against your Save DC. **Save Failure:** The target can't take Reactions for 1 round.

ENHANCE ABILITY

Source: Divine, Primal

School: Transmutation

Tags: Embolden

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You bolster the Physical or Mental (your choice) Checks and Saves of a creature within range for the duration. Make a **DC 15** Spell Check. **Failure:** The target adds a **d4** to Checks and Saves of the chosen Attribute category. **Success:** The target adds a **d6** to Checks and Saves of the chosen Attribute category. **Success (10):** The target adds a **d8** instead.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration is increased by 1 step (1 min -> 10 min -> 1 hour -> 8 hours -> Long Rest).

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Full Enhance: (1 MP) You bolster all the target's Attributes. The cost of this Enhancement increases to **2 MP** if you use the **Targets** Enhancement.

Greater Enhance: (1 MP, Repeatable) The size of the die granted increases by 1 step (d4 -> d6 -> d8 -> d10 -> d12).

FIRE IMBUED

Source: Arcane, Primal

School: Transmutation

Tags: Burning, Fire, Strike, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Fire damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Fire damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Flame Lash: (1 MP) The range of Attacks affected by this Spell increase by 1 Space for Melee Attacks, or by 5 Spaces for Ranged Attacks.

Burning Strikes: (X MP) For the duration, 1 target of an Attack affected by this Spell makes a Repeated Physical Save against your Save DC. **Save Failure:** The target is **Burning X** for 1 minute.

INVISIBILITY

Source: Arcane, Divine

School: Transmutation

Tags: Illusion, Invisible, Shadow

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute (Sustained)

You magically cloak a target within range for the duration. Make a **DC 15** Spell Check. **Failure:** The target is **Invisible**. **Success:** The target is **Invisible** and can immediately take the Hide Action for free. The Spell ends early if the target takes any Action or Reaction beside the Move, Dodge, Hide, or Sustain Actions.

DC Tip: Being invisible makes you Unseen, but if you want to be fully Hidden from a creature you need to take the Hide action to also become Unheard.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step (1 min -> 10 min -> 1 hour -> 8 hours -> Long Rest).

Mass Invisibility: (1 AP + X MP) You can target X additional creatures within range. The AP cost of this Enhancement can't be paid for with MP.

Greater Invisibility: (3 MP) Choose 1 target. The Spell no longer ends early when the target takes any Action or Reaction.

LIGHTNING IMBUED

Source: Arcane, Primal

School: Transmutation

Tags: Lightning, Strike, Trap, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Lightning damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Lightning damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Chain Lightning: (X MP) For the duration, when you make an Attack affected by this Spell, you can choose 1 additional target within 3 Spaces of the original target using the same Martial Attack for the additional target. **Hit:** The Target takes X Lightning damage.

Static Strike: (X MP) For the duration, 1 target of an Attack affected by this Spell makes a Physical Save against your Save DC. **Save Failure:** For the next round, the first time the target willingly moves or takes a Reaction it takes X Lightning damage.

POISON IMBUED

Source: Arcane, Primal

School: Transmutation

Tags: Ailment, Impaired, Poison, Strike, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Poison damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Poison damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Impairing Strikes: (2 MP) For the duration, 1 target of an Attack affected by this Spell makes a Might Save against your Save DC. **Save Failure:** The target is **Impaired** for 1 round.

Poisoned Strikes: (X MP) For the duration, 1 target of an Attack affected by this Spell makes a Repeated Might Save against your Save DC. **Save Failure:** The target is **Poisoned** for 1 minute. Creatures **Poisoned** by this Spell take X Poison damage at the start of each of their turns. This Poison can be removed by any effect that ends a Basic Poison.

Beta Note: A creature with a Medicine Kit can attempt to remove a Basic Poison from a creature within 1 Space (including themselves) by spending 1 AP and 1 charge from the Medicine Kit and make a Medicine Check against the effect's Save DC, removing the Basic Poison on a success.

PRIMAL HIDE

Source: Primal

School: Transmutation

Tags: Embolden, Ward

Cost: 1 AP + 1 MP

Range: 10 Spaces

Duration: 1 Hour

You harden the skin of a creature within range. The target gains +2 PD for the duration.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Duration: (1 MP, Repeatable) The duration increases by 1 step (1 hour -> 8 hours -> until Long Rest).

Armored: (1 MP) The target gain an additional +1 PD.

Heavily Protected: (1 MP) The target gains EDR.

PSYCHIC IMBUED

Source: Arcane, Divine

School: Transmutation

Tags: Dazed, Deafened, Psychic, Strike, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Psychic damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Psychic damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Dazing Strikes: (1 MP) For the duration, 1 target of an Attack affected by this Spell makes an Intelligence Save against your Save DC. **Save Failure:** The target is **Dazed** for 1 round.

Silencing Strikes: (1 MP) For the duration, 1 target of an Attack affected by this Spell makes a Charisma Save against your Save DC. **Failure:** The target is **Deafened** and can't speak for 1 round.

QUICKSAND

Source: Primal

School: Transmutation

Tags: Earth, Hindered, Illusion, Slowed, Tethered

Cost: 2 AP + 1 MP

Range: 10 Spaces

Duration: 1 Minute

You turn 3 Space diameter Sphere of ground within range into quicksand for the duration. Creatures in the area are **Slowed 2**.

Spell Cast: When you cast the Spell, make a Spell Check against the Might Save of each target in the area. **Check Success:** The target is **Hindered** for the duration or until it leaves the area.

SPELL ENHANCEMENT

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Area: (X MP) The diameter of the Sphere increases by X Spaces.

Grasping Sand: (1 MP) Creatures **Hindered** by this Spell are also **Tethered** to the area. A creature can spend 1 AP to make a Repeated Might Save. **Save Success:** The target is no longer **Tethered** to the area.

False Appearance: (1 MP) The Spell lasts for 1 hour and the area appears as normal terrain. A creature can discern a Space has been altered with a successful Nature Check against your Save DC.

RADIANT IMBUED

Source: Divine

School: Transmutation

Tags: Light, Radiant, Strike, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Radiant damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Radiant damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Illuminating Strikes: (1 MP) For the duration, 1 target of an Attack affected by this Spell makes a Physical Save against your Save DC. **Save Failure:** The target sheds Dim Light in a 1 Space Aura and can't benefit from 1/2 Cover or being Invisible.

Guiding Strikes: (2 MP) For the duration, 1 target of an Attack affected by this Spell makes a Physical Save against your Save DC. **Save Failure:** Attacks made against the target add a d4 to the Check for 1 round.

SHADOWBIND

Source: Arcane, Divine

School: Transmutation

Tags: Doomed, Immobilized, Shadow, Tethered

Cost: 1 AP

Range: 10 Spaces

Duration: 1 Minute

You bind a creature using its shadow. Make a Spell Check against the Repeated Charisma Save of a creature within range. **Check Success:** The target becomes **Tethered 1** to their Space.

SPELL ENHANCEMENTS

Range: (1 AP, Repeatable) The range of the Spell increases by 5 Spaces. You can use this Enhancement a maximum of two times.

Targets: (1 AP + X MP) You can target X additional creatures within range. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Immobilize: (1 MP) The target becomes **Immobilized** instead.

Doomed: (X MP) Whenever the target fails a Save against this Spell (including the initial Save) they become **Doomed X**.

Choke: (2 MP) The target can't breathe for the duration.

UMBRAL IMBUED

Source: Arcane, Divine

School: Transmutation

Tags: Blood, Doomed, Healing, Strike, Umbral, Weapon

Cost: 1 AP + 1 MP

Range: Self

Duration: 1 Minute (Sustained)

For the duration, you deal +1 Umbral damage on Martial Attacks.

SPELL ENHANCEMENTS

Range: (1 AP) The range becomes 5 Spaces, allowing you to target other creatures with the Spell.

Damage: (2 MP, Repeatable) Attacks affected by this Spell deal +1 Umbral damage for the duration.

Effortless: (1 MP) You no longer need to Sustain the Spell.

Targets: (1 AP + X MP) You target X additional creatures of your choice within 5 Spaces that you can see. When you choose this Enhancement, the cost of all other Enhancements (except **Range**) is doubled. The AP cost of this Enhancement can't be paid for with MP.

Dooming Strikes: (X MP) For the duration, 1 target of an Attack affected by this Spell makes a Charisma Save against your Save DC. **Save Failure:** The target is **Doomed X** for 1 round.

Draining Strikes: (X MP) For the duration, when you deal damage to a target with an Attack affected by this Spell, you can spend up to X Rest Points, regaining HP equal to the Rest Points Spent.

STARTING COMBAT

COMBAT ENCOUNTERS

Combat Encounters serve to slow the flow of time, allowing for precise resolution of actions during the chaos of battle. Combat consists of a **Player Character (PC) Team** and an opposing **Enemy team**. During Combat, time is divided into **Rounds**, which are further divided into **Turns**. The order each creature takes its turn in Combat is determined by the **Initiative Order**.

ENCOUNTER DC

The **Encounter DC** represents the overall challenge of a battle, determining who reacts quickest and resolving uncertain outcomes. The Game Master sets a single Encounter DC, which serves as a baseline for the difficulty of various actions, environmental hazards, or other obstacles adventurers may face. The GM can refer to the Encounter DC Table below for example Easy, Normal, and Hard difficulty values for PC Levels 1 to 20.

ENCOUNTER DC TABLE

LEVEL	EASY	NORMAL	HARD
1	11	13	15
2	11	13	15
3	12	14	16
4	12	14	16
5	14	16	18
6	14	16	18
7	15	17	19
8	15	17	19
9	16	18	20
10	16	18	20
11	17	19	21
12	17	19	21
13	18	20	22
14	18	20	22
15	20	22	24
16	20	22	24
17	21	23	25
18	21	23	25
19	22	24	26
20	22	24	26

PRE-COMBAT AGGRESSION

The moment a Combat Encounter begins is not always a matter of strict timing. The GM may determine that a PC's action (such as drawing steel, loosing an arrow, or invoking a spell) triggers the clash, allowing them to carry out that action before Initiative is rolled. However, if the enemy is already on high alert or poised for battle, the GM may rule that combat begins before the action can be completed, requiring the character to take their aggressive move on their first turn instead.

INITIATIVE

Before Combat begins, the GM will call for Initiative, which determines the order in which each creature acts. The PC Team competes against the Enemy Team to determine which team takes the first Turn of Combat.

ROLLING FOR INITIATIVE

When the GM calls for Initiative, each PC must make an **Initiative Check** against the **Encounter DC**.

MAKING AN INITIATIVE CHECK

Roll a **d20** and add your Combat Mastery and Agility to the result. Bonuses and Penalties to Agility Checks don't effect Initiative Checks, unless otherwise stated.

INITIATIVE CHECK FORMULA

$$d20 + \text{COMBAT MASTERY} + \text{AGILITY}$$

DC Tip: Initiative Checks aren't considered Agility Checks for the purposes of DisADV due to Heavy Armor with the Rigid Property or other things that specifically affect Agility Checks.

INDIVIDUAL OUTCOMES

Use the following Success and Failure Statements to determine the outcome of your Initiative Check:

- **Success:** You gain a **d6** Inspiration Die, which you can add to 1 Check or Save of your choice that you make during this Combat. The Inspiration Die expires when the Combat ends.
- **Critical Success:** You gain ADV on 1 Check or Save of your choice during the first Round of Combat.
- **Critical Failure:** The first Attack made against you during the first Round of Combat has ADV.

PARTY OUTCOMES

Use the following Success and Failure Statements to determine who will take the first turn in Combat.

- **Success:** If at least 1/2 the PCs beat the Encounter DC, the PC Team wins the first Initiative Turn of the Combat.
- **Failure:** If less than 1/2 the PCs beat the Encounter DC, the Enemy Team wins the first Initiative Turn of the Combat.

INITIATIVE TURNS

An **Initiative Turn** is a creature's opportunity to act during Combat, allowing them to move, attack, cast spells, or take other available actions. There are 2 types of Initiative Turns: **PC Turns** and **Enemy Turns**. PC Turns belong to members of the PC Team, while Enemy Turns belong to members of the Enemy Team. The number of PC Turns and Enemy Turns is equal to the number of PCs, ensuring both Teams have an equal number of Turns.

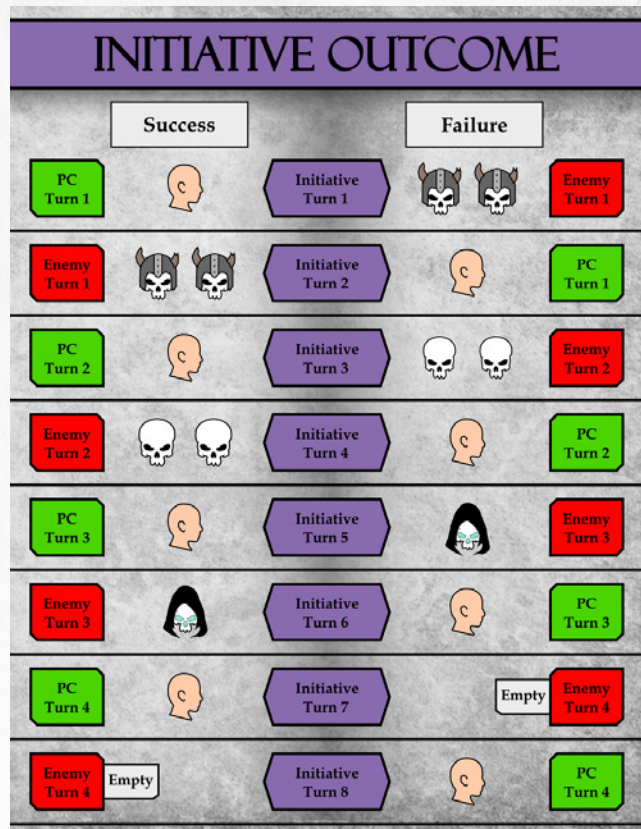

Example: If there are 3 PCs in Combat, there will be 3 PC Turns and 3 Enemy Turns, for a total of 6 Initiative Turns in the Combat.

ALTERNATING INITIATIVE TURNS

Initiative Turns are arranged so that each Team takes one Turn at a time, so when a member of one Team takes a Turn, they're followed by a member of the other Team taking a Turn. This continues back and forth until each member of each Team has taken a Turn.

DC Tip: Using an alternating initiative system between teams creates a dynamic ebb and flow in Combat, ensuring both sides have opportunities to act before being overwhelmed. This prevents the pitfalls of all PCs acting in one overwhelming surge; either felling foes before they can react or suffering a brutal onslaught should the enemy strike first. By weaving turns between allies and adversaries, the battle remains engaging, tactical, and fair.

Illustration: The image below illustrates the Initiative Turn structure of two scenarios: the left scenario where the PC team beats the Initiative DC (PC Team takes the first Initiative Turn), and the right scenario where they fail instead (Enemy Team takes the first Initiative Turn).

CHOOSING PC TURNS

At the start of each PC Turn during the first Round of Combat, the PC Team will decide which PC will take that Turn. If multiple PCs want to take the same Turn, the PC among them with the highest Initiative Check result takes the Turn.

Shared PC Turns: If 2 or more PCs have the same Initiative Check result, they can choose to share a Turn. When they do, they act at the same time in the Initiative Order. They can choose which of them acts first or alternate their actions as desired.

Example: The Barbarian and Champion are going at the same time. They both spend 1 AP to charge in together and Flank an enemy. The Champion trips the enemy target **Prone**, and the Barbarian then makes an Attack Check with ADV (target is **Prone**) and +2 bonus to Hit (target is **Flanked**). They slay the enemy and charge off again together with their remaining Action Points.

CHOOSING ENEMY TURNS

Enemies can each be assigned to their own Enemy Turns, grouped together into a single Enemy Turn, or divided into multiple Enemy Turns in any combination the GM chooses.

Example: There are 4 enemies in Combat. The GM can divide them into 4 different Enemy Turns, taking turns at different times in the Initiative Order. Alternatively, the GM could assign 2 enemies to 2 Turns each or 3 enemies to 1 Turn with 1 enemy alone in another.

Assigning Enemies: The GM can choose to assign enemies to the Enemy Turns all at the same time or one at a time as the Round unfolds. Enemies can be placed strategically to heighten the difficulty of the encounter, introduced into empty Enemy Turns later in the Initiative Order to bring forth hidden threats, or positioned immediately after a PC who has recently engaged or targeted them, allowing for a response driven by the narrative.

DELAYED INITIATIVE

At anytime during your Turn, you can choose to permanently move your Turn to a PC Turn of your choice later in the Initiative Order. Alternatively, you can choose to delay your Turn until after an enemy that you can see. If that enemy occupies the last Initiative Turn in the Initiative Order, then you create a new PC Turn to act after them.

Regaining AP: When you delay your place in the Initiative Order, you don't regain your spent Action Points until the end of your new PC Turn in the Initiative Order.

Example: The A Rogue takes their turn during the first PC Turn in the Initiative Order. They want to delay their turn to act at the same time as the Cleric, who takes their turn during the 2nd PC Turn in the Initiative Order. The Rogue's turn is skipped over, and once its time for the Cleric to take their turn, both the Rogue and the Cleric can take their turns at the same time using the rules of **Shared PC Turns**.

Beta Note: Monsters with *Legendary Action Points (LAP)* can take special actions in-between the PC's turns, spending up to a specified amount of LAP at a time (1 or 2 LAP per turn). Delayed Initiative can create a scenario where all the PCs delay their turns to act during the same PC Turn. This means there's only 1 big PC Turn, so the Monster with LAP can't spend all their LAP during the Round. Due to this issue, please run your monsters with LAP using this rule until we update it in the Monster Guide later: "If a monster with LAP doesn't spend all its LAP during the Round (between PC turns), it can spend any remaining LAP it has at the end of the Round, just before it regains all its LAP."

Game Master Initiative Sidebar

Here are some bonus Tips for GMs to handle Initiative in some unique situations.

Enemy Groupings

The GM may find it simple to group similar enemies together, rather than spacing them throughout the Initiative Order.

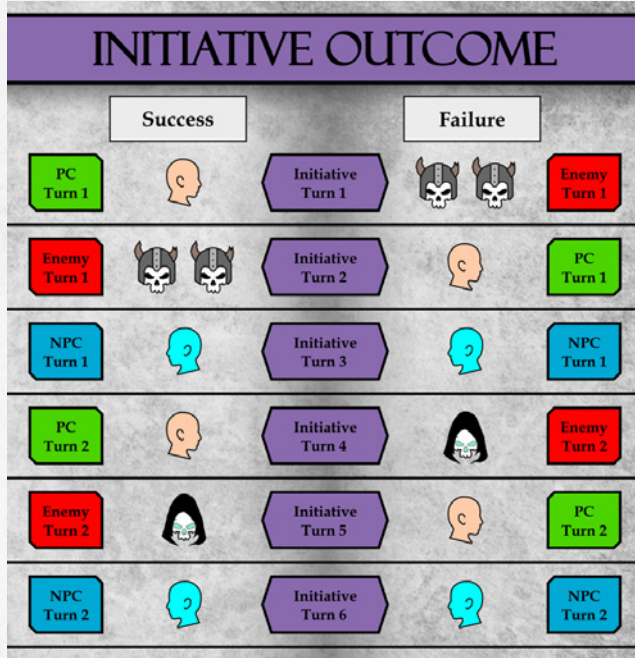

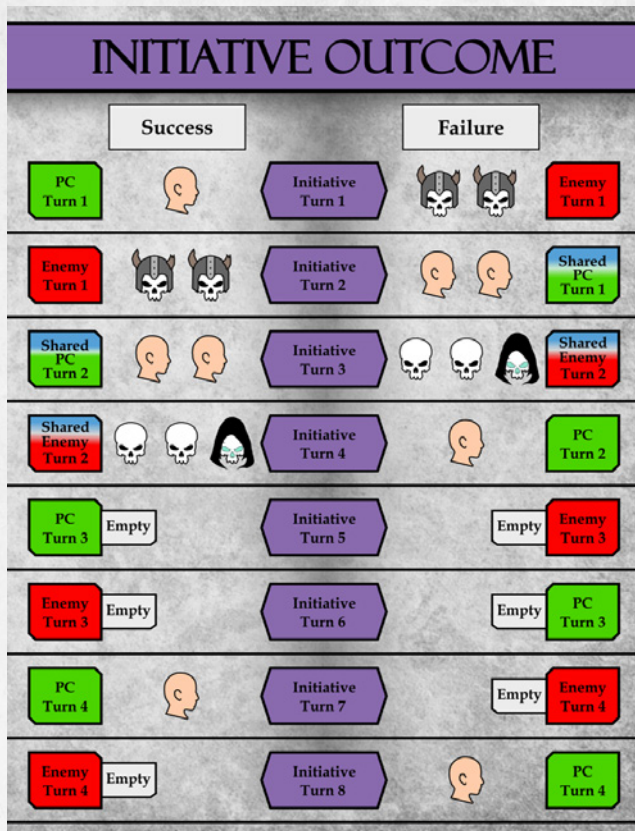

Example: If there are 4 Goblins with 2 Hobgoblins in a Combat Encounter with 4 PCs. The GM might add 2 Goblins to Enemy Turn 1, 2 Hobgoblins to Enemy Turn 2, and 2 Goblins to Enemy Turn 3.

Unequal Number of Enemies

If there are fewer enemies than there are Enemy Turns, then the GM chooses which Enemy Turns they occupy in the Initiative Order.

Shared Enemy Turns

When 2 or more PCs share a PC Turn, the GM can combine enemies from the next 2 Enemy Turns into 1 Enemy Turn, preserving the alternating flow of combat between the PC Team and the Enemy Team.

Sidebar Cont.

Empty Enemy Turns

When an Enemy Turn becomes empty (whether because there's too few enemies to fill all Enemy Turns or all enemies in an Enemy Turn have been defeated), that Enemy Turn remains in the Initiative Order but is skipped. If new enemies enter the Combat, the GM may assign them to any empty or occupied Enemy Turns, allowing for their inclusion in the Initiative Order without disrupting the flow of battle.

Multiple Enemy Teams

If there are two or more Enemy Teams, each Enemy Team will have their own Enemy Turns within the Initiative Order. These Initiative Turns will alternate so the PC Team, Enemy Team 1, and Enemy Team 2 will alternative Initiative Turns. To determine which of the Enemy Teams receives the first Initiative Turns, the GM can either use a Fate Check or simply choose based on strategy or narrative.

NPC Team

Any NPCs that aren't hostile to the PC Team are considered their own NPC Team (such as civilians trying to escape a battle). The NPC Team has their own Initiative Turns separate from the PC Team and Enemy Team. These Initiative Turns will alternate so the PC Team, Enemy Team, and NPC Team will alternative Initiative Turns. The GM can assign NPCs to NPC Turns in the same way they assign enemies to Enemy Turns (see **Choosing Enemy Turns** earlier in this chapter).

Important NPCs: The GM can choose to consider an allied NPC as a member of the PC Team to allow the NPC to act during PC Turns in the Initiative Order. When you do, consider the NPC as a PC for the purposes of determining the total number of Initiative Turns (the number of PC Turns and Enemy Turns is based on the number of PCs in the Combat). The NPC takes a PC Turn of the PC Team's choice.

INITIATIVE ORDER

The chosen Initiative Turns become the Initiative Order, which governs when each creature takes their respective Turns in each subsequent Round of Combat. Once the first Initiative Turn is assigned, Combat begins, all creatures gain access to their Action Points, the first Round of Combat begins.

ROUNDS OF COMBAT

During Combat, creatures take Turns maneuvering around the battlefield, attacking their enemies, or supporting their allies. Once each creature has taken their first Turn in Combat, the first Round of Combat is completed, and the next Round can begin. Combat progresses, Round by Round, until the PCs or their enemies prove victorious, and the GM declares that Combat has ended.

TIME IN COMBAT

A Round of Combat lasts 12 in-game seconds, so 5 Rounds equals 1 minute of in-game time. You can imagine each creature's Turn happening near simultaneously to each other with some creatures acting split-seconds before others.

TIME IN COMBAT

1 ROUND OF COMBAT = 12 SECONDS

5 ROUNDS OF COMBAT = 1 MINUTE

DURATION IN ROUNDS

The duration of some effects are measured in Rounds. The duration of these effects are measured from the start of the creature's Turn they're produced until the start of that same creature's Turn the specified number of Rounds later.

Example: If an effect with a duration of 1 Round was produced on a creature's Turn, that effect would persist until the start of that creature's next Turn. If the effect lasted 2 Rounds, then the effect would persist until the start of that creature's Turn 2 Rounds later.

DC Tip: Referring to the first Round of Combat means the first 12 seconds, where each creature will have 1 Turn. But if a PC uses an ability that lasts for 1 Round, that effect still lasts 12 seconds (which means each creature will have 1 Turn since the use of that ability), and it would last until the start of that creature's next Turn.

SURPRISE IN COMBAT

Not all combatants are prepared for battle, and some may find themselves caught off guard at the start of a Combat Encounter. To successfully ambush an opposing Team, your side must be able to see them while remaining unseen in return. If this condition is met and the GM calls for Initiative, any creature unaware of the impending fight gains the **Surprised** Condition until the end of their first Turn in Combat, leaving them unable to act as battle erupts.

Surprised (Condition)

Your current and maximum AP are reduced by 2.

CHAPTER 3

GENERAL RULES

ENVIRONMENT

SPACES & DISTANCE

Distance is measured using Spaces, like the Spaces on a Grid Map. A Space can be measured in feet or meters, where 1 Space is equal to 5 feet or 1.5 meters.

DC Tip: 1 Foot is roughly 30 Centimeters, so you can quickly convert from Feet to Centimeters by multiplying the number of Feet by 30.

Grid Map Distance: When moving or measuring distance on a gridded map, moving in any direction counts as 1 Space (including moving diagonally). You can alternatively measure in straight lines between points if you have the measuring tools or templates to do so.

Example: The normal range of a Longbow is 30 Spaces. To determine its range on a Grid Map just count 30 Spaces in any direction. The Longbow's range could also be expressed as 150ft or 45m.

When tracking distance across long distances, such as from one town to another, you might want to measure distance using feet or meters instead.

DC Tip: Using Spaces to track distance in Combat makes things easier for determining how far a creature can move or the range of an effect. If something has a range of 10 Spaces, then that's 10 Spaces on the Grid Map.

DIFFICULT TERRAIN

Some terrain is more difficult to move through due to obstacles in the way (such as plants, rocks, fallen debris, other creatures, etc.). This type of terrain is more difficult to traverse than normal.

While moving through Difficult Terrain, you are **Slowed** (every 1 Space moved costs 2 Spaces of movement).

JUMPING

Jumping is a form of movement. A creature must have means of gaining movement in order to perform a jump. If a creature does not have enough movement to jump the maximum distance possible, its jump distance is shortened to the maximum movement available.

There are two types of jumps: a Long Jump and a High Jump. A Long Jump represents the distance a creature can move while jumping horizontally, and a High jump represents the distance a creature's feet can reach above the ground when jumping vertically.

JUMP DISTANCE

A creature's Jump Distance is equal to its Agility (minimum of 1).

$$\text{JUMP DISTANCE} = \text{AGILITY}$$

Running Jump: After moving at least 2 Spaces, a creature can perform a Long Jump (horizontal jump) or a High Jump (vertical jump). If performing a Long Jump, it can jump its Jump Distance in Spaces. If performing a High Jump, it can jump its Jump Distance in feet (1ft = 30cm).

Standing Jump: A creature can forgo moving at least 2 Spaces before performing a jump, however its maximum Jump Distance is halved for the jump.

LONG JUMP

$$\text{LONG JUMP} = \text{JUMP DISTANCE (IN SPACES)}$$

Long Jump Example: A creature has a Jump Distance of 3. If that creature takes the Move Action to gain 4 Spaces of movement, it can move 2 Spaces before performing a Long Jump that can cover up to 2 Spaces (Jump Distance). It would need to take the Move Action again (gaining 4 more Spaces of movement) to have enough movement to jump the full 3 Spaces possible.

DC Tip: If you had a Jump Distance of 5 that doesn't mean that when you jump, you automatically jump 5 Spaces (that would be broken). Jump Distance is the number of Spaces you can cover in a single jump. You need to have enough movement (from taking the Move Action, etc.) to cover that distance.

HIGH JUMP

$$\text{HIGH JUMP} = \text{JUMP DISTANCE (IN FEET)}$$

High Jump Example: A creature has a Jump Distance of 3. If that creature takes the Move Action to gain 4 Spaces of movement, it can move 2 Spaces to perform a High Jump that can reach up to 3ft (90cm) above the ground.

VERTICAL REACH

The maximum height a creature can reach with its arms is equal to 1.5 times its height. A creature with a height of 6ft (1.8m) can reach something 9ft (2.7m) above the ground with its arms. A creature's vertical reach is added to its High Jump when determining how high it can reach during the jump.

FALLING

Falling Damage: When a creature falls from a height more than its Agility in Spaces (minimum of 1 Space) and collides with the ground, an object, or a creature it takes Bludgeoning damage equal to the number of Spaces it fell (up to a maximum of 100 damage) and falls **Prone**.

Reduced Impact: A creature that's going to take damage from Falling can make an Agility Save. The **DC** equals **10 + 1** per each Space it falls. **Success:** It reduces the damage by an amount equal to its Agility (minimum of 0) and doesn't fall **Prone**.

Example: If a PC has an Agility of 1 and falls from a height of 1 Spaces, they take no damage and don't fall **Prone**. If a PC has an Agility of 1 and falls from a height of 2 Spaces, they can make a **DC 12** (10 + a 2 Space Fall) Agility Save, and on a Success they take 1 damage (2 Space Fall - 1 Agility = 1 damage) and don't fall **Prone**. On a Failure, they take 2 damage and fall **Prone**.

Falling Collision: All targets the creature collides with share an amount of Bludgeoning damage equal to half the number of Spaces the creature fell and fall **Prone**. If a target is a creature, they can make a Physical Save to avoid falling **Prone**. The **DC** equals **10 + the damage taken**.

Example: A Huge sized creature falls 10 Spaces and then collides with two Medium sized creatures. The Huge creature takes 10 Bludgeoning damage from falling and falls **Prone** (can attempt a **DC 10** Agility Save to reduce the damage by its Agility and avoid falling **Prone**). The two Medium creatures share 5 damage, each take 3 Bludgeoning damage (5 damage ÷ 2 creatures = 2.5, rounded up to 3) and both fall **Prone** (each can attempt a **DC 13** Physical Save to avoid falling **Prone**).

CONTROLLED FALLING

If you are falling intentionally and are in control of your body and movement, it is considered a Controlled Fall. There are no additional penalties to falling in this way.

UNCONTROLLED FALLING

If you are thrown off a ledge, knocked back from an explosion, unable to react, or restrained in some way, it is considered an Uncontrolled Fall (GM discretion).

Uncontrolled Impact: If you are uncontrollably falling, the **DC** of Reduced Impact increases by 5. Additionally, you take damage when falling from any height (regardless of your Agility).

Example: If a PC has an Agility of 3 and has a **Controlled Fall** from a height of 3 Spaces, they can make a **DC 13** Acrobatics Check, and on a Success they take 0 damage (3 Space Fall - 3 Agility = 0 damage). If that same PC has an **Uncontrolled Fall** from a height of 3 Spaces, they would make a **DC 18** (DC 13 + 5) Acrobatics Check instead.

CONTINUOUS FALLING

If you're still falling at the end of your turn, you immediately fall another 100 Spaces.

FALLING WHILE FLYING

If you are knocked **Prone** while flying, you immediately fall up to 100 Spaces unless you are magically held aloft. If you are still falling at the start of your turn, you can spend 2 Spaces of movement to end the **Prone** Condition on yourself (as if standing up in mid air).

CLIMBING

Creatures that lack a Climb Speed are **Slowed 1** while climbing. A creature can climb a ladder, a knotted rope, or along a pocketed wall without requiring a Climbing Check (Athletics). Climbing a slick rope or wall may require a Climbing Check. Creatures with a Climb Speed have ADV on Climbing Checks. The table below provides guidance on setting the **DC** for challenging climbs. **Failure:** The creature immediately falls.

DIFFICULTY	DC 10
Soft or Mushy	+5
Wet or Icy	+5
Flat	+10
Upside Down	+10

DC Tip: Climbing great distances can be challenging, so the GM may ask a PC to make a **DC 10** Climbing Check for every additional 4 Spaces they climb beyond the first 4 Spaces, even if the rope or surface is normally easy to climb short distances. Creatures with Climbing Speeds wouldn't need to make these Checks.

SWIMMING

Creatures that lack a Swim Speed are **Slowed 1** while swimming. A creature can swim for 20 Spaces (100ft / 30m) in still waters without requiring a Swimming Check (Athletics). Swimming in a turbulent body of water without a Swim Speed requires a Swimming Check. The table below provides guidance on setting the **DC** for challenging swims. **Failure:** The creature fails to move and sinks 2 Spaces into the body of water.

DIFFICULTY	DC 10
Choppy	+5
Icy	+5
Swampy	+5
Stormy	+10

DC Tip: Swimming great distances can be challenging, so the GM may ask a PC to make a **DC 10** Swimming Check for every additional 20 Spaces they swim beyond the first 20 Spaces, even if the water is still. Creatures with Swimming Speeds wouldn't need to make these Checks.

HOLDING YOUR BREATH

Creatures that require air to breathe can hold their breath to avoid breathing in toxic air, drowning underwater, or suffocating in an airless vacuum. A creature that can no longer hold its breath begins **Suffocating**. The amount of time a creature can hold its breath depends on the type of stress they are exposed to and energy they're exerting.

There are two types of measures to hold your breath: a **Calm Hold** and a **Stressed Hold**. A Calm Hold represents the duration a creature can hold its breath while in a low stress environment while doing little to no activity, and a Stressed Hold represents the time a creature can hold its breath while in a high stress environment while doing lots of activity.

BREATH DURATION

A creature's Breath Duration is equal to its Might (minimum of 1).

BREATH DURATION = MIGHT

CALM HOLD

CALM HOLD = BREATH DURATION (IN MINUTES)

A creature that is performing No Activity or Light Activity in a calm environment can hold its breath for a number of minutes equal to its Breath Duration. If a creature begins performing any Strenuous Activity or Dangerous Activity, any remaining minutes of air is converted to an equal number of rounds.

Calm Hold Example: A creature has a Breath Duration of 3. If that creature decides to hold its breath while standing still in a calm environment, it can hold its breath for up to 3 minutes.

No Activity: Lying down, meditating, or contemplating while idle.

Light Activity: Non-strenuous activity that requires little effort, such as reading, bandaging wounds, and standing watch.

STRESSED HOLD

STRESSED HOLD = BREATH DURATION (IN ROUNDS)

A creature that is performing Strenuous Activity or Dangerous Activity can hold their breath for a number of rounds equal to its Breath Duration.

Stressed Hold Example: A creature has a Breath Duration of 3. If that creature decides to hold its breath while fighting a sea monster underwater, it can hold its breath for up to 3 rounds or 36 seconds (1 round is 12 seconds).

Strenuous Activity: Any activity that requires physical exertion, such as traveling, foraging, exercising, training, or casting Spells.

Dangerous Activity: Any activity that causes extreme injury or stress, such as engaging in combat with a hostile creature.

DC Tip: Remember, 1 Round in Combat is 12 seconds. That means that 1 minute is equal to 5 Rounds of Combat.

LOSING YOUR BREATH

Speaking: Creatures that attempt to speak while holding their breath, such as to satisfy the Verbal Component required to cast a Spell, reduce their Breath Duration by 1.

Knocking the Wind Out: Whenever you take damage, you must make a Might Save. The DC equals 10 or twice the damage taken (whichever is higher). **Failure:** You lose 1 round of air.

DC Tip: Certain effects and abilities can cause a creature to begin Suffocating immediately, usually by knocking the air out of a creature or by constricting it.

SUFFOCATING

At the start of each of your turns, you suffer the following effects while you're Suffocating:

- **Loss of Consciousness:** You must make a **DC 10** Might Save. **Failure:** You fall **Unconscious**. **Success:** You remain conscious, but the DC increases by 5.
- **HP Reduction:** You take an amount of True damage equal to 1/4 your Maximum HP.

These effects can't be reversed by any means until you regain the ability to breathe again.

VISION

LINE OF SIGHT

Line of Sight refers to a creature being able to see something within their field of view. If a PC watches a creature run behind a castle wall, that creature is no longer in the PC's Line of Sight.

On a grid map, this would mean that you can draw a straight line from any one corner of the Space that you're on to any one corner of a Space that the other creature is on. If you can see a creature but they're partially behind something (a wall, another creature, etc.), then they have Cover (see below).

COVER

1/2 Cover: Creatures have a -2 penalty on Attack Checks and Spell Checks against a target's PD or AD while the target is behind 1/2 Cover.

A creature benefits from 1/2 Cover when it's hiding behind a chair, a small table, or another creature of the same size or larger.

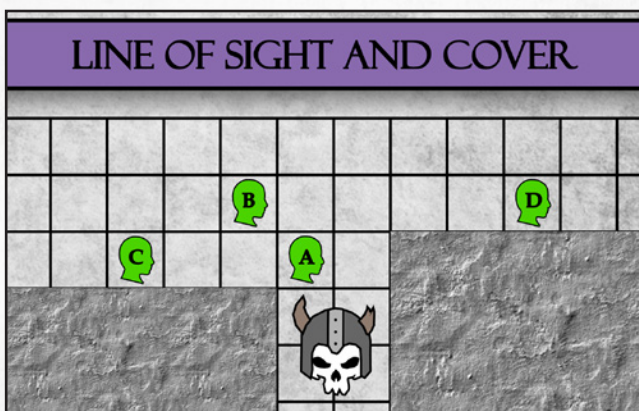

3/4 Cover: Creatures have a -5 penalty on Attack Checks and Spell Checks against a target's PD or AD while the target is behind 3/4 Cover.

A creature benefits from 3/4 Cover when it's hiding behind a large piece of furniture, a creature 2 sizes larger than it or larger, or partially covered by a wall.

Full Cover: Creatures can't make Attack Checks or Spell Checks against a target's PD or AD while the target is behind Full Cover.

A creature benefits from Full Cover when it's completely behind an object that is larger than it.

Illustration: The image below illustrates how Line of Sight and Cover work in DC20. **Player A** would have No Cover, **Player B** would have 1/2 Cover, **Player C** would have 3/4 Cover and **Player D** has Full Cover from the **Enemy**.

CONCEALMENT

Partially Concealed: A creature is Partially Concealed while within an area of thin fog, moderate foliage, or Dim Light. Creatures have DisADV on Awareness Checks made to see things that are Partially Concealed.

Fully Concealed: A creature is Fully Concealed while in an area that blocks vision entirely, such as Darkness, thick fog, or dense foliage. Creatures are considered **Blinded** for the purposes of seeing things that are Fully Concealed.

ILLUMINATION

The illumination of an area can effect a creature's ability to see. There are 3 levels of illumination: **Bright Light**, **Dim Light**, and **Darkness**. Unless otherwise stated, this book assumes all creatures are in an area of Bright Light.

Anytime a source of light produces Bright Light with a listed radius, then that source of light also produces Dim Light that extends out an equal distance beyond the Bright Light. Beyond the radius of Dim Light is only Darkness, unless there is another source of light illuminating the area.

Example: If a campfire produces Bright Light with a 5 Space radius, then it also produces Dim Light with a 5 Space radius. The result is that the campfire produces 5 Spaces of Bright Light followed by another 5 Spaces of Dim Light in all directions.

BRIGHT LIGHT

Bright Light fully illuminates everything within its area, allowing creatures to see normally. Most sources of mundane fire produces an area of Bright Light, such as torches, lanterns, or campfires.

Sunlight: Sunlight is a special form of Bright Light that illuminates the land while the sun is present in the sky. Some creatures, such as **Vampires**, suffer penalties while in an area of Sunlight.

DIM LIGHT

Dim Light only partially illuminates an area, allowing creatures to see with difficulty. Dim Light fills the area between the boundaries of Bright Light and Darkness. The area covered by a shadow, the light of a full moon, and the light produced by dusk and dawn are all examples of Dim Light.

Seeing in Dim Light: Unless a creature has Darkvision or another means to see normally in Dim Light, they perceive things within Dim Light as Partially Concealed (DisADV on Awareness Checks to see them).

Example: A creature carries a torch that sheds 3 Spaces of Bright Light followed by another 3 Spaces of Dim Light in all directions. The creature can see things within the Bright Light normally, making Awareness Checks as called for by the GM. However, the creature has DisADV on any Awareness Checks it makes to see things that are within the Dim Light.

DARKNESS

Darkness is an area that lacks any form of illumination, making it impossible for creatures to see. Nighttime between dusk and dawn, an unlit room, or an underground tunnel are examples of Darkness.

Seeing in Darkness: Unless a creature has Darkvision or another means to see partially or normally in Darkness, they perceive things within Darkness as Fully Concealed (**Blinded** to see them). While in an area of Darkness, a creature can't see anything within the area, but it can still see areas of Dim Light or Bright Light that are within its Line of Sight.

Example: A creature is in an area of Darkness that extends in all directions as far the horizon, making them unable to see anything at all, including themselves. However, if a source of light were produced somewhere within the creature's Line of Sight (such as a distant campfire), the creature would remain **Blinded** to all things except that area of illumination (whether Dim Light or Bright Light).

MAGICAL LIGHT & DARKNESS

There are also sources of Magical Light and Magical Darkness coming out in the Beta.

VISION

DARKVISION

Creatures with Darkvision have the ability see in Dim Light and Darkness out to a specified range. A creature with Darkvision can see areas of Dim Light within the specified range as if it were Bright Light, and see areas of Darkness within the specified range as if it were Dim Light. A creature can't discern color using their Darkvision, only shades of grey.

Example: A creature with Darkvision 10 can see up to 10 Spaces in Dim Light as if it were Bright Light, and up to 10 Spaces in Darkness as if it were Dim Light.

TREMORSENSE

Creatures with Tremorsense can sense vibrations in the ground within a specified range, allowing them to automatically pinpoint the location of anything that is in contact with the same surface, including through Cover and Concealment.

Creatures with Tremorsense and a Swim Speed can also pinpoint the location of creatures moving through water within the specified range.

BLINDSIGHT

Creatures with Blindsight have the ability to see things within a specified range without the use of eyes. Creatures without eyes or that can see using echolocation are able to see things using Blindsight. A creature with Blindsight is immune to being **Blinded**, can see things that are **Invisible**, and can see unimpeded by Concealment. Blindsight doesn't grant a creature the ability to see behind Cover.

Example: A creature with Blindsight 5 can see up to 5 Spaces in any direction as if they could see normally. This includes **Invisible** creatures within range and creatures that are Partially or Fully Concealed within range that aren't behind Cover.

TRUESIGHT

Creatures with Truesight have the ability to see things that are normally imperceptible out to a specified range. They can see through normal and magical Darkness, see into the Ethereal Plane from the Material Plane (and vice versa), see things that are **Invisible**, automatically see through illusions, and can perceive the true form of a Shapechanger or creature that is transformed by magic.

Example: A creature with Truesight 10 can see up to 10 Spaces in Darkness normally, see creatures within range that are **Invisible** or on the Ethereal Plane, and see the true form of a any creature that is shapeshifted.

AREAS OF EFFECT

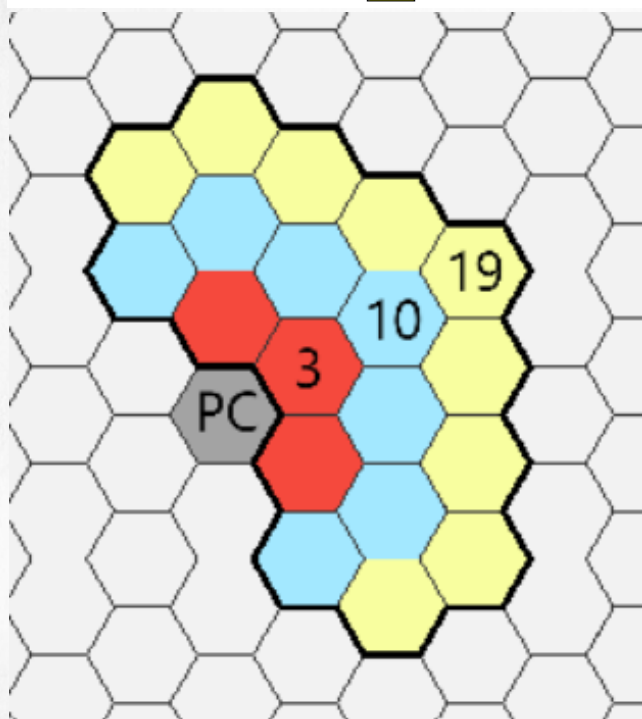

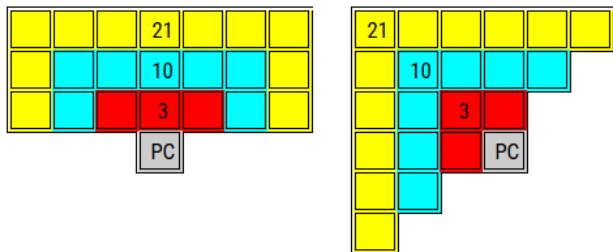

An Area of Effect represents a zone of some kind that an effect covers, such as an **Arc**, **Aura**, **Cone**, **Line**, **Ring**, **Sphere**, or **Zone**.

Point of Origin: The Point of Origin for an Area of Effect is always 1 Space from which it extends (Arc, Cone, Line, or Wall) or is centered on (Aura, Ring, or Sphere). If the Area of Effect can't be centered on 1 Space then it's instead centered on the 4 most center Spaces.

Example: On a Grid Map, a 3 Space diameter Sphere is 3 Spaces wide where the center of that Sphere is 1 Space. Alternatively, a 6 Space diameter Sphere is 6 Spaces wide where the center of that Sphere is the center most 4 Spaces. This is because there isn't only 1 Space that sits directly in its center.

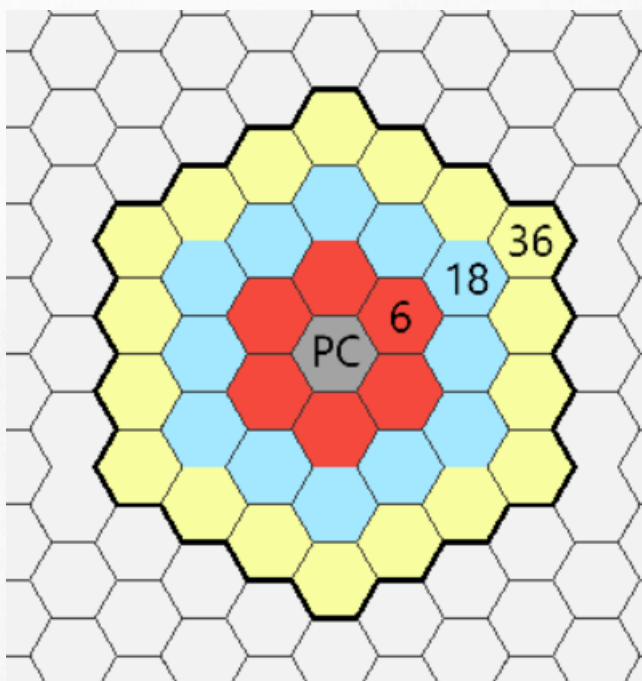

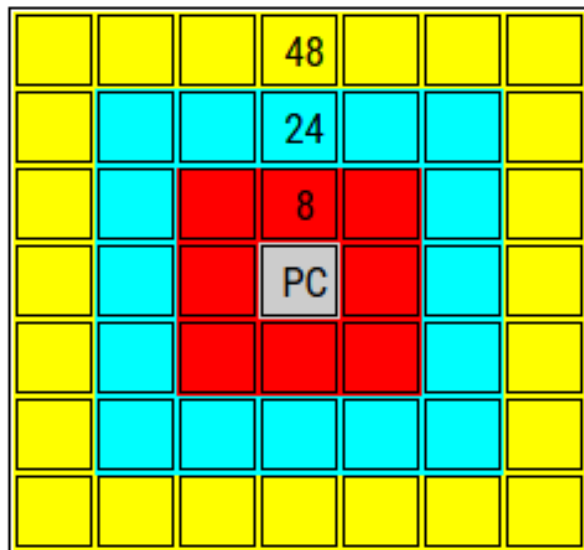

ARC

An Arc forms a near half circle. An Arc's size is expressed as a radius in Spaces that extends in a 180° arc from the Point of Origin in a direction of your choice. The height of an Arc is 1 Space. An Arc's Point of Origin isn't included in its Area of Effect.

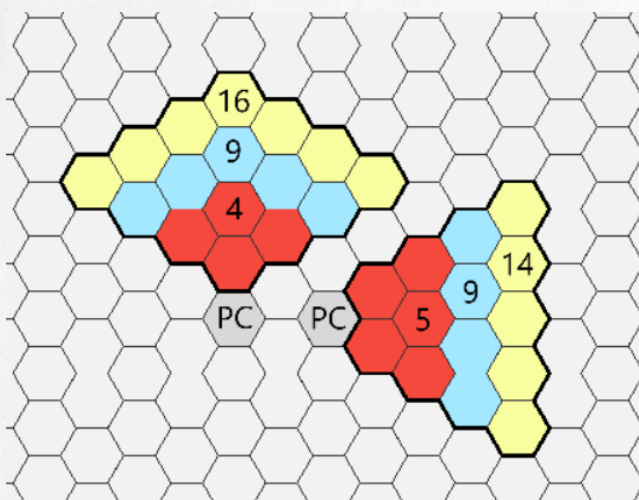

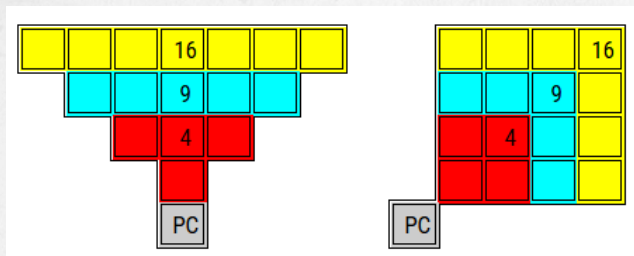

AURA

An Aura's size specifies its radius in Spaces. An Aura extends in a straight line in all directions from a creature or object, but not through Full Cover, and moves with it for the duration. The source of the Aura chooses if the Point of Origin is subjected to the Aura's effects.

CONE

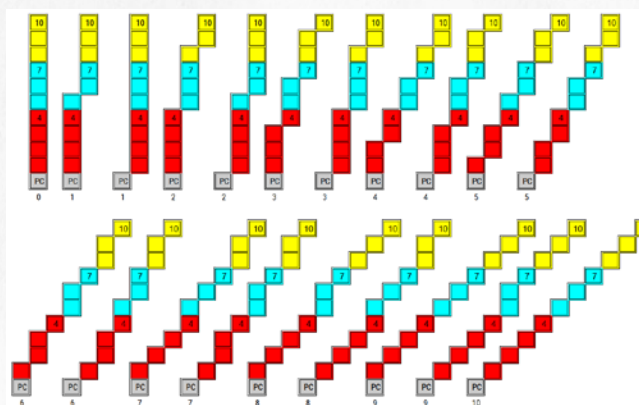

A Cone extends 90° from its Point of Origin in a direction of your choice. A Cone's size specifies its length in Spaces. A Cone gets taller and wider as it gets longer. A Cone's Point of Origin isn't included in its Area of Effect.

LINE

A Line's size specifies its length in Spaces. A Line is 1 Space tall and wide (unless stated otherwise) and extends from its Point of Origin in a direction of your choice. A Line's Point of Origin isn't included in its Area of Effect.

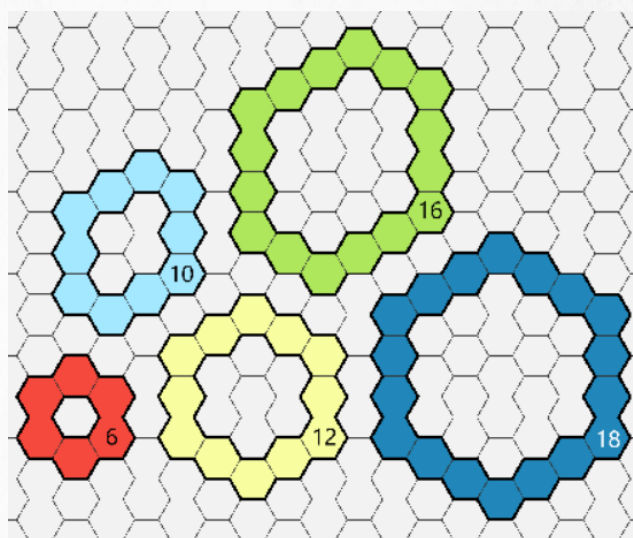

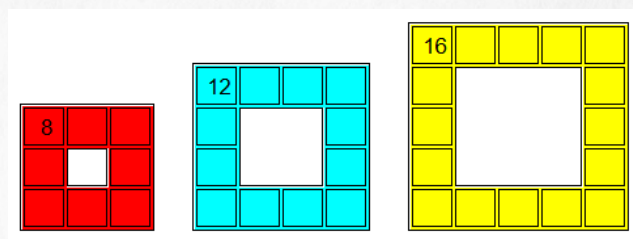

Wall: A Wall is a Line that extends vertically up or down in a specified number of Spaces.

RING

A Ring's size specifies its diameter in Spaces. A Ring extends horizontally in all directions horizontally from its Point of Origin, but not through Full Cover. A Ring's area is 1 Space high and only includes the Spaces at the edge of its diameter (not the interior). A Ring's Point of Origin isn't included in its Area of Effect.

Ringwall: A Ringwall is a Ring that extends vertically up or down in a specified number of Spaces from the edge of its diameter.

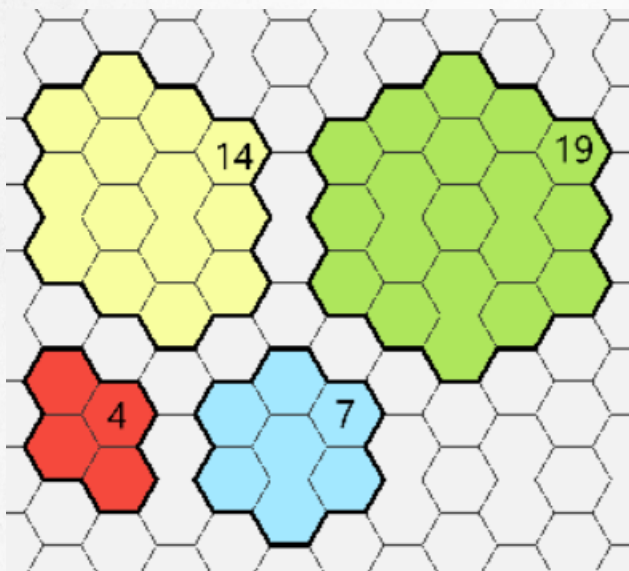

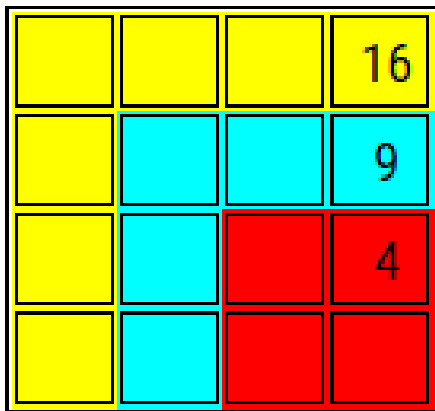

SPHERE

A Sphere's size specifies its diameter in Spaces. A Sphere extends horizontally in all directions from its Point of Origin, but not through Full Cover. A Sphere's Point of Origin is included in its Area of Effect.

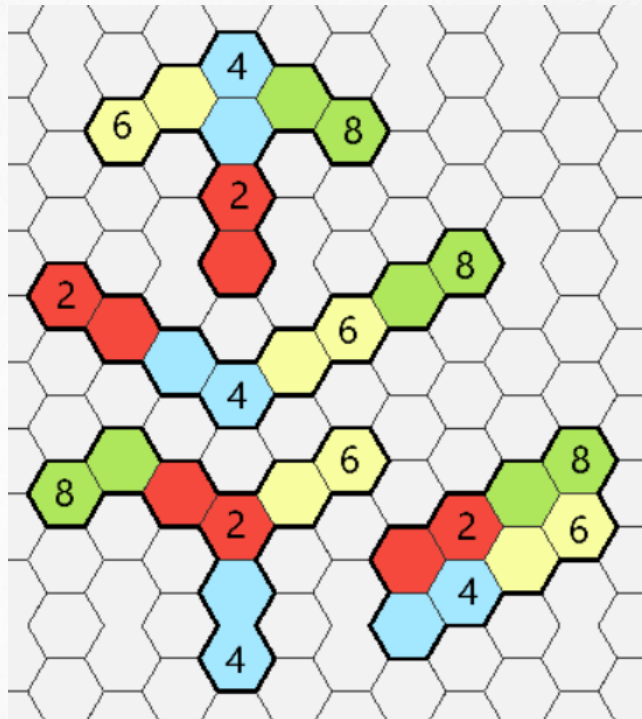

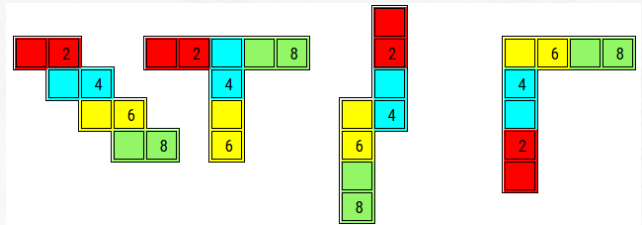

Cylinder: A Cylinder is a Sphere that extends vertically up or down in a specified number of Spaces from the edge of its diameter.

Dome: A Dome is a hollow Sphere that's area only includes the Spaces at the edge of its curved surface (not the interior).

ZONE

A Zone is a series of Spaces connected to each other. Each Space within a Zone must be perpendicularly adjacent to at least 1 other Space of the Zone. A Zone's size specifies its total number of Spaces. A Zone extends from its Point of Origin in a direction of your choice. A Zone's Point of Origin isn't included in its Area of Effect.

CREATURES & COMBAT

CREATURES

CREATURE SIZES

Creatures come in many different shapes and sizes ranging from a miniscule bug to a primordial titan and beyond. The number of Spaces a creature occupies determines its size for the purposes of rules that govern the interactions between creatures and their environment. The table below shows the 9 different creatures sizes with examples for each and the number of Spaces they occupy.

SIZE	EXAMPLES	SPACES
Micro	Spider	See Micro Creatures below
Tiny	Cat	1/4 Space (4 per Space)
Small	Sheep	1 Space
Medium	Human	1 Space
Large	Horse	4 Spaces: (2 x 2) or (4 x 1)
Huge	Elephant	9 Spaces: (3 x 3), (4 x 2), or (9 x 1)
Gargantuan	T-Rex	16 Spaces: (4 x 4), (5 x 3), (8 x 2), or (16 x 1)
Colossal	Brontosaurus	25 Spaces: (5 x 5), (6 x 4), (8 x 3), (12 x 2), or (25 x 1)
Titanic	Blue Whale	50 Spaces: (7 x 7), (8 x 6), (10 x 5), (12 x 4), (16 x 3), (25 x 2), or (50 x 1)

Micro Creatures: Exceptionally small creatures, such as ants, can share their Space with other creatures. They can end their turn in a Space occupied by other creatures (and vice versa).

MOVING & GRAPPLING CREATURES

Creatures of different sizes have bonuses or penalties when attempting to Grapple, push, move, and knock other creatures **Prone** by mundane means.

SIZE	CHECK
1 + Sizes larger than the target	ADV
Same Size as target	Normal
1 Size smaller than the target	DisADV
2 + Sizes smaller than the target	Impossible

Example: If a Medium sized Champion is trying to move a Large sized creature, the Champion would have DisADV on the Check they make to move it.

GRAPPLED

You're **Immobilized**.

ESCAPE GRAPPLE

You can spend 1 AP to attempt to free yourself from a Grapple. Make a Acrobatics or Athletics Check contested by the Grappler's Athletics Check. **Success:** The Grapple immediately ends.

The Grapple also ends if any of the following occurs:

- ♦ **Incapacitated:** The Grappler becomes **Incapacitated**.
- ♦ **Falling:** The Grappler is unable to carry your weight when you begin falling, provided they aren't also falling with you.
- ♦ **Forced Movement:** An effect forcibly moves you or the Grappler, causing you to move outside the Grappler's reach. If the effect requires a Contested Check or Save, the Grappler makes the Check or Save instead of you. If the effect targets both you and the Grappler, the Grappler makes 1 Check or Save for both of you. **Success:** The targets are not moved. **Failure:** The targets are moved.

GRAPPLED BY MULTIPLE CREATURES

A creature that's **Grappled** by more than 1 creature only suffers the effects of being **Grappled** once. However, a creature **Grappled** by multiple sources will remain **Grappled** until they're free from being **Grappled** by all sources.

Example: While Grappled, a creature is **Immobilized** (DisADV on Agility Saves). A creature doesn't have DisADV 2 on Agility Saves as a result of being **Grappled** by 2 creatures. They only have DisADV on Agility Saves.

Moving the Target: If multiple creatures are Grappling the same target and one of them tries to move the **Grappled** target, it must make a Contested Athletics Check against all creatures Grappling the same target. **Success:** It ends the Grapple on the target by all creatures other than itself, allowing it to move the creature as normal.

MOVING THROUGH CREATURES

While moving in Combat, there will be times when you'll want or need to move through another creature's Space. Whether the creature is friendly or hostile to you will determine if you can freely move through their Space.

Friendly Creatures: You can move through a Space occupied by a friendly creature without having to spend any extra movement.

Hostile Creatures: You can move through the Space of hostile creatures that are 2 sizes larger or smaller than you, but you are considered to be **Slowed** while moving through the Space they occupy. If the creature is within 1 size of you, you can't move through its Space unless you take the Pass Through Action (see ["Pass Through" on page 46](#)).

Ending Your Movement: You can't end your turn in a Space that's occupied by another creature.

COLLISION

When a creature is thrown or knocked back and collides with an immovable object (such as a wall) or another creature, it takes damage upon impact.⁸

Sudden Stop: The creature stops in the Space where it made contact with the target of the Collision.

Collision Damage: The creature and all targets of the Collision share an amount of Bludgeoning damage equal to the number of Spaces the creature couldn't travel (due to the Collision).

Example: A creature is knocked back 5 Spaces and impacts a wall that's only 2 Spaces away. The creature would be thrown 2 Spaces into the wall and then take 3 Bludgeoning damage for the 3 Spaces they couldn't be moved (5-2 = 3). If the creature impacted another creature instead of a wall, they would share the 3 Bludgeoning damage (1.5 damage each, rounded up to 2 damage each).

Colliding with a Target: When you forcibly move a creature toward a target, you compare your Check against the target's PD. **Hit:** The forcibly moved creature and the target share the Collision damage (each take half). **Miss:** The forcibly moved creature continues traveling up to the maximum distance moved.

THROWING

You can spend 1 AP to throw an object or a creature you have Grappled.

OBJECT

The target is thrown up to a number of Spaces away as shown in the Throwing Table. For the purposes of throwing, your minimum Might is 1. The total distance thrown is halved if thrown vertically.

Throw at a Target: When you throw an object at a target it's considered a Ranged Martial Attack with an **Improvised Weapon** against the target's PD. **Hit:** The target takes 1 damage of a type determined by the GM. **Miss:** The thrown object continues traveling up to your maximum throwing distance.

DC Tip: When you throw Weapons (including an Improvised Weapon) that lack the Toss or Thrown Properties as part of an Attack, you make the Attack with DisADV.

CREATURE

Make an Athletics Check against the target's Might Save. **Check Success:** The target is thrown up to a number of Spaces away as shown in the Throwing Table (ending the Grapple). For the purposes of throwing, your minimum Might is 1. The total distance thrown is halved if thrown vertically upward.

Throw at a Target: When you throw the creature at a target, you compare your Athletics Check against the target's PD. **Hit:** The thrown creature and the target share the Collision damage (each take half). **Miss:** The thrown creature continues traveling to your maximum throwing distance.

THROWING TABLE

SIZE	SPACES THROWN
2+ Sizes smaller	2 x Might
1 Size smaller	Might
Same Size	1/2 Might
Larger	Impossible

Example: A Medium sized creature with a Might of 0 (minimum Might of 1) could throw a Tiny object up to 2 Spaces, a Small object 1 Space, and Medium object 1 Space (rounded up from 0.5). Conversely, if that creature had a Might of 6, they could throw a Tiny object 12 Spaces, a Small object 6 Spaces, and a Medium object 3 Spaces.

THROWING MELEE WEAPONS

When you throw a Weapon (or Shield) that lacks the Toss or Thrown Properties, it's considered an **Improvised Weapon** for the purposes of the Attack. See ["Equipment" on page 164](#) for more information on Weapon properties.

DC Tip: Most Weapons are Tiny objects, so a Medium creature with a Might of 3 could throw a Weapon up to 6 Spaces.

IMPROVISED WEAPONS

When an object that's not a Weapon is used as one, it's considered an Improvised Weapon. Unless otherwise stated by the GM, an Improvised Weapon deals **1** damage of a type determined by the GM. When making an Attack with an Improvised Weapon you have DisADV.

Weapon Style: Unless otherwise stated by the GM, an Improvised Weapon doesn't benefit from any Weapon Properties or Weapon Enhancements granted by a Weapon.

DC Tip: If an Improvised Weapon is similar enough to an actual weapon, the GM might decide that it could gain certain Weapon Properties (such as Reach) or even a Weapon's Attack Enhancement (such as Bleed).

UNARMED STRIKES

Unarmed Strikes deal **0** Bludgeoning damage. An Unarmed Strike is a Melee Attack made using any part of a creature's own body, such as a Punch, Elbow, Kick, Knee, or Headbutt.

DC Tip: Attacks that deal **0** base damage can still benefit from bonus damage, such as Heavy Hits, Martial Enhancements, Class Features, etc.

NATURAL WEAPONS

A Natural Weapon is a part of a creature's body that counts as a Weapon (such as a Claws, Fangs, and Horns). When you Attack with a Natural Weapon it's considered both a Weapon Attack and an Unarmed Strike.

Wielding a Natural Weapon: A Natural Weapon is considered to be wielded by the appendage it's attached to unless that appendage is holding something.

Example: A Beastborn with claws is considered to be wielding the claws in their hands, qualifying these Natural Weapons for Dual Wielding and similar mechanics.

NON-LETHAL ATTACKS

When you make a Melee Attack with a Weapon or Unarmed Strike, you can declare the Attack to be Non-Lethal. If a creature is reduced to **0 HP** or lower by a Non-Lethal Attack, they are knocked **Unconscious** instead and are considered Stable for the purposes of Death's Door.

If a creature is knocked **Unconscious** in this way, another creature can spend **1 AP** to shake them awake. When the creature awakens, they are on Death's Door at **0 HP**, regardless of how much damage was dealt by the Non-Lethal Attack.

DUAL WIELDING

You're considered to be **Dual Wielding** when you're wielding a separate Weapon in each hand. When you make an Attack with one of the Weapons you're Dual Wielding, your next Attack on this turn with the other Weapon ignores the Multiple Check Penalty (and doesn't advance that penalty), provided you're still Dual Wielding those Weapons. You can only do this once on each of your turns.

DC Tip: If one of your hands is a Natural Weapon (such as a Claw or the Monk's **Iron Palm** benefit), it counts as a Weapon you are wielding in that hand for the purposes of Dual Wielding.

FLANKING

You gain an additional **+2** to your Melee Attack if the target is Flanked. A creature is Flanked when it has 2 or more enemies within 1 Space of it that are not adjacent to each other, provided they aren't **Incapacitated** or **Prone**. You're considered to be Flanking a creature if you are one of the creatures causing it to be Flanked.

PRONE

While Prone, you're subjected to the following effects:

- You have DisADV on Attacks, Ranged Attacks have DisADV against you, and Melee Attacks against you have ADV.
- **Crawl Speed:** Until you stand up, your only movement option is to Crawl, which costs an extra 1 Space of movement for every Space moved.

Ending Prone: You can end being **Prone** by spending 2 Spaces of movement to stand up.

PRONE IN THE AIR

When you become **Prone**, you immediately enter an Uncontrolled Fall unless you're supported by a solid surface (see [“Falling” on page 153](#) for more information).

HIDDEN CREATURES

Creatures that are Unseen or Unheard are more difficult to discover.

UNSEEN

You are Unseen by a creature while you're imperceivable to its visual senses, such as when you're Fully Concealed, you're **Invisible**, or it's **Blinded**. While Unseen, you're subjected to the following effects:

- You have ADV on Attacks against creatures that can't see you.
- Creatures that can't see you have DisADV on Attacks against you.

DC Tip: If you are Unseen because you're behind Full Cover, effected by the Invisibility Spell, and your target is Blinded, you don't gain the benefits of being Unseen multiple times. You are either Unseen or not.

UNHEARD

You are Unheard while you remain silent, talk no louder than a whisper, or are within an area effected by the *Muffle* Spell or a similar effect. While Unheard, you're subjected to the following effects:

- You have ADV on Attacks against creatures you're **Flanking** that can't hear you.

DC Tip: If you're Unheard because you're remaining silent or within an area effected by the Muffle Spell, you don't gain the benefits of being Unheard multiple times. You're either Unheard or not.

HIDDEN

You are Hidden from a creature while you are both **Unseen** and **Unheard** by it. Your location is unknown to creatures you're Hidden from.

DC Tip: If you become Hidden to a creature that's aware of you, it only knows your last location known to it before you became Hidden. Creatures that can detect your presence, even through magical means such as divination, are not considered to know your location, to see you, or to hear you unless the Feature says otherwise.

UNDERWATER COMBAT

While underwater, creatures are subjected to the following conditions:

Attack Penalties: Martial Attacks are made with DisADV unless the Creature has a Swim Speed. Additionally, Ranged Attacks automatically miss targets beyond the Weapon's normal range.

Holding Breath: Creatures that attempt to speak while holding their breath underwater, such as to satisfy the Verbal Component required to cast a Spell, reduce their Breath Duration by 1 (see [“Holding Your Breath” on page 154](#) for more information).

Fire Resistance: Creatures and objects that are fully immersed in water have Fire Resistance (Half) and are immune to **Burning**.

EQUIPMENT

WEAPONS

Every Weapon has a **Weapon Type** (Melee or Ranged), a **Weapon Style** (Axe, Sword, Hammer, etc.), and **Weapon Properties** (Reach, Thrown, Two-Handed, etc.).

WEAPON TYPES

There are 2 types of Weapons : **Melee Weapons** and **Ranged Weapons**.

MELEE WEAPONS

Melee Weapons use your Melee Range (see [“Melee Weapons” on page 164](#)).

RANGED WEAPONS

Ranged Weapons have a Range of 15/45 (see [“Ranged Weapons” on page 164](#)).

DC Tip: A Weapon with the Long-Ranged Property has a Range of 30/90.

WIELDING A WEAPON

A Weapon requires 1 hand when you Attack with it, unless it has the Two-Handed Property (requires 2 hands to Attack).

Throwing Weapons: When you throw a Weapon that lacks the Toss or Thrown Properties, the Weapon is considered an Improvised Weapon for the purposes of the Attack. See [“Throwing Melee Weapons” on page 161](#) for more information.

WEAPON STYLES

Each Weapon Style listed below possesses a **Weapon Enhancement** that defines their unique combat applications and flair. When a PC with Weapon Training makes an Attack with a Weapon, they can spend 1 AP or 1 SP to use its Weapon Enhancement.

AXE

Bleed: The target makes a Repeated Physical Save. **Failure:** The target begins **Bleeding**.

BOW

Slow: The target makes an Agility Save. **Failure:** The target is **Slowed** until the end of its next turn.

CROSSBOW

Accuracy: You add a d4 to your Attack Check.

FIST

Fist Weapons are considered to be a free hand for the purposes of **Grappling**.

Grapple: The target makes a Physical Save. **Failure:** The target becomes **Grappled** by you.

HAMMER

Knockback: The target makes a Might Save. **Failure:** The target is pushed 1 Space away. Each time you use this Enhancement, the target is pushed 1 additional Space.

PICK

Hinder: The target makes an Agility Save. **Failure:** The target becomes **Hindered** until the end of their next turn.

SLING

Hinder: The target makes an Agility Save. **Failure:** The target becomes **Hindered** until the end of their next turn.

SPEAR

Slow: The target makes an Agility Save. **Failure:** The target becomes **Slowed** until the end of their next turn.

STAFF

Trip: The target makes a Physical Save. **Failure:** The target falls **Prone**.

SWORD

Accuracy: You add a d4 to your Attack Check.

WHIP

Pull: The target makes a Might Save. **Failure:** The target is moved horizontally 1 Space toward you or to your left or right. Each time you use this Enhancement, the target is moved 1 additional Space.

LACKING WEAPON TRAINING

While wielding a Weapon you lack Training with, you can't use its Weapon Enhancement.

WEAPON PROPERTIES

Weapons have certain properties that grant them different benefits or drawbacks.

- ♦ **Ammo:** This Weapon requires ammunition to make Attacks. You can load a Weapon as part of an Attack made with it.
- ♦ **Concealable:** Drawing the Weapon doesn't provoke Opportunity Attacks. If you draw the Weapon as part of an Attack, you have ADV on the Attack. You can only gain this benefit once against each creature per Combat.
- ♦ **Cumbersome:** It takes 1 AP to draw, stow, or pick up this Weapon.
- ♦ **Deft:** Ranged Attacks with this Weapon don't have DisADV as a result of you being **Prone**.
- ♦ **Guard:** You gain +1 PD while wielding the Weapon.
- ♦ **Heavy:** The Weapon's damage increases by 1.
- ♦ **Impact:** The Weapon deals +1 damage on Heavy Hits.
- ♦ **Long-Ranged:** The Weapon's Range increases to 30/90.
- ♦ **Multi-Faceted:** The Weapon gains a second Weapon Style. When you make an Attack with the Weapon, you can use both Weapon Enhancements and choose which of the Weapon Style damage types it deals.

Example: A Halberd has the Axe and Pick weapon styles. When you attack with it, you can choose either Slashing or Piercing damage. You can also spend AP or SP to add either or both of the Bleed and Hinder Weapon Enhancements.

- ♦ **Reach:** This Weapon adds 1 Space to your Melee Range when you Attack with it.
- ♦ **Reload:** The Weapon's damage increases by 1, but you must spend 1 AP or 1 SP and use a free hand to reload the Weapon. If the Weapon stops being held, it must be loaded again.
- ♦ **Silent:** When you make a Ranged Attack with the Weapon while Hidden, you remain Unheard by creatures you're Hidden from.

DC Tip: You must be both Unseen and Unheard to be Hidden. If you become seen while making the Attack, you are no longer Hidden.

- ♦ **Toss:** You can throw the Weapon to make a Ranged Martial Attack (5/10). If you throw it further than this range (see ["Throwing" on page 161](#)) it's considered an Improvised Weapon.

DC Tip: This uses the Ranged Martial Attack rules where you make a normal attack up to 5 spaces and a DisADV attack up to 10 spaces.

- ♦ **Thrown:** You can throw the Weapon to make a Ranged Martial Attack (10/20). If you throw it further than this range (see ["Throwing" on page 161](#)) it's considered an Improvised Weapon.
- ♦ **Two-Handed:** The Weapon requires 2 hands when you Attack with it.
- ♦ **Unwieldy:** You have DisADV on Attacks made with the Weapon against targets within 1 Space of you.

- ♦ **Versatile:** This Weapon can be wielded with 1 or 2 hands. When you wield the Weapon with 2 hands, you gain a +2 bonus to Hit using it.
- ♦ **Returning:** (Requires: Toss or Thrown Property) When you Miss a Ranged Attack with the Weapon, it returns to your hand.

WEAPON EXAMPLES

STYLES	TYPE	DAMAGE	PROPERTIES	RANGE
Melee Weapons				
One-Handed				
Axe	Sickle, Hand Axe, Throwing Star	1 S	Concealable, Toss	5/10
Fist	Brass Knuckles	1 B	Concealable, Impact	1
Hammer	Club	1 B	Concealable, Toss	5/10
Hammer	Light Hammer	1 B	Impact, Toss	5/10
Hammer	Boomerang	1 B	Toss, Returning	5/10
Pick	Mining Pick	1 P	Impact, Toss	5/10
Spear	Dart	1 P	Concealable, Toss	5/10
Spear	Javelin	1 P	Thrown	10/20
Sword	Throwing Dagger	1 S	Concealable, Toss	5/10
Sword	Short Sword	1 S	Guard, Impact	1
Sword/Spear	Rapier	1 S/P	Guard, Multi-Faceted	1
Whip	Chain Whip	1 S	Reach, Impact	2
Versatile				
Axe	Battleaxe	1 S	Versatile, Impact	1
Hammer/Whip	Flail	1 B/S	Versatile, Multi-Faceted	1
Hammer/Pick	Morningstar, Warhammer	1 B/P	Versatile, Multi-Faceted	1
Pick	Pickaxe	1 P	Versatile, Impact	1
Spear	Spear	1 P	Versatile, Toss	5/10
Spear	Long Spear	1 P	Versatile, Reach	2
Staff	Bo Staff	1 B	Versatile, Guard	1
Sword	Longsword	1 S	Versatile, Guard	1
Sword	Bastard Sword	1 S	Versatile, Impact	1
Whip	Bull Whip	1 S	Versatile, Reach, Unwieldy, Impact	2
Two-Handed				
Axe	Scythe	2 S	Two-Handed, Heavy, Reach	2
Axe	Greataxe	2 S	Two-Handed, Heavy, Impact	1
Axe/Pick	Halberd	1 S/P	Two-Handed, Multi-Faceted, Reach, Impact	2
Hammer/Whip	War Flail	2 B/S	Two-Handed, Heavy, Multi-Faceted	1
Hammer/Whip	Meteor Hammer	2 B/S	Two-Handed, Heavy, Multi-Faceted, Reach, Unwieldy	2
Hammer	Greatmaul	2 B	Two-Handed, Heavy, Impact	1
Spear	Pike	2 P	Two-Handed, Heavy, Reach, Impact, Unwieldy	2
Staff	Quarterstaff	1 B	Two-Handed, Guard, Reach, Impact	2
Sword	Glaive	2 S	Two-Handed, Heavy, Reach	2
Sword	Greatsword	2 S	Two-Handed, Heavy, Impact	1
Whip	Great Whip	2 S	Two-Handed, Heavy, Reach, Impact, Unwieldy	2
Ranged Weapons				
One-Handed				
Sling	Sling	1 B	Ammo, Impact	15/45
Crossbow	Hand Crossbow	2 P	Ammo, Reload, Deft, Impact	15/45
Crossbow/Sling	Hand Stonebow	2 B/P	Ammo, Reload, Deft, Multi-Faceted	15/45
Two-Handed				
Bow	Shortbow	1 P	Two-Handed, Ammo, Impact, Silent	15/45
Bow	Longbow	1 P	Two-Handed, Ammo, Impact, Long-Ranged	30/90
Bow	Greatbow	2 P	Two-Handed, Ammo, Impact, Heavy, Cumbersome	15/45
Crossbow	Blowgun (Needle)	1 P	Two-Handed, Ammo, Deft, Silent	15/45
Crossbow	Light Crossbow	3 P	Two-Handed, Ammo, Reload, Deft, Heavy	15/45
Crossbow	Heavy Crossbow	3 P	Two-Handed, Ammo, Reload, Deft, Impact, Heavy, Cumbersome	15/45
Crossbow/Sling	Stonebow	3 B/P	Two-Handed, Ammo, Reload, Deft, Multi-Faceted, Heavy, Cumbersome	15/45
Sling	Slingshot	1 B	Two-Handed, Ammo, Impact, Silent	15/45
Sling	War Sling	2 B	Two-Handed, Ammo, Heavy	15/45

CUSTOMIZED WEAPONS

You can create your own unique Weapons by following a 3 step process:

1. Choose the Weapon Type.
2. Choose the Weapon Style & Damage.
3. Choose the Weapon Properties.

STEP 1: WEAPON TYPES

There are 2 types of Weapons : **Melee Weapons** and **Ranged Weapons**.

MELEE WEAPONS

Melee Weapons use your Melee Range (see [“Melee Weapons” on page 164](#)) and deal 1 damage.

RANGED WEAPONS

Ranged Weapons have a Range of 15/45 (see [“Ranged Weapons” on page 164](#)) and deal 1 damage. Additionally, they automatically gain the following properties: **Ammo** and **Two-Handed**.

WIELDING A WEAPON

A Weapon requires 1 hand when you Attack with it, unless it has the Two-Handed Property (requires 2 hands to Attack).

STEP 2: WEAPON STYLE & DAMAGE

Each Weapon Style has a particular damage type (in parentheses) and Weapon Enhancement as shown below:

DC Tip: You can only use a Weapon's Enhancement if you have Weapon Training.

MELEE WEAPON STYLES

AXE (SLASHING)

Bleed: The target makes a Repeated Physical Save. **Failure:** The target begin **Bleeding**.

FIST (BLUDGEONING, PIERCING, OR SLASHING)

Fist Weapons are considered to be a free hand for the purposes of **Grappling**.

Grapple: The target makes a Physical Save. **Failure:** The target becomes **Grappled** by you.

HAMMER (BLUDGEONING)

Knockback: The target makes a Might Save. **Failure:** The target is pushed 1 Space away. Each time you use this Enhancement, the target is pushed 1 additional Space.

PICK (PIERCING)

Hinder: The target makes an Agility Save. **Failure:** The target becomes **Hindered** until the end of their next turn.

SPEAR (PIERCING)

Slow: The target makes an Agility Save. **Failure:** The target becomes **Slowed** until the end of their next turn.

STAFF (BLUDGEONING)

Trip: The target makes a Physical Save. **Failure:** The target falls **Prone**.

SWORD (SLASHING)

Accuracy: You grant your Attack a d4 Help Die.

WHIP (SLASHING)

Pull: The target makes a Might Save. **Failure:** The target is moved horizontally 1 Space toward you or to your left or right. Each time you use this Enhancement, the target is moved 1 additional Space.

RANGED WEAPON STYLES

BOW (PIERCING)

Slow: The target makes an Agility Save. **Failure:** The target is **Slowed** until the end of its next turn.

CROSSBOW (PIERCING)

Accuracy: You grant your Attack a d4 Help Die.

SLING (BLUDGEONING)

Hinder: The target makes an Agility Save. **Failure:** The target becomes **Hindered** until the end of their next turn.

CHANGING DAMAGE TYPE

Each Weapon Style comes with a default damage type (shown above), but you can switch any of these default damage types to a different one (Bludgeoning, Piercing, or Slashing).

STEP 3: WEAPON PROPERTIES

When you pick a Melee or Ranged Weapon during Character Creation (or craft one later), you can grant it 2 points worth of Weapon Properties. You can't grant a Weapon the same Property more than once.

DC Tip: *The Two-Handed property given to Ranged Weapons doesn't give you an additional property.*

PROPERTY REQUIREMENTS

If a Weapon Property has a requirement, the Weapon must meet that requirement before you can add that Weapon Property to it.

MELEE WEAPON PROPERTIES

These Weapon Properties are available to Melee Weapons.

- **(1) Concealable:** Drawing the Weapon doesn't provoke Opportunity Attacks. If you draw the Weapon as part of an Attack, you have ADV on the Attack. You can only gain this benefit once against each creature per Combat.
- **(1) Guard:** You gain +1 PD while wielding the Weapon.
- **(2) Heavy:** (Requires: Two-Handed Property) The Weapon's damage increases by 1.
- **(1) Impact:** You deal +1 damage on Heavy Hits.
- **(1) Multi-Faceted:** The Weapon gains a second Weapon Style. When you make an Attack with the Weapon, you can use both Weapon Enhancements and choose which of the Weapon Style damage types it deals.
- **(1) Reach:** This Weapon adds 1 Space to your Melee Range when you Attack with it.
- **(1) Returning:** (Requires: Toss or Thrown Property) When you Miss a Ranged Attack with the Weapon, it returns to your hand.

DC Tip: *When this weapon Hits, it falls to the ground.*

- **(1) Silent:** Ranged Attacks made using the Weapon while you are Hidden don't reveal your position to the creatures you're Hidden from.
- **(1) Toss:** You can throw the Weapon to make a Ranged Martial Attack (5/10). If you throw it further than this range (see ["Throwing" on page 161](#)) it's considered an Improvised Weapon.

DC Tip: *This uses the Ranged Martial Attack rules where you make a normal attack up to 5 spaces and a DisADV attack up to 10 spaces.*

- **(2) Thrown:** You can throw the Weapon to make a Ranged Martial Attack (10/20). If you throw it further than this range (see ["Throwing" on page 161](#)) it's considered an Improvised Weapon.
- **(-1) Two-Handed:** The Weapon requires 2 hands when you Attack with it. Cannot be taken with the Versatile Property.
- **(-1) Unwieldy:** You have DisADV on Attacks made with the weapon against targets within 1 Space of you.
- **(1) Versatile:** This Weapon can be wielded with 1 or 2 hands. When you wield the weapon with 2 hands, you gain a +2 bonus to Hit with it. Can't be taken with the Two-Handed Property.

RANGED WEAPON PROPERTIES

These Weapon Properties are available to Ranged Weapons. Additionally, you can spend 1 Property to remove the Two-Handed Property.

- **(2) Heavy:** (Requires: Two-Handed Property) The Weapon's damage increases by 1.
- **(1) Deft:** Ranged Attacks with this Weapon don't have DisADV as a result of you being Prone.
- **(1) Impact:** The Weapon deals +1 damage on Heavy Hits.
- **(1) Long-Ranged:** The Weapon's Range increases to 30/90.
- **(-1) Cumbersome:** It takes 1 AP to draw, stow, or pick up this Weapon.
- **(1) Multi-Faceted:** The Weapon gains a second Weapon Style. When you make an Attack with the Weapon, you can use both Weapon Enhancements and choose which of the Weapon Style damage types it deals.
- **(-1) Reload:** The Weapon's damage increases by 1, but you must spend 1 AP or 1 SP and use a free hand to reload the Weapon. If the Weapon stops being held, it must be loaded again.

DC Tip: *If you want to run a misfire mechanic, any loaded Weapons are at risk of misfiring while stowed.*

- **(1) Silent:** When you made a Ranged Attack with the Weapon while Hidden, you remain Unheard by creatures you're Hidden from.

RESKINNING WEAPONS

Ultimately the Style and Properties of a Weapon you create are purely mechanical. With approval from your GM you can re-flavor the weapon to look like anything you want. You could make a Weapon that looks like a Sword but uses the Axe Weapon Style. You could also use an Axe Weapon Style on a Ranged Weapon.

DC Tip: *The visual look of a weapon is just flavor. All similar-looking weapons don't have to function the exact same. Maybe your sword has a serrated edge and that's why you chose the Axe Style.*

SPELL FOCUSES

You must be holding a Spell Focus in a hand to benefit from its Properties. Holding a Spell Focus counts as performing Somatic Components but is still considered noticeably casting a Spell.

SPELL FOCUS PROPERTIES

Spell Focuses have certain properties that grant them different benefits or drawbacks.

- **Channeling:** You gain a +1 bonus to Spell Checks.
- **Close Quarters:** Your Ranged Spell Attacks don't have DisADV if you're within the Melee Range of enemies.
- **Long-Ranged:** Spells you cast with a Range greater than 1 have their range increase by 5 Spaces.
- **Muffled:** Your Verbal Components can only be heard within 5 Spaces of you.
- **Powerful:** Your Spell Attacks deal +1 damage to all targets.
- **Protective:** Your AD increases by 1.
- **Reach:** Spells you cast with a Range of 1 have their range increase by 1 Space.
- **Reactive:** When you are the Challenger or a Participant helping the Challenger in a Spell Duel, they gain ADV on their Check to stop the Spell.
- **Two-Handed:** The Spell Focus requires 2 hands to benefit from its properties.
- **Vicious:** You gain a +1 bonus to hit with Spell Attacks.
- **Warded:** You have MDR.

LACKING SPELL FOCUS TRAINING

While wielding a Spell Focus you lack Training with, you do not benefit from its properties.

SPELL FOCUS EXAMPLES

TYPE	PROPERTIES
One-Handed	
Orb	Channeling
Ceremonial Dagger	Close Quarters
Crystal	Vicious
Totem	Protective
Holy Medallion, Relic	Warded
Wand	Long-Ranged
Rod	Reach
Poppet	Muffled
Ritual Bell	Reactive
Two-Handed	
Mage Staff, Twin Crystals	Powerful, Two-Handed
Grimoire, Tarot Deck	Channeling, Vicious, Two-Handed
Censer	Protective, Warded, Two-Handed
Magical Instrument	Long-Ranged, Reactive, Two-Handed

CUSTOMIZED FOCUSES

When you pick a Spell Focus during Character Creation (or craft one later), you can grant it 1 point worth of Focus Properties. You can't grant a Focus the same Property more than once.

PROPERTY REQUIREMENTS

If a Spell Focus Property has a requirement, the Focus must meet that requirement before you can add that Property to it.

SPELL FOCUS PROPERTIES

Spell Focuses have certain properties that grant them different benefits or drawbacks.

- **(1) Channeling:** You gain a +1 bonus to Spell Checks.
- **(1) Close Quarters:** Your Ranged Spell Attacks don't have DisADV if you're within the Melee Range of enemies.
- **(1) Long-Ranged:** Spells you cast with a Range greater than 1 have their range increase by 5 Spaces.
- **(1) Muffled:** Verbal Components of Spells you cast can only be heard within 5 Spaces of you.
- **(2) Powerful:** Your Spell Attacks deal +1 damage to all targets.
- **(1) Protective:** Your AD increases by 1.
- **(1) Reach:** Spells you cast with a Range of 1 have their range increase by 1 Space.
- **(1) Reactive:** When you are the Challenger or a Participant helping the Challenger in a Spell Duel, they gain ADV on their Check to stop the Spell.
- **(-1) Two-Handed:** The Spell Focus requires 2 hands to benefit from its properties.
- **(1) Vicious:** You gain a +1 bonus to hit with Spell Attacks.
- **(1) Warded:** You have MDR.

RESKINNING SPELL FOCUS

Ultimately the Properties of a Spell Focus you create are purely mechanical. With approval from your GM you can re-flavor the Focus to look like anything you want. You could make a Focus that looks like a Wand but has the Warded Property. You can flavor your Two-Handed Spell Focus as two different Spell Focuses in both your hands that work together to create the same effect. The visual look of a Spell Focus is just flavor. All similar-looking Focus don't have to function the exact same.

DC Tip: If you have a Two-Handed Spell Focus and re-flavor it as being 2 different Focuses that work in tandem, you do not gain its benefits unless both of your hands are holding the Spell Focuses.

ARMOR

Wearing Armor can improve your Defense and provide Damage Reduction. Creatures that aren't wearing Armor are considered **Unarmored**.

ARMOR TYPE

There are 2 types of Armor : **Light Armor** and **Heavy Armor**.

LIGHT ARMOR

Light Armor is a type of protection worn by most creatures to protect them from injury. Leather coats, padded jackets, and heavy robes are types of Light Armor.

Non-Metal Armor: Light Armor can be described to be made of many things but is not made of enough metal to be considered Metal Armor for the purpose of game mechanics (Features, Spells, Weapon effects, etc.) unless otherwise stated.

HEAVY ARMOR

Heavy Armor is designed with greater attention in protecting the wearer in traditional warfare, requiring extensive combat training to use most effectively. Lamellar, laminar, and plate armor are types of Heavy Armor.

Metal Armor: All Heavy Armor is considered to be Metal Armor for the purpose of game mechanics (Features, Spells, Weapon effects, etc.) unless otherwise stated.

Impactful Unarmed Strikes: Your Unarmed Strikes deal +1 damage on a Heavy Hits while wearing Heavy Armor.

WEARING ARMOR

It takes 1 minute to don or doff Light Armor, or 10 minutes to do the same with Heavy Armor. You gain the benefits of Armor while wearing it.

LACKING ARMOR TRAINING

While wearing Armor that you lack Training in, you have DisADV on Attack Checks and Spell Checks.

DAMAGE REDUCTION

Some types of Armor grant Physical or Elemental Damage Reduction (see ["Damage Reduction" on page 38](#) for more information).

ARMOR EXAMPLES

TYPE	PD	AD	PDR	SPEED	AGILITY CHECKS
Light Armor					
Defensive	1	1			
Deflecting	2				
Fortified		2			
Heavy Armor					
Defensive	1	1	Half	-1	DisADV
Deflecting	2		Half	-1	DisADV
Fortified		2	Half	-1	DisADV
Highly Defensive	2	2		-1	DisADV

CUSTOMIZED ARMOR

When you pick your Armor during Character Creation (or craft one later), you choose for it to be Light or Heavy Armor and can grant it 2 points worth of Armor Properties available to that Armor type. You can't grant Armor the same Property more than once, unless otherwise stated.

LIGHT ARMOR PROPERTIES

These Armor Properties are available to Light Armor.

- **(1) PD Increase:** The Armor's PD Bonus increases by 1. You can take this Property twice.
- **(1) AD Increase:** The Armor's AD Bonus increases by 1. You can take this Property twice.
- **(2) EDR:** The Armor grants Elemental Damage Reduction.

HEAVY ARMOR PROPERTIES

These Armor Properties are available to Heavy Armor.

- **(1) PD Increase:** The Armor's PD Bonus increases by 1. You can take this Property twice.
- **(1) AD Increase:** The Armor's AD Bonus increases by 1. You can take this Property twice.
- **(2) PDR:** The Armor grants Physical Damage Reduction.
- **(2) EDR:** The Armor grants Elemental Damage Reduction.
- **(-1) Bulky:** Your Speed is reduced by 1.
- **(-1) Rigid:** You have DisADV on Agility Checks.

SHIELDS

SHIELD TYPE

There are 2 types of Shields: **Light Shields** and **Heavy Shields**.

LIGHT SHIELDS

Light Shields are simple and easy to wield. A Buckler is a type of Light Shield.

HEAVY SHIELDS

Heavy Shields are designed for warfare. A Tower Shield is a type of Heavy Shield.

WIELDING A SHIELD

You can spend **1 AP** to equip or stow a Shield. A Shield occupies the hand that's wielding it. You gain the benefits of a Shield while wielding it.

LACKING SHIELD TRAINING

While wielding a Shield that you lack Training in, you have DisADV on Attack Checks and Spell Checks.

ATTACKING WITH SHIELDS

You can make a Melee Martial Attack with a Shield you have Training in, dealing **1 Bludgeoning** damage on a Hit.

Throwing Shields: When you throw a Shield that lacks the Toss Property, the Shield is considered an **Improvised Weapon** for the purposes of the Attack. See **Throwing Weapons** for more information.

WIELDING TWO SHIELDS

While wielding multiple Shields, you are subjected to the following:

- You only gain the bonuses of one Shield at a time (your choice). You can spend a Minor Action to change which wielded Shield to benefit from.
- You are immune to **Flanking**.

SHIELD PROPERTIES

Shields have certain properties that grant them different benefits.

- **Grasp:** The Shield is considered to be a free hand when Grappling, Reloading a Weapon, or Attacking with **Versatile** Weapon.
- **Mounted:** The Shield's Bonus also applies to your Mount's Defense.
- **Toss:** You can throw the Shield to make a Ranged Martial Attack (5/10). If you throw it further than this range (see [“Throwing Melee Weapons” on page 161](#)) it's considered an Improvised Weapon.

SHIELD TABLE

TYPE	PD	AD	SPEED	AGILITY CHECKS	PROPERTIES
Light Shields					
Buckler	1				Grasp
Round Shield		1			Toss
Heater Shield	1	1			
Heavy Shields					
Kite Shield	1	2	-1	DisADV	Mounted
Tower Shield	2	2	-1	DisADV	

CUSTOMIZED SHIELDS

When you pick your Shield during Character Creation (or craft one later), you choose for it to be a Light or Heavy Shield and can grant it 2 points worth of Shield Properties available to that Shield type. You can't grant a Shield the same Property more than once, unless otherwise stated.

LIGHT SHIELD PROPERTIES

These Shield Properties are available to Light Shields.

- **(1) PD Increase:** The Shield's PD Bonus increases by 1.
- **(1) AD Increase:** The Shield's AD Bonus increases by 1.
- **(1) Grasp:** The Shield is considered to be a free hand when Grappling, Reloading a Weapon, or Attacking with **Versatile** Weapon.
- **(1) Toss:** You can throw the Shield to make a Ranged Martial Attack (5/10). If you throw it further than this range (see Throwing Rules) it's considered an Improvised Weapon.

HEAVY SHIELD PROPERTIES

These Shield Properties are available to Heavy Shields.

- **(1) PD Increase:** The Shield's PD Bonus increases by 1. You can take this Property twice.
- **(1) AD Increase:** The Shield's AD Bonus increases by 1. You can take this Property twice.
- **(1) Mounted:** The Shield's PD and AD Bonuses also apply to your Mount's Defenses.
- **(2) PDR:** The Shields grants Physical Damage Reduction.
- **(2) EDR:** The Shield grants Elemental Damage Reduction.
- **(-1) Bulky:** Your Speed is reduced by 1.
- **(-1) Rigid:** You have DisADV on Agility Checks.

ADVENTURING SUPPLIES

GAUNTLET

You can purchase Gauntlets from a Blacksmith (or they come automatically with Heavy Armor). Wearing a Gauntlet gives your Unarmed Strikes with that hand the Impact Weapon Property (+1 damage on Heavy Hits).

Beta Note: Prices are not set for things like Gauntlets, so a simple 5g should be a good price for now.

HEALING POTIONS

Healing Potions are crafted to magically heal wounds when consumed. These are small (usually red) vials of liquid that are small doses but potent in healing.

HEALING POTION LEVELS

Healing Potions have levels to them that increase in potency and cost.

HEALING POTION LEVEL TABLE

LEVEL	HEALING	PRICE
X	2 x Level in HP	
1st	2 HP	10
2nd	4 HP	25
3rd	6 HP	40
4th	8 HP	60
5th	10 HP	100

MEDICINE KIT

A Medicine Kit can take many forms based on your PC's theme or expression and is full of supplies and tools such as ointments, tinctures, bandages, and other medicinal reagents.

Uses: A fully stocked kit contains 5 uses.

Using A Kit: You can take the Object Action and spend 1 use of this kit to treat the wounds of a creature within 1 Space, or cure a Poison affecting it.

TREATING A WOUND

You treat a creature's wounds. Make a **DC 10** Medicine Check. **Success:** Target regains 1 HP. **Success (each 5):** Target regains +1 HP.

Limited Healing: Healing from this kit can't restore a creature's HP above its Bloodied threshold.

TREATING A POISON OR DISEASE

You treat one Basic Poison or Disease afflicting the target. Make a **Medicine** Check against the DC of the effect. **Success:** Target is cured of that Poison or Disease and no longer suffers its effect. **Success (each 5):** The creature regains +1 HP.

Advanced Poisons: You can treat one Advanced Poison instead, provided you have its unique additive. One use of that additive is lost every time you attempt to do so.

Beta Note: Diseases are still a work in progress. If they're included in adventures or monsters at a later date, these rules will suffice for treating them as if they were poisons, or those materials will detail how a PC could treat presented Diseases.

RESUPPLYING A MEDICINE KIT

Buying Supplies: The various supplies contained within this kit can be found in most towns and climates. Enough supplies for 1 use can be bought for 5 gold at a general store.

Gathering Supplies: You can scavenge from an appropriate climate (GM's discretion) with a **DC 15** Survival Check. **Success:** The kit regains 1 use. **Success (each 5):** +1 use.

NET

You can throw the Net. Make a Martial Check contested by the target's Physical Save. The Net has no effect on creatures that are formless, smaller than Small, or larger than Large. **Save Failure:** The target is **Immobilized** by the Net until it's freed. **Save Failure (5):** The target is also **Restrained** until it's freed. Forced movement doesn't free the target, but teleportation does. A creature can spend 1 AP to make a **DC 10** Athletics or Acrobatics Check. **Success:** It can free itself or another creature within its reach.

DC Tip: A Medium sized creature can spend 1 AP to throw a Net up to a number of Spaces away equal to twice their Might (a Small sized creature can throw it half as far). For the purposes of throwing, your minimum Might is 1. The total distance thrown is halved if thrown vertically. See ["Throwing" on page 161](#) for more information.

CONDITIONS

CONDITIONS LIST

BLEEDING X

You take **X** True damage at the start of each of your turns.

Ending Bleeding: All stacks of the Condition end when you're subjected to an effect that restores your HP. Alternatively, a creature can attempt to remove 1 or more stacks of the Condition by taking the Medicine Action.

Medicine (Action)

You can spend **1 AP** to touch a creature and tend to its wounds. Make a **DC 10** Medicine Check. **Success (each 5):** You end 1 stack of **Bleeding** on the target.

BLINDED

You are subjected to the following effects:

- You can't see (see ["Unseen" on page 163](#) for more information).
- All terrain is considered Difficult Terrain for you unless you're guided by another creature.

BURNING X

You take **X** Fire damage at the start of each of your turns.

Ending Burning: All stacks of the Condition end when you're doused by at least 1 gallon (4 liters) of water or fully immersed in water. Alternatively, a creature within 1 Space can spend **1 AP** to remove 1 stack of the Condition.

CHARMED

You are subjected to the following effects:

- Your Charmer has ADV on Charisma Checks made against you.
- You can't target your Charmer with harmful Attacks or effects.

DAZED X

You have DisADV **X** on Mental Checks.

DEAFENED

You are subjected to the following effects:

- You can't hear (see the **Unheard** section for more information).

DISORIENTED X

You have DisADV **X** on Mental Saves.

DOOMED X

You are subjected to the following effects:

- Your current and maximum HP is reduced by the value of **X**.
- When an effect restores your HP, you regain **X** less HP than normal.

Ending Doomed: All stacks of the Condition end when you complete a Long Rest.

EXHAUSTION X

You are subjected to the following effects:

- You gain a penalty equal to **X** on all Checks and Saves you make.
- Your Speed and Save DC is reduced by **X**.

Death: You immediately die if you reach 6 stacks of **Exhaustion**.

Example: If you have **Exhaustion 3**, then you would have a **-3** penalty on Checks and Saves, your Speed would be reduced by 3 Spaces, and your Save DC would be reduced by 3.

EXPOSED X

Attacks against you have ADV **X**.

FRIGHTENED

You are subjected to the following effects:

- You can't willingly move closer to the source.
- You have DisADV on all Checks made against the source.

HINDERED X

You have DisADV **X** on Attacks.

IMMOBILIZED

You can't move and you have DisADV on Agility Saves.

IMPAIRED X

You have DisADV **X** on Physical Checks.

INCAPACITATED

You are subjected to the following effects:

- You can't move or speak.
- You can't spend Actions Points or use Minor Actions.

INTIMIDATED

You have DisADV on all Checks made against the source.

INVISIBLE

Creatures can't see you unless they have the ability to see the Invisible (see ["Unseen" on page 163](#) for more information).

PARALYZED

You are subjected to the following effects:

- You're **Incapacitated**.
- You automatically fail Physical Saves (except against Poisons and Diseases).
- Attacks against you have ADV.
- Attacks made within 1 Space are considered Critical Hits.

PETRIFIED

You and your mundane belongings are turned into a inanimate substance (often stone). While **Petrified**, you count as both an object and a creature, and you're subjected to the following effects:

- You're not aware of your surroundings.
- You're 10 times heavier than normal.
- You're **Incapacitated**.
- You automatically fail Physical Saves.
- Attacks against you have ADV.
- You gain Bludgeoning Vulnerability (Double) and Resistance (Half) to all other damage.
- Curses, Diseases, Poisons, or Conditions afflicting you are suspended (unless it imposed the Petrified Condition), and you're immune to gaining new ones.

RESTRAINED

You are subjected to the following effects:

- You're **Immobilized**.
- Your Attacks have DisADV.
- Attacks against you have ADV.

SLOWED X

Every 1 Space you move costs an extra X Spaces of movement.

STUNNED X

Your current and maximum AP is reduced by X. While you're **Stunned** 4 or higher, you are subjected to the following effects:

- You're **Incapacitated**.
- Attacks against you have ADV.
- You automatically fail Physical Saves (except against Poisons and Diseases).

SURPRISED

Your current and maximum AP is reduced by 2.

TAUNTED

You have DisADV on Attacks against targets other than the source.

TERRIFIED

You are subjected to the following effects:

- You must spend your turns trying to move as far away as you can from the source as possible.
- The only Action you can take is the Move Action to try to run away, or the Dodge Action if you are prevented from moving or there's nowhere farther to move.

TETHERED

You are **Tethered** to a creature or Space. While **Tethered**, you can't move farther than the specified Spaces from the location of your Tether.

UNCONSCIOUS

When you become **Unconscious**, you immediately drop whatever you are holding and fall Prone. While **Unconscious**, you're subjected to the following effects:

- You're **Incapacitated**.
- You're not aware of your surroundings.
- You automatically fail Physical Saves (except against Poisons and Diseases).
- Attacks against you have ADV.
- Attacks made within 1 Space are considered Critical Hits.

WEAKENED X

You have DisADV X on Physical Saves.

CONDITION RESISTANCE, IMMUNITY, & VULNERABILITY

Condition Resistance represents a creature's ability to resist being subjected to Conditions, while Condition Vulnerability represents a creature's weakness against them. Where as Immunity prevents a creature from being affected by it at all. The source of a creature's Condition Resistance, Immunity or Vulnerability can be attained from a Class Feature, Ancestry Trait, Magic Item, Spell, etc.

CONDITION RESISTANCE

Condition Resistance: You have ADV on Checks and Saves against the Condition.

Example: If you had **Charmed Resistance**, you would have ADV on Checks or Saves against being **Charmed**.

CONDITION IMMUNITY

Condition Immunity: You can't be subjected to the Condition.

Example: If you had **Frightened Immunity**, you can't be **Frightened**.

CONDITION VULNERABILITY

Condition Vulnerability: You have DisADV on Checks and Saves against the Condition.

Example: If you had **Taunted Vulnerability**, you would have DisADV on Checks or Saves against being **Taunted**.

CONDITION STACKING & OVERLAPPING

Certain Conditions can stack multiple times, increasing the potency of the Condition's effects on the target. Other Conditions overlap, keeping the same potency but becoming more restrictive.

STACKING CONDITIONS

A target can be affected by a Condition with an X value multiple times. If you gain multiple stacks of the same Condition, you add their X values together. If a stacking Condition doesn't include an X value, the value equals 1.

Example: If you were **Exposed** and another effect imposed the **Exposed** Condition on you again, you would become **Exposed 2**, causing Attacks against you to have ADV 2 (roll 3 d20s and take the highest).

Durations: When a creature is subjected to the same Condition multiple times but with different durations, it's important to keep track of the source of each Condition so you know when each Condition ends.

Example: You might be **Exposed** against the next Attack against you, **Exposed** until the end of your next turn, and **Exposed** for 1 minute, all at the same time. These effects stack, but you need to track them independently to make sure you know how "Exposed" you currently are.

OVERLAPPING CONDITIONS

A target can be effected by each of the following Condition multiple times, but the effects of the same Condition don't stack on the target.

CHARMED

A creature can be **Charmed** by more than 1 creature at a time, each of them gaining ADV on Charisma Checks against the target. However, a creature that Charms a target more than once only gains the effects of the **Charmed** Condition once.

Example: A creature doesn't have ADV 2 on Charisma Checks against a target they've **Charmed** twice. They only have ADV 1 on Charisma Checks against the target.

FRIGHTENED

A creature can be **Frightened** by more than 1 creature at a time, suffering DisADV on Checks while any source that **Frightened** it is within its sight and is unable to move toward them. However, a **Frightened** creature only suffers the effects of the **Frightened** Condition once.

Example: A creature doesn't have DisADV 2 on Checks while 2 sources that are **Frightening** it are in sight. They only have DisADV 1 on Checks, regardless of the number of sources in sight.

RESTRAINED

A creature that is **Restrained** by more than 1 creature only suffers the effects of the **Restrained** Condition once. However, a creature **Restrained** by multiple sources will remain **Restrained** until they are free from being **Restrained** by all sources.

TAUNTED

A creature that is **Taunted** by multiple creatures does not have DisADV on their Attacks against creatures that **Taunted** them. They can only move away from any creature that **Taunted** them if they are moving towards another creature that **Taunted** them.

Example: If a Goblin is **Taunted** by a Hunter, then later becomes **Taunted** by a Champion, the Goblin can only move away from the Hunter if they are approaching the Champion and can Attack both normally.

TERRIFIED

A creature can be **Terrified** by more than 1 source at a time.

Example: If a creature is surrounded by multiple sources, they are unable to move and can only take the Dodge Action.

TETHERED

A creature that is **Tethered** by more than 1 effect, must remain within reach of all the specified Tethers.

Example: If a creature is Tethered 5 Spaces by one effect, and then Tethered 5 Spaces by another effect, it can't move farther than 5 Spaces from either Tether.

EXCLUDED CONDITIONS

The following Conditions don't stack or overlap in any way: **Blinded**, **Deafened**, **Immobilized**, **Incapacitated**, **Invisible**, **Paralyzed**, **Petrified**, **Surprised**, and **Unconscious**.

RESTING

This happens during Exploration but are specific moments when PCs stop to rest and recover their resources, spend Rest Points, and perform specific Rest Actions. This could be 10 minutes, 1 hour, or 8 hours depending on the type of Rest being taken. These moments can include roleplay and descriptions of what happens, but they're primarily mechanical in nature.

REST TERMS

Rest Points: You have a number of Rest Points equal to your HP maximum.

No Activity: Sleeping, meditating, or contemplating while idle.

Light Activity: Non-strenuous activity that requires little effort, such as talking, reading, eating, bandaging wounds, light foraging, and standing watch.

Strenuous Activity: Any activity that requires physical exertion, such as traveling, hunting, exercising, training, or casting spells.

Dangerous Activity: Any activity that causes extreme injury or stress, such as engaging in combat with a hostile creature.

TYPES OF REST

QUICK REST

A period of No Activity or Light Activity that is at least 10 minutes long.

Quick Rest Benefits: You can spend 1 or more Rest Points, up to your maximum, at the end of a Quick Rest. When you do, you regain **1 HP** per Rest Point spent.

SHORT REST

A period of No Activity or Light Activity that is at least 1 hour long. You can only gain the benefits of 2 Short Rests per 24 hour period.

Short Rest Benefits: At any point during a Short Rest, you can spend Rest Points to regain HP following the same rules as a Quick Rest. Some Features regain expended uses when you complete a Short Rest (as listed in the Feature's description).

LONG REST

A period of 4 hours of Light Activity and 4 hours of No Activity, taken in either order, for a total of 8 hours of resting. If one of the 4 hour periods is interrupted by any amount of Strenuous Activity or Dangerous Activity, you must begin that 4 hour period again. You can only gain the benefits of 1 Long Rest per 24 hour period.

LONG REST BENEFITS

At any point during a Long Rest, you can spend Rest Points to regain HP following the same rules as a Quick Rest.

Half Long Rest: At the end of the first 4 hour period of the rest, you gain the benefits of a Short Rest and regain all spent Rest Points.

DC Tip: Make sure to spend any unused Rest Points at the beginning of a Long Rest, since you regain all spent Rest Points after the first 4 hours of a Long Rest.

Complete Long Rest: At the end of the second 4 hour period of the rest, you gain the full benefits of completing the Long Rest. Some Features regain expended uses when you complete a Long Rest (as listed in the Feature's description), such as regaining all spent MP.

DC Tip: You might just want to take a Half Long Rest (4 hour rest) if you only need to regain HP.

DOOMED

When you complete a Long Rest, you lose all stacks of the **Doomed** Condition.

EXHAUSTION

For each 4 hour period doing No Activity, you lose 1 stack of **Exhaustion**.

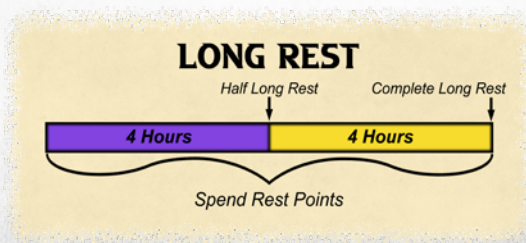

If neither of the 4 hour periods are spent doing No Activity, you must make a **DC 10** Might Save. **Failure:** You gain **Exhaustion 1** and the DC of this Save now increases by 5 until you complete a Full Rest.

FULL REST

A 24 hour or longer period (determined by the GM) that is spent in an area of safety, such as a town, where you can eat well, rest, and recover. If the Full Rest is interrupted by any amount of Dangerous Activity you must begin it again.

Full Rest Benefits: At the end of a Full Rest, you gain the benefits of a Long Rest and lose all levels of **Exhaustion**. Your GM can determine if the Full Rest also grants additional benefits by choosing from the list below (or make up something that makes more sense in the given situation):

- Gain Temp HP equal to your Prime Modifier, your level, or twice your level.
- Gain ADV on a type of Check, Save, or both for a given period of time (1 day, 1 week, etc.).

DCs IN DC20

DIFFICULTY CLASS (DC)

Difficulty Class (DC) is the number that a Game Master sets as the level of difficulty required to be able to succeed in a given situation. Lockpicking a door, climbing a steep mountain, trying to persuade someone to give you something, or even trying to resist a Spell's effect over you all have a DC that needs to be met or exceeded in order to succeed.

You always roll a D20 and add whatever relevant modifiers there are based on what the Game Master asks for. Usually (unless you are attacking something) this is going to be a Check or a Save.

SETTING A DC "BY 5's"

Checks (in general) work on a "by 5's" system. This helps to stay consistent and fair in a GM's ruling of how difficult something is to accomplish. Below is a chart with a quick reference, and examples are listed below that. These are meant to give Game Masters a foundation to use and players a general expectation to understand. If you want to get more specific, you can set any number you want as the DC.

DC Tip: I personally always have Checks be "by 5's", but when it comes to setting a DC for combat related things I use more specific numbers. Things like the DC of a Trap or the DC of sneaking by a particular creature might be something like 12, or 14, or 17.

DC	TASK DIFFICULTY
5	Very Easy
10	Moderate
15	Hard
20	Very Hard
25	Extremely Hard
30	Near Impossible

Most DCs that you'll ask for will either be 10, 15, or 20. Once PCs reach higher levels and start trying to accomplish crazier and crazier things, a DC 25 or even 30 might come up.

- **DC 5:** This is a Very Easy DC that probably shouldn't even be asked for and would be easily accomplished by just about anyone, regardless of training. I usually don't ask for a Check if the DC would be 5.
- **DC 10:** This is a Moderate DC that should be doable, especially if you're skilled at the task. Checks that are simple but still have a small chance of failure are a DC 10 for me.
- **DC 15:** This is a Hard DC to hit for those who aren't skilled in this task. If a PC has a decent modifier of a +5 in a Skill, they would have around a 50% chance of success on this. This is my go to DC for when I really don't know if someone can do it or not and is one step beyond the "moderate" DC of 10.
- **DC 20:** This is a Very Hard DC to hit unless you have training in this Skill. Even PCs with a +10 modifier would hit a DC 20 about 50% of the time. This DC represents something of great worth and something that would be Very Hard.
- **DC 25:** This is an Extremely Hard DC to hit. Even if the PC has a +5 in their Skill, they would still need a Nat 20 to just succeed on this DC. I reserve this for things that would be next to impossible at early levels of play, and would only be possible if the character that was attempting to hit this DC both had a good modifier to the roll and rolled well.
- **DC 30:** This is a Near Impossible DC to hit. It takes a lot for a character to get a +10 in a skill, and even if they did have a +10 they'd still need a Nat 20 to hit this. Reserve this DC for those Checks that are possible for the PC to accomplish, but it'd have to be a "miracle" for it to happen (see Nat 20 and Nat 1 section below for more tips on when to ask for rolls).

DC Tip: The best way I can describe it is this. If I have a little bit of doubt that a PC could do it, the DC is 10. If there is a decent amount of doubt that they could accomplish this, then the DC is 15. If I am very doubtful that the PC could accomplish this, the DC is 20 and they better roll really high!

GREAT SUCCESS AND FAILURE

With 5 point increments you can dial things up or down based on if they beat the Check by 5 or fail the Check by 5. If the DC for climbing a castle wall is 15, a 15 would exactly succeed, but if they beat it by 5 and got a 20 or higher, maybe something cool happens like the guard at the top doesn't see them at all and they have a moment of surprise! On the other hand, if they got a 10 or lower on that same check (failing it by 5), maybe as they're climbing the wall they take too long and the guards spot them!

This "by 5's" system also connects to the core of DC20's Combat system. In Combat, when you roll 5 over the target's AC you deal more damage than you would normally, so this can also be true for Skill Checks.

Example: Here is a general outline for what each possible scenario might look like in a given situation. This example is for a DC of 20:

14 = Failure

15 = Partial Success with a setback (they got close but didn't hit the DC)

20 = Success

25 = Major Success (you get some additional benefit)

DC Tip: You can also do the same for Checks that succeed or fail by 10 or more! I try not to make this be too game altering or punishing, but it's nice to add some flavor to those extreme rolls.

COMPLICATIONS

Going "by 5's" is also simple when it comes to figuring out complications to a situation. Let's say there's a scenario where a PC is trying to walk across a simple rickety wooden bridge, the DC for this could be 10 (depending on how rickety it is). Now let's say it started to rain, or a strong breeze picked up, so you can just dial the DC up by one "notch" to a DC 15! Simple! Then, if you want to add in that the PC is being chased by bandits and needs to hurry across as arrows and people chase them, now it's a DC 20!

It's very simple to step the DC up or down depending on extra things that happen around the situation at hand.

ADVANTAGES AND DISADVANTAGES

For things that happen in the world, I adjust the DC up or down by 5, or even get it to a specific number as previously stated. However, when the PCs describe something they do, Game Masters can award Advantage (ADV) or Disadvantage (DisADV) to their roll based on their actions. If they're talking to a city guard and let it slip that they stole something, the GM can give them DisADV on their Check. If a PC comes up with a clever way to use an item or lever to lift something heavy, the GM could give them ADV on their Check.

DC Tip: Don't be afraid to award ADV and DisADV for players' interactions with the world. This lets them know if they're "on the right track" with their thinking or not.

FAILING FORWARD

When someone fails a Check of some kind, it doesn't always mean they literally didn't do what they were trying to. If someone tries to break open a door and they fail the Might Check for it, that doesn't have to mean that the door didn't break. It could break but make such a loud noise that the guards are alerted, or maybe they're unlucky and there's a guard directly on the other side of the door. You could even have them smashing the door in this way lower the DC for the next person to attempt something.

It can feel really bad and take forever if you gate progress of the story behind needing to hit certain numbers. This can bring the game to a screeching halt, so instead, let them fail forward. Let each moment move the story forward in an interesting way.

GAME MASTER GUIDE

VARIABLE ATTRIBUTE SKILL CHECKS

Each Skill has a Base Attribute that is its “home” on the Character Sheet. This is the default Attribute you would add to each Skill unless the GM calls for something else. In most scenarios, you will find yourself using the Skill’s Base Attribute.

Example: When your GM tells you to make an Athletics Check, that’ll most likely be based off your Might Attribute. When your GM tells you to make an Influence Check, that’ll most likely be based off your Charisma Attribute.

This keeps the game moving quickly and avoids confusion on which Attribute you add to a given Check. If you’re interested in a more customizable and creative approach to Skills, then here is how the “Variable Attribute Rule” works.

VARIABLE ATTRIBUTE RULE

Which Attribute you use for a given Skill Check depends on how you’re using the Skill. This is a much more open approach to Skill Checks, and can be used to create any possible Check.

DC Tip: Players can get creative with alternative Attributes for Checks, but the GM always retains the authority to decide which Check the player will make.

Determining the default Check can be straightforward, but what if the PC wants to use a different Attribute or Skill with the Check or the GM wants to make the Check more precisely match the actions of the PC? This is where the Variable Attribute Rule comes in. There are 2 things to determine when making a Variable Skill Check:

Determine The Skill: Which skill is the PC trying to use in this moment? Based on what they’re trying to accomplish, the Skill being used is usually pretty obvious.

Determine The Attribute: Which attribute are they using to accomplish this task? How are they using their Skill? Are they using Might, Agility, Intelligence, or Charisma to make this Check? There are many ways to approach the actions a PC might take during gameplay. See the examples below.

DC Tip: The GM should ideally choose a Variable Check that is well suited for the PC. If the Variable Check is worse off for the PC, they can always just choose to use the “default” Skill Check instead.

VARIABLE CHECK EXAMPLES

Here are some examples of Variable Attributes being applied to scenarios for some great Skill Check results. I challenge you to think of how you could combine each of the 4 Attributes to each of the 13 General Skills. The format

for describing these Checks is “Skill (Attribute) Check” with the Skill being the first word and the Attribute being used inside of the parentheses.

Animal (Might) Check: A PC is wrestling a wild boar.

- Yes, this could be an Athletics (Might) Check, and maybe for most characters, that’s what it would be. However, if you have a unique character that has a really high Animal Skill, it might make more sense for them to use that expertise with animals to their advantage.
- Alternatively, when you try to quickly grab an Animal you could make an Animal (Agility) Check.

Trickery (Charisma) Check: A PC is trying to impersonate the speech or accent of another NPC to trick someone into thinking they’re someone else.

- Yes, this could be an Influence (Charisma) Check, because they’re talking to another NPC to convince them of something, but if a character has put a lot of points into Trickery, it makes sense for this “sly” character to be able to impersonate people better than most.
- If they were trying to devise a cunning plan to sneak into a location and infiltrate it, they could make a Trickery (Intelligence) Check instead.

Medicine (Agility) Check: A character is trying to carefully remove metal shards from an ally.

- Yes, I know Medicine’s “home” is Intelligence, and I would usually have Medicine Checks be used to see if you know something about things having to do with medicine. This, though, is a careful application of your medical knowledge needing the use of agile hand movements. I could even see someone using a Medicine (Might) Check to perform CPR or to jam a dislocated shoulder back into place.

Intimidation (Intelligence) Check: A character is trying to convince an NPC not to go into the dangerous forests, so they start listing off a bunch of scary facts about how terrifying a beast that lives in this forest is.

- Intimidation can easily be any of the 4 Base Attributes. Breaking something in half would be Might. Throwing a dagger right next to someone’s head barely missing them would be Agility. Trying to manipulate a creature’s actions using a social threat, extortion, or blackmail, could be an Intimidation (Charisma) Check. If your threat involves knowledge of key information or about the target specifically, you could make an Intimidation (Intelligence) Check.

Insight (Intelligence) Check: A PC is trying to figure something out based on past experiences. You can think of this as a PC’s intuition.

CHAPTER 4

CHARACTER CREATION RULES

10 STEP CHARACTER CREATION OUTLINE

During Player Character Creation you will get to customize your PC in the following ways at Level 1:

- Choose Starting Attributes
- Choose Background (Skills, Trades, and Languages)
- Choose an Ancestry and Class

PLAYER CHARACTER CREATION

STEP 1: ATTRIBUTES & PRIME MODIFIER

You get your PC Attributes from one of the following methods and then assign the values to each of the 4 Attributes.

STANDARD ARRAY

You start with an array of 3, 1, 0, -2 and assign each value to an Attribute of your choice. You then gain 2 additional Attribute Points to increase whichever Attributes you want, up to the Attribute Limit (3).

POINT BUY

You start with a -2 in all of your Attributes. You then gain 12 Attribute Points to increase whichever Attributes you want, up to the Attribute Limit (3).

DC Tip: Your Prime Modifier (see later in this chapter) comes from your highest Attribute, so it's a good idea to make sure that you get a 3 in at least one of your Attributes.

ROLL METHOD

You determine your starting values by rolling 1d6-3 four times, and then assign each value to an Attribute of your choice. You then gain +2 Attribute Points to increase whichever Attributes you want, up to the Attribute Limit (3).

Prime Modifier Insurance: If the value of your highest Attribute is less than 3 (even after adding the +2 Attribute Points), you can reduce a different Attribute value by 1 or more to increase your highest Attribute by the same amount. You can't reduce an Attribute value below -2 or increase an Attribute above your Attribute Limit (3).

DC Tip: This method of determining your starting Attributes is the most risky. It offers the potential for the highest starting Attributes, but also the lowest. If you add all your Attributes together, their sum should be 2 (on average). If you get less than this, then talk to your GM about potentially rerolling your Attributes (or using a different method).

PRIME MODIFIER

Your Prime Modifier is equal to your PC's highest Attribute.

DC Tip: You really want a PC to have a 3 in one of their Attributes so they can have a 3 for their Prime Modifier at level 1. Your Prime Modifier is added to a lot of the things you do in Combat and is very important.

STEP 2: SAVE MASTERIES

You add your Attribute bonus and your Combat Mastery together. The result is your Save bonus for each Attribute.

STEP 3: BACKGROUND (SKILLS, TRADES, & LANGUAGES)

This represents how you were raised, what type of culture you were around, and what you have done since birth. You gain "Traits" from your Background at 1st level that grant you some flavorful or mechanical benefits.

Each Background gives 5 Skill Points, 3 Trade Points, and 2 Language Points. You can't go over the Mastery Limit of Novice unless you have a Feature that allows you to do so.

Beta Note: The only piece "missing" from Background is a "Background Trait". This will be something that's 100% FLAVOR based and only enhances roleplay.

SKILLS

Your Background gives you 5 Skill Points, but you also increase or decrease your Skill Points based on your Intelligence Attribute.

STARTING SKILL POINTS = 5 + INTELLIGENCE (YES, YOU DO SUBTRACT IF YOUR INTELLIGENCE IS NEGATIVE).

TRADES

Your Background gives you 3 Trade Points. You can convert 1 Skill Point into 2 Trade points, but not the other way around.

LANGUAGES

Your Background gives you Fluency in the Common Language and 2 Language Points that you can spend on any Language of your choice. Additionally, you can convert 1 Trade Point into 2 Language Points.

BACKGROUND STARTING

EQUIPMENT

Coming Soon. You get a list of starting equipment based on your Background. You could instead choose to receive a flat amount of gold or even roll for your gold.

STEP 4: HEALTH POINTS

Fill in your Character's HP. You may potentially add more if you choose an Ancestry or Class that grants bonus HP at Level 1.

STARTING HP FORMULA: CLASS HP + MIGHT + ANCESTRY HP
(IF ANY)

Example: A PC picks the Champion Class at Level 1 and starts with a Might of 3 (the highest possible at Level 1). The Champion Class grants a base of **9 HP**. The PC then adds **+3 HP** from their Might to get a total of **12 HP** (9 + 3). If any of their Ancestry Traits increase or decrease their HP, they would add those to the total to determine their starting HP.

STEP 5: STAMINA & MANA POINTS

Fill in your Character's SP and MP. Martial Characters have 2 Stamina Points (SP), Spellcasters have 6 Mana Points (MP), and Hybrid Characters (such as a Spellblade) have 1 Stamina Point (SP) and 3 Mana Points (MP).

STEP 6: DEFENSE

Fill in your Character's Precision and Area Defense.

PRECISION DEFENSE

PD = 8 + CM + AGILITY + INTELLIGENCE + BONUSES

AREA DEFENSE

AD = 8 + CM + MIGHT + CHARISMA + BONUSES

DAMAGE REDUCTION

Fill in each section's Damage Reduction.

Physical Damage Reduction: This only applies if you're wearing some types of Heavy Armor or Heavy Shields (or have some other feature that grants PDR).

Elemental Damage Reduction: This only applies if you're wearing some types of Heavy Armor or Heavy Shields (or have some other feature that grants EDR).

Mystical Damage Reduction: This most likely doesn't apply to your character (unless you have a feature that grants it).

STEP 7: COMBAT MODIFIERS

Fill out the rest of the blanks on your Character Sheet.

Attack Check: +4

Save DC: 14

Martial / Spell Check: +4

Death Threshold: -4

Move Speed: 5

Jump Distance: Equals your Agility (minimum of 1)

Rest Points: Equal to your HP maximum

Grit Points: 2 + Charisma

STEP 8: ANCESTRY

Choose an Ancestry. This represents your biology and how you've grown and developed since birth. You gain Ancestry Traits from your chosen Ancestry at 1st, 4th, and 8th level.

DC Tip: *There are many different ways to create Ancestries (both visually and mechanically). Make sure to collaborate where needed with your GM.*

ANCESTRY TRAITS

You choose 1 or 2 Ancestries to gain access to. You also get 5 Ancestry points that you can use to spend on Ancestry Traits (see [“Ancestry System” on page 194](#) for more).

DC Tip: *Some of these Traits might affect things you've already added to your Character Sheet (such as HP, Speed, etc.).*

STEP 9: CLASS

Choose a Class. This represents how well trained you are in martial combat, spellcasting, or both. You gain Class Features at Level 1, 2, 5, and 9.

All Classes get to choose a Subclass at 3rd Level, then gain additional Subclass Features at Level 7 and Level 10. Keep this in mind when creating your character, so that the flavor, backstory, and mechanics can blend well together when you get to Level 3.

Example: *If you know you're going to choose a Draconic Sorcerer, you should probably flavor some of your PC's appearance or how they cast their magic as such.*

DC Tip: *If you don't know what you're going to select yet, that's fine too! I just recommend thinking about it.*

CLASS FEATURES

You gain a number of Class Features at Level 1 based on which Class you chose (see [“Classes” on page 207](#) for more)

Class HP: All Classes have a Health Points column in their Class Table. Martials get +1 bonus Max HP every Level and Spellcasters don't get any bonus HP. Rogues and Spellblades get +1 bonus Max HP every other Level.

Spells & Maneuvers Known: Check your Class Table to see if you have any of these to pick.

Skill Points: If your background already gave you one or more of these Skills, you can replace those Skills from this list with any Skill of your choice.

STEP 10: WEAPONS & INVENTORY

Choose what starting equipment you want. You gain some from your Class and the rest from your Background.

Beta Note: *Currently, this only includes Weapons and Armor. Starting Equipment will be added in a future update. I personally let my PCs choose from a list of general adventuring supplies and we go from there.*

FURTHER PLAYER CHARACTER PROGRESSION

Characters get stronger as they increases in Level. This chart shows what you get at each Level for all Classes.

DC Tip: This table is a general representation of what the “standard” is for all classes, but make sure to check your Class specifically just in case.

PLAYER CHARACTER PROGRESSION TABLE

CHAR LEVEL	COMBAT MASTERY	ATTRIBUTE CAP	SKILL MASTERY LEVEL CAP	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	FEATURES, TALENTS, & TRAITS
1	1	3	Novice (1)				Class Features
2	1						Class Features, Talent, Path Progression
3	2			+1	+1	+1	Subclass Features
4	2						Talent, 2 Ancestry Points, Path Progression
5	3	4	Adept (2)	+1	+2	+1	Class Features
6	3				+1		Talents, Path Progression
7	4						Subclass Expert Feature
8	4			+1	+1	+1	Talent, 2 Ancestry Points, Path Progression
9	5						Class Capstone Feature
10	5	5	Expert (3)	+1	+2	+1	Subclass Capstone Feature

LEVELING UP

When a Character levels up these are the updates you need to make.

COMBAT MASTERY

At levels 3, 5, 7, 9 (all “odd” levels) your Combat Mastery increases by 1. The following things that Combat Mastery and would also increase by 1.

- PD and AD
- Attack and Spell Checks
- Might, Agility, Charisma, and Intelligence Saves
- Save DC

ATTRIBUTE POINTS

Check your Player Character Progression Table and see if you gain any Attribute points.

- If you increase an Attribute, then you must also increase each Skill that’s connected to that Attribute by the same amount.
- Possibly increase your Prime Modifier if you just increased your highest Attribute to be higher than it was before.
- Update the Saves of any Attributes you increased.

SKILL, TRADE, & LANGUAGE POINTS

Check your Player Character Progression Table and see if you gain any Skill Points or Trade Points.

- If you do, spend them to increase your Mastery Levels and increase those modifiers.

DC Tip: Remember not to exceed the “Mastery Limit” depending on what level you are. Level 5 is Adept, Level 10 is Expert, Level 15 is Master, and Level 20 is Grandmaster.

HEALTH

These are the categories that you could gain HP in:

- Check your Class Table for additional HP.
- If you increase your Might Attribute, then you also increase your HP by 1 for each point of Might you gain.
- You could possibly gain an Ancestry Trait or other Talent that grants an HP bonus..

DEFENSE

PD: When you increase your Agility or Intelligence, increase your PD by an equal amount.

AD: When you increase your Might or Charisma, increase your AD by an equal amount.

TALENTS

PCs gain Talents at specific Levels (as shown in their Class Tables) to improve their statistics or to gain new abilities.

TALENT REQUIREMENTS

If a Talent has a requirement (such as a Level requirement), you must meet that requirement to choose that Talent. A Talent may be taken multiple times, unless otherwise stated.

DC Tip: The GM might also award Talents at key story moments or as rewards. Keep in mind that these can be quite powerful, especially at early levels.

GENERAL TALENTS

General Talents allow you to improve in a variety of ways, unrelated to Class.

ANCESTRY INCREASE

General Talent

You gain 4 Ancestry Points.

ATTRIBUTE INCREASE

General Talent

You gain 2 Attribute Points to put into any Attribute of your choice.

DC Tip: You can only increase an Attribute up to your Attribute Limit.

SKILL INCREASE

General Talent

You gain 4 Skill Points

DC Tip: You can convert Skill Points into Trade Points or Language Points. See Mastery & Training for more information.

MARTIAL EXPANSION

General Talent

You can only gain this Talent once.

You gain the following benefits:

- **Combat Training:** You gain Combat Training with Weapons, Heavy Armors, and all Shields.
- **Stamina Regen:** You gain the Stamina Regen of the Class of your choice or the Spellcaster Path Stamina Regen (see “Character Paths” on page 192). You can only benefit from 1 Stamina Regen per Round.
- **Maneuvers Known:** You learn 2 Maneuvers.

SPELLCASTING EXPANSION

General Talent

You can only gain this Talent once.

You gain the following benefits:

- **Combat Training:** You gain Combat Training with Spell Focuses.
- **Spell List:** You add 1 Spell Source or 3 Spell Schools of your choice to your Spell List.
- **Spells Known:** You learn 3 Spells from your Spell List.

CLASS TALENTS

Class Talents allow you to gain access to abilities that either expand on Class Features from that Class or provide new abilities related to a Class's identity. To take a Class Talent from a class you must have at least 1 Feature from that Class, as well as meet any requirements listed in the Talent.

BARBARIAN

UNFATHOMABLE STRENGTH

Requirements: Rage, Level 3

Titan Grip: While Raging, you can wield Two-Handed Weapons using only one hand.

Titanic Leap: Your Jump Distance increases by 1.

BARD

EXPANDED REPERTOIRE

Requirement: Remarkable Repertoire, Level 3

You can only gain this Talent once.

You gain the following benefits:

- You gain 2 Skill Point.
- You learn 2 Spells of your choice from any Spell List.
- You gain another manner of **Magical Expression**, allowing you to choose to gain the benefits of either the Auditory or Visual manner each time you cast a Spell.

HELPING HANDS

Requirement: Font of Inspiration, Level 3

Once per Round, when you take the Help Action, you can grant a bonus **d8** Help Die to a different creature within range (including yourself) that they can apply to the same type of Check.

CHAMPION

CHAMPION'S RESOLVE

Requirement: Adaptive Tactics, Level 3

When you use a **Tactical Die**, you gain the following benefit:

- **Assault:** The Attack deals +1 damage.
- **Deflect:** If the Attack Misses, the Attacker takes 1 damage of a Physical damage type of your choice.

DISCIPLINED COMBATANT

Requirement: Fighting Spirit, Level 3

Once on each of your turns, you can spend 2 SP to gain the benefit of **Combat Readiness**. Additionally, you can use **Second Wind** without being **Bloodied**.

CLERIC

EXPANDED ORDER

Requirement: Cleric Order

You gain 2 additional **Divine Domains**. You can't choose the same option more than once.

BOUNTIFUL BLESSINGS

Requirement: Divine Blessing, Level 3

When Combat starts, you immediately gain a Blessing of your choice for free. Additionally, you can have 2 **Blessings** at the same time, but you can't apply both to the same creature at once.

DIVINE CLEANSE

Requirement: Channel Divinity, Level 3

You gain the following benefits:

Saving Grace: When a creature you can see within 10 Spaces fails a Save, you can spend 1 AP as Reaction to make a Spell Check against the effect's Save DC or the opposing creature's Check. **Success:** The creature Succeeds their Save instead.

Cleansing Intervention: When a creature benefits from your **Lesser Divine Intervention**, they're cured of 1 of the following afflictions of their choice: Curse, Disease, Poison, **Blinded**, or **Deafened**. The Spell Check you made must be higher than the DC of the effect (if there is one) to cure the ailment.

DC Tip: Some Curses can only be removed by specific means, which are listed in the Curse's description (such as performing a specific ritual, completing a quest, or being subjected to the Wish Spell).

COMMANDER

SEIZE MOMENTUM

Requirements: Commander's Call, Commanding Aura, Level 3

When an ally within your **Commanding Aura** scores a Heavy Hit, you can use your **Commander's Call** as a Reaction.

COORDINATED COMMAND

Requirement: Commander's Call, Level 3

Once per Round, when you use your **Commander's Call**, you can spend 1 additional SP to target a second creature within range (including yourself), they also gain the benefits of the chosen command. You choose who acts first between the targeted creatures.

DRUID

WILD FORM EXPANSION

Requirements: Wild Form, Level 3

You gain the following benefits:

- At the start of each of your turns, you can transform into your True Form or a Wild Form you have access to without spending AP.
- When you use **Wild Form**, you get 2 additional Trait Points to spend. You can use this Feature once per Long Rest, and regain the ability to use it again when you roll for Initiative.

NATURE'S VORTEX

Requirements: Nature's Torrent, Level 3

You gain the following benefits:

- Creatures of your choice are immune to your **Nature's Torrent**.
- When you use **Nature's Torrent**, you can choose to increase its Diameter by 1 Space and impose DisADV on Ranged Attacks made against creatures within the area.
- You can spend 2 AP on your turn to use **Nature's Torrent** without requiring a creature to take Elemental damage. When you do, the Torrent is instead an Aura centered on you and you choose its Elemental damage type.

HUNTER

EXPANDED TERRAINS

Requirement: Favored Terrain

You gain 2 additional **Favored Terrains**. You can't choose the same option more than once.

PACK LEADER

Requirements: Hunter's Mark, Level 3

Creatures of your choice can add a d4 to the first Attack they make on each of their turns against your Marked target.

BIG GAME HUNTER

Requirements: Hunter's Mark, Level 3

You gain additional benefits against Marked targets that are Large or larger:

- Your Martial Attacks deal +1 damage against them.
- You have ADV on Saves they force you to make.
- You have ADV on Checks you make as part of the Analyze Creature Action.

MONK

EXPANDED STANCES

Requirement: Monk Stance

You gain the following benefits:

- You learn 2 additional **Monk Stances**. You can't choose the same option more than once.
- Once on each of your turns, you can enter a **Monk Stance** without spending SP.

INTERNAL DAMAGE

Requirements: 1 or more Monk Features, Level 3

When you make an Unarmed Strike, you can spend SP to cause the target to make a Repeated Physical Save. **Failure:** They become **Impaired** for 1 minute. While **Impaired** this way they take True damage at the start of each of their turns equal to the SP spent.

STEEL FIST

Requirements: Monk Training, Level 3

Impact: Your Unarmed Strikes gain the Impact Property.

Flurry of Blows: Once on each of your turns, when you make a Melee Martial Attack, you can spend 1 SP to immediately make an Unarmed Strike against a creature within range. This Unarmed Strike isn't subjected to the Multiple Check Penalty and doesn't advance that penalty.

ROGUE

UNSEEN AMBUSER

Requirements: Debilitating Strike, Level 3

Your mastery over unseen attacks grants you the following benefits:

- ♦ **Skulker:** You have ADV on Stealth Checks made in Combat.
- ♦ **Backstab:** Enemies you are **Hidden** from have DisADV on their Saves against your **Debilitating Strikes**.

SINISTER SHOT

Requirements: Cheap Shot, Level 3

Your **Cheap Shot** deals +1 damage for each additional Condition on the target. Multiple stacks of the same Condition count only once.

SORCERER

EXPANDED META MAGIC

Requirement: Meta Magic

You gain the following benefits:

- ♦ Your maximum MP increases by 2.
- ♦ You gain 2 additional **Meta Magic** Spell Enhancement. You can't choose the same option more than once.

GREATER INNATE POWER

Requirements: Innate Power, Level 3

You gain the following benefits:

- ♦ Your MP maximum increases by 1.
- ♦ You gain the benefit of an additional 1 point Focus Property of your choice. You can change either or both Properties whenever you finish a Short or Long Rest.
- ♦ You gain another Sorcerous Origin of your choice.

FONT OF MAGIC

Requirements: Meta Magic, Level 3

Your magical vitality grants you the following benefits:

- ♦ You can spend 2 Rest Points in place of 1 MP on **Meta Magic**.
- ♦ You regain 2 Rest Points when you roll for Initiative.

SPELLBLADE

EXPANDED DISCIPLINES

Requirement: Spellblade Disciplines

You gain 2 additional **Spellblade Disciplines**. You can't choose the same option more than once.

SLING-BLADE

Requirements: Bound Weapon, Spellstrike, Level 3

You are able to sling magic off your blade to extend the range of your Spells and Attacks in the following ways:

- ♦ **Distant Strike:** The range of your Attacks with Melee Weapons is increased by 2.
- ♦ **Extended Spellstrike:** When you use Spellstrike, the range of the Spell changes to match your Weapon's range.

Example: If a Spellblade casts the *Light Spell* (range of 1 Space) using their **Spellstrike** feature, and uses a *Shortbow* as the *Weapon* (range of 15/45) then normally the range would be limited to 1 Space (the Spell's range), but using **Improved Spellstrike** the range would match the *Weapon's* full range (up to 45 Spaces).

ADAPTIVE BOND

Requirements: Bound Weapon, Level 3

You are able to adapt your Bound Weapon to match the situation. You gain the following benefits:

- ♦ At the start of your turn, you can switch your Bound Damage type for free, or you can spend 1 AP do to so during your turn.
- ♦ After you take Elemental or Mystical damage from an Attack, you can immediately change your Bound Damage type to a damage type dealt by the Attack for free.
- ♦ You gain Resistance (1) to your Bound Damage

Example: A Spellblade is fighting several *Fire Elementals*. When a *Fire Elemental* hits the Spellblade with an Attack that deals *Fire* damage, the Spellblade can change its Bound Damage to *Fire* after the Attack is resolved. The Spellblade then has *Fire* Resistance against the next Attack against them.

WARLOCK

EXPANDED BOON

Requirement: Pact Boon

You gain 1 additional Pact Boon. You can't choose the same option more than once.

PACT BANE

Requirements: Pact Boon, Level 3

You learn the *Bane* Spell or a different Spell of your choice from your Spell List if you already know it. Creatures that are subjected to *Bane* suffer the following effects based on your chosen **Pact Boon**.

- ♦ **Pact Weapon & Spell:** When you Hit the creature with your Pact Weapon or Pact Spell, it takes +1 True damage.
- ♦ **Pact Armor:** When the creature Misses you with an Attack, it becomes **Stunned 1** until the end of their next turn, provided it's within 10 Spaces and you're wearing your **Pact Armor**.
- ♦ **Pact Familiar:** The creature is considered Flanked while within 1 Space of your **Pact Familiar**.

WARLOCK SUBCONTRACT

Requirements: Warlock Contract, Level 3

You can spend 1 minute to create a Warlock Subcontract with a willing creature within 1 Space, provided it doesn't share your HP (such as a Familiar). While within 20 Spaces of each other, you gain the following benefits:

- ♦ **Shared Telepathy:** You can speak Telepathically with each other.
- ♦ **Extended Bargain:** They can use **Hasty Bargain**. When they do, you gain 1 Temp HP.
- ♦ **Willing Sacrifice:** You can spend their HP on your Warlock Features and Talents, provided they are willing.

Void Contract: This benefit lasts until you end it for free or use this Feature again.

WIZARD

EXPANDED SPELL SCHOOL

Requirement: Spell School Initiate

Choose 1 additional Spell School. You can't choose the same School more than once. You learn 2 Arcane Spells from this Spell School, and you can use **Signature School** once per chosen Spell School.

CROWNED SIGIL

Requirements: Arcane Sigil Feature, Level 3

When you create an **Arcane Sigil**, you can bind it to a willing creature within 1 Space. While bound, the **Arcane Sigil** moves with the creature and grants it a +2 bonus to its AD. A creature can only be bound to one **Arcane Sigil** at a time. You can spend 1 AP to unbind the **Arcane Sigil** and place it on the ground within 1 Space of the creature.

OVERLY PREPARED SPELLCASTER

Requirements: Prepared Spell, Spell School Initiate, Level 3

You gain the following benefits:

- ♦ You gain **Dazed** Resistance.
- ♦ You can change your **Prepared Spell** when you complete a Quick or Short Rest.
- ♦ When you declare a Spell Duel using your **Prepared Spell**, you gain ADV on your Spell Check.
- ♦ You can use **Signature School** on your **Prepared Spell**, even if it's not from the chosen Spell School.
- ♦ When you use **Mana Limit Break**, you have ADV on the Check made to cast the Spell.

MULTICLASS TALENTS

Multiclass Talents allow you to gain Features from other Classes, except Flavor Features (see Class Flavor Features below). Some Multiclass Talents also allow you to gain Subclass Features, which can be from any Class (including your own). You can't gain the same Feature more than once.

Class Flavor Features: Once you gain 2 Class Features from the same Class, you automatically gain that Class's Flavor Feature.

Example: If a Wizard gains 2 Barbarian Features, they automatically gain the Barbarian's Flavor Feature: Shattering Force.

Specific Damage Types: When you gain a Feature that references a damage type of a different Feature, you use that same damage type. If there are multiple choices of damage types to choose from, you must choose one when you gain the Feature.

Example: The Cleric Feature: **Channel Divinity** has an option (Censure Divine) that deals "Divine Damage" to nearby creatures of your choice. The Cleric normally choose their type of Divine Damage at level 1 when they gain the **Cleric Order** Feature. If a Champion uses a Multiclassing Talent to gain the **Channel Divinity** Feature, they would need to choose a type of Divine Damage listed in the **Cleric Order** Feature.

NOVICE MULTICLASS

Multiclass Talent

You can take this Talent multiple times

You gain a Level 1 Class Feature from any Class.

ADEPT MULTICLASS

Multiclass Talent

Requirement: Level 4

You can take this Talent multiple times

You gain the Level 2 Class Feature of any Class.

EXPERT MULTICLASS

Multiclass Talent

Requirement: Level 6

You can take this Talent multiple times

You gain 1 of the following from a Class that you have at least 1 Class Feature from:

- Its Level 5 Class Expert Feature.
- The Level 3 Subclass Feature and Flavor Feature of one of its Subclasses.

DC Tip: You may not gain the full benefit of a Level 3 or 5 Feature gained in this way if you don't have the Features that it upgrades.

MASTER MULTICLASS

Multiclass Talent

Requirement: Level 8

You can take this Talent multiple times

You gain the Level 7 Subclass Expert Feature of a Subclass you have the Level 3 Subclass Feature from.

CHARACTER PATHS

You gain Character Path progression at Levels 2, 4, 6, and 8. Each time you gain Character Path progression, you can choose the Martial Path or the Spellcaster Path. You gain certain benefits based on the chosen Path.

MARTIAL PATH

Combat Training: Weapons

Maneuvers: You learn 1 Maneuver.

Stamina Points: You gain 1 maximum Stamina Point.

CLASSES LACKING STAMINA REGEN

A Class that starts without a Stamina Regen gains the Spellcaster Stamina Regen listed below when they choose the Martial Path for the first time.

SPELLCASTER STAMINA REGEN

Once per round, you regain up to half your maximum SP when you use a Spell Enhancement.

SPELLCASTER PATH

Combat Training: Spell Focuses

Spells Known: You learn 1 Spell.

Mana Points: You gain 3 maximum Mana Points.

CLASSES LACKING A SPELL LIST

A Class that starts without a Spell List gains a Spell List of their choice from any Class when they choose the Spellcaster Path for the first time.

PARAGON SUBCLASS

At Level 3, instead of choosing a Subclass from your Class, you can take the Paragon Subclass.

LEVEL 3 SUBCLASS FEATURE

NOVICE PARAGON

You gain a Class Talent of your choice from your Class.

JACK OF ONE TRADE (FLAVOR FEATURE)

You gain 1 Trade Point.

LEVEL 7 SUBCLASS FEATURE

EXPERT PARAGON

You gain a Class Talent of your choice from your Class.

LEVEL 10 SUBCLASS FEATURE

MASTER PARAGON

You gain a Class Talent of your choice from your Class.

CHAPTER 5

ANCESTRIES

ANCESTRY SYSTEM

During character creation you must choose your character's **Ancestry**, which represents the physical form your character takes in the world, such as Human, Elf, Dwarf, Halfling and Gnome. Each Ancestry has a list of **Ancestry Traits**, which you can gain by spending **Ancestry Points**.

ANCESTRY TRAITS

Ancestry Traits give your character physiological properties or abilities based on your Ancestry. You can choose various combinations of Ancestry Traits to customize your character to express the type of fantasy race you want to play.

ANCESTRY POINTS

Ancestry Points can be spent to gain Ancestry Traits. Most Traits cost between 1 and 3 Points, however, some Traits have a Point value of 0 or lower: **Minor Traits** and **Negative Traits**.

GAINING ANCESTRY POINTS

When first creating your character, you have 5 Ancestry Points. You gain 2 additional Ancestry Points when you reach Level 4, and again when you reach Level 7.

TYPES OF ANCESTRY TRAITS

Each Ancestry has 4 kinds of Ancestry Traits.

MINOR ANCESTRY TRAITS

These Traits cost 0 Ancestry Points and provide minor benefits that are respective of each Ancestry's unique abilities and origins. You can only choose 1 Minor Trait.

NEGATIVE ANCESTRY TRAITS

These are Traits that have a negative Point value due to a penalty it gives your Character. These give you additional Ancestry Points equal to the negative value of the Trait.

Example: If you choose the Negative Trait **Reckless (-1)**, then you would gain the Trait (which reduces your PD by 1) and also gain 1 Ancestry Point (since the value of the Trait is worth -1). After this, you would technically have 6 total Ancestry Points to spend, but you would still end with a total of 5 (6 -1).

DEFAULT ANCESTRY TRAITS

These are a set of pre-defined Ancestry Traits that are worth a total 5 Ancestry Points. These include a Minor Trait and may also include a Negative Trait.

DC Tip: This is perfect for new players! They can just say, "I want to be an Elf," and get the pre-made list of the Elf Default Traits and be done with this step of Character Creation.

EXPANDED ANCESTRY TRAITS

These are optional Ancestry Traits that you can choose from to customize your Character's Ancestry for either mechanical or flavor reasons.

DC Tip: Some groups or GMs might choose to ignore these Expanded Ancestry Traits to speed up character creation (for new groups or for one shots) or to give a consistent feel to all Ancestries.

ANCESTRY ORIGINS

Ancestry Flavor vs Mechanics

Player Characters are unique in this aspect, and with so many options you're able to create a wide variety of Ancestry Origins. You can customize them and make them your own, either for mechanical reasons or flavor/lore reasons.

ANCESTRY FLAVOR

This is where you can say what your Character looks like based on their Ancestry. Maybe you choose Dwarf and Elf for your 2 Ancestries. Now you get to decide how they look, which has nothing to do with game mechanics. Maybe you're a tall slender elf with a huge beard, maybe you're a thick stocky dwarf with smooth hairless skin and pointy ears, or maybe you look completely like a Dwarf and all of those "Elven Traits" are more recessive and aren't represented visually. You might have the EYES of an elf, but everything else looks Dwarvish.

DC Tip: Maybe you love the Mechanics of a Gnome, but you really want to play a Halfling. Talk to your GM about if it's ok to completely separate the mechanics of your character from what you visually look like. Work together and brainstorm how your Halfling Character gained the mechanics of a Gnome (through magic, through practice, or etc.).

If you wanted to play a Dwarf that had a backstory of being from a long line of Dwarves, you totally can! Pick Dwarf and then ask yourself, "How else do I want to express my Character?" If you're going to be a Cleric, then maybe look into the Angelborn Traits. If you want to play a brave Dwarf, then maybe look into the Halfling (they have a Halfling Bravery Trait). This doesn't mean that you are that Ancestry, or that one of your parents were, it's just a way to further express your character and let them have the Traits that best fit them.

DC Tip: If your ideal Dwarf possess Traits only included in the Giantborn Ancestry list, pick some of those Traits for your "Dwarf" so you can create the character you have in mind. You can describe your Mixed Ancestry character as being a specific kind of Dwarf or a Dwarf/Giantborn hybrid. You can express your Ancestry however you wish.

ANCESTRY MECHANICS

This is where you choose your Ancestries based on the game mechanics of what Ancestry Traits they offer. Build out your character accordingly and then step back and see what your character would look like. I had a player make a character that just wanted to make a BIG Barbarian, so he chose Giantborn and Orc. I asked him what that looks like, and we talked about it and decided that he was going to be an “Ogre-born” which ended up being a really cool enhancement to his backstory... even though his choices were based on game mechanics.

ANCESTRY APPEARANCE

The appearance of this new Ancestry is for the PC and GM to come up with together (also making sure it fits into the lore of the setting). The Ancestry could look similar to an already existing Ancestry but be magically different for other reasons. The Ancestry could be an entirely new species that you want to bring into the world, mixing and matching Traits around to get the exact right feel for your PC.

DC Tip: *How I have always handled this is that the visual aspect of a character is completely up to the player, then the Ancestry Points take care of the “balance” and the mechanics of what that Ancestry can do.*

ANCESTRY LORE & FLAVOR

Each Ancestry has unique biological and cultural pieces that can combine with Backgrounds to create very unique PCs.

- Unique Biology Facts
- Ancestry Quirks Table
- Names List
- Ancestries’ Cultures

This will be available at the release of the full game. The Beta is focused on the mechanics of the game, so the flavor and lore will be revealed in the future.

ANCESTRY CREATION

Every character starts with the Base Ancestry Traits below, and their Ancestry gives them a list of additional Traits they can spend their 5 Ancestry Points on.

BASE ANCESTRY TRAITS

- **Size:** Your Size is Medium.
- **Speed:** You have a Speed of 5 Spaces.
- **Creature Type:** Your Creature Type is Humanoid.

CHOOSE YOUR ANCESTRY

Pick 1 or 2 Ancestries to show where your character comes from, what they look like, or how they perform mechanically. This usually represents what Ancestry your character’s parents were. When you select an Ancestry, you gain access to its Ancestry Traits List (Default and Expanded).

STARTING WITH 1 ANCESTRY

You gain access to its Ancestry List. You can choose a second Ancestry any time you gain additional Ancestry Points.

DC Tip: *This does give you less options during Character Creation, but gives you more flexibility to choose a second Ancestry at a later time as the direction you take your character evolves.*

STARTING WITH 2 ANCESTRIES

You gain access to both Ancestry Lists of each chosen Ancestry.

DC Tip: *This gives you more options during character creation, but somewhat less flexibility at higher levels when you gain additional Ancestry Points.*

SPEND YOUR ANCESTRY POINTS

You have 5 Ancestry Points to spend on any Ancestry Traits from among your Ancestry Trait Lists. Your Ancestry needs to have a total of 5 Ancestry Points worth of Traits (including negative Traits). You can choose multiple Negative Traits, but you can only choose 1 Minor Trait. You must spend all your Ancestry points during character creation (you can’t save them for later).

GAINING & LOSING NEGATIVE TRAITS

You can’t gain more than 2 Ancestry Points total from your Negative Ancestry Traits. You can remove Negative Ancestry Traits at higher Levels by spending 1 Ancestry Point if their cost is (-1) or 2 Ancestry Points if their cost is (-2).

DUPLICATE ANCESTRY TRAITS

You can't choose a Trait of the same name multiple times, unless it says otherwise.

Example: A PC chooses Dwarf and Giantborn as their 2 Ancestries. The **Tough** Ancestry Trait is available to both Ancestries. The PC could only choose the Tough Ancestry Trait once, even though it's available to both Ancestries.

ANCESTRY TRAIT REQUIREMENTS

If an Ancestry Trait has a requirement, such as a Level requirement, then you must meet that requirement to choose that Ancestry Trait.

ATTRIBUTE & MASTERY INCREASES

Certain Ancestry Traits grant increases to Attributes, Skills, and Trades. These Ancestry Traits can't exceed the Attribute Limit, Skill Mastery Limit, or Trade Mastery Limit, unless they say otherwise.

REFUNDING ANCESTRY TRAITS

If you gain a Talent or Feature that grants you a benefit that's identical to (or a better version of) an Ancestry Trait you have, you can choose to immediately replace that Ancestry Trait with 1 or more other Ancestry Traits available to you that are worth the same amount of Ancestry Points.

Example 1: A Dwarf with the **Natural Combatant** Ancestry Trait (grants Mastery with Heavy Armor and all Shields) uses their 2nd Level Talent to pick the **Martial Expansion** Talent (grants Mastery with all Weapons, Armors, and Shields), then the Dwarf would be refunded the Ancestry Points they spent to gain Natural Combatant and would need to immediately use those Points to gain a different Ancestry Trait available to them.

Example 2: If you have an Ancestry Trait that grants you Water Breathing and Swim Speed, then later you gain a Class Feature that **ONLY** grants a Swim Speed (but not Water Breathing), that would NOT count and you wouldn't get any Ancestry Points refunded to you (you would keep both). If you later get another feature that **ONLY** grants Water Breathing, you could then get a refund for the Ancestry Trait since you would have other Features or Talents granting you the exact same (or better) abilities.

DC Tip: There might be a scenario where a Minor Trait is replaced by a Feature or Talent. In this case a GM could allow a Player to pick another Minor Trait from another Ancestry (if it would make sense for that PC).

VARIANT RULES

CUSTOM ANCESTRIES

If you want to give your PC a personalized Ancestry or you want to combine 3 or more Ancestries together, you can create a Custom Ancestry. This gives Characters access to ALL Ancestry Lists at once but only gets 4 points to spend instead of 5. All other Ancestry Creation Rules still apply. When you gain Ancestry Points, you can spend them on any Ancestry List of your choice.

DC Tip: You could also choose to let PCs get the full 5 Ancestry Points for their Custom Ancestry, but keep in mind that this would be **VERY** strong and the default option for most everyone at the table (for both min-maxing and roleplay reasons). If you're ok with this, then let them have the full 5 Points instead of 4.

VARIABLE NEGATIVITY

This Variant Rule allows you to gain Negative Ancestry Traits when you gain Ancestry Points after Character Creation. You still can't gain more than 2 Ancestry Points total from your Negative Ancestry Traits at a time.

STRONGER OR WEAKER ANCESTRIES

Game Masters can choose to start the game off with higher or lower Ancestry Point totals (instead of 5).

Lower Points: If you want less power to come from Ancestries, and want it to be more of a subtle thing they get, you can lower the Ancestry Point total down to 4, 3, or 2. The player would have to choose which Ancestry Traits they get to use to equal that total for that character.

Higher Points: If you want to give your players more power and customization at the start of the game, you can give them more Ancestry Points to build a stronger Ancestry with.

DC Tip: I would be very careful with this. The game is balanced around PCs getting 5 points, so there could be some very powerful combinations players could take advantage of.

ANCESTRY ADOPTION

This option allows you to select one Ancestry Trait from any Ancestry available, then follow the rules as written for spending the rest of your Ancestry Points.

DC Tip: You could be making this choice for tactical combat reasons, roleplay reasons, or anything in between. Talk to your GM (and even the rest of your party) to show what unique twist you've added to your PC.

ANCESTRY “MAGIC ITEMS”

This option allows you to “think outside the box” on why your PC can do what they can do and where they got their “powers” from. With this rule, you can choose from any of the Ancestry Traits and give yourself a “magic item” that represents that power. You can do this multiple times for multiple points worth of traits. You can tie all these points into a single item or into multiple items.

Example: You want to play a “normal” Human PC, but you REALLY want to have a Breath Weapon (from the Dragonborn Ancestry) and don’t want to say that you’re part Dragonborn. You can create a Human with 3 points spent in the Human Ancestry, then with the other 2 points you can get the Dragonborn’s Breath Weapon but describe that it comes from a “magic ring” on your finger. This allows you to play the fantasy of a human while still having the magical abilities that you want.

DC Tip: I’ve done this myself with Class Features before. I had a PC who was a complete commoner, but he happened to find a magic sword. As soon as he picked it up he was granted the powers of a Spellblade. If I ever lost the sword, then those powers were gone. It’s a very unique way to make a unique PC.

GM AND PC NOTES

Keep in mind that this “feature” is now being represented by an object that’s not part of the PC. This means that it could be stolen or possibly work differently if the PCs go to an area that nullifies the effects of magic items (making the item stop working). So have an open dialogue with each other about this and how it might look at your table.

ANCESTRIES

HUMAN

DEFAULT TRAITS

(2) **Attribute Increase:** Choose an Attribute. The chosen Attribute increases by 1 (up to the Attribute Limit).

(2) **Skill Expertise:** Choose a Skill. Your Mastery Cap and Mastery Level in the chosen Skill both increase by 1. You can only benefit from 1 Feature that increases your Skill Mastery Limit at a time.

(1) **Human Resolve:** Your Death's Door Threshold value is expanded by 1.

(0) **Undying:** You have ADV on Saves against the **Doomed** Condition.

EXPANDED TRAITS

(1) **Trade Expertise:** Choose a Trade. Your Mastery Cap and Mastery Level in the chosen Trade both increase by 1. You can only benefit from 1 Feature that increases your Trade Mastery Limit at a time.

(1) **Human Determination:** Once per Combat, you can give yourself ADV on an Attack, Martial, or Spell Check while **Bloodied**.

(1) **Unbreakable:** You have ADV on Death Saves.

(-1) **Attribute Decrease:** Choose an Attribute. You decrease the chosen Attribute by 1 (to a minimum of -2).

ELF

DEFAULT TRAITS

(1) **Elven Will:** You have ADV on Checks and Saves against being **Charmed** and put to Sleep.

(2) **Nimble:** When you take the Dodge Action, you instead gain the benefits of the Full Dodge Action.

(2) **Agile Explorer:** You're not affected by Difficult Terrain.

(0) **Discerning Sight:** You have ADV on Checks and Saves made to discern through visual illusions.

EXPANDED TRAITS

(1) **Quick Reactions:** While you aren't wearing Armor, you gain +1 PD.

(1) **Peerless Sight:** You don't have DisADV as a result of making an Attack with a Weapon at Long Range

(1) **Climb Speed:** You gain a Climb Speed equal to your Movement Speed.

(2) **Speed Increase:** Your Speed increases by 1 Space.

(1) **Trade Expertise:** Choose a Trade. Your Mastery Cap and Mastery Level in the chosen Trade both increase by 1. You can only benefit from 1 Feature that increases your Trade Mastery Limit at a time.

(1) **Plant Knowledge:** While within forests, jungles, and swamps, you have ADV on Survival Checks. Additionally, you have ADV on Nature Checks made to recall information about plants.

(-1) **Brittle:** Your AD decreases by 1.

(-1) **Frail:** Your HP maximum decreases by 2.

(-1) **Might Attribute Decrease:** You decrease your Might by 1 (to a minimum of -2).

DWARF

DEFAULT TRAITS

- (1) **Tough:** Your HP maximum increases by 1.
- (2) **Toxic Fortitude:** You have Poison Resistance (Half) and ADV on Saves against being **Poisoned**.
- (2) **Physically Sturdy:** You have ADV on Saves against being **Impaired**, **Deafened**, or **Petrified**.
- (0) **Iron Stomach:** You have ADV on Saves against effects that come from consuming food or liquids.

EXPANDED TRAITS

- (1) **Thick-Skinned:** While you aren't wearing Armor, you gain +1 AD.
- (1) **Natural Combatant:** You gain Combat Training with Heavy Armor and All Shields.
- (1) **Stone Blood:** You have ADV on Saves against **Bleeding**. Additionally, you can spend 1 AP to end the **Bleeding** Condition on yourself.
- (1) **Minor Tremorsense:** You have Tremorsense 3 Spaces.
- (2) **Stubborn:** You have ADV on Saves against being **Taunted** and against being forcibly moved.
- (1) **Trade Expertise:** Choose a Crafting or Services Trade. Your Mastery Cap and Mastery Level in the chosen Trade both increase by 1.
- (1) **Earthen Knowledge:** While within mountainous and subterranean environments, you have ADV on Survival Checks. Additionally, you have ADV on Nature Checks made to recall information about rocks, soil, crystals, and gems.
- (-1) **Charisma Attribute Decrease:** You decrease your Charisma by 1 (to a minimum of -2).
- (-1) **Short-Legged:** Your Speed decreases by 1 Space.

HALFLING

DEFAULT TRAITS

- (-1) **Small-Sized:** Your Size is considered Small.
- (2) **Elusive:** When you take the Disengage Action, you instead gain the benefits of the Full Disengage Action.
- (2) **Halfling Bravery:** You have ADV on Saves against being **Frightened**, **Intimidated**, or **Terrified**.
- (1) **Halfling Endurance:** You have **Exhaustion** Resistance.
- (1) **Deft Footwork:** You can move through the space of a hostile creature 1 size larger than you as if it were Difficult Terrain.
- (0) **Beast Whisperer:** You can speak to Beasts in a limited manner. They can understand the meanings of simple words, concepts, or states of emotion. You don't have a special ability to understand them in return.

EXPANDED TRAITS

- (1) **Beast Insight:** You can understand Beasts in a limited manner. You can understand the meaning of their noises and behaviors, though they have no special ability to understand you in return.
- (1) **Burst of Bravery:** Once per Combat, you can end the **Frightened**, **Intimidated**, or **Terrified** Condition on yourself for free at any time.
- (1) **Trade Expertise:** Choose a Trade. Your Mastery Cap and Mastery Level in the chosen Trade both increase by 1. You can only benefit from 1 Feature that increases your Trade Mastery Limit at a time.
- (1) **Critter Knowledge:** You have ADV on Nature, Survival, and Animal Checks involving Small size creatures and smaller.
- (-1) **Brittle:** Your AD decreases by 1.
- (-1) **Intelligence Attribute Decrease:** You decrease your Intelligence by 1 (to a minimum of -2).
- (-1) **Short-Legged:** Your Speed decreases by 1 Space.

DEFAULT TRAITS

- (-1) **Small-Sized:** Your Size is considered Small.
- (2) **Escape Artist:** You have ADV on Checks and Saves to avoid or escape being **Grappled** or **Restrained**.
- (1) **Magnified Vision:** You have ADV on Investigation Checks made on something you're holding or touching.
- (2) **Mental Clarity:** You have ADV on Saves against being **Dazed** or **Stunned**.
- (1) **Strong-Minded:** You gain Psychic Resistance (1).
- (0) **Predict Weather:** You can naturally tell what the weather is going to be in the next hour in the area within 1 mile of you. You don't have DisADV on Checks or Saves as a result of naturally occurring weather.

EXPANDED TRAITS

- (1) **Mana Increase:** Your MP maximum increases by 1.
- (1) **Trapper:** You have ADV on Investigation Checks to spot Traps and on Trickery Checks to Hide Traps.
- (2) **Lightning Insulation:** You have Lightning Resistance (Half) and can't be struck by natural lightning.
- (1) **Trade Expertise:** Choose a Crafting or Subterfuge Trade. Your Mastery Cap and Mastery Level in the chosen Trade both increase by 1.
- (1) **Storm Knowledge:** While within rainy, snowy, or stormy environments, you have ADV on Survival Checks. Additionally, you have ADV on Knowledge Checks made to recall information about rain, snow, and storms.
- (-1) **Agility Attribute Decrease:** You decrease your Agility by 1 (to a minimum of -2).
- (-1) **Short-Legged:** Your Speed decreases by 1 Space.

DEFAULT TRAITS

- (-1) **Cursed Mind:** You gain Psychic Vulnerability (1).
- (2) **Orc Rush:** Once per Combat when you willingly move toward an enemy, you can spend 1 AP to gain Temp HP equal to your Prime Modifier.
- (2) **Brutal Strikes:** You deal +1 damage when you score a Brutal or Critical Hit with a Melee Weapon or Unarmed Strike.
- (1) **Tough:** Your HP maximum increases by 1.
- (1) **Orcish Resolve:** You gain 1 additional AP while on Death's Door.
- (0) **Already Cursed:** You have ADV on Saves against Curses.

EXPANDED TRAITS

- (2) **Intimidating Shout:** Once per Combat, you can spend 1 AP to let out an Intimidating Shout. All creatures within 5 Spaces that can hear you must make a Charisma Save contested by your Attack Check. **Failure:** A target is **Hindered** on the next Attack Check or Spell Attack it makes before the start of your next turn.
- (1) **Orc Dash:** Once per Combat you can use your Minor Action to move, as long as that movement is towards an enemy.
- (1) **Finishing Blow:** You deal +1 damage to creatures who are **Well-Bloodied**.
- (1) **Imposing Presence:** Once per Combat when a creature makes an Attack against you, you can force them to make a Charisma Save. **Save Failure:** They must choose a new target for the Attack. If there are no other targets, then the Attack is wasted.
- (-1) **Provocation:** You have DisADV on Checks and Saves against being **Taunted**.
- (-1) **Reckless:** Your PD decreases by 1.

DRAGONBORN

Draconic Origin

Choose a Draconic Origin from the list below. All future choices within this Ancestry must use the chosen Draconic Origin. The type of damage associated with your Draconic Origin is your Draconic damage.

- ♦ **Elemental Origin:** Cold, Corrosion, Fire, Lightning, or Poison.
- ♦ **Mystic Origin:** Psychic, Radiant, or Umbral.

DEFAULT TRAITS

(1) **Darkvision:** You have Darkvision 10 Spaces.

(2) **Draconic Resistance:** You gain Resistance (Half) to your Draconic damage type.

(2) **Draconic Breath Weapon:** You gain a Breath Weapon that you can use by spending 2 AP to exhale destructive power in an Area or Focused against a specific target. You can use this ability once per Long Rest, and regain the ability to use it again when you roll for Initiative.

- ♦ **Area:** Make a Spell Attack against every target's AD within a 3 Space Cone or 6 Space Line. **Hit:** The target takes 2 Draconic damage.
- ♦ **Focused:** Make a Spell Attack against 1 target's PD within 6 Spaces. **Hit:** The target takes 4 Draconic damage.

Before you make your Spell Check, you can spend 1 or more SP, MP, or a combination of both to increase the damage. When you do, the Area damage increases by 1 per 2 SP spent or 1 MP spent, and the Focused damage increases by 1 per SP spent and by 2 per MP spent.

(0) **Reptilian Superiority:** You have ADV on Intimidation Checks against reptilian creatures of Medium Size and smaller (not including other Dragonborn).

EXPANDED TRAITS

(1) **Mana Increase:** Your MP maximum increases by 1.

(1) **Thick-Skinned:** While you aren't wearing Armor, you gain +1 AD.

(2) **Second Breath:** (requires Draconic Breath Weapon) You can now use your Draconic Breath Weapon twice per Combat. Additionally, whenever you use your Draconic Breath Weapon, you can spend 2 uses to increase the damage by 2 if it's an Area, or by 4 if it's Focused.

(1) **Concussive Breath:** (requires Draconic Breath Weapon) When you use your Draconic Breath Weapon, you can force all targets to make a Physical Save. **Save Failure:** The target is pushed 1 Space away +1 additional Space for every 5 it fails its Save by.

(1) **Draconic Affinity:** When you take damage of the same type as your Draconic damage, your next Draconic Breath Weapon deals +1 bonus damage.

(1) **Dying Breath:** (requires Draconic Breath Weapon) Once per Combat when you enter Death's Door, you regain a use of your Draconic Breath Weapon and can immediately use it as a Reaction for free (0 AP).

(1) **Draconic Ward:** Once per Combat when you enter Death's Door, you gain 2 Temp HP. Whenever you're Hit by a Melee Attack while you have this Temp HP, your Attacker takes 1 Draconic damage.

(1) **Draconic Protection:** Once per Combat, when an ally within 20 Spaces is on Death's Door, you begin to surge with an ancient power. While they remain on Death's Door their PD and AD increases by 5 until Combat ends.

(2) **Glide Speed:** You have a set of wings that you can use to horizontally glide and slow your descent. Provided you aren't **Incapacitated**, you gain the following benefits while in the air:

- ♦ **Controlled Falling:** You suffer no damage from Controlled Falling.
- ♦ **Altitude Drop:** If you end your turn midair, you Controlled Fall 4 Spaces.
- ♦ **Glide Speed:** You can use your movement to glide horizontally.

(-1) **Guardian's Bond:** Once per Combat when an ally enters Death's Door within 20 Spaces of you, you take an amount of True damage equal to your Prime Modifier.

DEFAULT TRAITS

- (1) **Tough:** Your HP maximum increases by 1.
- (2) **Powerful Build:** You increase by 1 Size, but you occupy the Space of a creature 1 Size smaller.
- (1) **Unstoppable:** You have ADV on Saves against being **Slowed** or **Stunned**.
- (1) **Giant's Resolve:** While on Death's Door, you reduce all damage taken by 1.
- (0) **Unyielding Movement:** You're immune to being **Slowed** 2 (or higher).

EXPANDED TRAITS

- (2) **Giant's Fortitude:** (requires Giant's Resolve) You also gain the benefits of your Giant's Resolve Trait while **Well-Bloodied**.
- (2) **Strong Body:** Once per Combat when you take damage from an Attack, you can reduce the damage taken by an amount equal to your Might or Agility (your choice).
- (1) **Mighty Hurl:** You throw creatures 1 Space farther than normal, and objects (including Weapons) 5 Spaces farther than normal.
- (1) **Titanic Toss:** You have ADV on Checks made to throw creatures. Additionally, you don't have DisADV as a result of making an Attack with a Weapon with the Toss or Thrown Property at Long Range.
- (1) **Mighty Leap:** You can use your Might instead of Agility to determine your Jump Distance and the damage you take from Falling.
- (1) **Brute:** Once per Combat, you can take the Shove or Grapple Action as a Minor Action.
- (-1) **Heavy Riser:** You have to spend 4 Spaces of movement to stand up from **Prone**.
- (-1) **Clumsiness:** You have DisADV on Agility Checks.
- (-1) **Intelligence Attribute Decrease:** You decrease your Intelligence by 1 (to a minimum of -2).

ANGELBORN

FALLEN ANGELBORN

If you choose to play an Angelborn and go down a darker path, you can choose to be a Fallen Angelborn. This can happen at character creation from evil acts done from your backstory, or this can happen mid-campaign after a large change in your character.

You gain the following Ancestry Trait:

(0) Fallen: You can now spend your Ancestry Points on Fiendborn Traits.

DC Tip: You aren't considered to be a Fiendborn, you just gain access to its Traits. You can only have one "o Point" Ancestry Trait when creating your character, so if you want to start the game with this feature you can't also take Divine Glow.

DEFAULT TRAITS

(1) Radiant Resistance: You have Resistance (Half) to Radiant damage.

(2) Celestial Magic: You learn 1 Spell of your choice from the Divine Spell List. Once per Long Rest, you can cast the chosen Spell spending 1 less MP than normal (minimum of 0 MP). The Spells total MP cost (before all reductions) still can't exceed your Mana Spend Limit.

(2) Healing Touch: Once per Combat, you can spend 1 AP to touch a creature and Heal it. Make a **DC 10** Spell Check. **Success:** You can restore up to 2 HP to the target. **Success (each 5): +1 HP. Failure:** You only restore 1 HP.

(0) Divine Glow: Your body can emit a Bright Light in a 5 Space radius around you at will.

EXPANDED TRAITS

(1) Mana Increase: Your MP maximum increases by 1.

(1) Celestial Clarity: You have ADV on Saves against being **Blinded** or **Deafened**.

(1) Angelic Insight: Once per Long Rest you can grant yourself ADV on an Insight Check to see if someone is lying.

(2) Gift of the Angels: Once per Combat you can spend 1 AP and 1 MP and touch a creature to heal them over time. The creature recovers 1 HP at the start of each of their turns for 1 minute (5 Rounds).

(1) Blinding Light: Once per Combat, you can spend 1 AP to choose a creature within 5 Spaces and make a Spell Check contested by its Physical Save. **Success:** The target is **Blinded** until the end of your next turn.

(2) Glide Speed: You have a set of wings that you can use to horizontally glide and slow your descent. Provided you aren't **Incapacitated**, you gain the following benefits while in the air:

- **Controlled Falling:** You suffer no damage from Controlled Falling.
- **Altitude Drop:** If you end your turn midair, you Controlled Fall 4 Spaces.
- **Glide Speed:** You can use your movement to glide horizontally.

(-1) Pacifist: Your divine call is to put others before yourself and resist doing harm. You suffer a -1 penalty to all Checks and Saves made during the first round of Combat.

(-1) Umbral Weakness: You have Umbral Vulnerability (1).

FIENDBORN

FIENDISH ORIGIN

Choose a Fiendish Origin from the following list: Cold, Corrosion, Fire, Poison, and Umbral. All future choices within this Ancestry must use the chosen Fiendish Origin. The type of damage associated with your Fiendish Origin is your Fiendish damage.

FIENDBORN REDEMPTION

If you choose to play a Fiendborn and go down a path of redemption, you can choose to be a Redeemed Fiendborn. This can happen at character creation from good acts done from your backstory, or this can happen mid-campaign after a large change in your character.

You gain the following Ancestry Trait:

(0) Redeemed: You can now spend your Ancestry Points on Angelborn Traits.

DC Tip: You aren't considered to be an Angelborn, you just gain access to its Traits. You can only have one "o Point" Ancestry Trait when creating your character, so if you want to start the game with this feature you can't take Light's Bane.

DEFAULT TRAITS

(2) Fiendish Resistance: You gain Resistance (Half) to your Fiendish damage type.

(2) Fiendish Magic: You learn 1 Spell of your choice from the Arcane Spell List from the Elemental or Enchantment Spell Schools. If the Spell deals damage, it must be the same damage type as your Fiendish damage. Once per Long Rest, you can cast the chosen Spell spending 1 less MP than normal (minimum of 0 MP). The Spell's total MP cost (before all reductions) still can't exceed your Mana Spend Limit.

(1) Darkvision: You have a Darkvision of 10 Spaces.

(0) Light's Bane: You can spend 1 AP to snuff out a mundane light source within 5 Spaces of you.

EXPANDED TRAITS

(1) Mana Increase: Your MP maximum increases by 1.

(1) Silver-Tongued: Once per Long Rest you can grant yourself ADV on an Influence Check when trying to deceive someone.

(1) Fiendish Aura: You learn the *Sorcery* Cantrip, but you must choose the type of energy that's the same as your Fiendish Origin.

(1) Superior Darkvision (requires Darkvision): Your Darkvision increases to 20 Spaces.

(1) Infernal Bravery: You have ADV on Saves against being Intimidated.

(1) Intimidator: Once per Combat you can take the Intimidate Action as a Minor Action.

(1) Charming Gaze: You can spend 1 AP to gaze upon a creature you can see within 10 Spaces that can also see you. Make a Spell Check contested by the target's Repeated Charisma Save. **Success:** The creature becomes **Charmed** by you for 1 minute. You can use this ability once per Long Rest, and when you roll for Initiative, or meet some other unique criteria at the GM's discretion, this ability recharges.

(2) Glide Speed: You have a set of wings that you can use to horizontally glide and slow your descent. Provided you aren't **Incapacitated**, you gain the following benefits while in the air:

- **Controlled Falling:** You suffer no damage from Controlled Falling.
- **Altitude Drop:** If you end your turn midair, you Controlled Fall 4 Spaces.
- **Glide Speed:** You can use your movement to glide horizontally.

(-1) Radiant Weakness: You have Radiant Vulnerability (1).

(-1) Divine Dampening: You recover 1 less HP when healed from divine sources.

BEASTBORN

This is a unique Ancestry in that it doesn't have Default Traits. Instead, Beastborn get access to categories of Expanded Traits called **Beast Traits**. You can spend your Ancestry Points on any of the Beast Traits below.

BEASTBORN ORIGIN

Choose a type of Beast you're modeled after, such as a frog, elephant, lion, spider, rabbit, dog, or something else. You're a Humanoid creature with an appearance based on the chosen Beast.

You gain the following Ancestry Trait:

(0) Beastkind: You can understand and speak to (in a limited capacity) the species of Beast your Beastborn is modeled after. You can understand the meaning of their noises and behaviors, and they understand the meanings of simple words, concepts, or states of emotion.

DC Tip: It's up to the GM how far the category of the beast you choose can be applied. Turtle for example might reference *ONLY* turtles, or might also include other reptiles. If you choose to be a "hybrid creature" of sorts, you'd have to choose just 1 type of Beast unless your GM makes an exception for you.

BEAST TRAITS

Below is a list of Beast Traits. You can only choose a Beast Trait once unless it says otherwise.

SENSES

(1) Darkvision: You have Darkvision 10 Spaces.

(1) Echolocation: You can spend **1 AP** to roar, scream, or screech to gain Blindsight in a 10 Spaces radius that lasts until the start of your next turn. The sound can be heard from up to 100 Spaces away. You gain no benefit from this Trait in an area of Silence.

(1) Keen Sense: Choose 1 of the following senses: hearing, sight, or smell. You make Awareness Checks with ADV using the chosen sense. You can choose this trait multiple times, choosing a different sense each time.

(-2) Sunlight Sensitivity: While you or your target is in sunlight, you have DisADV on Attacks and Awareness Checks that rely on sight.

MOBILITY

(1) Quick Reactions: While you aren't wearing Armor, you gain +1 PD.

(1) Climb Speed: You gain a Climb Speed equal to your Ground Speed.

(1) Spider Climb: (requires Climb Speed) You can walk without falling on the ceiling and vertical surfaces normally without needing to Climb.

(1) Web Walk: You can walk along and through webs unimpeded. Additionally, you know the location of any creature that's in contact with the same web.

(1) Water Breathing: You can breathe underwater.

(1) Swim Speed: You gain a Swim Speed equal to your Ground Speed. Additionally, your Breath Duration increases by 3.

(2) Speed Increase: Your Speed increases by 1 Space.

(2) Sprint: You can use your Minor Action to take the Move Action. Once you use this Trait, you can't use it again until you take a turn without taking the Move Action.

(2) Charge: If you move at least 2 Spaces in a straight line before making a Melee Attack, the damage of the Attack increases by 1.

(2) Burrow Speed: You gain a Burrow Speed equal to half your Movement Speed.

JUMPING

(1) Jumper: Your Jump Distance increases by 2, and you can take the Jump Action as a Minor Action.

(1) Strong Jumper: You no longer need to move 2 Spaces before performing a Running Jump, and you take **0** damage from Controlled Falling 5 Spaces or less.

FLYING

(2) Glide Speed: You have a set of wings that you can use to horizontally glide and slow your descent. Provided you aren't **Incapacitated**, you gain the following benefits while in the air:

- **Controlled Falling:** You suffer no damage from Controlled Falling.
- **Altitude Drop:** If you end your turn midair, you Controlled Fall 4 Spaces.
- **Glide Speed:** You can use your movement to glide horizontally.

(2) Limited Flight: (requires Glide Speed) You have a set of wings that grant you limited flight. Provided you aren't **Incapacitated**, you gain the following benefits:

- **Vertical Ascent:** You can spend 2 Spaces of movement to ascend 1 Space vertically.
- **Hover:** When you end your turn in the air, you maintain your altitude.

(2) Full Flight: (requires Limited Flight) You have a Fly Speed equal to your Ground Speed.

(1) Flyby: (requires Limited Flight) You don't provoke Opportunity Attacks when you Fly out of an enemy's reach.

(2) Stealth Feathers: (requires Limited Flight) You have ADV on Stealth Checks while Flying.

(-1) Winged Arms: (requires any Flying Beast Trait) Your arms are also your wings. Anytime you use a Glide Speed or Flying Speed, you can't hold anything in your hands.

BODY

(1) **Tough:** Your HP maximum increases by 1.

(1) **Thick-Skinned:** While you aren't wearing Armor, you gain +1 AD.

(1) **Hazardous Hide:** You have spikes, retractable barbs, poisonous skin, or some other form of defense mechanism to keep creatures from touching you. Choose 1 of the following damage types: Corrosion, Piercing, or Poison. While you're physically **Grappled**, your Grappler takes 1 damage of the chosen type at the start of each of its turns. Creatures that start their turn **Grappled** by you also take this damage.

(2) **Powerful Build:** You increase by 1 Size, but you occupy the Space of a creature 1 Size smaller.

(3) **Long-Limbed:** When you make a Melee Martial Attack, your reach is 1 Space greater than normal.

(1) **Additional Limb:** You have an additional limb (such as an extra arm or prehensile tail or trunk) that has a range of 1 Space. You can use it to lift, hold, or drop objects, and to push, pull, or grapple creatures. It can't wield Weapons, Shields, or Spell Focuses, and you can't use it to perform the Somatic Components of Spells. You can choose this Trait multiple times.

(2) **Capable Limb:** (requires Additional Limb) You can now use your limb to wield Weapons, Shields, or Spell Focuses, and perform the Somatic Components of Spells. You can choose this Trait multiple times, but only once per Additional Limb.

(2) **Natural Armor :** (requires Thick-Skinned) While not wearing Armor, you gain PDR.

(1) **Hard Shell:** (requires Thick-Skinned) You have a large shell around your body for protection. Your AD increases by 1 (while you're not wearing Armor), your Movement Speed decreases by 1, and you're immune to being Flanked.

(1) **Shell Retreat:** (requires Hard Shell) Your body has a shell that you can retreat into. You can spend 1 AP to retreat into or come back out of your shell. You gain +5 PD and AD, PDR, EDR and ADV on Might Saves. While in your shell, you're **Prone**, you can't move, you have DisADV on Agility Saves, and you can't take Reactions.

(2) **Camouflage:** You can change the color and pattern of your body. You have ADV on Stealth Checks while motionless.

(1) **Prowler:** You have ADV on Stealth Checks while in Darkness.

(2) **Cold Resistance:** You have Cold Resistance (Half) and Resistance to Exhaustion from cold temperatures.

(2) **Fire Resistance:** You have Fire Resistance (Half) and Resistance to Exhaustion from hot temperatures.

(-1) **Short-Legged:** Your Speed decreases by 1 Space.

(-1) **Small-Sized:** Your Size is considered Small.

(-1) **Reckless:** Your PD decreases by 1.

NATURAL WEAPONS

(1) **Natural Weapon:** You have up to 2 Natural Weapons (claws, horns, fangs, tail, etc.) which you can use to make Unarmed Strikes that deal 1 Bludgeoning, Piercing, or Slashing damage (your choice upon gaining this Trait). You can perform Martial Enhancements with your Natural Weapons.

The following Traits require the **Natural Weapon** Trait:

- (2) **Extended Natural Weapon:** Your Natural Weapon now has the Reach Property.

- (1) **Natural Projectile:** You can use your Natural Weapon to make a Ranged Martial Attack with a Range of 10 Spaces. The Natural Weapon might produce a spine, barb, fluid, or other harmful projectile (your choice).

- (1) **Natural Weapon Style:** You can choose 1 Weapon Style that fits your desired Natural Weapon. You can use the chosen Style's Weapon Enhancement when attacking with your Natural Weapon.

- (1) **Rend:** You can spend 1 AP when making an Attack Check with your Natural Weapon to force the target to make a Physical Save. **Failure:** Target begins **Bleeding**.

- (1) **Retractable Natural Weapon:** Your Natural Weapon is able to be concealed or retracted and gains the Concealable Property (gain ADV on the first Attack Check you make in Combat).

- (1) **Venomous Natural Weapon:** When you Hit a creature with your Natural Weapon, they make a Physical Save against your Save DC. **Failure:** The target becomes **Impaired** until the start of your next turn.

MISCELLANEOUS

(2) **Fast Reflexes:** You gain ADV on Initiative Checks and on the first Attack Check you make in Combat.

(1) **Mimicry:** You can mimic simple sounds that you've heard (such as a baby's crying, the creak of a door, or single words) and repeat short 3 word phrases that sound identical to what you heard. A creature can make an Insight Check contested by your Trickery Check to determine if this sound is real.

(2) **Intimidating Shout:** Once per Combat, you can spend 1 AP to let out an Intimidating Shout. All creatures within 5 Spaces that can hear you must make a Charisma Save contested by your Attack Check. **Failure:** A target is **Hindered** on the next Attack Check or Spell Attack it makes before the start of your next turn.

(2) **Toxic Fortitude:** You have Poison Resistance (Half) and ADV on Saves against being **Poisoned**.

(2) **Shoot Webs:** You can spend 1 AP to shoot web at a target within 5 Spaces. Make an Attack Check contested by the target's Physical Save. **Success:** The target is **Restrained** by webbing and can spend 1 AP on their turn to attempt to escape (Acrobatics or Athletics Check vs your Save DC). The webbing can also be attacked and destroyed (PD 5, AD 10, 2 HP; Immunity to Bludgeoning, Poison, and Psychic damage).

CHAPTER 6

CLASSES

DC20 CLASS LIST

In DC20, all characters belong to one of several **Classes**, each defining their role, strengths, and progression in combat and adventure. Classes fall into two primary categories: **Martial** and **Spellcaster**.

Martial Classes rely on physical prowess, tactical skill, and Stamina to overcome their foes—these include the **Barbarian**, **Champion**, **Commander**, **Monk**, **Hunter**, and **Rogue**.

Spellcaster Classes, on the other hand, wield magical power drawn from arcane, divine, or primal sources—such as the **Bard**, **Cleric**, **Druid**, **Sorcerer**, **Warlock**, and **Wizard**.

Standing at the crossroads of both worlds, the **Spellblade** blends martial discipline with spellcasting, making it both a Martial and a Spellcaster Class.

Martial Classes

- Barbarian
- Champion
- Commander
- Hunter
- Monk
- Rogue
- Spellblade*

Spellcaster Classes

- Bard
- Cleric
- Druid
- Sorcerer
- Spellblade*
- Warlock
- Wizard

BARBARIAN

Barbarians charge into battle with reckless abandon, ignoring their own safety as they brush off damage and deal even more in return. They trade defense for more offense and let out blood-crazed battle cries.

Source of Power: Barbarians become overtaken by a surge of strength called Rage. This can manifest as rage, possession, primal power, or something else entirely. A protective Barbarian could tap into their power if their friends are in danger. A frightened Barbarian could lash out when they're scared. There are many possibilities for where a Barbarian's power of Rage comes from.

DC Tip: Or of course an ANGRY Barbarian might want to smash everything in sight!

BARBARIAN CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	STAMINA POINTS	MANEUVERS KNOWN	FEATURES
1	+8				+2	+2	Class Features
2	+2						Class Feature, Talent, Path Progression
3	+2	+1	+1	+1	+1	+1	Subclass Feature
4	+2						Talent, 2 Ancestry Points, Path Progression
5	+2	+1	+2	+1		+1	Class Expert Feature
6	+2		+1				Talent, Path Progression
7	+2				+1	+1	Subclass Expert Feature
8	+2	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+2				+1	+1	Class Capstone Feature
10	+2	+1	+2	+1	+1	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Weapon or Shield.

Armor: 1 set of Armor.

Trade Tools: Choose 1 of any of the following items: Brewer's Supplies, Cooking Utensils, Leatherworker's Tools, or Sculptor's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

BARBARIAN MARTIAL PATH

Combat Training: Weapons, All Armor, All Shields

Maneuvers: The number of Maneuvers you know increases as shown in the Maneuvers Known column of the Barbarian Class Table.

Stamina Points: Your maximum number of Stamina Points increases as shown in the Stamina Points column of the Barbarian Class Table.

Stamina Regen: Once per round, you can regain up to half your maximum SP when:

- You score a Heavy or Critical Hit against a creature.
- A Heavy or Critical Hit is scored against you.

BARBARIAN CLASS FEATURES

LEVEL 1 CLASS FEATURES

RAGE

You can spend **1 AP** and **1 SP** to enter a Rage for 1 minute. For the duration, you're subjected to the following effects:

- You deal **+1** damage on Martial Attacks made using Unarmed Strikes or Melee Weapons.
- You have ADV on Might Saves.
- Your PD decreases by 5.
- You gain Resistance (Half) to Elemental and Physical damage.

Ending Early: Your Rage ends early if you fall **Unconscious**, die, or you choose to end it for free on your turn.

DC Tip: The GM may allow you to Rage during stressful events, such as trying to lift a boulder to save an ally.

BERSERKER

Your primal savagery grants you the following benefits:

Charge: When you make a **Melee Martial Attack** on your turn, you can move up to 2 Spaces immediately before making the Attack.

Berserker Defense: While you aren't wearing Armor, you gain **+2 AD**.

Fast Movement: You gain **+1 Speed**.

Mighty Leap: You can use your Might instead of Agility to determine your Jump Distance and the damage you take from Falling.

SHATTERING FORCE (FLAVOR FEATURE)

When you Hit a structure or mundane object with a Melee Attack, it's considered a Critical Hit.

LEVEL 2 CLASS FEATURES

BATTLECRY

You can spend **1 AP** and **1 SP** to release a shout of your choice listed below. Until the start of your next turn, you and creatures of your choice within 5 Spaces that can see or hear you are subjected to the effects of your shout. A creature can only benefit from the same type of shout once at a time.

- **Fortitude Shout:** Each creature gains Resistance (1) against the next source of Physical or Elemental damage.
- **Fury Shout:** Each creature deals **+1** damage on their next Attack against 1 target.
- **Urgent Shout:** Each creature gains **+1 Speed** until the start of your next turn.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Elemental Fury**
- **Spirit Guardian**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT BARBARIAN

You gain the following benefits for your Barbarian Class Features.

RAGE

You can immediately enter a **Rage** for free as a Reaction upon rolling for Initiative.

BERSERKER

Charge now grants 3 Spaces of movement. The movement granted by your **Charge** ignores Difficult Terrain.

BATTLECRY

The range of Battlecry increases to 10 Spaces.

When you use Battlecry you can spend additional SP to enhance the effect:

Enhanced Fortitude Shout: (1 SP) They gain Resistance (Half) instead.

Enhanced Fury Shout: (3 SP) The additional damage increases by 1.

Enhanced Urgent Shout: (Up to 2 SP) The speed gained is increased by 2 per SP spent.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

ELEMENTAL FURY

RAGING ELEMENTS

You can surround yourself with the elements (such as fire, lightning, water, earth) or violent weather (such as blizzards, storms, volcanoes, or earthquakes). Choose 1 of the following damage types: Cold, Fire, Lightning, or Physical. The chosen Damage Type becomes your Elemental Rage damage. If you chose Physical damage, then each time you Rage you choose Bludgeoning, Piercing, or Slashing damage. While Raging, you gain a 2 Space Aura of elements that grants the following benefits:

Erupting Elements: When a creature within your Aura deals damage to you, they immediately take 1 Elemental Rage damage.

Elemental Blast: You can spend 1 AP and 1 SP to blast 1 or more creatures of your choice within your Aura. Make an Area Spell Attack against the AD of each target within range. **Attack Hit:** A target takes 1 Elemental Rage damage. **Single Target:** If the Attack only targets 1 creature, it targets the creature's PD and they take 2 damage.

Aura Type: Choose 1 of the following additional benefits:

- **Slowing Aura:** Spaces within your Aura count as Difficult Terrain for creatures of your choice. Additionally, when a creature within your Aura fails a Save you force it to make, they're also **Slowed** until the end of their next turn.
- **Splashing Aura:** Once per Turn when you deal Elemental Rage damage to a creature, you can automatically deal 1 Elemental Rage damage to a creature within 1 Space of it.
- **Stunning Aura:** Once per Turn when a creature within your Aura fails a Save you force it to make, it also can't spend AP on Reactions until the start of its next turn.
- **Pushing Aura:** When you use your Elemental Blast, creatures affected must make a Physical Save. **Failure:** Each target is moved 2 Spaces toward or away from you (your choice).

ELEMENTAL AFFINITY (FLAVOR FEATURE)

You are infused with the power of your Element and can make yourself heard over crackling infernos, howling blizzards, thundering storms, and rumbling earthquakes. You gain the following benefits:

- You can make your voice boom up to 3 times louder than normal.
- You can call upon non-harmful magic of your Elemental damage type to swirl around you in a visual display.
- You have Resistance to **Exhaustion** due to environmental effects.

SPIRIT GUARDIAN

ANCESTRAL GUARDIAN

Bestowed Protection: You learn 1 of the following Maneuvers: Brace, Parry, or Protect. If you already know all 3, then you can learn any Maneuver of your choice instead.

Spiritual Aura: While Raging, you gain Mystical Resistance (1) and a 5 Space Aura that grants the following benefits:

- You can use the Shove Action on any creature within your Aura. When you do, the creature is pushed horizontally in a direction of your choice.
- You can use the Brace, Parry, or Protect Maneuvers on any creature within your Aura, provided you know the Maneuver.

ANCESTRAL KNOWLEDGE (FLAVOR FEATURE)

You have ADV on Checks to recall information about the history of your Ancestries (such as Human, Dwarf, or Elf). Additionally, once per Long Rest when you make a Trade or Language Check, you can choose to gain ADV on the Check as a spirit lends you its experience.

BARD

Bards utilize artistic expression through various forms to connect with the emotions and heart of magic. This includes a wide range of mediums such as musical instruments, singing, dancing, drawing, painting, sculpting, poetry, storytelling, inspirational speech, and more. They are great at bringing the best out in those around them through both helping and performing, showcasing high proficiency across multiple disciplines. Bards are remarkably flexible and adaptable spellcasters, capable of tapping into a wide array of magical abilities with the appropriate artistic expression.

Source of Power: Bards derive their power from harnessing their emotions and force of will, as well as those of others around them. The feeling you get when listening to a stirring song, hearing masterfully read poetry, or witnessing a captivating performance that gives you chills, elevates your heart rate, and provokes you to dance, that passion is what fuels their potential. A Bard's emotion, determination, and willpower flows through their unique artistic expression, touching the hearts and minds of those around them and bringing their magic to life.

Bard Flavor: Bards compile a repertoire of artistic expressions that they manifest as Spells. Musician Bards utilize specific songs or instruments to cast Spells, while dancer Bards perform particular dance moves that represent different Spells. Storyteller Bards initiate combat by narrating tales of wonder and adventure, seamlessly weaving Spells into key points of the story. Painter Bards fluidly and freely paint images, each triggering a specific Spell.

BARD CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	MANA POINTS	SPELLS KNOWN	FEATURES
1	+7				+6	+4	Class Features
2	+1						Class Feature, Talent, Path Progression
3	+1	+1	+1	+1	+3	+1	Subclass Feature
4	+1						Talent, 2 Ancestry Points, Path Progression
5	+1	+1	+2	+1	+3	+1	Class Feature
6	+1		+1				Talent, Path Progression
7	+1				+3	+1	Subclass Expert Feature
8	+1	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+1				+3	+1	Class Capstone Feature
10	+1	+1	+2	+1	+3	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Spell Focus, Weapon, or Light Shield.

Armor: 1 set of Light Armor.

Trade Tools: Choose 1 of any of the following items: Calligrapher's Supplies, Disguise Kit, Gaming Kit, Musical Instrument, or Sculptor's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

BARD SPELLCASTING PATH

Combat Training: Spell Focuses, Light Armor, Light Shields

Spell List: When you learn a new Spell, you can choose any Spell from the Enchantment Spell School or with the following Spell Tags: Embolden, Enfeeble, Healing, Illusion, or Sound.

Spells Known: The number of Spells you know increases as shown in the Spells Known column of the Bard Class Table.

Mana Points: Your maximum number of Mana Points increases as shown in the Mana Points column of the Bard Class Table.

BARD CLASS

FEATURES

LEVEL 1 CLASS FEATURES

FONT OF INSPIRATION

You are an ever present source of aid for your allies. You gain the following benefits:

- **Ranged Help Attack:** The range of your Help Action when aiding an Attack increases to 10 Spaces.
- **Help Reaction:** When a creature you can see makes a Check, you can take the Help Action as a Reaction to aid them with their Check, provided you're within range to do so.

DC Tip: Helping with a Skill or Trade Check doesn't have a default range limitation. The GM determines the range of the type of help required.

REMARKABLE REPERTOIRE

You've picked up a few tricks along your travels, granting you the following benefits:

Jack of All Trades: You gain 2 Skill Points.

Magical Secrets: You learn any 2 Spells of your choice from any Spell List.

Magical Expression: You learn to express your art in a unique manner, granting you the ability to alter how you cast Spells. Choose the manner of your expression: Visual or Auditory.

- **Visual:** Through acrobatics, dancing, juggling, painting, drawing, or miming, you can ignore the Verbal Components of a Spell you cast, but you must provide a Somatic Component instead.
- **Auditory:** Through singing, playing music, poetry, comedy, or storytelling, you can ignore the Somatic Components of a Spell you cast, but you must provide a Verbal Component instead.

CROWD PLEASER (FLAVOR FEATURE)

When you spend at least 5 minutes performing an Artistry Trade for one or more people who are actively watching or listening to your performance, you can make an Artistry Trade Check Contested by the targets' Charisma Save.

Success: You gain ADV on Charisma Checks against the target for 1 hour or until you become hostile. Creatures have ADV on the Save if they're considered hostile toward you.

DC Tip: If the performance is in front of a lot of people, the GM might decide to roll for ALL "commoners" in one single Save. For example, a group of commoners' Charisma Save would probably only be a +1 or so. If there were also important NPCs within the crowd, then they could roll for those individually.

LEVEL 2 CLASS FEATURES

BARDIC PERFORMANCE

You can spend 1 AP and 1 MP to start a performance that grants you a 10 Space Aura for 1 minute. Choose 1 of the performances below. While creatures of your choice are within your Aura (and can see or hear you) they benefit from your performance. A creature can only benefit from one instance of each performance at a time.

- **Battle Ballad:** The chosen creatures gain a d4 bonus to the first Attack Check they make on each of their turns.
- **Fast Tempo:** The chosen creatures gain +1 Speed.
- **Inspiring:** The chosen creatures gain 1 Temp HP at the start of each of their turns.
- **Emotional:** Choose 1 of the following Conditions: **Charmed**, **Frightened**, **Intimidated**, or **Taunted**. The chosen creatures have Resistance against the chosen Condition. If a target is effected by the chosen Condition at the start of its turn, it can immediately attempt to end the Condition on itself by Repeating its Save.

Changing Performances: Once on each of your turns, you can spend 1 AP to change your performance to a different one.

Ending Early: The performance ends early if you become **Incapacitated**, you die, or choose to end it for free.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Eloquence**
- **Jester**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT BARD

You gain the following benefits for your Bard Class Features.

FONT OF INSPIRATION

Your Help Die now starts at a d10.

REMARKABLE REPERTOIRE

You gain 2 Skill Points and learn any 2 Spells of your choice from any Spell List.

BARDIC PERFORMANCE

Changing Performances: You can change your performance at the start of each of your turns for free.

When you start your Bardic Performance you can spend an additional 2 MP to improve the performances in the following ways:

- *Battle Ballad:* The size of the die increases to a d8.
- *Fast Tempo:* The Speed increases by 2.
- *Inspiring:* The Temp HP increases by 1.
- *Emotional:* The chosen creatures have Resistance against all of the listed Conditions.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

ELOQUENCE

BEGUILING PRESENCE

You gain the following benefits:

- **Enthrall:** You learn the *Charm* Spell, and it doesn't end as a result of the target taking damage. If you already know it, you instead learn another spell with the Charmed Tag.
- **Misleading Muse:** When a creature within your **Bardic Performance** targets only you with an Attack, you can spend 1 AP as a Reaction to make a Spell Check against the target's Attack Check. **Success:** The creature becomes **Charmed** by you until the end of your next turn. It must target a different creature of its choice (other than itself) within range, or the Attack fails.
- **Mind Games:** When the **Charmed** Condition ends on a creature **Charmed** by you, you can choose to immediately deal 1 Psychic damage to them.

ELOQUENT ORATOR (FLAVOR FEATURE)

Your speech is magically enchanted. Creatures can always understand the words you speak, provided they speak at least 1 Language.

JESTER

ANTAGONIZING ACT

You gain the following benefits:

Heckle: Once per Round when a creature of your choice within your **Bardic Performance** fails a Save, they're **Taunted** by you on the next Attack they make before the end of their next turn.

Distraction: When a hostile creature within 10 Spaces of you makes an Attack, you can spend 1 AP as a Reaction to roll a Help Die and subtract the result from the target's Check.

Pratfall: When you fail a Save imposed by a hostile creature, you can grant a creature within your **Bardic Performance** ADV on a Check of their choice before the end of their next turn.

COMEDIAN (FLAVOR FEATURE)

You have ADV on Checks to make other creatures laugh.

CHAMPION

Champions are weapon and armor specialists that push themselves to the limit in combat. They are able to master a wide variety of weapon types and learn their enemies as they fight them.

Source of Power: Champions train intensely to master all types of weapons and armor. They could be outfitted in heavy armor and a shield, swing a greatsword with ease, or become a highly trained archer.

CHAMPION CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	STAMINA POINTS	MANEUVERS KNOWN	FEATURES
1	+8				+2	+2	Class Features
2	+2						Class Feature, Talent, Path Progression
3	+2	+1	+1	+1	+1	+1	Subclass Feature
4	+2						Talent, 2 Ancestry Points, Path Progression
5	+2	+1	+2	+1		+1	Class Feature
6	+2		+1				Talent, Path Progression
7	+2				+1	+1	Subclass Expert Feature
8	+2	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+2				+1	+1	Class Capstone Feature
10	+2	+1	+2	+1	+1	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Weapon or Shield.

Armor: 1 set of Armor.

Trade Tools: Choose 1 of any of the following items: Carpenter's Tools, Cartographer's Tools, Gaming Kit, or Mason's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

CHAMPION MARTIAL PATH

Combat Training: Weapons, All Armor, All Shields

Maneuvers: The number of Maneuvers you know increases as shown in the Maneuvers Known column of the Champion Class Table.

Stamina Points: Your maximum number of Stamina Points increases as shown in the Stamina Points column of the Champion Class Table.

Stamina Regen: Once per Round, you can regain up to half your maximum SP when you perform a Maneuver.

CHAMPION CLASS

FEATURES

LEVEL 1 CLASS FEATURES

MASTER-AT-ARMS

Your training in warfare has granted you the following benefits:

- **Weapon Master:** At the start of each of your turns, you can freely swap any Weapon you're currently wielding in each hand for any other Weapon without provoking Opportunity Attacks.
- **Maneuver Master:** You learn 1 Maneuver of your choice. Once per Round when you perform a Maneuver, you can reduce its SP cost by 1.

FIGHTING SPIRIT

You stand ready for Combat at any moment, granting you the following benefits:

- **Combat Readiness:** At the start of your first turn in Combat, you gain one of the following benefits:
 - **Fortify:** You gain the benefits of the Dodge Action and ADV on the next Save you make until the end of Combat.
 - **Advance:** You gain the benefits of the Move Action and ADV on the next Martial Attack or Physical Check you make until the end of Combat.
- **Second Wind:** Once per Combat when you start your turn Bloodied, you can regain 2 HP and 2 SP.

KNOW YOUR ENEMY (FLAVOR FEATURE)

You can spend 1 minute observing or interacting with a creature out of Combat (or spend 1 AP in Combat) to learn information about its physical capabilities compared to your own. Choose one of the following stats of the creature to assess: Might, Agility, PD, AD, and HP. Make a DC 10 Knowledge or Insight Check (your choice).

Success: You learn if the chosen stat is higher, lower, or the same as yours.

DC Tip: ** If a creature is better than most at disguising or concealing their "true power" then the GM can increase the DC for this Feature to be used against it. The GM won't tell you if the DC is higher, and if you roll higher than a 10 and still fail... they can lie about what information you gather.

LEVEL 2 CLASS FEATURES

ADAPTIVE TACTICS

When you roll for Initiative, and at the end of each of your turns, you gain a d8 Tactical Die if you don't already have one. You can spend a Tactical Die to gain one of the following Tactics:

- **Assault:** When you make a Martial Attack, you can add the die to the Attack's result.
- **Deflect:** When you are Attacked, you can subtract the die from the Attack's result.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Hero**
- **Sentinel**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT CHAMPION

You gain the following benefits for your Champion Class Features.

MASTER-AT-ARMS

You learn 2 additional Maneuvers of your choice.

FIGHTING SPIRIT

When you gain the benefits of Second Wind, you regain an additional 2 **HP** and 2 **SP**.

ADAPTIVE TACTICS

Your Tactical Die is now a d10.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

HERO

HERO'S RESOLVE

Your warrior spirit refuses to yield in battle. You gain the following benefits:

Adrenaline Boost: When you use your **Second Wind**, you gain a +5 bonus to Martial Attacks and Martial Checks you make until the end of your turn.

Cut Through: Your Martial Attacks that score Heavy Hits ignore the target's Physical Resistances.

Unyielding Spirit: While **Bloodied**, you gain 1 Temp HP at the start of each of your turns.

ADVENTURING HERO (FLAVOR FEATURE)

You ignore the penalties of Forced March and being Encumbered (but not Heavily Encumbered).

SENTINEL

STALWART PROTECTOR

You gain the following benefits:

Steadfast Defender: You can use your **Deflect Tactic** against any Attack that targets a creature within your Melee Range.

Defensive Bash: When you use a Defensive Maneuver as a Reaction to an Attack from a creature within 1 Space of you, the attacker must make a Physical Save against your Attack Check. **Save Failure:** The target is pushed 1 Space away or **Taunted** by you until the end of its next turn (your choice).

Not on my Watch: Creatures **Taunted** by you deal 1 less damage to targets within 1 Space of you.

VIGILANT WATCHER (FLAVOR FEATURE)

During a Long Rest, if you spend both 4 hour periods doing Light Activity, you have ADV on the Might Save you make to avoid gaining **Exhaustion**. Additionally, the Save DC doesn't increase on a Failure.

CLERIC

Clerics can reach out and call upon the power of a deity to aid them in battle and to support them and their allies. Clerics can range from a knowledgeable priest, to a knight in holy armor. They reach out to their deity to empower their magic in ways mortals normally cannot.

Source of Power: Clerics have a relationship with a powerful deity, or deities, that they are in service to. Through their faith, they're granted magical power by their deity. They could serve a good god of life that grants them healing magic, or an evil god of death that grants them abilities to end life.

CLERIC CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	MANA POINTS	SPELLS KNOWN	FEATURES
1	+7				+6	+4	Class Features

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Spell Focus, Weapon, or Light Shield. You can also choose Heavy Shield if you choose the **Peace Domain** option of the **Cleric Order** Feature.

Armor: 1 set of Light Armor. You can choose 1 set of Heavy Armor instead if you choose the **Peace Domain** option of the **Cleric Order** Feature.

Trade Tools: Choose 1 of any of the following items: Brewer's Supplies, Calligrapher's Supplies, Herbalist's Supplies, Musical Instrument, or Sculptor's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

CLERIC SPELLCASTING PATH

Combat Training: Spell Focuses, Light Armor, Light Shields

Spell List: When you learn a new Spell, you can choose any Spell on the Divine Spell Source.

Spells Known: The number of Spells you know increases as shown in the Spells Known column of the Cleric Class Table.

Mana Points: Your maximum number of Mana Points increases as shown in the Mana Points column of the Cleric Class Table.

CLERIC CLASS

FEATURES

LEVEL 1 CLASS FEATURES

CLERIC ORDER

Your connection to your deity grants you the following benefits:

- ♦ **Divine Damage:** Choose an Elemental or Mystical damage type. The chosen damage type becomes your Divine Damage which is used for some Cleric Features.
- ♦ **Divine Domain:** You gain the benefits of 2 Divine Domains of your choice.

DC Tip: Divine Domains are a great way to pick the kind of deity you want to serve. If you pick Life and Fire, perhaps you serve a phoenix themed god of flames and rebirth.

KNOWLEDGE

Your Mastery Limit increases by 1 for all Knowledge Trades. A Trade can only benefit from 1 Feature that increases its Mastery Limit at a time. Additionally, you gain 2 Skill Points.

MAGIC

You gain the benefits listed below. You can choose this Divine Domain multiple times.

- ♦ Your maximum MP increases by 1.
- ♦ Choose a Spell Tag (such as Fire, Healing, or Spirit). You learn 1 Spell with the chosen Spell Tag, and when you learn a new Spell you can choose any Spell that also has the chosen Spell Tag.

DIVINE DAMAGE EXPANSION

When you deal damage with a Spell you can convert the damage to your Divine Damage type. Additionally, you gain Resistance (1) to your Divine Damage type.

LIFE

When you produce an MP Effect that restores HP to at least 1 creature, you can restore **1 HP** to 1 creature of your choice within 1 Space of you (including yourself).

DC Tip: When a feature triggers on an MP effect, it only does so on the turn its used. A feature like the Druid Domain that heals over multiple rounds doesn't benefit from this effect again on subsequent turns.

DEATH

Enemy creatures within 10 Spaces of you take an additional 1 damage from Attacks while they're **Well-Bloodied**.

GRAVE

Allied creatures within 10 Spaces of you take 1 less damage from Attacks while they're **Well-Bloodied**.

LIGHT

When you produce an MP Effect that targets at least 1 creature, you can force 1 target of your choice to make a Might or Charisma Save (their choice). **Failure:** Until the end of their next turn, they shed a 1 Space Aura of Bright Light and are **Hindered** on their next Attack.

DARK

Your mastery over shadows grants you supernatural sight and the ability to hide yourself from other creatures. You gain the following benefits:

- ♦ You gain 10 Space Darkvision. If you already have Darkvision it increases by 5 Spaces.
- ♦ While in an area of Dim Light, you can take the Hide Action to Hide from creatures that can see you. On a Success, you remain Hidden until you move or the area you're in becomes Bright Light.

WAR

You gain Combat Training with Weapons and learn 1 Attack Maneuver of your choice.

PEACE

You gain Combat Training with Heavy Armor and Heavy Shields and learn 1 Defense Maneuver of your choice.

ORDER

Once per turn, when a creature you can see within 10 Spaces of you makes a Check, you can spend **1 AP** as a Reaction to remove all instances of ADV and DisADV from that Check.

CHAOS

When you make a Spell Attack or a Spell Check you can choose to give yourself ADV, but you must also roll on the Wild Magic Table. You can use this Feature once per Long Rest, and regain the ability to use it again when you roll for Initiative.

DIVINATION

You gain the following benefits:

- ♦ You can't be Flanked.
- ♦ When you spend MP, you gain the ability to see **Invisible** creatures and objects until the start of your next turn.

TRICKERY

When you produce an MP Effect that targets at least 1 creature, you can choose 1 of the targets and create an illusory duplicate of it that lasts until the start of your next turn. The next Attack made against the target has DisADV, and causes the illusory duplicate to disappear.

ANCESTRAL

You get 2 Ancestry Points that you can spend on Traits from any Ancestry.

DIVINE BLESSING

You can spend **1 AP** to say a prayer and petition your deity for their divine blessing. Choose 1 of the blessings listed below. Each blessing has a listed MP cost that you must spend to gain the blessing. Once during the next minute, you can apply the blessing to a Spell you cast. If your Spell targets more than 1 creature, the blessing only applies to 1 target of your choice.

- **Destruction:** (1 MP) The target takes **3 Divine** damage, provided that the result of the Check used to cast the Spell is equal to or higher than the target's AD. If the Spell doesn't normally require a Check, then you must make a Spell Attack Check when you apply this blessing.
- **Guidance:** (1 MP) The target gains a **d8 Help Die** that they can add to 1 Check of their choice they make within the next minute. When they use this Help Die, the Check gains **ADV**.
- **Restoration:** (1 MP) The target regains **3 HP**.

Unused Blessing: You can only have 1 blessing at a time. If you petition your deity for a blessing while you already have a blessing, the first blessing immediately ends without granting any benefit. If the blessing ends without granting any benefit, you regain the MP spent to gain the blessing.

DIVINE OMEN (FLAVOR FEATURE)

Once per Long Rest, you can spend 10 minutes to commune with your Deity.

QUESTION

You can ask them 1 question, which must be posed in a way that could be answered with a yes or no.

RESPONSE

The deity responds to the best of their knowledge and intentions in one of the following responses: Yes, No, or Unclear.

A response of Unclear could come from the deity not knowing the answer, wanting to purposefully keep it a secret, the question being phrased in a confusing or complicated way, or there not being a simple answer to the question.

Example: The response could be audible (a formless voice), visual (words that appear in the sky or on a book), symbolic (images and shapes telling a story). The answer could be delivered by a creature (random animal or human becomes possessed and starts talking), in your surroundings (talking flames, whispering wind, moving objects), within your own mind (a dream or vision), or by any other means they want.

DC Tip: Regardless of how the answer is given, it should be clear to the PLAYER what the answer was.

Communing Again: If you commune with your deity more than once per Long Rest, you must make a **DC 15 Spell Check**. **Failure:** You receive no answer. Each time you commune again before you complete a Long Rest, the DC increases by 5.

LEVEL 2 CLASS FEATURES

CHANNEL DIVINITY

You gain the ability to channel the direct power of your deity. When you use this Feature, choose 1 of the options below. You can use this Feature once per Long Rest, and regain the ability to use it again when you roll for Initiative.

DIVINE REBUKE

You can spend **2 AP** to censure all creatures of your choice who can see or hear you within 5 Spaces. Make a Spell Attack against each target's AD, and each target makes a Repeated Mental Save against your Save DC. **Hit:** The target takes **1 Divine Damage**. **Save Failure:** The target becomes **Intimidated** by you for 1 minute or until it takes damage again.

LESSER DIVINE INTERVENTION

You can spend **2 AP** to call on your deity to intervene on your behalf when your need is great to replenish you and your allies. You gain a pool of HP which you can distribute to creatures of your choice within 5 Space to restore their HP (in increments of 1 HP). Make a **DC 15 Spell Check**.

Failure: You gain a pool of **3 HP**. **Success:** You gain a pool of **3 HP** and you regain **1 MP**. **Success (5):** Your pool of HP increases **2**.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Inquisitor**
- **Priest**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT CLERIC

You gain the following benefits for your Cleric Class Features.

CLERIC ORDER

You gain 1 additional Divine Domain.

DIVINE BLESSING

When you use Divine Blessing you can spend additional MP to enhance the effect:

Destruction: The damage increased by 2 per MP spent.

Restoration: The healing increases by 2 per MP spent.

CHANNEL DIVINITY

Divine Rebuke: The damage increases by 1.

Lesser Divine Intervention: The pool of HP increases by 2.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

INQUISITOR

VANQUISH HERESY

You gain the following benefits:

Iron Resolve: You have Resistance to the **Charmed**, **Intimidated**, and **Taunted** Conditions.

Rebuke Heretics: Creatures **Intimidated** by your **Divine Rebuke** (Channel Divinity) don't stop being **Intimidated** if they take damage.

You gain the following **Divine Blessing**:

Chastise: (1 MP) The target is branded as a heretic for 1 minute, granting you the following benefits against it:

- You have ADV on Insight and Intimidation Checks made against the target.
- Once per Round, when you Hit the target with an Attack you can choose to deal +1 Divine Damage to it.

DIVINE INTERROGATOR (FLAVOR FEATURE)

Once per Long Rest, you can interrogate a creature by asking it a Yes or No question. It makes a Charisma Save against your Save DC. **Failure:** It can't tell a lie to the question that you asked it. It can choose not to answer at all, but if it does answer it must be either, "Yes," "No," or "I don't know."

PRIEST

SANCTIFICATION

You gain the following benefits:

- **Divine Barrier:** When you spend MP to heal a creature beyond their HP maximum, they gain an amount of Temp HP equal to the remaining healing. Any Temp HP gained in this way expires after 1 minute.
- **Spare the Dying:** When you spend MP to heal a creature on Death's Door, the HP restored is increased by an amount equal to your Prime Modifier.

You gain a new **Channel Divinity** option:

HAND OF SALVATION

When another creature that you can see within 5 Spaces would be Hit by an Attack, you can spend 2 AP as a Reaction to magically pull the creature to an unoccupied Space within 1 Space of you, provided the creature is willing. The Attack misses and has no effect, and the creature is immune to all damage during this movement.

ALL THAT AILS (FLAVOR FEATURE)

You have an understanding and divine guidance when attempting to learn what is ailing a creature. You have ADV on Checks made to identify or determine the effects of a Disease, Poison, or Curse affecting a creature.

COMMANDER

Commanders are the leaders of the battlefield, inspiring their allies and leading them to victory. They can command their allies to attack or move around the battlefield, and are even able to “heal” allies by making them dig deep within themselves to push forward in combat.

Source of Power: Commanders utilize their extensive leadership skills and tactical battle knowledge. This could come from being a war veteran, inspiring leader, or a tactical mastermind.

COMMANDER CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	STAMINA POINTS	MANEUVERS KNOWN	FEATURES
1	+8				+2	+2	Class Features
2	+2						Class Feature, Talent, Path Progression
3	+2	+1	+1	+1	+1	+1	Subclass Feature
4	+2						Talent, 2 Ancestry Points, Path Progression
5	+2	+1	+2	+1		+1	Class Feature
6	+2		+1				Talent, Path Progression
7	+2				+1	+1	Subclass Expert Feature
8	+2	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+2				+1	+1	Class Capstone Feature
10	+2	+1	+2	+1	+1	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Weapon or Shield.

Armor: 1 set of Armor.

Trade Tools: Choose 1 of any of the following items: Cartographer’s Tools, Calligrapher’s, Cryptographer’s Tools, or Gaming Set.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

COMMANDER MARTIAL PATH

Combat Training: Weapons, All Armor, All Shields

Maneuvers: The number of Maneuvers you know increases as shown in the Maneuvers Known column of the Commander Class Table.

Stamina Points: Your maximum number of Stamina Points increases as shown in the Stamina Points column of the Commander Class Table.

Stamina Regen: Once per Round, you can regain up to half your maximum SP when you grant a creature a Help Die.

COMMANDER CLASS FEATURES

LEVEL 1 CLASS FEATURES

INSPIRING PRESENCE

Once per Round during Combat, when you spend SP you can restore **1 HP** to a creature of your choice within 10 Spaces (including yourself) that can see or hear you. If the creature is on Death's Door, they regain 1 additional HP.

COMMANDER'S CALL

You can spend **1 AP** and **1 SP** to command a willing creature that you can see within 5 Spaces that can also see or hear you. The chosen creature can immediately take 1 of the following Actions of your choice as a Reaction for free. You can only use each of the following commands once on each of your turns.

- **Attack:** The creature makes an Attack with ADV. They can't spend any resources on this Attack, such as AP, SP, or MP.
- **Dodge:** The creature takes the Full Dodge Action.
- **Move:** The creature moves up to their Speed without provoking Opportunity Attacks.

NATURAL LEADER (FLAVOR FEATURE)

You have ADV on Checks made to convince creatures that you are an authority figure. Additionally, you have ADV on the first Charisma Check made to interact with non-hostile members of military groups (such as soldiers, guards, etc.).

LEVEL 2 CLASS FEATURES

COMMANDING AURA

You're surrounded by a 5 Space Aura. You can target any creature within your Aura to grant one of the following effects below, provided the target can see or hear you.

- **Bolster:** (1 AP) You take the Help Action to aid the target with an Attack. You can also do so as a Reaction whenever a valid target makes an Attack.
- **Rally:** (1 AP) You grant creatures of your choice (including yourself) **1 Temp HP**.
- **Reinforce:** (1 AP) When a creature in your Aura is targeted by an Attack, you can impose DisADV on the Attack as a Reaction.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Crusader**
- **Warlord**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT COMMANDER

You gain the following benefits for your Commander Class Features.

COMMANDER'S CALL

The range of your Commander's Call increases to 10 Spaces.

When you use Commander's Call, you can spend 2 additional SP to issue the creature 1 additional command of your choice. The creature chooses the order in which it resolves the granted commands.

Example: You use Commander's Call on an ally and spend 2 additional SP, 3 SP total. You choose the Move and Attack Commands. The creature chooses to up to their Speed without provoking Opportunity Attacks first and then Attacks with ADV after moving.

DC Tip: You can still only use each command once on each of your turns.

INSPIRING PRESENCE

The amount of HP restored by Inspiring Presence is increased by 1.

COMMANDING AURA

When you help a creature within your **Commanding Aura**, your Help Die starts at a d10.

When you use Commanding Aura, you can spend additional SP to enhance its effect:

- **Rally:** The Temp HP granted increases by 1 per 2 SP spent.
- **Reinforce:** You can spend 1 SP to grant the target ADV on any Saves made as part of the Attack.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

CRUSADER

VIRTUOUS VANGUARD

You gain the following benefits:

Aura of Courage: While within your Commanding Aura, creatures of your choice have Resistance to **Frightened** and **Intimidated**.

Protective Orders: When a creature gains the benefits of your **Commander's Call**, they also gain Resistance (1) against the next damage they take before the start of your next turn.

Restoring Rally: When you grant a **Bloodied** creature Temp HP in Combat using **Rally (Commanding Aura)**, they regain that amount of HP instead.

GALLANT HERO (FLAVOR FEATURE)

Your presence is a symbol of hope and safety to those around you. You have ADV on Checks to convince creatures not to be afraid.

DC Tip: This Flavor Feature doesn't interact with Conditions.

WARLORD

OFFENSIVE TACTICS

You gain the following benefits:

- **Morale Breaker:** Once per Combat when you use your **Commander's Call**, you can use the Intimidate Action for free against a creature of your choice within 10 Spaces.
- **Battlefield Tactics:** Allies within your Commanding Aura deal +1 damage on their first Melee Attack on each of their turns against a creature they're Flanking.

You gain a new **Commanding Aura** option:

- **Priority Target:** (1 AP + 1 SP) Choose a creature within 10 Spaces. Until the start of your next turn, each creature within your Aura has ADV on the first Attack it makes on each of its turns against the chosen creature.

BATTLEFIELD TACTICIAN (FLAVOR FEATURE)

Through years of study and experience, you've mastered military history and strategy. You gain ADV on Checks related to analyzing fields of battle, understanding historical battles and military organizations, or deciphering complex tactical maneuvers.

DRUID

Druids tap into the power of nature, drawing upon the energies that flow through the world and creatures around them. and connect to plants, animals, and the plane itself. They can channel both the restorative and destructive forces of nature and shapeshift into wild beasts.

Source of Power: A Druid's connection to nature can come from a deep respect, love, and appreciation of the natural world. Some Druids are blessed by a god or spirit of nature, granting them innate magical abilities. Others immerse themselves in nature by living in the wild, communing with the land and creatures to gain power and insight. They can sense and connect to nature and use its magic as their own.

DRUID CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	MANA POINTS	SPELLS KNOWN	FEATURES
1	+7				+6	+4	Class Features
2	+1						Class Feature, Talent, Path Progression
3	+1	+1	+1	+1	+3	+1	Subclass Feature
4	+1						Talent, 2 Ancestry Points, Path Progression
5	+1	+1	+2	+1	+3	+1	Class Feature
6	+1		+1				Talent, Path Progression
7	+1				+3	+1	Subclass Expert Feature
8	+1	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+1				+3	+1	Class Capstone Feature
10	+1	+1	+2	+1	+3	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: 2 Spell Focuses.

Armor: 1 set of Light Armor.

Trade Tools: Choose 2 of any of the following items: Herbalist's Supplies, Leatherworker's Tools, Sculptor's Tools, or Weaver's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

DRUID SPELLCASTING PATH

Combat Training: Spell Focuses, Light Armor

Spell List: When you learn a new Spell, you can choose any Spell on the Primal Spell Source.

Spells Known: The number of Spells you know increases as shown in the Spells Known column of the Druid Class Table.

Mana Points: Your maximum number of Mana Points increases as shown in the Mana Points column of the Druid Class Table.

DRUID CLASS

FEATURES

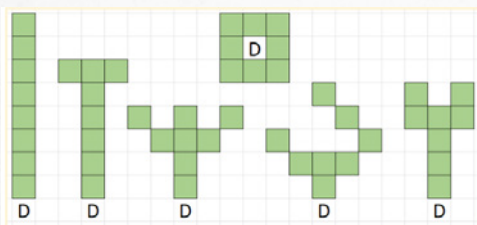

LEVEL 1 CLASS FEATURES

DRUID DOMAIN

You can spend **1 AP** and **1 MP** to create your own Druid Domain that includes small plant life, sand, shallow water, or other naturally occurring features. You create up to 8 Domain Spaces along the ground or walls. The first Domain Space must be within 1 Space of you, and each additional Domain Space must be adjacent to another Domain Space. If you use this Feature again, the first Domain Space of it must be within 1 Space of you or another Domain Space.

Domain Spaces: The area is considered to be **Difficult Terrain** for creatures of your choice, and when you cast a Spell, you can do so as if you were standing in any Space within your Domain.

Losing Domain Spaces: A Domain Space also disappears if you end your turn farther than 15 Spaces away from it or you die.

DOMAIN ACTIONS

While you have Domain Spaces, you can take any of the following Domain Actions:

- **Nature's Grasp:** You can spend **1 AP** to attempt to bind a creature of your choice within your Domain. Make a Spell Check against the target's Repeated Physical Save. **Success:** The target is **Immobilized** by your Domain for 1 minute or until the Domain Space it occupies ends.
- **Move Creature:** You can spend **1 AP** to move a creature bound by this feature up to 2 Spaces within your Domain.
- **Move Object:** You can take the Object Action to use your vines to interact with any object within your Domain as if you were standing in any of your Domain Spaces. When you do, you can move the object up to 5 Spaces within your Domain.
- **Wild Growth:** You can spend **1 AP** and **1 MP** to make a **DC 10** Spell Check to heal a target within your Domain. **Success:** The target immediately regains **1 HP**. For the next minute, they regain an additional **1 HP** each time they end their turn within your Domain. **Success (each 5):** They immediately regain **+1 HP**. **Failure:** The target only regains **1 HP** immediately.

WILD FORM

You can spend **1 AP** and **1 MP** to transform into a Wild Form of your choice. You can spend **1 AP** on your turn to shift back and forth between your True Form and any Wild Forms you currently have available. Once per Long Rest, you can transform without spending MP or using MP enhancements.

TRUE FORM

When you transform from your Wild Form to your True Form, your statistics return to normal. You immediately revert to your True Form when your Wild Form HP is reduced to 0 or you die.

WILD FORM

When you transform into a Wild Form, you gain the Wild Form's current Wild Form HP (see Wild Form HP below), retaining any HP losses.

- **Duration:** Each Wild Form remains available until its Wild Form HP is reduced to 0 or you complete a Long Rest.
- **Multiple Forms:** You can have multiple Wild Forms available at a time which have their own Wild Form HP and Traits.
- **Equipment:** Your equipment falls to the ground or merges into your Wild Form (your choice for each item). You gain the benefits of Magic Items merged with your Wild Form, but you can't activate them or spend their charges.

STATISTICS

While in your Wild Form, you're subjected to the following changes (unless otherwise stated):

- **Stat Block:** You use the Wild Form Stat Block below to determine your statistics.
- **Identity:** You maintain your personality, intellect, and ability to speak.
- **Wild Form HP:** You gain a secondary pool of Wild Form Health Points, which is 3 with a maximum of 3. Damage and healing effects target your Wild Form HP before your True Form HP, and any excess damage or healing carries over to your own HP.
- **Natural Weapon:** You have Natural Weapons (claws, horns, fangs, etc.) which you can use to make Unarmed Strikes that deal **1** Bludgeoning, Piercing, or Slashing damage (your choice when you use this Feature).
- **Features & Talents:** You don't benefit from Talents or Class Features, except Druid Class Features, Subclass Features, and Talents. Additionally, you can't cast Spells or perform Maneuvers.
- **Traits:** You don't benefit from your Ancestry Traits, but you gain **3** Trait Points to spend on Beast Traits or Wild Form Traits of your choice. You can't select negative Beast Traits. When you use this Feature, you can spend additional MP (up to your Mana Spend Limit) to gain 2 additional Trait Points per MP spent.

DC Tip: Most animals can be modeled by giving them the *Keen Senses* and *Skillful Traits*.

WILD FORM STAT BLOCK

Small or Medium Beast (your choice)

HP	3	AP	Same
PD	8+CM+PM	PDR	0
AD	8+CM+PM	MDR	0
SPEED	5	MASTERIES	Same
PRIME	Same	SAVE DC	Same
MIG	1	CHA	Same
AGI	1	INT	Same

DC Tip: Shapeshifting presents a unique problem for players, since they can have Mastery in something that's physically difficult or even impossible for them. Fish don't pick locks and slugs can't intimidate, but maybe a monkey can. Consider changing DCs for Checks in some animal forms.

WILD SPEECH (FLAVOR)

You learn the *Druidcraft* Cantrip and can choose 1 of the following options:

- **Animals:** You can understand and speak with Beasts in a limited manner. You can understand the meaning of their movements, sounds, and behaviors, and they can understand the meanings of simple words, concepts, and emotions.
- **Plants:** You can understand and speak with Plants in a limited manner. You can understand the meaning of their swaying, folding, unfolding of their leaves and flowers, and they can understand the meanings of simple words, concepts, and emotions.
- **Weather:** You can reach out to nature and cast the *Commune with Nature* Spell as a Ritual once per Long Rest.

WILD SPEECH SIDEBAR

One thing to keep in mind with communicating with plants and animals is that they have a very different worldview than people.

Communicating with Animals

The World: An animal might know a lot about the region it lives in, such as local sources of food and water, the presence of other animals, and the location of roads and shelters of nearby savage and civilized societies.

Other Inhabitants: An animal might only recognize the existence of creatures as prey (deer, sheep, and rabbits) and predators (bears, tigers, and wolves).

Quirks: If asked a question, an animal would respond with words rather than sentences, such as "cold", "hungry", "scared", and "safe". They are instinctual creatures that operate on emotion.

Communicating with Plants

The World: A plant might not be able to conceive the possibility of other locations, and may describe creatures as having appeared then disappeared with no notion of where they came from or went to.

Other Inhabitants: A plant might only recognize the existence of creatures as friends (bees, birds, and frogs) and enemies (rabbits, deer, and lumberjacks).

Passing of Time: A seedling might consider a recent event something that happened a moment ago and an ancient event something that happened yesterday. An ancient oak tree might consider a recent event something that happened 10 years ago, and an ancient event something over 100 years.

Expertise: A plant may be able to describe in keen detail the different kinds of rains, storms, quality of soil, and various local bugs and herbivores.

WILD FORM TEMPLATES SIDEBAR

There are a ton of options you can use to make your Wild Form unique, here's some good ideas to get you started.

Defensive

(1) **Resistance (1):** You gain Resistance (1) to Slashing Damage.

(1) **Defensive:** Your PD increases by 2.

(1) **Defensive:** Your AD increases by 2.

Grappler

(2) **Size:** Your size changes to Large.

(1) **Attribute Increase:** You gain +2 to Might, up to your Attribute Limit.

Parkour

(1) **Swift:** Your Speed is increased by 1 Space.

(1) **Jumper:** Your Jump Distance increases by 2, and you can take the Jump Action as a Minor Action.

(1) **Skillful:** Your Skill Mastery in Acrobatics and Athletics both increase by 1, up to your Skill Mastery Cap. If your Mastery with Acrobatics or Athletics is already equal to your Skill Mastery Cap, you instead gain ADV on the Check.

Infiltrator

(2) **Size:** Your size changes to Tiny.

(1) **Skillful:** Your Skill Mastery in Stealth and Awareness both increase by 1, up to your Skill Mastery Cap.

WILD FORM TRAITS

Below is a list of repeatable and unique Wild Form Traits. You can choose repeatable traits multiple times, but unique traits only once.

UNIQUE TRAITS

(2) **Size:** Your size changes to Tiny or Large (your choice).

REPEATABLE TRAITS

(1) **Attribute Increase:** You gain +2 to Might or Agility (your choice), up to your Attribute Limit.

(1) **Defensive:** Your PD or AD increases by 2 (your choice).

(1) **Healthy:** You gain +2 maximum HP.

(1) **Resistance (1):** Choose a Physical or Elemental damage type. You gain **Resistance (1)** to the chosen damage type.

(1) **Skillful:** You gain Skill Mastery in 2 of the following Skills of your choice, up to your Skill Mastery Cap: Acrobatics, Animal, Athletics, Awareness, Intimidation, Stealth, or Survival. If your Mastery with the chosen Skill is already equal to your Skill Mastery Cap, you instead gain ADV on the Check.

(1) **Swift:** Your Speed is increased by 1 Space (you can choose this Trait up to 5 times).

LEVEL 2 CLASS FEATURES

NATURE'S TORRENT

When a creature within 10 spaces of you takes Elemental damage, you can spend **1 AP** as a Reaction to summon a torrent of nature. The torrent fills a 3 Space Diameter Sphere centered on the target that lasts for 1 minute. While creatures are within the area, they have Vulnerability (1) against the triggering damage type and have DisADV on Checks and Saves to resist being moved or knocked **Prone**.

Ending Early: The torrent ends early if you use this Feature again, become **Incapacitated**, die, or choose to end it for free at anytime.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Phoenix**
- **Rampant Growth**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT DRUID

You gain the following benefits for your Druid Class Features.

DRUID DOMAIN

The number of Domain Spaces you create increases to 10.

Losing Domain Spaces: A Domain Space disappears if you end your turn farther than 20 Spaces away from it.

You can spend additional MP when you use Druid Domain to increase the number of Domain Spaces created by 8 per additional MP spent.

Wild Growth: You can spend additional MP to increase the healing by 1 per 2 additional MP spent.

WILD FORM

Your Wild Forms have +1 HP and 1 additional Trait Point.

NATURE'S TORRENT

The range of **Nature's Torrent** increases to 15 Spaces.

When you use **Nature's Torrent**, you can spend MP to enhance its effects:

- **Vulnerability:** (2 MP) The Vulnerability increases by 1.
- **Area:** (X MP) The diameter of the Sphere increases by X.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

PHOENIX

FLAMES OF REBIRTH

You wield the power of fire to lay destruction to what exists and foster new life. You gain the following benefits:

Fiery Form: When you use your **Wild Form**, you can choose for your creature type to become Elemental (Fire) instead of Beast. Additionally, your Wild Forms gain Fire Resistance (1) and you can choose Fire as the damage type of your Wild Form's Natural Weapon.

Cleansing Flames: When a creature within your Druid Domain is Healed by one of your MP effects, you can cure it of a Basic Poison or Basic Disease ailing it or remove one of the following Conditions from it: **Impaired**, **Dazed**, or **Burning**.

Rolling Wild Fire: Creatures of your choice take 1 Fire damage for each Space they move within your **Druid Domain**, or if they start their turn within your Domain.

FIRE WITHIN (FLAVOR FEATURE)

You are unaffected by cold weather conditions and can bring a gallon (4 liters) of liquid to a boil after making physical contact with it or its container for 1 minutes.

RAMPANT GROWTH

OVERGROWTH

You gain the following benefits:

Plant Form: When you use your **Wild Form**, you can choose for your creature type to become Plant instead of Beast. Additionally, your Wild Forms become immune to **Bleeding** and you can choose Poison as the damage type of your Wild Form's Natural Weapon.

Vineguard: Plant-life in your Domain swirls to protect and support you. Creatures of your choice within your Domain gain the benefits of 1/2 Cover.

Thorny Grasp: When a creature fails a Save against your **Nature's Grasp**, it begins **Bleeding**.

SEED VAULT (FLAVOR FEATURE)

You can magically produce the seeds of any mundane plant that you've ever touched.

HUNTER

Hunters are master survivalists and natural explorers. They mark their targets to better track them and take them down, using their mastery over terrain, traps, and weapons to their advantage.

Source of Power: Hunters use their experience and knowledge of the dangers of nature and the creatures that live within it. They can adapt to all sorts of environments and use what they learn to their advantage.

HUNTER CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	STAMINA POINTS	MANEUVERS KNOWN	FEATURES
1	+8				+2	+2	Class Features
2	+2						Class Feature, Talent, Path Progression
3	+2	+1	+1	+1	+1	+1	Subclass Feature
4	+2						Talent, 2 Ancestry Points, Path Progression
5	+2	+1	+2	+1		+1	Class Feature
6	+2		+1				Talent, Path Progression
7	+2				+1	+1	Subclass Expert Feature
8	+2	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+2				+1	+1	Class Capstone Feature
10	+2	+1	+2	+1	+1	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Weapon or Light Shield.

Armor: 1 set of Light Armor.

Trade Tools: Choose 1 of any of the following items: Disguise Kit, Herbalist's Supplies, Leatherworker's Tools, or Sculptor's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

HUNTER MARTIAL PATH

Combat Training: Weapons, Light Armor, Light Shields

Maneuvers: The number of Maneuvers you know increases as shown in the Maneuvers Known column of the Hunter Class Table.

Stamina Points: Your maximum number of Stamina Points increases as shown in the Stamina Points column of the Hunter Class Table.

Stamina Regen: Once per Round, you can regain up to half your maximum SP when:

- When you Hit the target of your Hunter's Mark with a Martial Attack.
- The target of your Hunter's Mark is reduced to **0 HP** or dies.
- You succeed on a Check to recall information about a creature.
- You succeed on a Check to locate an Unseen creature.

HUNTER CLASS

FEATURES

LEVEL 1 CLASS FEATURES

HUNTER'S MARK

You can spend **1 AP** and **1 SP** to focus on and mark a creature you can see within 15 Spaces as your quarry. Alternatively, you can mark a creature by studying its tracks for at least 1 minute. While a creature is marked, you gain the following benefits:

- You have ADV on Awareness and Survival Checks made to find the target.
- The first Martial Attack against your target on your turn has ADV and ignores PDR.
- When you score a Heavy or Critical Hit against the target, you automatically grant a **d8 Help Die** to the next Attack made against the target before the start of your next turn.

The target is marked as long as it's on the same Plane of Existence as you, and vanishes early if you complete a Long Rest, fall **Unconscious**, or use this Feature again to mark another creature.

When a marked creature dies you can spend **1 AP** or **1 SP** as a reaction to immediately Mark another target within range.

FAVORED TERRAIN

You are particularly familiar with two types of environments and are adept at the skills unique to the region. Choose 2 types of Favored Terrain listed below.

- **Coast:** You gain a Swim Speed equal to your Speed (your Weapon Attacks no longer have DisADV as a result of being underwater), you can hold your breath twice as long as normal, and you have ADV on Awareness Checks while underwater.
- **Desert:** You gain Fire Resistance (Half) and Resistance to **Exhaustion** from hot temperatures.
- **Forest:** You gain 2 Skill Points to use on up to 2 of the following Skills: Animal, Awareness, Medicine, Survival, and Stealth.
- **Grassland:** Your Speed and Jump Distance increases by 1.
- **Jungle:** You ignore Difficult Terrain and gain **Poisoned** and **Diseased** Resistance.

DC Tip: *Poisoned Resistance grants ADV on Checks and Saves against being Poisoned, but doesn't grant Damage Resistance against Poison damage.*

- **Mountain:** You gain a Climb Speed equal to your Speed, Resistance to **Exhaustion** from high altitudes, and Resistance (Half) to damage from Falling.
- **Swamp:** You gain Poison Resistance (Half) and **Poisoned** Resistance, and **Diseased** Resistance.
- **Tundra:** You gain Cold Resistance (Half) and Resistance to **Exhaustion** from cold temperatures.
- **Subterranean:** You gain Darkvision 10 Spaces. If you already have Darkvision, its range is increased by 5 Spaces. Additionally, you also gain a Tremorsense of 3 Spaces. If you already have a Tremorsense, it increases by 2 Spaces.
- **Urban:** You gain 2 Skill Points to use on up to 2 of the following Skills: Influence, Insight, Investigation, Intimidation, and Trickery.

Additionally, while you're in one of your Favored Terrains, you have ADV on Stealth and Survival Checks and can't be **Surprised**.

BESTIARY (FLAVOR FEATURE)

You have developed a trove of knowledge hunting creatures which you've recorded in your Bestiary. Your Bestiary can take the form of a book, a memory vault within your mind, or some other representation of your choice. You have ADV on Checks made to learn or recall information about any creature recorded in your Bestiary.

Starting Entries: Choose a Creature Type: Aberration, Beast, Celestial, Construct, Dragon, Elemental, Fey, Fiend, Giant, Humanoid, Monstrosity, Ooze, Plant, or Undead. Your Bestiary includes prerecorded notes about various creatures of the chosen type.

Making New Entries: You can spend 10 minutes of Light Activity recording information into your Bestiary about a specific creature you have slain within the last 24 hours.

LEVEL 2 CLASS FEATURES

HUNTER'S STRIKE

You can spend **1 SP** as part of a Weapon Attack to add 1 of the unique Martial Enhancements listed below. You can only use 1 of these Enhancements per Attack. The damage increases by 1 for each SP spent beyond the first. If an Enhancement forces the target to make a Save, it does so against your Save DC.

- **Acid:** The target takes **1** Corrosion damage and makes an Agility Save. **Save Failure:** The target becomes **Hindered** until the end of your next turn.
- **Fire:** The target takes **1** Fire damage and makes a Might Save. **Save Failure:** The target begins **Burning**.
- **Piercing:** The target takes **1** Piercing damage and makes a Might Save. **Save Failure:** The target begins **Bleeding**.
- **Snare:** The target takes **1** Bludgeoning damage and makes an Agility Save. **Save Failure:** The target becomes **Immobilized** until the end of your next turn.
- **Toxin:** The target takes **1** Poison damage and makes a Might Save. **Save Failure:** The target becomes **Impaired** until the end of your next turn.

DC Tip: It's assumed that the Hunter always has these supplies available to them (oils, tools, accessories, ammo, etc.) and they've prepared them ahead of time or quickly made them on the fly during Combat, however the PC or GM wants to describe it.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Monster Slayer**
- **Trapper**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT HUNTER

You gain the following benefits for your Hunter Class Features.

HUNTER'S MARK

The Help die granted by Hunter's Mark is increased to a d10 and the first Martial Attack against your target on your turn ignores Physical Resistance.

FAVORED TERRAIN

You gain 1 additional Favored Terrain.

HUNTER'S STRIKE

You can use up to 2 Hunter's Strike Enhancements on an Attack.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

MONSTER SLAYER

MONSTROUS CONCOCTIONS

You hunt down your targets with the aid of Concoctions you have learned to create by hunting monsters.

Concoction: You learn how to create 3 Concoctions of your choice from the list below. You can use the Object Action to create a Concoction you know. You can create a number of Concoctions per Long Rest equal to your Prime Modifier. A Concoction becomes inert when you complete a Long Rest.

Administering: You can use the Object Action to fully drink a Concoction or administer it to a willing creature within 1 Space. The drinker becomes subjected to the Concoctions effects for 10 minutes or until they drink another Concoction.

CONCOCTION RECIPES

ELEMENTAL INFUSION

Choose an Elemental damage type when you make this Concoction.

Hunter's Mark: Attacks you make against your Marked target deal +1 damage of the chosen Elemental Damage type.

Elemental Tolerance: You gain Resistance (1) to the chosen Elemental Damage.

HYDRA'S BLOOD

Hunter's Mark: When you Heavy Hit your Marked target, you regain 1 HP.

Poisonous Blood: You have **Poisoned** Resistance and when a creature within 1 Space of you deals damage to you with an Attack, they take 1 Poison damage.

BASILISK EYE

Hunter's Mark: You can sense the vibrations made by your Marked target, giving you Tremorsense 20 Spaces when locating them.

Stone Skin: You gain Physical Resistance (1).

OOZE GEL

Hunter's Mark: When you Heavy Hit your Marked Target, you cover it in slime. It's **Hindered** until it or a creature within 1 Space of it spends 1 AP to remove the slime.

Amorphous Body: You can squeeze through gaps as small as 2 inches (5 cm) and walk normally on solid surfaces regardless of their orientation (such as upside down on the ceiling) without falling or needing to Climb.

ABERRANT TUMOR

Hunter's Mark: While within 20 Spaces of your Marked target, you have ADV when you use Analyze Creature on them and you have ADV on Mental Saves your Marked target forces you to make.

Unreadable: You gain Psychic Resistance (1) and your thoughts can't be read by others unless you allow it.

DEATHWEED

Hunter's Mark: When you score a Heavy Hit against a Marked target it bypasses their Physical Resistances and prevents them from regaining HP until the start of your next turn.

Death State: You enter a state between life and death, granting you Umbral Resistance (Half), **Doomed** Immunity, and ADV on Death Saves.

PLANT FIBERS

Hunter's Mark: If your Marked Target fails a Save you force it to make, they can't move until the end of your next turn.

Plant Stitching: You gain **Bleeding** Immunity and gain 1 Temp HP at the end of each of your turns.

DIVINE WATER

Hunter's Mark: Once on each of your turns when you score a Heavy Hit against your Marked target, it also becomes **Exposed** on the next Attack against it before the end of your next turn.

Brilliant Essence: You gain Radiant Resistance (Half) and radiate Bright Light in a 5 Space Radius.

MONSTER HUNTER (FLAVOR FEATURE)

You are a master at hunting monsters. If you have 3 entries of creatures with the same Creature Type in your **Hunter's Bestiary**, you can add the entire Creature Type as an entry.

Example: Zombies, Vampires, and Liches are all creatures with the **Undead** Creature Type. Once you add each of those 3 Undead creatures into your **Hunter's Bestiary**, you gain an Undead entry in your bestiary that grants you ADV on Checks to learn or recall information about any kind of Undead creature, not just Zombies, Vampires, and Liches.

TRAPPER

DYNAMIC TRAPS

You are able to use a variety of supplies to craft traps.

Creating Traps: You can have a maximum number of Hunter's Traps equal to your Prime Modifier at any time. During a Long Rest, you can craft a number of Traps equal to your Prime Modifier. You can make 1 additional Trap as part of a Short Rest. These Traps use your Save DC when they force a creature to make a Save or when a Check is made to interact with them.

Setting a Trap: You can spend 1 AP to Set and Hide one of your Traps in a Space within 5 Spaces that doesn't already contain a Trap. The Trap is Hidden to creatures, and the DC to discover or disarm the Trap is equal to your Save DC. When you do, you can spend 1 SP to add the damage and effect of one of your **Hunter's Strike** options to the Trap. Once Set, your Traps are unstable and fall apart harmlessly after 1 hour.

DC Tip: Attacks made while Hidden have ADV against unaware creatures. Hidden Traps have ADV on Attacks.

Triggering a Trap: A Trap is Triggered when a creature other than you enters or leaves a Space occupied by the Trap. Alternatively, you can spend 1 AP to Trigger a Trap within 5 Spaces. When Triggered, the Trap makes an Attack for free against the AD of a creature in its Space using your Attack Check. This Attack ignores your Multiple Check Penalty and doesn't progress that penalty.

Hit: The Trap deals Bludgeoning, Piercing, or Slashing damage (your choice when you Set the Trap) equal to your Prime Modifier, plus the damage and effects of your **Hunter's Strike** (if used when you Set the Trap).

Recovering a Trap: You can spend 1 AP while within 1 Space of one of your Set Traps to disarm and recover the use of the Trap. When you do, it loses any damage and effects of your **Hunter's Mark** (if applicable).

Example: A Hunter lays down a Trap 5 Spaces away and chooses the Piercing damage option. They choose to spend 1 SP to add the Fire option from Hunter's Strike to the Trap. When the Trap is triggered, it makes an Attack Check to deal Prime Piercing damage and 2 Fire damage as well as forcing a Save against the **Burning** Condition.

DISCERNING EYE (FLAVOR FEATURE)

You have ADV on Awareness Checks to discover **Hidden** Traps and on Investigation Checks to discern how to disarm them.

MONK

Monks are master martial artists that perfect their mind and bodies utilizing the ebb and flow of their inner energy. They use their body as a weapon and can enter into different stances that drastically change their combat abilities.

Source of Power: Monks have become enlightened and in touch with their inner Ki energy to hone their bodies and minds. Their journey to become a Monk could be from being trained in a monastery, mentored by a mysterious figure, or their own deep meditation.

MONK CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	STAMINA POINTS	MANEUVERS KNOWN	FEATURES
1	+8				+2	+2	Class Features
2	+2						Class Feature, Talent, Path Progression
3	+2	+1	+1	+1	+1	+1	Subclass Feature
4	+2						Talent, 2 Ancestry Points, Path Progression
5	+2	+1	+2	+1		+1	Class Feature
6	+2		+1				Talent, Path Progression
7	+2				+1	+1	Subclass Expert Feature
8	+2	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+2				+1	+1	Class Capstone Feature
10	+2	+1	+2	+1	+1	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: 2 Weapons.

Armor: 1 set of Light Armor.

Trade Tools: Choose 2 of any of the following items: Brewer's Supplies, Calligrapher's Supplies, Cooking Utensils, or Weaver's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

MONK MARTIAL PATH

Combat Training: Weapons, Light Armor

Maneuvers: The number of Maneuvers you know increases as shown in the Maneuvers Known column of the Monk Class Table.

Stamina Points: Your maximum number of Stamina Points increases as shown in the Stamina Points column of the Monk Class Table.

Stamina Regen: Once per Round, you can regain up to half your maximum SP when you succeed on an Athletics Check, Acrobatics Check, or Hit on a Martial Attack.

MONK CLASS

FEATURES

LEVEL 1 CLASS FEATURES

MONK TRAINING

Your martial arts training grants you greater offense, defense, and movement.

Iron Palm: Choose a Melee Weapon Style when you gain this Feature. Your limbs are considered Natural Weapons that deal 2 Bludgeoning damage and can perform the Weapon Enhancement of the chosen Weapon Style.

DC Tip: Your hands are Natural Weapons that count as Melee Weapons for the purposes of Dual Wielding and abilities that require a Melee Weapon.

Patient Defense: While you aren't wearing Armor, you gain +2 PD.

Step of the Wind: You gain the following benefits:

- You gain +1 Speed and Jump Distance.
- You can move a number of Spaces up to your Speed along vertical surfaces and across liquids without falling during your move.
- You can use your Prime Modifier instead of Agility to determine your Jump Distance and the damage you take from Falling.

MONK STANCE

You learn 2 Monk Stances from the list below.

Entering & Exiting: At the start of each of your turns during Combat, you can freely enter or shift into one of your Monk Stances. You can also spend 1 AP or 1 SP on your turn to enter or shift into one of your Monk Stances. You can exit a Monk Stance at anytime. You can only be in 1 Monk Stance at a time.

BEAR STANCE

- You deal +1 damage on Heavy Hits (or higher) and Critical Hits on Martial Attacks made using Unarmed Strikes or Melee Weapons.
- When you Miss using a Melee Martial Attack, you gain ADV on the next Melee Martial Attack you make before the end of your turn. You can only gain this benefit once on each of your turns.

BULL STANCE

- When you Succeed on a Physical Check to push a target, it also takes 1 Bludgeoning damage.
- When you push a target, it's pushed 1 additional Space. Additionally, you can choose to move in a straight line with the target an amount of Spaces equal to how far they're pushed. This movement doesn't provoke Opportunity Attacks or require spending your movement.

COBRA STANCE

- You deal +1 damage on Martial Attacks made using Unarmed Strikes or Melee Weapons against creatures that have damaged you since the start of your last turn.
- When a creature within your Melee Range misses you with a Melee Attack, you can spend 1 AP as a Reaction to make a Melee Martial Attack against it.

GAZELLE STANCE

- Your Speed and Jump Distance increase by 1.
- You ignore Difficult Terrain.
- You gain ADV on Acrobatics Checks and Agility Saves.

MANTIS STANCE

- You have ADV on Checks and Saves made to initiate, maintain, or escape Grapples.
- When you start your turn with at least 1 creature **Grappled**, you gain +1 AP to use on a Grapple Maneuver against a creature you have **Grappled**.

MONGOOSE STANCE

- Your **Melee Martial Attacks** deal +1 damage while you're Flanked.
- When you make a Melee Martial Attack, you choose a second target within your Melee Range. You make a single Attack Check against both targets.

SCORPION STANCE

- Creatures provoke Opportunity Attacks from you when they enter your Melee Range.
- When you make a Melee Martial Attack, you can spend 1 AP to deal +1 damage and force the target to make a Physical Save against your Save DC. **Save Failure:** The target is **Impaired** on the next Physical Check it makes before the end of your next turn.

TURTLE STANCE

- Your Speed becomes 1 (unless it's already lower).
- You gain PDR, EDR, and MDR.
- You have ADV on Might Saves and Saves against being moved or knocked **Prone**.

WOLF STANCE

- After you make an Attack with an Unarmed Strike or a Melee Weapon, you can immediately move up to 1 Space without spending movement.
- You have ADV on Opportunity Attacks, and creatures have DisADV on Opportunity Attacks made against you.

MEDITATION (FLAVOR FEATURE)

You can enter a state of meditation during a Short Rest (1 hour) or longer. Choose 1 Charisma or Intelligence Skill. When you complete the Rest, your Skill Mastery level increases by 1 (up to your Skill Mastery Cap) for the chosen Skill until you complete another Short or longer Rest. While meditating, you remain alert to danger.

LEVEL 2 CLASS FEATURES

SPIRITUAL BALANCE

You gain the power to harness your inner spirit as a counterbalance against your physical energy.

KI POINTS

You have a maximum number of Ki Points equal to your Stamina Points. When your Stamina Point maximum increases, your Ki Point maximum increases equally.

Regaining Ki: When you spend a Stamina Point on your turn, you regain a Ki Point. You regain all spent Ki Points when Combat ends.

KI ACTIONS

You can spend Ki Points to perform the Reactions listed below:

Deflect Attack: When a creature misses you with a Ranged Martial Attack that targets your PD, you can spend 1 or more Ki Points and use a free hand to redirect the Attack at a different creature you can see within 5 Spaces. Make an Attack Check against the new target's PD. **Hit:** The new target takes an amount of damage equal to the Ki Points spent. The damage type is the same as the triggering Attack.

DC Tip: Remember that the original target is who makes the Save against any effects from the attack, so Deflect Attack doesn't protect them from that.

Slow Fall: When you take damage from falling, you can spend 1 or more Ki Points to reduce the damage by an amount equal to the Ki Points spent.

Uncanny Dodge: When a creature makes an Attack against you, you can spend 1 Ki Point to impose DisADV on the attack.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- Astral Self
- Shifting Tide
- Paragon

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT MONK

You gain the following benefits for your Monk Class Features.

MONK TRAINING

Iron Palm: Choose an additional Melee Weapon Style. When you make an Attack with an Unarmed Strike, you can use both Weapon Enhancements.

Step of the Wind: You gain an additional +1 Speed and Jump Distance.

MONK STANCES

You learn 1 additional Monk Stance.

SPIRITUAL BALANCE

Your Ki Point maximum increases by 1. Whenever you regain Ki Points, you regain half of your maximum Ki instead.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

ASTRAL SELF

ASTRAL AWAKENING

Astral Damage: When you gain this feature, choose a Mystical damage type. This damage type is your Astral Damage.

During Combat, you can spend **1 AP** and **1 SP** to manifest a portion of your astral self for 1 minute. For the duration, you gain the following benefits:

- ♦ **Astral Arms:** You manifest 2 astral arms that can only be used to make Unarmed Strikes. They can't otherwise interact with creatures or objects. Attacks made using these Astral Arms have the Reach property, deal **Astral Damage** instead of the normal damage type, and can target PD or AD (choose for each Attack).
- ♦ **Astral Deflection:** You can now use **Deflect Attack** on Ranged Attacks that miss any target within 2 Spaces.

Ending Early: The effect ends early if you fall **Unconscious**, die, or choose to end it for free.

ASTRAL WATCH (FLAVOR FEATURE)

While **Unconscious**, your astral self remains aware of your surroundings. You can hold conversations with nearby creatures as if you were awake. While sleeping normally, you can choose to wake yourself up at any time.

SHIFTING TIDE

EBB AND FLOW

You gain the following benefits:

Ebb: When you enter a new **Monk Stance**, you gain 2 Spaces of movement.

Flow: When you use your **Uncanny Dodge** against a Melee Attack, you can spend **1 AP** to make an Opportunity Attack against the Attacker, provided they're within range.

Changing Tides: You can use your **Deflect Attack** on Melee Martial Attacks from Large or smaller creatures. When you do, you can redirect the Attack to another target within 1 Space of you.

FLUID MOVEMENT (FLAVOR FEATURE)

You can move through Spaces as if you were one size Smaller.

ROGUE

Rogues are skilled, evasive, and cunning. They impose conditions onto enemies, then exploit those weaknesses to inflict even more harm.

Source of Power: Rogues can pinpoint and take advantage of the weaknesses of their enemies and use their nimbleness and cunning to get what they want, in combat and out. They could learn this from being a petty thief, a former noble, or an assassin in training.

ROGUE CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	STAMINA POINTS	MANEUVERS KNOWN	FEATURES
1	+8				+2	+2	Class Features
2	+1						Class Feature, Talent, Path Progression
3	+2	+1	+1	+1	+1	+1	Subclass Feature
4	+1						Talent, 2 Ancestry Points, Path Progression
5	+2	+1	+2	+1		+1	Class Feature
6	+1		+1				Talent, Path Progression
7	+2				+1	+1	Subclass Expert Feature
8	+1	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+2				+1	+1	Class Capstone Feature
10	+1	+1	+2	+1	+1	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Weapon or Light Shield.

Armor: 1 set of Light Armor.

Trade Tools: Choose 1 of any of the following items: Cryptographer's Tools, Disguise Kit, Herbalist's Supplies, or Lockpicking Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

ROGUE MARTIAL PATH

Combat Training: Weapons, Light Armor, Light Shields

Maneuvers: The number of Maneuvers you know increases as shown in the Maneuvers Known column of the Rogue Class Table.

Stamina Points: Your maximum number of Stamina Points increases as shown in the Stamina Points column of the Rogue Class Table.

Stamina Regen: Once per Round, you can regain up to half your maximum SP when:

- You Hit a Flanked or Prone target.
- You Hit a target affected by at least 1 Condition.
- You Hit a target you're Hidden from.
- You gain the benefits of your Cunning Action.

ROGUE CLASS

FEATURES

LEVEL 1 CLASS FEATURES

DEBILITATING STRIKE

When you make a Weapon Attack, you can spend 1 SP to force the target to make a Physical Save against your Save DC. **Save Failure:** The target suffers 1 of the following effects of your choice for 1 Round: **Deafened**, **Exposed**, **Hindered**, or **Slowed** 2. A target can't be affected by the same option more than once at a time.

ROGUEISH FINESSE

Cunning Action: You gain movement equal to half your Speed when you take the Disengage, Feint, or Hide Actions. You can use this movement immediately before or after you take the Action.

Skill Expertise: Your Skill Mastery Limit increases by 1, up to Grandmaster (+10). A Skill can only benefit from one increase to its Mastery limit.

Multi-Skilled: You gain 1 Skill Point.

CYPHER SPEECH (FLAVOR FEATURE)

You become Fluent in a Mortal Language of your choice. Additionally, you understand how to speak in code with a specific demographic of your choice (such as upper society, lower society, a faction, etc.). Your coded messages can be concealed in normal conversation and written communications. This allows you to leave simple messages such as "Safety", "Threat", or "Wealth", or mark the location of a cache, a secret passageway, a safehouse, or an area of danger.

DC Tip: This could be anything from the slang of the slums, to the fancy language of the upper classes. It could even be more specific as some kind of bizarre double speak between twin siblings or between the political elite. If the Player doesn't know what to choose for this, they can always defer to a generic thieves guild option.

LEVEL 2 CLASS FEATURES

CHEAP SHOT

You deal +1 damage on Martial Attacks against a creature that fulfills at least one of the following:

- It's Flanked or Prone.
- It has any Condition other than Invisible.
- You're Hidden from it.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- Long Death
- Swashbuckler
- Paragon

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT ROGUE

You gain the following benefits for your Rogue Class Features.

DEBILITATING STRIKE

When you use Debilitating Strike, you can spend SP to choose an additional condition per SP spent.

ROGUSH FINESSE

You gain 1 Skill Point.

CHEAP SHOT

Cheap Shot now deals +2 damage instead.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

LONG DEATH

THOUSAND CUTS

When a creature fails its Save against your **Debilitating Strike**, it also begins **Bleeding** (even if it's immune to the Condition). If a creature is affected by **Bleeding** from this Feature, the DC to end any **Bleeding** on it is equal to your Save DC and it can no longer be ended by regaining HP.

DC Tip: These Rogues are able to apply magic or alchemical toxins to their blades that eat away at their targets over time, even things like Elementals or Undead that don't have blood. The specific narrative reasoning is up to you.

HUNDRED WAYS TO DIE (FLAVOR FEATURE)

You are an expert at studying and identifying weaknesses in bodies and how best to kill creatures. You have ADV on any Check made to determine how something died or could die easier. This also extends to poisons, toxins, or identifying other materials used to kill.

SWASHBUCKLER

RENEGADE DUELIST

You're skilled at making a mockery of your opponents while taking advantage of their openings. You gain the following benefits:

- **Flourishes:** Your Cunning Action now also includes the Disarm and Dodge Actions.
- **Taunting Shot:** Once per round, when you make an Attack against a creature that fulfills the criteria for **Cheap Shot**, you can forgo your **Cheap Shot** damage to force the target to make a Charisma Save instead. **Save Failure:** The target is **Taunted** by you until the end of your next turn.
- **Riposte:** When a creature within your Melee Range misses you with an Attack, it provokes an Opportunity Attack from you.

TALL TALES (FLAVOR FEATURE)

You know how to play to a crowd. You can spend up to 5 minutes telling a story to a crowd of creatures (that are not immediately hostile to you) and keep their rapt attention the entire time. During this story, creatures within the crowd have DisADV on Awareness Checks.

DC Tip: A creature with DisADV on Awareness would have a -5 penalty to their Passive Awareness.

SORCERER

Sorcerers tap into the raw magic in their own bodies as a conduit to harness, manipulate, and sculpt magic with wild resolve. They can overload themselves and even cast Spells without Mana, pushing the limits of magic and their own bodies.

Source of Power: A Sorcerer's magic is in their blood, allowing them to tap into it naturally and use it in ways others can't. This could come from a lineage of angels, dragons, demons, or something else. Some Sorcerers' power could come from an incident that caused their body to be suffused with magic (such as a magical explosion, a blessing, or curse).

SORCERER CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	MANA POINTS	SPELLS KNOWN	FEATURES
1	+7				+6	+4	Class Features
2	+1						Class Feature, Talent, Path Progression

STARTING EQUIPMENT

Arsenal: 2 Spell Focuses.

Armor: 1 set of Light Armor.

Trade Tools: Choose 2 of any of the following items: Alchemist's Supplies, Calligrapher's Supplies, Jeweler's Tools, or Weaver's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

SORCERER SPELLCASTING PATH

Combat Training: Spell Focuses, Light Armor

Spell List: You choose 1 Spell Source (Arcane, Divine, or Primal). When you learn a new Spell, you can choose any Spell from the chosen Spell Source.

Spells Known: The number of Spells you know increases as shown in the Spells Known column of the Sorcerer Class Table.

Mana Points: Your maximum number of Mana Points increases as shown in the Mana Points column of the Sorcerer Class Table.

SORCERER CLASS

FEATURES

LEVEL 1 CLASS FEATURES

INNATE POWER

Choose a Sorcerous Origin that grants you a benefit: Intuitive Magic, Resilient Magic, or Unstable Magic. Additionally, you gain the following benefits:

- Your Maximum MP increases by 1.
- You gain the benefit of a 1 point Focus Property of your choice. You can change the Property when you complete a Long Rest.

SORCEROUS ORIGINS

- **Intuitive Magic:** You learn 2 Spells of your choice from your Spell List.
- **Resilient Magic:** You gain **Dazed** Resistance.
- **Unstable Magic:** When you Critically Succeed or Fail on a Spell Attack or Spell Check, roll on the Wild Magic Table. If it's a Critical Success you roll with ADV, if it's a Critical Failure you roll with DisADV. The effect lasts until the end of your next turn, unless stated otherwise. When you roll on the **Wild Magic Table** in this way, you gain ADV on the next Spell Attack or Spell Check you make before the end of your next turn.

SORCERER WILD MAGIC TABLE

d20	Wild Surge Outcome
1	You turn into a small creature with the stats of a Sheep (HP 2, PD & AD 5, Melee Attack +2, Damage 1).
2	A wave of magic explodes out from you. You take True damage equal to your Prime Modifier and creatures within 5 Spaces must succeed a Physical Save against your Save DC or take the same amount of damage.
3	You are Stunned 3 .
4	You are overcome by a wave of lethargy. You have DisADV on all Checks and Saves.
5	You are Stunned 1 .
6	You are Blinded and Deafened .
7	All living creatures become Invisible to you.
8	You gain a d4 penalty on all Checks and Saves.
9	You grow by 1 Size, become 2 times heavier, and your Speed is reduced by 2.
10	A strong gravitational pull originates from you. All creatures within 5 Spaces must make a Might Save or be pulled 4 Spaces toward you.
11	Forceful winds shoot out from you in all directions. All creatures within 5 Spaces (except you) must make a Might Save or be pushed 4 Spaces away from you.
12	You grow by 1 Size, become one and a half times heavier, and your Speed is increased by 2.
13	You gain a d4 bonus to all Checks and Saves.
14	You gain a Truesight of 10 Spaces.
15	You become Invisible .
16	Your maximum AP increases by 1 and you gain 1 AP.
17	You become energized. You have ADV on all Checks and Saves.
18	You gain a surge of power, granting you +5 to all Spell Checks you make.
19	You overflow with life energy. You and creatures within 5 Spaces regain HP equal to your Prime Modifier.
20	You turn into a large creature with the stats of a Young Purple Dragon , but without a Breath Weapon (HP 30, PD & AD 16, Attack +10, Damage 4, Fly Speed 6).

OVERLOAD MAGIC

You can spend **1 AP + 1 MP** in Combat to channel raw magical energy for 1 minute, or until you become **Incapacitated**, die, or choose to end it early at any time for free. For the duration, your magic is overloaded and you're subjected to the following effects:

- You gain **+5** to all Spell Attacks and Spell Checks you make.
- You must immediately make an Attribute Save (your choice) against your Save DC upon using this Feature, and again at the start of each of your turns. **Failure:** You gain **Exhaustion**. You lose any **Exhaustion** gained in this way when you complete a Short Rest.

SORCERY (FLAVOR FEATURE)

You learn the *Sorcery* Spell.

LEVEL 2 CLASS FEATURES

META MAGIC

You gain 2 unique Spell Enhancements from the list below. You can only use 1 of these Spell Enhancements per Spell you cast. MP spent on these Spell Enhancements don't count against your Mana Spend Limit.

- **Careful Spell:** (1 MP) When you Cast a Spell that targets an area (such as a Line, Cone, or Sphere), you can choose to exclude creatures of your choice from the Spell's damage and effects.
- **Distant Spell:** (1 MP) When you cast a Spell, you can increase its range by 2 Spaces if it has a range of 1 Space or by 10 Spaces if its range is greater than 1 Space.
- **Quickened Spell:** (1 MP) You can reduce the AP cost of a Spell by 1 (minimum of 1 AP).
- **Subtle Spell:** (1 MP) You can cast the Spell without requiring any Somatic and Verbal Components.
- **Transmuted Spell:** (1 MP) When you cast a Spell that deals damage, you can change its damage type to any other damage type of your choice (except True damage).
- **Vicious Spell:** (1 MP) When you cast a Spell that forces a creature to make a Save to resist its effects, 1 target of your choice has DisADV on its first Save against the Spell.

Once per Long Rest, you can use 1 of these unique Spell Enhancements without spending MP. You regain the ability to do so again when you roll for Initiative.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- Angelic
- Draconic
- Paragon

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT SORCERER

You gain the following benefits for your Sorcerer Class Features.

INNATE POWER

Your Maximum MP increases by 1.

You gain the benefit of an additional 1 point Focus Property of your choice. You can change either or both Properties whenever you finish a Long Rest.

OVERLOAD MAGIC

You no longer need to make an Attribute Save upon using Overload, but you still need to make a Save at the start of each of your turns while Overloaded.

META MAGIC

You learn 1 additional Meta Magic option of your choice. You can now use 2 Meta Magic Spell Enhancements at a time, provided you don't use the same option more than once.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

ANGELIC

CELESTIAL SPARK

You can use a Minor Action to emit Bright Light within a 5 Space Radius and can end the effect at any time. You also gain the following abilities:

Celestial Origin: You gain access to the Angelborn Ancestry and you gain 2 Ancestry Points that can only be spent on Angelborn Traits.

Celestial Protection: You learn the Careful Spell Meta Magic option (choose another Meta Magic option if you already know it) and Careful Spell now costs **0 MP** to use.

Celestial Overload: Once per Combat while you're Overloaded, you can spend **1 AP** to release a burst of radiant light in a 5 Space Aura. Creatures of your choice within range are either healed or seared by the light (your choice for each creature).

- **Healed:** The creature regains **1 HP**.
- **Seared:** Make a Spell Attack against the AD of each target. **Hit:** The target takes **1 Radiant** damage.

CELESTIAL APPEARANCE (FLAVOR FEATURE)

You gain additional angelic features such as sparkling skin, feathers, a faint halo, or other changes of your choice. If you already have these features, they're enhanced or expanded upon. Additionally, you gain 1 level of Language Mastery in Celestial. If you're already Fluent in Celestial, you gain 1 level of Language Mastery in another Language of your choice.

DRACONIC

DRACONIC SPARK

You gain the following abilities:

Draconic Origin: You gain access to the Dragonborn Ancestry and you gain 2 Ancestry Points that can only be spent on Dragonborn Traits. Additionally, choose a Draconic Origin from the Dragonborn Ancestry if you haven't already.

Draconic Overload: While Overloaded, you gain Resistance (1) to Physical damage and your Draconic Origin damage type.

Draconic Transmutation: You gain the Transmuted Spell Meta Magic (choose another Meta Magic option if you already have Transmuted Spell). Transmuted Spell now costs you **0 MP** to use if you change the damage type to your Draconic Origin damage type.

DRACONIC APPEARANCE (FLAVOR FEATURE)

You gain additional draconic features such as scales, fangs, claws, or other changes of your choice. If you already have these features, they're enhanced or expanded upon. Additionally, you gain 1 level of Language Mastery in Draconic. If you're already Fluent in Draconic, you gain 1 level of Language Mastery in another Language of your choice.

SPELLBLADE

Spellblades combine their combat prowess with their ability to harness and channel magic into weapons. They can form a bond with a weapon to imbue it with damage, call it back to them, and more. Spellblades can learn a wide range of disciplines depending on their unique combination of martial and spellcasting prowess. They even gain the ability to cast spells through their weapons.

Source of Power: Spellblades are unique in that there are a variety of ways and sources for them to harness their power. They could draw this magic from a wide variety of sources. Here are just a few examples:

- Power bestowed by a patron, deity, or some powerful entity that takes an interest in them.
- An external or supernatural force that even they don't fully understand.
- Their own bloodline or connections to the past.
- Their careful study and practice of both swords and spells.
- They take up their blade in honor of a deity, cause, or goal.
- They make an oath or vow to someone (or themselves) to stand for or against something.
- An expression of emotion through artistic flourishes with their weapon.
- A strange weapon they pulled from a stone granted them the powers of a Spellblade.

STARTING EQUIPMENT

Arsenal: Choose 3 of any of the following items: Spell Focus, Weapon, or Light Shield. You can also choose Heavy Shield if you choose the **Warrior Discipline** option of the **Spellblade Disciplines** Feature.

Armor: 1 set of Light Armor. You can choose 1 set of Heavy Armor instead if you choose the **Warrior Discipline** option of the **Spellblade Disciplines** Feature.

Trade Tools: Choose 1 of any of the following items: Blacksmith's Tools, Jeweler's Tools, Leatherworker's Tools, or Tinkerer's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

SPELLBLADE CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	STAMINA POINTS	MANEUVERS KNOWN	MANA POINTS	SPELLS KNOWN	FEATURES
1	+8				+1	+1	+3	+2	Class Features
2	+1								Class Feature, Talent, Path Progression
3	+2	+1	+1	+1		+1	+2		Subclass Feature
4	+1								Talent, 2 Ancestry Points, Path Progression
5	+2	+1	+2	+1	+1		+1	+1	Class Feature
6	+1		+1						Talent, Path Progression
7	+2					+1	+2		Subclass Expert Feature
8	+1	+1	+1	+1					Talent, 2 Ancestry Points, Path Progression
9	+2				+1		+1	+1	Class Capstone Feature
10	+1	+1	+2	+1		+1	+2		Subclass Capstone Feature

SPELLBLADE MARTIAL PATH

Combat Training: Weapons, Spell Focuses, Light Armor, Light Shields

Maneuvers: The number of Maneuvers you know increases as shown in the Maneuvers Known column of the Spellblade Class Table.

Stamina Points: Your maximum number of Stamina Points increases as shown in the Stamina Points column of the Spellblade Class Table.

Stamina Regen: Once per Round, you can regain up to half your maximum SP when you Hit with a Spell Attack or succeed on a Spell Check.

SPELLBLADE SPELLCASTING PATH

Spell List: Choose 2 Spell Schools. When you learn a new Spell, you can choose any Spell from the chosen Spell Schools or that have the Weapon or Ward Spell Tags.

Spells Known: The number of Spells you know increases as shown in the Spells Known column of the Spellblade Class Table.

Mana Points: Your maximum number of Mana Points increases as shown in the Mana Points column of the Spellblade Class Table.

SPELLBLADE CLASS FEATURES

LEVEL 1 CLASS FEATURES

BOUND WEAPON

During a Quick Rest, you can magically bond with 1 Weapon and choose an Elemental or Mystical damage type to become your Bound Damage type. This bond lasts until you end it for free or use this feature again.

Your Bound Weapon gains the following properties:

- **Smite:** When you make a Martial Attack with the Weapon, you can spend 1 or more SP to deal +1 Bound Damage per SP spent. When you do, you also gain the benefits of 1 Martial Enhancement of your choice for free.
- **Somatic Weapon:** You can use your Bound Weapon to perform the Somatic Components of a Spell.
- **Illuminate:** You can cause the Weapon to emit a 5 Spaces of Dim or Bright Light (you choose the light's appearance). You can extinguish, produce, or adjust the level of this illumination at any time for free.
- **Recall:** While the Weapon is within 20 Spaces and isn't being held or secured, you can call your Weapon back to you for free, causing it to fly to you. If you don't have a free hand when you call it, or you choose not to grab it, it falls in your Space at your feet.

Ending Early: Your bond with the Weapon ends early if you use this Feature again, or you choose to end it for free.

SPELLBLADE DISCIPLINES

You learn 2 Spellblade Disciplines from the list below.

MAGUS

You gain the following benefits:

- Your Maximum MP increases by 1.
- You learn 1 additional Spell.

WARRIOR

You gain the following benefits:

- You gain Heavy Armor and Heavy Shield Training.
- You learn 1 Maneuver.

ACOLYTE

You can spend 1 AP and 1 MP to produce 1 of the following effects:

- **Heal:** You gain a pool of HP which you can distribute to creatures of your choice within 5 Spaces to restore their HP (in increments of 1 HP). Make a **DC 10** Spell Check. **Failure:** You gain a pool of 2 HP. **Success:** You gain a pool of 3 HP. **Success (each 5):** The pool increases by 1 HP.

Example: If a Spellblade chooses **Heal** when using their **Acolyte Discipline** and gets a result of 20 on their Spell Check, they would gain a pool of 5 HP.

- **Cure:** You can attempt to remove 1 Basic Poison or Basic Disease from a creature of your choice within 1 Space of you. Make a Spell Check against the DC of the Poison or Disease. **Success:** The chosen Poison or Disease ends on the target.

HEX WARRIOR

You can spend 1 AP and 1 MP to Curse a creature within 10 Spaces for 1 minute. You make a Spell Check against the target's Repeated Physical Save. **Save Failure:** The target is Cursed for the duration. While Cursed in this way, the target can't regain HP, becomes **Dazed** or **Impaired** (your choice), and takes 1 Umbral damage at the start of each of their turns.

SPELL BREAKER

You can initiate a Spell Duel as the Challenger without spending MP using a Weapon you're wielding, provided the Caster or a target is within your Weapon's range or you're in a Space between them. When you do, you make a Martial Check instead of a Spell Check. You can also spend 1 or more SP to gain a +1 bonus on your Check per SP spent (you can still spend MP as normal to gain +2 on your Check per MP spent). You have ADV on your Check if you are within 1 Space of the Caster.

SPELL WARDER

When you deal Elemental or Mystical damage with an Attack, you gain Resistance (1) to that damage for 1 Round. If you deal Elemental or Mystical damage again while this is already active, you can choose to keep the current Resistance or switch it out for the new one instead.

BLINK BLADE

Once per turn when you make an Attack, you can choose to teleport to a Space you can see within 1 Space immediately before or after making the Attack (your choice).

SENSE MAGIC (FLAVOR FEATURE)

You can spend 1 minute focusing your mind to detect the following creature types within 20 Spaces: Aberration, Celestial, Elemental, Fey, Fiend, or Undead. Make a Spell Check against each creature's Mental Save. **Check Success:** You learn the target's creature type and know its location until the end of your next turn. **Check Failure:** You learn nothing and can't use this Feature against the target again until you complete a Long Rest.

LEVEL 2 CLASS FEATURES

SPELLSTRIKE

Once on each of your turns when you make a Martial Attack, you can also cast a Spell as part of the same Action, spending 1 AP less than normal.

Converged Action: When you do, the Spell can only target 1 creature who must be a target of the Attack, and the range of the Attack can't exceed the range of the Spell. If the Spell requires a Check, it uses your Attack Check instead. Any Saves the Spell forces the target to make are made against your Save DC.

Harmonic Strike: The Martial Attack and Spell from a Spellstrike are treated as 1 Attack, and can benefit from Martial Enhancements and Spell Enhancements. The Spell doesn't require Somatic Components.

DC Tip: Because it's treated as 1 Attack, the damage from the Martial Attack and Spell benefit from Critical Hits, Heavy Hits, and beyond only once.

Example 1: A Spellblade makes a Weapon Attack using a Shortsword (1 Slashing damage) as part of the Attack Action. They choose to use Spellstrike, which lets them also cast a Spell as part of the same Action. They choose the **Fire Bolt** Spell (1 Fire damage). Normally the Spell costs 1 AP to cast, but now costs 0 AP (since Spellstrike reduces its cost by 1). On a Hit, the Spellstrike deals 2 total damage (1 Slashing and 1 Fire).

Extended Example 1: The same Spellblade from Example 1 can add even more to their Spellstrike, by spending AP to add Martial Enhancements or to add the **Fire Bolt** Spell's Spell Enhancement options that cost AP. You can also spend SP to use **Smite**.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- **Paladin**
- **Rune Knight**
- **Paragon**

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT SPELLBLADE

You gain the following benefits for your Spellblade Class Features.

BOUND WEAPON

Bound Damage: Your Bound Damage now ignores Resistance to its damage type.

SPELLBLADE DISCIPLINE

You gain 1 Additional Spellblade Discipline.

The following Disciplines are changed in the following ways:

- **Acolyte:** You can spend additional MP to increase the healing by 2 for each additional MP spent.
- **Hex Warrior:** You can spend additional MP increase the damage by 1 for each additional MP spent.
- **Spell Warder:** When you gain the Resistance granted by Spell Warder, you can spend 1 MP to gain Resistance (Half) to the damage type instead.

SPELLSTRIKE

The Spell you cast as part of Spellstrike can target multiple creatures or an Area, provided at least one of the Spell targets is also a target of the Martial Attack.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

PALADIN

HOLY WARRIOR

You gain the following benefits:

Aura of Protection: Creatures of your choice within 2 Spaces of you have ADV on Mental Saves.

Divine Strike: When you deal damage with **Spellstrike**, you can change the Spell's damage to Radiant or Umbral (choose when you gain this Feature).

Lay on Hands: You gain the Acolyte Discipline. If you already know that Discipline, you gain another one of your choice. Once per Long Rest, you can use the Acolyte Discipline without spending MP and gain a +5 bonus on your Spell Check.

OATHSWORN (FLAVOR FEATURE)

You make an oath to uphold the tenets of your choice below (or create your own with GM approval). While you're following your oath, you have ADV on Checks made to convince non-hostile creatures to join you in doing so.

TENETS

Heart of Bravery: You must be courageous in all things and fight for what is right, whether on the battlefield or within oneself.

Light in the Darkness: You must be a beacon of hope for others and bring hope to the hopeless when all seems lost.

Instill Pain: Teach your enemies the meaning of pain so they may experience it for themselves and learn to never do it to others again.

Peacekeeper: You must always seek peace with your enemies first.

Protect the Weak: You must protect those that cannot protect themselves.

Unrelenting Effort: You must try your best in all things, never carelessly doing anything.

Vengeance: You must seek revenge on those who have harmed you, your loved ones, or the innocent.

DC Tip: The GM can provide omens or warnings to the PC that they're at risk of breaking their Tenets, which may come with consequences (at the GM's discretion), such as sudden headaches, a sense of dread, or visions.

RUNE KNIGHT

RUNE WEAPON

You can inscribe a magical Rune as you bond with your Bound Weapon, which can only bear 1 Rune at a time and lasts until the bond ends. When you complete a Quick Rest, you can change the Rune to another Rune you know. You learn 2 Runes from the following list:

EARTH RUNE

Earthquake: When you **Smite** a target, you can create an area of Difficult Terrain on the ground in a 3 Space diameter Sphere centered on the target.

Unmovable: You have ADV on Checks and Saves against being knocked **Prone** or moved.

FLAME RUNE

Scorching: When you **Smite** a creature with the Weapon, they must make a Physical Save. **Save Failure:** The target begins **Burning**.

Hearth: You regain 2 Rest Points when you complete a Short Rest, provided you engaged in Combat since applying this Rune.

FROST RUNE

Frostbite: When you **Smite** a creature with the Weapon, they must make a Physical Save. **Save Failure:** The target is **Immobilized** by ice for 1 Round.

Glacier: When you roll Initiative, you gain 2 Temp HP.

LIGHTNING RUNE

Charged: When you **Smite** a creature with the Weapon, they must make a Physical Save. **Save Failure:** The target is **Stunned 1** until the end of your next turn.

Quickness: Your Speed increases by 1.

WATER RUNE

Wave: When you **Smite** a creature with the Weapon, they must make a Physical Save. **Save Failure:** The target is knocked **Prone**.

Healing Waters: When an MP Effect restores your HP, you regain 1 additional HP.

WIND RUNE

Hurricane: When you **Smite** a creature with the Weapon, they must make a Physical Save. **Save Failure:** The target is pushed 1 Space horizontally in a direction of your choice.

Wind Swept: You gain +3 Jump Distance and your Jump Distance is no longer halved when performing a Stand Jump.

RUNE EXPERT (FLAVOR FEATURE)

You have ADV on Checks made to understand the purpose and meaning of any magical rune you can see.

RUNE NAMES

Here's a section to add some flavor to the names of the runes.

ENGLISH	NORDIC	LATIN
Earth	Uruz	Terra
Flame	Ild	Ignis
Frost	Isaz	Frigus
Lightning	Thurisaz	Fulmen
Water	Laquz	Aqua
Wind	Ansuz	Ventus

WARLOCK

Warlocks make a pact with a powerful entity that grants them magic. Their body and soul are a part of this contract and as such, they can tap into their own life force to enhance and amplify their magic and capabilities as well as drain the life force of other living creatures. They also choose a type of pact to be made that grants more powers.

Source of Power: Warlocks gain their power through a pact with a powerful entity. By making a deal with this entity (and following the conditions), they gain access to magic that they can channel as their own. Unlike a Cleric (who believes in, follows, and has a true relationship with their deity), Warlocks simply make a deal and have more of a transactional or business relationship with their patron. Pacts can be made with all sorts of entities of all ranges of power levels as well, such as gods, devils, fey creatures, otherworldly beings, dragons, and even other powerful Warlocks.

Warlock Flavor: A Warlock pact could be made by choice or by force, could be demanding or simple, and could be made with a good, neutral, or evil entity (which might be unknown by the Warlock). The Character might have to accomplish certain tasks in order to keep their powers, or the entity might take a more passive role and not ask much from them.

STARTING EQUIPMENT

Arsenal: 2 Spell Focuses. You can choose Weapons if you choose the **Pact Weapon** option of the **Pact Boon** Feature.

Armor: 1 set of Light Armor. You can choose 1 set of Heavy Armor instead if you choose the **Pact Armor** option of the **Pact Boon** Feature.

Trade Tools: Choose 2 of any of the following items: Alchemist's Supplies, Disguise Kit, Jeweler's Tools, or Sculptor's Tools.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

WARLOCK SPELLCASTING PATH

Combat Training: Spell Focuses, Light Armor

Spell List: Choose 3 Spell Schools. When you learn a new Spell, you can choose any Spell from the chosen Spell Schools.

Spells Known: The number of Spells you know increases as shown in the Spells Known column of the Warlock Class Table.

Mana Points: Your maximum number of Mana Points increases as shown in the Mana Points column of the Warlock Class Table.

WARLOCK CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	MANA POINTS	SPELLS KNOWN	FEATURES
1	+8				+6	+4	Class Features

9	+2				+3	+1	Class Capstone Feature
10	+1	+1	+2	+1	+3	+1	Subclass Capstone Feature

WARLOCK CLASS

FEATURES

LEVEL 1 CLASS FEATURES

WARLOCK CONTRACT

You have a binding agreement with your patron that allows you to make sacrifices in exchange for boons.

Hasty Bargain: Once per turn when you make a Check, you can spend 1 HP to gain ADV on the Check.

Desperate Bargain: Once per Combat, you can spend 1 AP to regain an amount of HP equal to your Prime Modifier. When you do, you become **Exposed** until the end of your next turn.

PACT BOON

You gain a Pact Boon from your Patron. Choose 1 of the following options: Weapon, Armor, Spell, or Familiar.

PACT WEAPON

You can choose a Weapon in your possession and bond with it, making it your Pact Weapon. You can only have 1 Pact Weapon at a time. If the Weapon has the Ammo property, it manifests its own Ammo when you load it, which immediately vanishes once the Attack is resolved. You gain the following benefits while wielding the Weapon:

- **Weapon Training:** You're considered to have Combat Training with your Pact Weapon.

DC Tip: Remember, Combat Training with a Weapon allows you to use Martial Enhancements on Attacks with it, including the one related to its Weapon's Style (such as the **Bleed** Enhancement from the **Axe** Style).

- **Maneuvers:** You learn 2 Attack Maneuvers of your choice.
- **Spell Focus:** Your Pact Weapon also counts as a Spell Focus with a 1 point Focus Property. If the Weapon has the Two-Handed Weapon Property, it instead has two 1 point Focus Properties or a 2 point Focus Property (your choice). You can change the chosen Focus Properties when you complete a Quick Rest.

Pocket Dimension: Using a Minor Action, you can dismiss the Weapon into a pocket dimension, summon it from that pocket dimension, or summon it from anywhere on the same plane of existence. If you don't have a free hand when you summon it, or you choose not to grab it, it appears in your Space at your feet.

New Pact Weapon: Over the course of a Quick Rest, you can touch a Weapon in your possession, bond with it, and make it your new Pact Weapon, ending your bond with your previous Pact Weapon.

PACT ARMOR

You can choose an Armor in your possession and bond with it, making it your Pact Armor. You can only have 1 Pact Armor at a time. You gain the following benefits while wearing the Armor :

- **Armor Training:** You're considered to have Training with your Pact Armor.
- **Maneuvers:** You learn 2 Defensive Maneuvers of your choice.
- **Mystical Armor:** You gain +1 AD and MDR.

Pocket Dimension: Using a Minor Action, you can dismiss the Armor into a pocket dimension, summon it from that pocket dimension, or summon it from anywhere on the same plane of existence. If you aren't able to wear the Armor when you summon it, or you choose not to wear it, it appears in your Space at your feet.

New Pact Armor: Over the course of a Quick Rest, you can touch an Armor in your possession, bond with it, and make it your new Pact Armor, ending your bond with your previous Pact Armor.

PACT SPELL

Choose a Spell you know. The chosen Spell becomes your Pact Spell. When you cast your Pact Spell, you gain the following benefits:

- **Death's Toll:** If the Spell deals damage, it deals an extra +1 damage to **Bloodied** targets.
- **Range Increase:** If the Spell's range is 1, it increases by 1 Space, otherwise it increases by 5 Spaces.
- **Patron's Favor:** Once per Round, you can grant yourself ADV on any Check you make to cast your Pact Spell.

Choosing a New Pact Spell: When you complete a Long Rest, you can choose a different Spell you know. When you do, the new Spell becomes your new Pact Spell. You can only have 1 Pact Spell at a time.

PACT FAMILIAR

You learn the *Call Familiar* Spell. When you cast the Spell, your Familiar gains 3 additional Familiar Traits of your choice for free.

BESEECH PATRON (FLAVOR FEATURE)

During a Long Rest, while sleeping or meditating, you can access an Inner Sanctum within your mind. Its appearance is influenced by your psyche and is subject to change. While inside your Inner Sanctum, you can attempt to contact your Patron.

If they choose to respond, they enter your mind and you might possibly be able to see or hear them. While connected to your Patron in this way, you're aware of your surroundings but you can't take actions or move. Your Patron chooses when to end the connection, or you can make a Mental Save against your own Save DC to force the connection to end.

Your Inner Sanctum can look different depending on your Patron. It could be in a foggy blackness, wreathed in flames, or emitting a blinding light. Your Patron has full control over your dream state and can shape the environment, create landscapes, objects, creatures, and images.

DC Tip: *This is a narrative driven feature where the GM can roleplay the Warlock's Patron to grant information or even mechanical boons to the character. GMs could choose to give out situational or temporary Advantage or Disadvantage, Spell effects like **Bless / Bane**, or even Inspiration depending on your conversation with your Patron.*

LEVEL 2 CLASS FEATURES

LIFE TAP

When you produce an MP Effect, you can spend HP in place of MP. The total amount of HP and MP spent can't exceed your Mana Spend Limit. You can use this Feature once per Long Rest, and regain the ability to use it again when you roll for Initiative.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- Eldritch
- Fey
- Paragon

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT WARLOCK

You gain the following benefits for your Warlock Class Features.

WARLOCK CONTRACT

Your maximum HP increases by 2.

PACT BOON

Pact Weapon:

- Your Pact Weapon gains an additional 1 point Weapon Property. You can change the chosen Weapon Property when you complete a Quick Rest.
- You learn 1 Attack Maneuver.
- You can spend MP on Martial Enhancements and Maneuver performed with your Pact Weapon. When you do, you gain 2 SP worth of Enhancements per MP spent.

Pact Armor:

- Your Pact Armor gains an additional 1 point Armor Property. You can change the chosen Armor Property when you complete a Quick Rest.
- You learn 1 Defense Maneuver.
- You can spend MP on Defense Maneuvers. When you do, you gain 2 SP worth of Enhancements per MP spent.

Pact Spell:

- You learn 2 Spells of your choice from any Spell Source.
- Choose a Spell you know to also become your Pact Spell, granting the benefits of your Pact Spell to both. You can change either or both of your Pact Spells when you complete a Long Rest.

DC Tip: *You still can only use Patron's Favor once per Round.*

Pact Familiar:

When you cast the *Call Familiar* Spell, your Familiar gains an additional 3 points worth of Familiar or Beast Traits (you can't choose Negative Traits) for free.

LIFE TAP

When you use Life Tap, you gain ADV on the Check made to produce the effect.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

ELDRITCH

OTHERWORDLY GIFT

Your patron grants you the following benefits:

Psychic Spellcasting: You learn 1 Spell of your choice with the Psychic Spell Tag. When you learn a new Spell, you can choose any Spell that has the Psychic Spell Tag.

Forbidden Knowledge: When you complete a Short or Long Rest, you temporarily learn any Spell of your choice. When you cast that Spell, its MP cost is reduced by 2 (minimum of 0). Its total MP cost before the reduction can't exceed your Mana Spend Limit. You forget the Spell immediately after you cast it or complete a Short or Long Rest.

You gain the following **Warlock Contract** option:

- **Eldritch Bargain:** When you make an Attack against a creature, you can spend **1 HP** to target its PD or AD (your choice).

ALIEN COMPREHENSION (FLAVOR FEATURE)

You become Fluent in Deep Speech, and you understand the writings and ramblings of lunatics.

FEY

FEY ASPECT

Choose 1 of the following Conditions: **Charmed** or **Intimidated**. The chosen Condition becomes your Fey Aspect Condition. You gain the following Benefits:

Can't Trick a Trickster: You have Resistance to your Fey Aspect Condition.

Fey Step: When you're Hit by an Attack, you can spend 1 AP as a Reaction to teleport up to 3 Spaces to an unoccupied Space you can see. When you do, you become **Invisible** until the start of your next turn. You can use this Feature once per Long Rest, and regain the ability to use it again when you roll for Initiative.

You gain the following **Warlock Contract** option:

- **Beguiling Bargain:** Once per Round, when you target a creature with an Attack or Spell, you can spend **1 HP** to force the target to make a Charisma Save against your Save DC. **Save Failure:** The target becomes subjected to your Fey Aspect Condition until the end of your next turn.

DREAM WALKER (FLAVOR FEATURE)

While sleeping, you are lucid and can manipulate what appears in your dreams. Additionally, while you're in contact with a sleeping creature you can make a Spell Check against the target's Intelligence Save. **Success:** You can witness their dream. You choose if the creature notices that you're watching their dream or not. **Failure:** You can't use this Feature again on that creature until it wakes up.

WIZARD

Wizards learn to master each of the Spell Schools to control them in a structured and efficient way. They utilize sigils on the ground to enhance certain types of magic while they push spells to their limits.

Source of Power: Wizards learn to use magic from a dedicated study of the arcane through practicing lessons and reading tomes. This knowledge could come from a wizard school they attend, a family tome that has been passed down through the generations, or even from a spell book they stole and just kept practicing with.

WIZARD CLASS TABLE

CHAR LEVEL	HEALTH POINTS	ATTRIBUTE POINTS	SKILL POINTS	TRADE POINTS	MANA POINTS	SPELLS KNOWN	FEATURES
1	+7				+6	+4	Class Features
2	+1						Class Feature, Talent, Path Progression
3	+1	+1	+1	+1	+3	+1	Subclass Feature
4	+1						Talent, 2 Ancestry Points, Path Progression
5	+1	+1	+2	+1	+3	+1	Class Feature
6	+1		+1				Talent, Path Progression
7	+1				+3	+1	Subclass Expert Feature
8	+1	+1	+1	+1			Talent, 2 Ancestry Points, Path Progression
9	+1				+3	+1	Class Capstone Feature
10	+1	+1	+2	+1	+3	+1	Subclass Capstone Feature

STARTING EQUIPMENT

Arsenal: 2 Spell Focuses.

Armor: 1 set of Light Armor.

Trade Tools: Choose 2 of any of the following items: Alchemist's Supplies, Calligrapher's Supplies, Glassblower's Tools, or Herbalist's Supplies.

Adventuring Pack: Choose 1 of the following packs: (Adventuring Packs Coming Soon).

WIZARD SPELLCASTING PATH

Combat Training: Spell Focuses, Light Armor

Spell List: When you learn a new Spell, you can choose any Spell on the Arcane Spell Source.

Spells Known: The number of Spells you know increases as shown in the Spells Known column of the Wizard Class Table.

Mana Points: Your maximum number of Mana Points increases as shown in the Mana Points column of the Wizard Class Table.

WIZARD CLASS

FEATURES

LEVEL 1 CLASS FEATURES

SPELL SCHOOL INITIATE

You've completed training in a specialized School of Magic. Choose a Spell School. You gain the following benefits:

School Magic: You learn 2 Arcane Spells from this Spell School.

Signature School: When you cast a Spell from the chosen School, you can reduce its MP cost by 1. Its total MP cost before the reduction can't exceed your Mana Spend Limit. You can use this Feature once per Long Rest, but regain the ability to use it again when you roll for Initiative.

ARCANE SIGIL

You can spend 1 AP and 1 MP to choose a Spell School or Spell Tag and create a 1 Space diameter Circle on a surface within a Space you're occupying. The Circle is your **Arcane Sigil** which lasts for 1 minute. You can't place more than 1 Arcane Sigil in the same Space.

Using a Sigil: While within the area of your Arcane Sigil, creatures gain ADV on Checks they make to cast or produce the effects of Spells with the chosen Spell School or Spell Tag.

Moving a Sigil: You can spend 1 AP to teleport one of your Arcane Sigils that's within 10 Spaces to a surface within a Space you're occupying, provided the Space doesn't already have an Arcane Sigil.

DC Tip: A magical sigil like this radiates the magic of the chosen School making its type of magic discernable by effects that can detect magic.

Example: A Wizard can spend 1 AP and 1 MP to create an Arcane Sigil on the ground, ceiling, or a wall that's within the Space they're occupying. If they choose the Fire Spell Tag, anyone within the Arcane Sigil would have ADV on Checks made to cast Spells with the Fire Spell Tag.

RITUAL CASTER (FLAVOR FEATURE)

You learn 1 Ritual. Additionally, when you encounter a Ritual in a form you can study (such as a ritual book, a scroll, or from an instructor), you can learn it over the course of a Short Rest.

Beta Note: Rituals will be released in a future update. Alarm is an example of a Ritual.

LEVEL 2 CLASS FEATURES

PREPARED SPELL

When you complete a Long Rest, choose 1 Spell you know. The chosen Spell becomes your Prepared Spell until your next Long Rest. Your Prepared Spell gains the following benefits:

Mana Limit Break: When you cast your Prepared Spell, you can increase your Mana Spend Limit by 1 for the casting. You can use this Feature once per Long Rest, but you regain the ability to use it when you roll for Initiative.

Rehearsed Casting: When creatures Challenge your Spell as part of a Spell Duel, they have DisADV on Checks made to stop your Spell.

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

LEVEL 3 CLASS FEATURES

SUBCLASS

Choose one of the following options to become your Subclass and gain its Level 3 Features:

- Portal Mage
- Witch
- Paragon

LEVEL 4 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

ANCESTRY POINTS

You gain 2 Ancestry Points.

LEVEL 5 EXPERT FEATURE

EXPERT WIZARD

You gain the following benefits for your Wizard Class Features.

SPELL SCHOOL INITIATE

You learn 1 additional Arcane Spell from the chosen School.

Signature School: When you cast a Spell from the chosen School, you can reduce its MP cost by an additional 1.

ARCANE SIGIL

When you create a Sigil, you can add the following benefits:

- **Spell Tag:** (X MP) The Sigil gains an additional Spell School or Spell Tag per MP spent.
- **Area:** (X MP) The diameter of the Sigil increases by 1 Space per MP spent.

PREPARED SPELL

When you complete a Long Rest, choose 1 additional Spell you know. Both Spells become your Prepared Spells until your next Long Rest.

DC Tip: You can still only use Mana Limit Break once, on either of your Prepared Spells.

LEVEL 6 CLASS FEATURES

TALENT

You gain 1 Talent of your choice. If the Talent has any prerequisites, you must meet those prerequisites to choose that Talent.

PATH PROGRESSION

You gain the benefits of the Martial Path or Spellcaster Path.

SUBCLASSES

PORTAL MAGE

PORTAL MAGIC

When you create an Arcane Sigil, you can spend 1 additional MP to create an identical Arcane Sigil on a surface within a Space you can see within 10 Spaces. The identical Arcane Sigil has the same chosen Spell Schools or Spell Tags.

- ♦ **Arcane Portal:** A portal connects the two Arcane Sigils. Creatures of your choice within 1 Space of either Arcane Sigil can spend 1 Space of movement to teleport to an unoccupied Space within 1 Space of the other Arcane Sigil.

DC Tip: Teleportation doesn't provoke Opportunity Attacks.

- ♦ **Linked Magic:** While within 1 Space of a connected Arcane Sigil, you can make an Attack or cast a Spell as if you were standing in the Space of the other connected Arcane Sigil.

Teleportation Expert: When you learn a new Spell, you can choose any Spell with the Teleportation Spell Tag.

PORTAL SAGE (FLAVOR FEATURE)

You have ADV on Checks to learn about the Astromancy Spell School (such as Teleportation magic or Portals). Additionally, if you spend 1 minute observing a portal or teleportation runes, you can make a DC 10 Spell Check to try to understand the inner mechanism of a Portal within 5 Spaces. **Success:** You learn where it leads to and for how long it has been open. **Success (5):** You learn how to activate and deactivate it (such as its passphrase, procedures, or any required special item).

WITCH

COVEN'S GIFT

You learn 1 Spell of your choice with the Curse Spell Tag. When you learn a new Spell, you can choose any Spell with the Curse Spell Tag. Spells with the Curse Spell Tag count as being part of your chosen Spell School for the purposes of your **Spell School Initiate** Feature.

HEX ENHANCEMENTS

You can add the Spell Enhancements below to any Spell you cast, but you can only add 1 at a time. MP spent on these Spell Enhancements doesn't count against your Mana Spend Limit.

When you use one of these Spell Enhancements, 1 creature of your choice that's targeted by the Spell must make a Repeated Charisma Save against your Check. If the Spell doesn't normally require a Check, you must make a Spell Check when using one of these Spell Enhancements. **Save Failure:** The target is subjected to the chosen Hex for 1 minute:

- ♦ **Bewitching Hex:** (1 MP) The target becomes **Charmed** by you for the duration.
- ♦ **Reaping Hex:** (1 MP) The target takes 1 True damage and you regain 1 HP. This effect repeats at the end of each of its turns for the duration.
- ♦ **Vermin Hex:** (1 MP) The target can't speak and if its Size is Large or smaller its Size decreases by 1. Its Size decreases by 1 again at the end of each of its turns for the duration until it becomes Tiny.

DC Tip: You could flavor this as the target slowly turning into a toad or other tiny creature.

CURSE EXPERT (FLAVOR FEATURE)

You can spend 1 minute focusing your mind to detect the presence of Curses within 20 Spaces. You learn the location of any Cursed creature or Cursed object within range. If you spend 10 minutes in contact with a Cursed creature or object, you learn the nature of the Curse but not the knowledge of how to remove it.

0.10.5 CHANGELOG

CLASSES

- Added the 5th level Expert Features to all Classes
- Casters gain +1 MP at levels 3, 7 and 10
- Hybrids gained +1 MP at levels 1 and 10

CLASS TABLES

- Level 6 is now a Talent and Path Progression
- Level 7 is now Subclass Expert Features
- Level 8 is now a Talent, Path Progression and 2 Ancestry Points
- Level 9 is now a Class Capstone
- Level 10 is now a Subclass Capstone

BARBARIAN

- Elemental Fury Subclass
 - Changed Elemental Blast's Spell Check to be an Area Spell Attack
- Swift Berserker Class Talent has been removed

CHAMPION

- Fighting Spirit
 - Renamed Brace to be Fortify as to not confuse it with the Brace Maneuver
 - Added Martial Attack Check to Advance

CLERIC

- Channel Divinity
 - Cleaned up the wording and made it a once per combat feature.
- Divine Blessing
 - Corrected the checks used in the Destruction Blessing

COMMANDER

- Inspiring Presence
 - Changed to once per round
 - Increased its range to 10
 - Added an interaction with Death's Door

MONK

- Spiritual Balance
 - Changed to be 2 Ki points and you regain 1 Ki on SP regain or when combat ends, you also regain all Ki on long rest.
 - Uncanny Dodge cost has been reduced to be 1 Ki

ROGUE

- Cheap Shot
 - Changed Invisibility to Invisible as Invisibility is not a Condition
- Swashbuckler
 - Fixed the DC tip to have the correct value of a passive penalty

SPELLBLADE

- Made it so the stamina regen is easier to acquire
- Fixed the Fire Bolt typo in the Spellstrike examples

HEALTH POINTS & DEATH'S DOOR

- Fixed the typo of First Aid Kit to be Medicine Kit

DAMAGE

- Corrected the Example for Damage Vulnerability (X)

MANEUVERS

Cleaned up the wording and how repeatables are represented within Enhancements. The following Maneuvers underwent these updates:

- Heroic Bash
- Savage Strike
- Sunder Strike
- Swift Strike
- Meteor Strike
- Cleave
- Protect
- Endure
- Slam
- Body Block
- Throw Creature

SP costs were changed or removed from some Maneuvers:

- Whirlwind
- Pathcarver

Some Maneuvers had quality of life or balance changes:

- Piercing Shot
- Volley
- Resolve
- Restrain
- Heroic Pass Through
- Line Run
- Reposition (complete rewrite)
- Heroic Extend Jump

New Maneuver:

- Scattershot

SPELLCASTER CHAPTER

- Added a Poison tag
- Corrected the example in Combo Casting

SPELLS

- All spells have been changed to say “Tags” instead of “Spell Tags” for consistency. Many Spells have had Tags updated.
- Spell Source typos have been fixed
- Almost every single Spell received typo fixes, wording changes, quality of life changes, or balance changes.

Some Spells have been renamed (and possibly reworked):

- Summon Familiar has been renamed to Call Familiar
- Fly has been renamed to Blessing of Air
- Force Dome and Wall of Force have been reworked into Forcefield
- Vicious Mockery has been renamed to Mockery
- Toxic Aura has become Toxic Burst
- Close Wound renamed to Close Wounds
- Earth Blessing renamed to Blessing of Earth
- Gravity Sinkhole reworked into Gravity Well
- Absorb Element renamed to Absorb Elements

Some Spells have been removed or added to certain spell lists:

- Mass Heal removed from Primal list
- Radiant Beam removed
- Darkness removed from Primal list
- Wind Blessing removed
- Acid Rain removed
- Lightning Cloud removed
- Poison Cloud removed

New Spells:

- Gravity Shift
- Increase Gravity
- Reduce Inertia
- Time Stop
- Arcane Weapon
- Illusory Duplicate
- Illusory Writing
- Summon Aberration
- Summon Construct
- Summon Dragon
- Summon Ooze
- Danger Sense
- Detect Magic
- Foresight
- Locate Target
- Lightning Rod
- Mold Earth
- Confusion
- Dispel Magic
- Shadowbind
- Mystical Weapon
- Summon Celestial
- Summon Fiend
- Summon Undead

- Scrying
- Illuminate
- Revivify
- Enfeeble
- Enhance Ability
- Blessing of Zephyr
- Elemental Weapon
- Nature's Tether
- Summon Beast
- Summon Elemental
- Summon Fey
- Summon Plant
- Spike Cluster
- Wall of Earth
- Healing Wave
- Sunburst
- Blessing of Water

EQUIPMENT

Specific Property updates:

- The cost of Toss and Thrown in the custom weapon section has returned.
- The Return Property now requires Toss or Thrown.

TALENTS

- Removed Grandmaster and Legendary Multiclass until Prestige is added to the game

CHARACTER CREATION

- Corrected step 5's characters initial SP & MP

ANCESTRY OPTIONS

- Hazardous Hide has returned!
- Removed Beta note from Celestial Magic
